The mnemonic is a visual representation of ITC's deep commitment to sustainable and inclusive growth addressing national priorities. The 12 colourful stems represent ITC's vibrant businesses of the future that contribute to all three sectors of the Indian economy. The icon at the centre is a metaphor for ITC's future readiness and digital transformation that is at the core of every business. The soaring birds symbolise growth that is sustainable and inclusive and reiterate ITC's commitment to its credo of Nation First, Sab Saath Badhein.

ITC: Contributing to India's Amrit Kaal

Creating value for Agriculture, Manufacturing and Services

Inspired by its credo of 'Nation First, Sab Saath Badhein', ITC has pioneered a paradigm of 'Responsible Competitiveness', that focuses on building extreme competitiveness of its businesses whilst serving national priorities of generating sustainable livelihoods and enriching the environment.

ITC contributes to nation building by unleashing multiple drivers of growth that are manifest in its growing presence across the three sectors of the economy – agriculture, manufacturing and services; creation of world-class Indian brands; investments in creating state-of-the-art manufacturing assets; building of iconic hospitality assets and empowering farmers as well as rural communities. Such endeavours create enduring value for our stakeholders and the nation.

Today, the world is traversing through unprecedented challenges emerging from a 'polycrisis' encompassing climate change, widening inequality, geo-political issues and reglobalisation. A new global economic order is being shaped with these crises spurring new strategies, innovations and business models. Addressing these challenges and opportunities, ITC has crafted a comprehensive ITC Next vision to build a future-tech, innovative, climate positive, sustainable and inclusive enterprise, powered by agility, competitiveness,

resilience and consumer centricity. New avenues for growth have been identified, whilst fortifying existing businesses and putting in place higher order structural competitiveness to create new vitality for the enterprise. These strategic interventions will make a growing contribution to the nation in its journey to the Amrit Kaal.

As a core element of ITC Next, ITC has been exploring opportunities to craft disruptive business models anchored at the intersection of the two mega trends of Digital and Sustainability, while leveraging the Company's institutional strengths. This has enabled ITC to unleash new vectors of growth with interventions like ITCMAARS – a 'phygital' farmer empowerment ecosystem, Food Tech Services and Sustainable Packaging. In addition, new drivers of growth are also being pursued through value accretive acquisitions and exports.

ITC's diversified portfolio of future-ready businesses, spanning FMCG, Paperboards & Packaging, Agri Business, Hotels and Information Technology, enables it to contribute meaningfully to all 3 sectors of the Indian economy. To infuse new energy into the growth drivers of the future, significant investments are being made across building assets, accelerating digital transformation, powering R&D infrastructure and in raising the bar in sustainability to build an enterprise of tomorrow.

ITC: Transforming Agriculture

Agriculture is a critical pillar of the Indian economy, engaging with more than half of the nation's workforce. The sector also plays a vital role in providing food, fuel, fibre, fodder and nutrition security. However, farming remains extremely vulnerable to the vagaries of climate change. Endeavours to usher in a new dimension of agricultural development must focus on enhancing the competitiveness of the sector by improving productivity, enabling value addition, effectively linking farmers to markets and promoting regenerative agriculture.

ITC is a leading Agri Business player in India, supporting 20 value chain clusters. The Company has been sourcing over 4.5 million tonnes of agri commodities from 22 states and is today the largest procurer of wheat in the private sector. ITC's Agri Business is also one of India's largest exporters of agri commodities and provides competitive advantage to ITC's FMCG Businesses through distinctive sourcing capabilities. ITC's world-class FMCG brands also anchor demand-driven agri value chains.

ITC has a century-old legacy of farmer empowerment. Building on the ITC e-Choupal programme that has empowered 4 million farmers in the last two decades, ITC is now ushering in NextGen Agriculture with a three-pronged approach. First, ITC aims to bring the power of digital to the agri sector through its 'phygital' platform, ITCMAARS (Metamarket for Advanced Agriculture and Rural Services), a programme that delivers hyperlocal and personalised solutions by synergistically integrating NextGen agri-technologies to empower farmers. Second, ITC is rapidly scaling up its value-added agri portfolio straddling multiple value chains comprising

Spices, Coffee, Frozen Marine Products and Processed Fruits amongst others. Third, to address the challenges of climate change, ITC has introduced a range of sustainable agricultural practices under its climate-smart agriculture (CSA) programme.

In line with India's focus on promoting millets as the grain of the future, ITC has launched a dedicated initiative titled 'ITC Mission Millets' leveraging its enterprise strengths in agriculture, food and hospitality. This initiative is focused on developing a 'good for you' range of products, implementation of sustainable farming systems and enhancing consumer awareness.

ITC - Making in India

Recognising that it is important to create national assets and in alignment with the Government's vision to 'Make in India', ITC has invested significantly in building world-class manufacturing, intellectual and hospitality assets for India. ITC's contribution includes creating world-class Indian brands that bring about superior value-capture in the economy, setting up of a network of state-of-the-art Integrated Consumer Goods Manufacturing facilities across the country to support indigenous value chains, developing a globally benchmarked Life Sciences & Technology Centre for cutting edge R&D and innovation that contributes to building intellectual capital for the nation. ITC has also built iconic hotel assets that not only enrich the nation's tourism landscape but are also a trailblazer in green hoteliering through their ethos of 'Responsible Luxury'. Such assets create enduring value for ITC and the nation.

ITC – Reimagining Sustainability

Climate change has emerged as an existential threat that requires building of resilience through innovative solutions for both mitigation and adaptation. It is heartening that India is leading the world in climate action with the nation ranking first overall among all G20 members in the Climate Performance Index. India's updated NDCs, its global collaboration "One Sun, One World, One Grid" to promote solar energy, the National Hydrogen Mission demonstrate India's leadership in the area.

For decades, ITC has been acclaimed as a global exemplar in sustainability. Aligning with the nation's climate action plan, ITC has now crafted a comprehensive strategy to pursue a low carbon growth path through extensive decarbonisation programmes across its operations and value chains, while also implementing largescale adaptation initiatives encompassing water stewardship, biodiversity, CSA, among others. Recognising the

social challenges of inequity and livelihood generation, ITC has adopted a 2-horizon approach to support livelihoods and contribute to inclusive growth, especially in rural areas. The first horizon aims at securing and strengthening the dominant sources of livelihood through extensive programmes for farmer empowerment, while the second focuses on building capabilities for the future in areas such as primary education, vocational training, women empowerment, healthcare and so on.

Reimagining sustainability to address the challenges of climate crisis and livelihood creation, ITC has now embarked on an even more ambitious Sustainability 2.0 journey to raise the bar to create a secure and better tomorrow.

The following pages provide a glimpse into ITC's multi-dimensional growth drivers that are propelling the Company to a new horizon of competitive and sustainable progress, while contributing to India's journey to Amrit Kaal.

Value-addition empowers farmers by helping them move up the value chain. ITC is fortifying its Value-Added Agri Products (VAAP) portfolio comprising Millets, MAPE, Organic, Spices, Coffee, Frozen Marine Products and Processed Fruits. The products also cater to domestic and exports markets. ITC's Agri Business provides strategic support to ITC's Foods Businesses.

ITC: Ushering in NextGen Agri

ITC's Agri Business is ushering in NextGen Agriculture by accelerating Digital Adoption and promoting Climate Smart Agriculture.

ITCMAARS

ITCMAARS (Metamarket for Advanced Agriculture and Rural Services) is a crop-agnostic 'phygital' full stack AgriTech platform, powered by cutting-edge digital technologies, that provides a robust eco system to deliver hyperlocal personalised solutions to farmers, whilst creating new revenue streams, strengthening sourcing efficiencies and powering the Company's world-class Indian brands. ITCMAARS has been rolled out in nine states till date, with over 1150 FPOs encompassing more than 5 lakh farmers.

Building Climate Resilience through Climate Smart Agriculture

ITC's climate smart agriculture interventions are aimed at making agri practices climate resilient and future ready. The programme has benefitted over 7 lakh farmers, covering over 23 lakh acres in 17 states. GHG emissions of select crops have been reduced by upto 66% and net returns of farmers increased upto 90%, over a period from 2016 to 2021. Assessments made in 3 states highlight that 70% of the villages moved into the High Resilience, High Yield category, thus becoming Climate Smart.

S. Puri

Sanjiv Puri (60), DIN: 00280529, is the Chairman & Managing Director of ITC Limited.

Puri was appointed as a Wholetime Director on the Board of ITC with effect from December 6, 2015, Chief Executive Officer in February 2017 and re-designated as the Managing Director in May 2018. He was appointed as the Chairman effective May 13, 2019. He is an alumnus of the Indian Institute of Technology, Kanpur, and the Wharton School of Business, USA.

Puri joined ITC in January 1986. During his career of over three decades at ITC and its subsidiaries, he has held several business leadership positions and also handled a wide range of responsibilities in manufacturing, operations and information & digital technology. Puri served as the Chief Operating Officer of ITC between July 2016 and January 2017, and prior to that as President - FMCG Businesses since December 2014. Earlier, he was the Divisional Chief Executive of the Tobacco Division since December 2009, with additional responsibility for the Company's Trade Marketing & Distribution Vertical from August 2012. He led ITC Infotech India Limited, a wholly owned subsidiary of ITC, as its Managing Director from May 2006 to August 2009. Puri served between October 2001 and April 2006 as the Managing Director of Surya Nepal Private Limited, a joint venture subsidiary company of ITC in Nepal.

Spearheading the 'ITC Next' vision, Puri has driven an extensive strategy reset to define new vectors of growth for each business with greater focus on consumer-centricity, agility, resilience and innovation to build an even more competitive, future-ready and inclusive enterprise. Puri's emphasis on purposeful and cutting-edge innovation has led to the creation of sharp focused R&D platforms in areas aligned to market opportunities, that is continuously developing several differentiated as well as first-to-market products addressing the dynamic and evolving

consumer preferences. Given his deep conviction that mega trends like Digital and Sustainability will reshape the future, Puri has passionately rallied the organisation to develop capabilities, channelise investment and resources to enhance competitiveness of existing businesses, and also identify tech-enabled growth opportunities. Lending new wings to ITC's credo of 'Nation First: Sab Saath Badhein', he has articulated an ambitious Sustainability 2.0 vision that will enlarge ITC's contributions to a net-zero economy and meaningfully support national priorities.

Puri has served as the Chairman of the Expert Group constituted by the Fifteenth Finance Commission of the Government of India to promote agri-exports, and of the CII National Council on Agriculture. He was also a Member of the CII Policy Council and the technology discussion group 'Farm to Table - driving India's agriculture sector digitally' constituted by the NITI Aayog.

Presently, Puri is the President-Designate of CII. He is the Chairman of the Advisory Council of the CII-ITC Centre of Excellence for Sustainable Development, Co-Chair of the CII Associations Council as well as the CII Membership Council, and a Member of the CII Economic Affairs Council. He is a Director on the Board of US-India Strategic Partnership Forum, Co-Chair of the 'Business Commission to Tackle Inequality' set up by the World Business Council for Sustainable Development, Member of the BRICS Business Council, and also a Member of the Governing Body of the National Council of Applied Economic Research. Puri is also the Chairman of the 'Action Council on ESG in Business' under the aegis of Business 20 India, the official dialogue forum with the global business community as part of India's G20 Presidency.

Puri was conferred with the 'Distinguished Alumnus Award of the year 2018' by the Indian Institute of Technology, Kanpur. He was bestowed with an Honorary Doctorate by the XIM University, Bhubaneswar, and also honoured with the 'IMPACT Person of the Year, 2020' Award by exchange4media, a leading online news platform.

Report on Corporate Governance

The Directors present the Company's Report on Corporate Governance pursuant to the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations').

ITC Limited has been one of the frontrunners in India to have put in place a formalised system of Corporate Governance. Its governance framework enjoins the highest standards of ethical and responsible conduct of business to create value for all stakeholders.

THE COMPANY'S GOVERNANCE PHILOSOPHY

ITC defines Corporate Governance as a systemic process by which companies are directed and controlled to enhance their wealth-generating capacity. Since large corporations employ a vast quantum of societal resources, ITC believes that the governance process should ensure that these resources are utilised in a manner that meets stakeholders' aspirations and societal expectations. This belief is reflected in the Company's deep commitment to contribute to the "triple bottom line", namely conservation and development of the nation's economic, social and environmental capital.

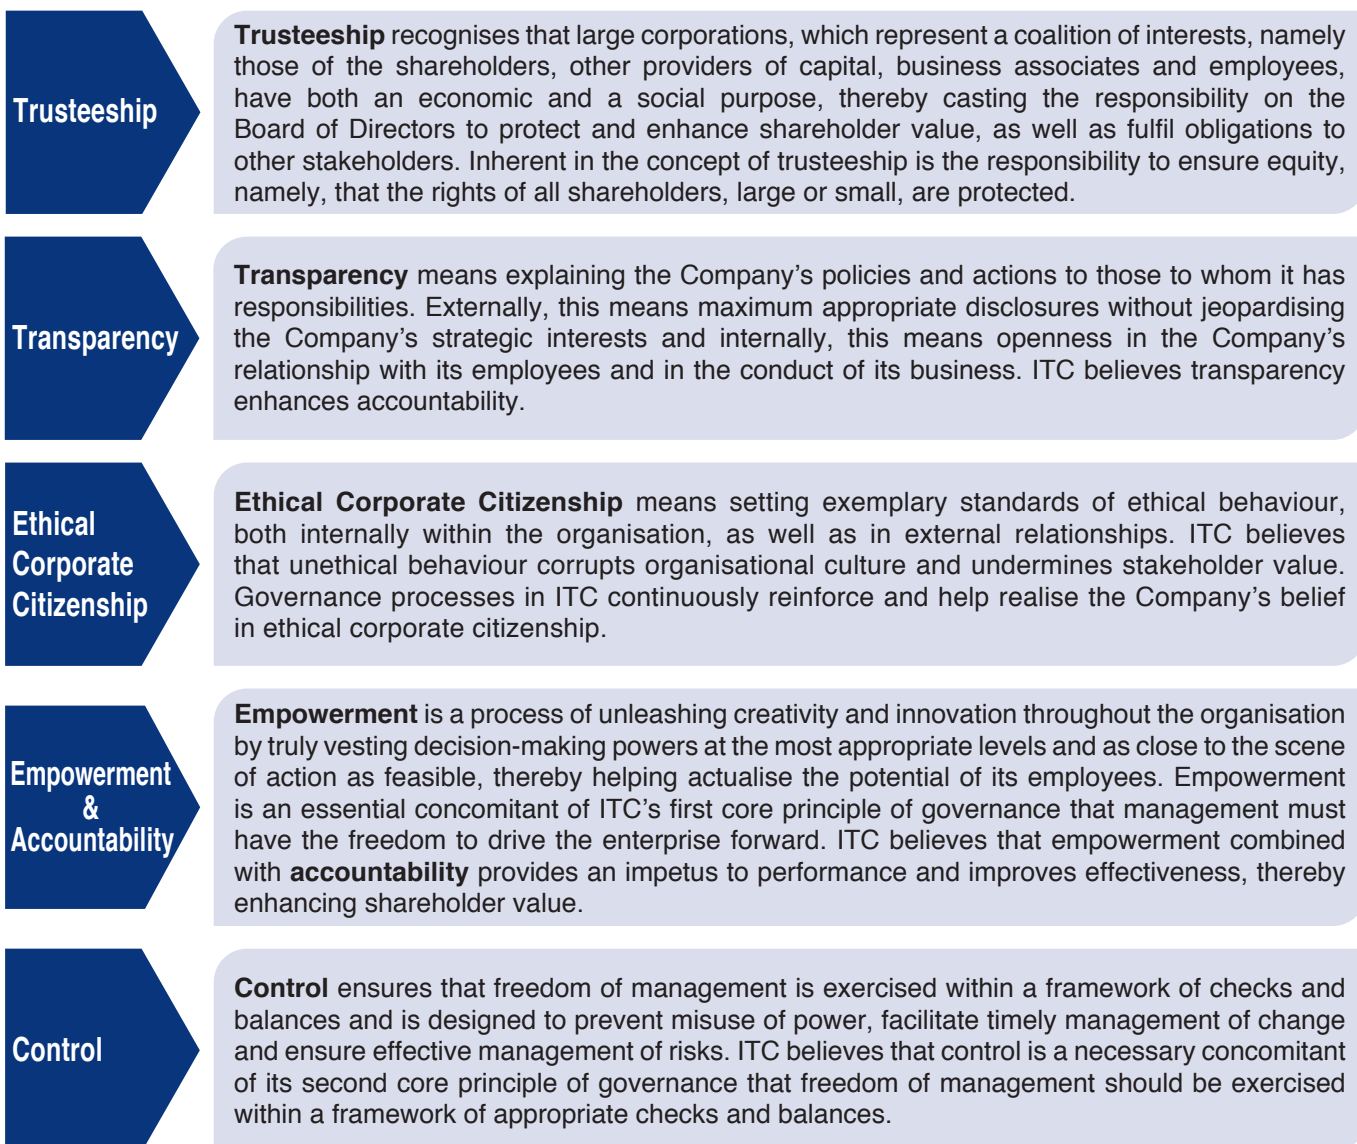

ITC's Corporate Governance structure, systems and processes are based on two core principles:

- (i) Management must have the executive freedom to drive the enterprise forward without undue restraints, and
- (ii) This freedom of management should be exercised within a framework of effective accountability.

ITC believes that any meaningful policy on Corporate Governance must empower the executive management of the Company. At the same time, Governance should create a mechanism of checks and balances to ensure that the decision-making powers vested in the executive management are used with care and responsibility to meet stakeholders' aspirations and societal expectations.

From this definition and core principles of Corporate Governance emerge the cornerstones of ITC's governance philosophy, namely trusteeship, transparency, ethical corporate citizenship, empowerment & accountability and control. ITC believes that the practice of each of these creates the right corporate culture that fulfils the true purpose of Corporate Governance.

The cornerstones of ITC's governance philosophy are trusteeship, transparency, ethical corporate citizenship, empowerment & accountability and control.

THE GOVERNANCE STRUCTURE

The practice of Corporate Governance in ITC takes place at three interlinked levels:

Strategic supervision	by the Board of Directors
Strategic management	by the Corporate Management Committee
Executive management	by the Divisional Chief Executive assisted by the Divisional Management Committee

The three-tier governance structure ensures that:

- (a) Strategic supervision (on behalf of the Shareholders), being free from involvement in the task of strategic management of the Company, can be conducted by the Board with objectivity, thereby sharpening accountability of management;

- (b) Strategic management of the Company, uncluttered by the day-to-day tasks of executive management, remains focused and energised; and
- (c) Executive management of the divisional business free from collective strategic responsibilities for ITC as a whole, remains focused on enhancing the quality, efficiency and effectiveness of the business to achieve best-in-class performance.

The core roles of the key entities flow from this structure. These roles, in turn, determine the core responsibilities of each entity. In order to discharge such responsibilities, each entity is empowered formally with requisite powers.

Report on Corporate Governance

The structure, processes and practices of governance are designed to support effective management of multiple businesses while retaining focus on each one of them.

The Governance Document that sets out the structure, policies and practices of governance is available on the Company's corporate website at <https://www.itcportal.com/governance-document>.

ROLES OF VARIOUS ENTITIES

Board of Directors ('Board'): The primary role of the Board is that of trusteeship to protect and enhance shareholder value through strategic supervision of ITC and its wholly owned subsidiaries. As trustees, the Board ensures that the Company has clear goals aligned to shareholder value and its growth. The Board sets strategic goals and seeks accountability for their fulfilment. The Board also provides direction and exercises appropriate control to ensure that the Company is managed in a manner that fulfils stakeholders' aspirations and societal expectations. The Board, as part and parcel of its functioning, annually reviews its role and evaluates its performance and that of the Board Committees & the Directors.

Board Committees: The roles of the Board Committees are determined by the Board from time to time, details of which are provided below under the heading 'Committees of the Board'.

Corporate Management Committee ('CMC'): The primary role of the CMC is strategic management of the Company's businesses within Board approved direction / framework and realisation of Company goals. The CMC also assesses the performance of the businesses and allocates resources, and operates under the strategic supervision and control of the Board.

Divisional Management Committee ('DMC'): The primary role of the DMC is executive management of the business to realise tactical and strategic objectives in accordance with the Board approved Business Plan.

The Executive Committee for Business Vertical within the Division is responsible to deliver comprehensive business results under the overall direction and supervision of the Divisional Chief Executive supported by the DMC.

Chairman: The Chairman is the Chief Executive of the Company. He is the Chairman of the Board and the CMC, and also presides over General Meetings of Shareholders. His primary role is to provide leadership to the Board and the CMC for realising Company goals in accordance with the charter approved by the Board. He is responsible, inter alia, for the working of the Board and the CMC, for ensuring that all relevant issues are on the agenda and that all Directors and CMC Members are enabled and encouraged to play a full part in the activities of the Board and the CMC, respectively. He keeps the Board informed on all matters of importance. He is also responsible for balance of membership of the Board, subject to Board and Shareholder approvals.

Non-Executive Director: Non-Executive Directors, including Independent Directors, play a critical role in imparting balance to the Board processes by bringing independent judgement on issues of strategy, performance, resources, standards of Company conduct etc.

Executive Director: The Executive Director assists the Board in realising its role of strategic supervision of the Company in pursuit of its purpose and goals. As a member of the CMC, the Executive Director contributes to the strategic management of the Company's businesses within Board approved direction / framework. An Executive Director accountable to the Board for a business, assumes overall responsibility for its strategic management, including governance processes and top management effectiveness. Similarly, as Director accountable to the Board for a corporate function, the overall strategic responsibility for its performance forms part of the Executive Director's role. In the context of the multi-business character of the Company, an Executive Director is in the nature of a Managing Director for those businesses and functions reporting to him.

CMC Member: The CMC Member contributes to the strategic management of the Company's businesses within Board approved direction / framework. A CMC Member accountable for a business, assumes responsibility for its strategic management, including governance processes and top management effectiveness. Similarly, where accountable for a corporate function, the overall strategic responsibility for its performance forms part of the CMC Member's role.

Divisional Chief Executive: The Divisional Chief Executive for a business has the executive responsibility for its day-to-day operations and provides leadership to the DMC in its task of executive management of the business and the Verticals within the Division.

The Chief Operating Officer of a Business Vertical is responsible for providing leadership to the Vertical and realising the tactical & strategic objectives of the respective business area.

Report on Corporate Governance

Meetings and Attendance

The Company's Governance Policy requires the Board to meet at least five times a year. The tentative annual calendar of meetings is broadly determined at the beginning of each year. The intervening period between two Board Meetings was well within the maximum gap of 120 days prescribed under the Listing Regulations.

Board Agenda

Meetings are governed by a structured agenda. The Board members, in consultation with the Chairman, may bring up any matter for the consideration of the Board. All major agenda items are backed by comprehensive background information to enable the Board to take informed decisions. Agenda papers are generally circulated seven to fourteen days prior to the Board Meeting.

Information placed before the Board

In terms of the Company's Governance Policy, all statutory and other significant & material information are placed before the Board to enable it to discharge its responsibility of strategic supervision of the Company as trustees of Shareholders. The following in particular are also tabled for the Board's approval / periodic review or information:

- Annual operating plans & budgets and periodic review of the Company's businesses.
- Quarterly performance including business-wise financials.
- External Audit Management Reports (through the Audit Committee).
- Status of safety and legal compliance.
- Status and effectiveness of risk management plans.
- Succession to senior management (through the Nomination & Compensation Committee).
- Statutory compliance reports from business units / corporate functions.
- Show cause / demand / prosecution / adjudication notices, if any, from revenue authorities which are considered materially important, including any exposure that exceeds 1% of the Company's net worth, and their outcome.

- Significant court judgement or order passing strictures, if any, on the conduct of the Company or a subsidiary of the Company or any employee, which could negatively impact the Company's image.
- Product liability claims of a substantial nature, if any.
- Default, if any, in payment of dues to any major creditor.
- Write-offs / disposals of fixed assets, inventories, receivables, advances etc.
- Significant development in Human Resources / Industrial Relations.
- Non-compliance of any regulatory or listing requirements and in relation to shareholders' services.

Post-meeting follow-up system

The Governance processes in the Company include an effective post-meeting follow-up, review and reporting process for action taken / pending on decisions of the Board, the Board Committees, the CMC and the DMCs.

Remuneration Policy

ITC's Remuneration strategy is performance based, competitive and values led. It is designed to reward holistic performance that is in congruence with the Company's "triple bottom line" approach to business, to attract and retain high quality talent and is anchored on ITC's values, all of which are integral in pursuit of the Company's vision and mission of enhancing the wealth generating capability of the enterprise in a globalised environment, while delivering superior and sustainable stakeholder value. The Remuneration Policy of the Company is market-led and factors in the competitive context of each business. The Company has adopted a comprehensive 'Total Rewards' approach to remuneration that, inter alia, promotes a superior quality of personal and work life by combining both cash and non-cash components / benefits.

The Company's Policy on remuneration of Directors, Key Managerial Personnel and other employees, as approved by the Board, may be accessed on the Company's corporate website at <https://www.itcportal.com/remuneration-policy>. There has been no change in the Policy during the year.

Remuneration of Directors

Remuneration of the Chairman and the other Executive Directors is determined by the Board on the recommendation of the Nomination & Compensation Committee, subject to the approval of the Shareholders. The Chairman and the other Executive Directors are entitled to performance bonus for each financial year up to a maximum of 300% and 200% of their basic / consolidated salary, respectively, as may be determined by the Board on the recommendation of the Nomination & Compensation Committee; such remuneration is linked to the performance of the Company inasmuch as the performance bonus is based on various qualitative and quantitative performance criteria. Apart from fixed elements of remuneration and benefits / perquisites, the Chairman and the other Executive Directors are also eligible for Long Term Incentives, including Stock Options, as may be determined by the Nomination & Compensation Committee and / or the Board; such incentives are linked to individual performance and the overall performance of the Company, including Sustainability goals. The maximum annual value of such Long Term Incentives is 0.10% and 0.05% for the Chairman and each of the other Executive Directors, respectively, of the net profits of the Company for the immediately preceding financial year.

Non-Executive Directors, including Independent Directors, are entitled to remuneration by way of commission for each financial year, ranging between ₹ 70,00,000/- and ₹ 1,00,00,000/- individually, as approved by the Shareholders. Non-Executive Directors' commission is determined by the Board, based inter alia on Company performance

and regulatory provisions, and is payable on a uniform basis to reinforce the principle of collective responsibility. Non-Executive Directors are also entitled to sitting fees for attending the meetings of the Board and its Committees. The sitting fees as determined by the Board are ₹ 1,00,000/- for each meeting of the Board, ₹ 50,000/- for each meeting of the Audit Committee, Nomination & Compensation Committee, CSR and Sustainability Committee, and Independent Directors Committee, and ₹ 10,000/- for each meeting of the Securityholders Relationship Committee. Non-Executive Directors are also entitled to coverage under Personal Accident Insurance.

CORPORATE MANAGEMENT COMMITTEE

The primary role of the CMC is strategic management of the Company's businesses within Board approved direction / framework and realisation of Company goals. The CMC, inter alia, formulates the Company's business plans and organisational policies, systems & processes, reviews business performance against approved plans, allocates resources, and operates under the strategic supervision and control of the Board.

Composition

The CMC presently comprises all the Executive Directors and four senior members of management. The Chairman of the Company is the Chairman of the Committee. The composition of the CMC is determined by the Board on the recommendation of the Nomination & Compensation Committee. The Company Secretary is the Secretary to the CMC. The names of the members of the CMC, including its Chairman, are provided under the section 'Board of Directors and Committees' in the Report and Accounts.

Meetings

The CMC normally meets once a month. Minutes of CMC Meetings are placed before the Board. Matters requiring the Board's attention / approval, as emanating from the CMC Meetings, are placed in the form of notes from the relevant Executive Director, backed by comprehensive background information.

SUBSIDIARY COMPANIES

All subsidiaries of the Company are managed by their respective Board of Directors in the best interest of those companies and their shareholders. The annual financial statements of the subsidiary companies are reviewed by the Audit Committee of the Company. Performance review reports of the subsidiary companies are placed before the Board of Directors of the Company on a half-yearly basis. The Minutes of Board Meetings of the subsidiary companies, including details of significant transactions & arrangements entered into by them, are also placed before the Board of Directors of the Company.

The Company does not have any material subsidiary. The Company's Policy for determination of a material subsidiary, as approved by the Board, may be accessed on the Company's corporate website at <https://www.itcportal.com/material-subsiidiary-policy>.

FAMILIARISATION PROGRAMME FOR DIRECTORS

ITC believes that a Board, which is well informed / familiarised with the Company and its affairs, can contribute significantly to effectively discharge its role of trusteeship in a manner that fulfils stakeholders' aspirations and societal expectations. In pursuit of this, the Directors of the Company are updated on material changes / developments in the domestic / global corporate and industry scenario including those pertaining to statutes / legislation & economic environment, and on matters significantly affecting the Company, to enable them to take well informed and timely decisions. The Directors are also kept abreast on all business related matters including risk assessment & minimisation procedures, CSR & sustainability interventions, and new initiatives proposed by the Company. Visits to Company facilities are also organised for the Directors from time to time. During the year, the Directors attended a 'Strategy Session' where the Company's overall strategy, including ITC Sustainability 2.0 vision and goals, were discussed / reviewed.

Further details may be accessed on the Company's corporate website at <https://www.itcportal.com/directors-familiarisation-programme>.

Service of Documents

In conformity with the regulatory requirements, the Notice of the 112th Annual General Meeting of the Company and the Report and Accounts 2023 are being sent only through electronic mode to those Shareholders who have registered their e-mail addresses with the Company or with the Depositories. The Company will also provide physical copies of the said Notice and the Report and Accounts 2023 to the Shareholders upon request.

Shareholders who wish to register their e-mail addresses with the Company are requested to register the same at <https://eform.itcportal.com>. Alternatively, Shareholders may send a letter requesting for registration of their e-mail addresses, mentioning their name and DP ID & Client ID / folio number, through **e-mail at isc@itc.in** or by **post to the Investor Service Centre** of the Company ('ISC') at 37 Jawaharlal Nehru Road, Kolkata 700 071.

KYC details of Shareholders holding shares in the certificate form

Shareholders holding shares in the certificate form are required to mandatorily furnish their Permanent Account Number ('PAN'), specimen signature, and details of their bank account, nomination, complete postal address including pin code, and mobile number to the Company.

Shareholders who are yet to provide any of the aforesaid information to the Company or who would like to advise any change in such information may use the prescribed forms for this purpose, which may be accessed on the Company's corporate website at <https://www.itcportal.com/mandatory-furnishing>, or can be furnished by ISC on request.

Shareholders are also required to link their PAN with the Aadhaar Number by 30th June, 2023, unless extended further by the Income-tax authorities.

In the absence of the aforesaid information / action, the folio of the concerned Shareholders will be frozen by the Company, in conformity with the regulatory requirements, with effect from 1st October, 2023; any service request from such Shareholders such as sub-division / consolidation / renewal of share certificates, issue of duplicate share certificates, change of address or bank particulars etc., will also not be processed.

Dividend

The Company provides the facility for remittance of dividend to Shareholders through RTGS ('Real Time Gross Settlement') / NACH ('National Automated Clearing House') / NEFT ('National Electronic Funds Transfer').

Shareholders who have not opted for remittance of dividend through electronic mode and wish to avail the same, are required to provide their bank details, including IFSC ('Indian Financial System Code') and MICR ('Magnetic Ink Character Recognition'), to their respective Depository Participants ('DPs'), in case shares are held in the dematerialised form, or to the ISC, where shares are held in the certificate form. Shareholders holding shares in the certificate form may use the prescribed form for this purpose, which may be accessed on the Company's corporate website at <https://www.itcportal.com/form>, or can be furnished by ISC on request.

Pursuant to the Income-tax Act, 1961, dividend income is taxable in the hands of the Shareholders and the Company is required to deduct tax at source from such dividend at the prescribed rates. A communication providing detailed information & instructions with respect to tax on the Final Dividend, including the Special Dividend, for the financial year ended 31st March, 2023 is being sent separately to the Shareholders.

Transfer of unclaimed dividend and shares to the Investor Education and Protection Fund

During the financial year 2022-23, unclaimed dividend for the financial year 2014-15 aggregating ₹ 17,07,03,748/- and 6,87,806 shares in respect of which dividend entitlements remained unclaimed for seven consecutive years, were transferred by the Company to the Investor Education and Protection Fund established by the Central Government ('IEPF'), pursuant to the provisions of Section 124 of the Companies Act, 2013 read with the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016.

Shareholders may claim their unclaimed dividend for the years prior to and including the financial year 2014-15 and the shares from the IEPF Authority by applying in the prescribed Form No. IEPF-5. This Form can be accessed on the website of the IEPF Authority at <https://www.iepf.gov.in/IEPF/corporates.html>.

The due dates for transfer of unclaimed dividend and the shares to the IEPF for the subsequent financial years are given in the table below. Attention in particular is drawn that the unclaimed dividend for the financial year 2015-16 and the shares in respect of which dividend entitlements remain unclaimed for seven consecutive years will be due for transfer to the IEPF on 27th August, 2023, for which purpose communication has been sent to the concerned Shareholders advising them to write to ISC to claim their dividend. Notices in this regard have also been published in the newspapers. Details of such unclaimed dividend and shares are available on the Company's corporate website at http://info-dividend-shares.itcportal.com/popup_new.aspx and <http://info-dividend-shares.itcportal.com/popupiepf.aspx>, respectively.

Management Discussion and Analysis

For the Financial Year Ended 31st March, 2023

SOCIO-ECONOMIC ENVIRONMENT

After two years of pandemic-led disruptions, FY 2022-23 marked a return to normalcy in operations. However, geopolitical tensions, continued supply chain dislocations and climate crisis resulted in unprecedented inflation and volatility in global commodity and energy prices. Central banks across the world responded swiftly with sharp increase in interest rates within a relatively short time frame. As per IMF estimates, global GDP growth slowed to 3.4% during 2022, well below projections made at the beginning of the year. Growth in Advanced Economies decelerated sharply to 2.7% in 2022 (Vs. 5.4% in 2021) while Emerging Markets & Developing Economies grew at a relatively slower pace of 4.0% (Vs. 6.9% in 2021), mainly impacted by lower growth in China.

Going forward, the global macroeconomic environment continues to be confronted with myriad challenges; these include the continuing impact of the Russia-Ukraine conflict, global inflation remaining sticky and at elevated levels, recessionary pressures in most Advanced Economies, spectre of stress in the financial sector and the cost-of-living crisis in several economies, especially in the near term. As per IMF estimates, aggregate global economic growth is expected to further decelerate to 2.8% in 2023. Advanced Economies are projected to grow at 1.3% with major economies such as the United States and

Euro Area set to grow at a slower pace than 2022. Emerging Markets and Developing Economies are estimated to grow by 3.9% in 2023 as against 4.0% in 2022. As priority of policy makers currently centre largely around inflation control, the monetary policies of central banks would remain a key monitorable in the near term.

The Indian economy remained a bright spot in FY 2022-23 amidst the global slowdown. Real GDP growth for the year is estimated at 7.0% (first half: 9.6%; second half: 4.8%) with Nominal GDP growth at 15.9% (first half: 22.3%; second half: 10.5%), reflecting the inflationary pressures in the economy. While Agriculture grew by 3.3% in real terms, Services and Industry sectors grew by 9.4% and 3.6% respectively, on a soft base. With steep inflation eating into household budgets, consumption demand remained subdued in rural markets and for discretionary categories in urban markets.

In spite of severe global headwinds, India remained one of the fastest growing major economies enabled by purposeful interventions by policy makers. The Government of India has continued its thrust on structural reforms to raise India's potential growth. During the year, concerted efforts continued to be made towards shaping India as a global manufacturing hub through policy initiatives such as Production Linked Incentive (PLI), Make in India, PM Gati Shakti, National Monetisation Pipeline

schemes and strengthening the country's digital public infrastructure as well as the healthcare infrastructure. Further, astute management of macros including fiscal and monetary policies also aided in mitigating the volatility in the operating environment.

While the pace of growth of the Indian economy is projected to decelerate in FY 2023-24 against the backdrop of global macro headwinds as aforesaid, India would continue to be the fastest growing major economy in the world. Even as inflation is projected to soften on an overall basis, prices of certain industry-specific commodities are expected to remain elevated with continued geopolitical issues and supply chain disruptions. The year is also expected to witness 'El Nino' weather phenomenon after three consecutive 'La Nina' years; the impact of this on monsoon, along with related events like heatwaves, spatial and temporal rainfall distribution etc. will remain a key monitorable for agri output, inflation and consumer demand in 2023. A good Rabi harvest, broad-based credit growth and Government's thrust on capital spending to bolster investment activity supported by buoyant tax collections, augur well for the economy going forward. Healthier Bank and Corporate Balance Sheets, improving capacity utilisation levels and structural reforms represent some of the key positive factors for revival in private capex.

India is widely acknowledged as one of the most dynamic major economies in the world with immense headroom for growth over the medium and long term. A favourable demographic profile, increasing affluence, rapid urbanisation and accelerated digital adoption represent some of the key structural drivers of growth of the Indian Economy. Policy

announcements in the Union Budget 2023 including focus on expanding digital infrastructure, direct benefit transfer, etc. are expected to provide further impetus to enhance India's competitiveness, enable greater empowerment and foster inclusive growth while maintaining the path to fiscal consolidation. Sharp step-up in capital expenditure outlay, focus on infrastructure and promotion of exports are expected to boost domestic manufacturing, spurring a virtuous consumption-investment-employment cycle.

As the Indian economy combats uncertainties in the external environment, policy interventions focused on supporting sustainable livelihoods and fostering inclusive growth augur well for the economy. Structural support would need to be provided to sectors with large economic multiplier impact; the development of robust domestic agri and wood-based value chains hold special importance in the Indian context given their enormous potential to contribute to national objectives.

Agricultural sector plays a crucial role in the economy with about half of the Indian workforce engaged in the sector. As reported in earlier years, enhancing agricultural productivity and value addition to international standards, while simultaneously improving market linkages, remain critical to enhance the competitiveness of the agricultural sector and drive significant increase in farmers' income. India is the leading producer worldwide of several commodities, including pulses, spices, fruits such as bananas, etc. While India's agri exports have grown sharply over the last few years to reach appx. US\$ 53 billion in FY 2022-23, its share of global agri-trade remains low at only about 3%.

Enhancing agricultural productivity and value addition to international standards, while simultaneously improving market linkages, remain critical to enhance the competitiveness of the agricultural sector and drive significant increase in farmers' income.

Report of the Board of Directors

The Agri sector remains vulnerable to the vagaries of climate change, facing considerable challenges as a primary source for food, fuel, fibre, fodder and livelihood security. According to an article in the Harvard Business Review, global food demand is expected to increase by up to 98% by 2050.

An exponential increase in production and productivity will be required to meet the growing needs of an increasing population at a time when natural resources are fast depleting and the impact of climate change is becoming more severe. Evolving consumer preferences will also require nutritious food that is sustainably sourced. These developments accentuate the need to enhance the competitiveness of agri-value chains in order to cater to the dynamic market requirements of the future. India with its tremendous strengths in agriculture has a unique opportunity to play a leading role in this global transition and in forging an eco-system of sustainable, regenerative and climate smart agriculture.

Against this background, the Government's initiative to promote Farmer Producer Organisations (FPOs) as the core catalyst of agricultural transformation can indeed leverage economies of scale, enable sustainable agriculture, support market-led production and create larger market access. FPOs provide the power of the collective to small and marginal farmers. FPOs have a tremendous potential to serve as major enablers in augmenting farm livelihoods, by facilitating a crucial link between markets and individual farmers.

In this context, your Company has adopted targeted collaborative models to multiply the scale and impact of its agri and rural interventions. This collaborative approach, as opposed to a traditional transactional approach, can contribute meaningfully towards

building next generation agriculture that is climate resilient and capable of supporting gainful livelihoods. Digitalisation of agriculture also offers the potential to increase productivity and foster structural changes across the value chain thereby enabling efficient use of resources. In line with its commitment to harness the power of cutting-edge digital technologies and unlock the potential of India's farmers, your Company had launched ITCMAARS (Metamarket for Advanced Agriculture and Rural Services). This 'phygital' ecosystem will empower the farming community and FPOs by delivering hyperlocal and personalised solutions by synergistically integrating NextGen agri-technologies. Further details on this transformative initiative are provided in the Agri Business section of this report.

The Government of India has inspired the United Nations to declare 2023 as the 'International Year of Millets'. This has indeed drawn global attention to this 'super-grain' that has the potential to redefine agriculture with its unique value proposition. Millets are climate resilient crops using substantially lesser water than other staples and grow in half the time as other crops, offering a comprehensive solution for sustained food security.

Your Company has spearheaded 'ITC Mission Millets', leveraging its enterprise strengths in agriculture, food and hospitality to implement multi-dimensional interventions in this area. The holistic programme follows a strategic 3-fold approach – 1) developing a 'good-for-you' product portfolio, 2) implementing sustainable farming systems, and 3) enhancing consumer awareness through an Educate, Empower and Encourage approach. Your Company has implemented a focused strategy in crafting a millet

based products portfolio under its world-class Indian brands for every occasion, age and format. To cater to the diverse needs of consumers, your Company has launched products across traditional and modern formats viz. 'Gluten Free Flour', 'Multi-Millet Mix' and 'Ragi Flour', Vermicelli and Biscuits under the 'Aashirvaad' and 'Sunfeast' brands. Your Company has also designed products that suit every meal occasion like millet idlis for breakfast, biscuits & cookies for snacking and noodles & pasta for other meals. The thrust on millets is further exemplified by the Hotels Business creating easy-to-try recipes with millets to help encourage individuals experiment with the taste and texture of millets.

In line with your Company's commitment to empower farmers, your Company has developed a millets agri-value chain with special thrust on enhancing value-addition and market linkages. Your Company is also promoting FPOs in millet farming anchored by ITCMAARS. The Agri Business Division has implemented two Public-Private Partnerships projects in Maharashtra and Andhra Pradesh, in partnership with Indian Institute of Millets Research (IIMR), Hyderabad. Your Company remains committed to supporting the Government's efforts to promote millets given their immense benefits in terms of nutritional properties and attributes as a planet friendly and climate resilient crop.

It is pertinent to note that a substantial quantum of food is wasted along the chain in India, depending on the inherent perishability of the crop and the season. Higher levels of food processing in the economy can create a much larger pull for quality agri-commodities, thereby reducing farm wastages and raising farm incomes. This would require focused investments in developing product-specific climate-controlled

infrastructure as well as in branded products that benefit large agri-value chains. Corporate participation is essential not only to invest in requisite infrastructure, but also to provide assured market linkages to farmers. A big thrust on India's Food Processing sector can play a pivotal role and have a multiplier effect which will lead to significant job creation, enhance rural incomes and help manage food inflation in a sustainable manner. In this context, the recently announced PLI Scheme for the Food Processing sector, with an estimated outlay of ₹ 10900 crores, is expected to play a critical role in boosting investments, agri exports, farmer incomes, employment generation and building Indian brands for the global market. Your Company has been included under the scheme for several of its Branded Packaged Foods Businesses and in the Agri Business, details of which are provided in the subsequent sections.

Similarly, the Agro-forestry sector, as a source of raw material for wood-based industry, is woefully constrained by policies that not only impede job creation in India but also promote avoidable imports. Recent policy interventions to enable greening of wastelands and providing financial assistance to members of marginalised communities taking up Agro-forestry is a commendable starting point to reverse this situation. Supportive policies in this area would go a long way in enhancing sustainable livelihoods, augmenting alternative sources of energy (bio-fuel) and enabling import substitution for wood-based industries while simultaneously augmenting the Nation's environmental capital.

The integrated nature of your Company's business models along with strategic investments to enhance efficiencies across its operating

segments - including agri-commodity sourcing expertise for the Branded Packaged Foods Businesses and cost-competitive fibre supply chain along with in-house pulp manufacturing capability of the Paperboards & Specialty Papers Business – is a key source of competitive advantage, especially against the backdrop of severe inflationary headwinds. Each of your Company's Businesses derive benefits of synergy with seamless access to the deep & varied capabilities across different parts of the enterprise. Your Company's interventions across operating segments are aligned to the national priorities of enhancing competitiveness of Indian agriculture and industry, generating large-scale employment opportunities and supporting sustainable livelihoods, driving import substitution, creating national brands to maximise value capture in India, accelerating growth in tourism, increasing Indian agri exports and promoting sustainable business practices. Investments made by your Company continue to be guided by the national objectives of 'Make in India' and 'Doubling Farmers' Income' and the overarching theme of 'AatmaNirbhar Bharat' that seeks to make the country stronger, resilient and more competitive.

The collaboration with NITI Aayog, aimed at boosting agricultural and allied activities in 27 aspirational districts of eight states under the Aspirational Districts programme, advanced to its second phase in FY 2022-23. During the year, over 10 lakh farmers were trained on package of practices for principal crops of the region as well as on livestock management, taking the cumulative number of farmer interactions to over 44 lakh. Estimates indicate yield improvement of up to 30% for cotton, maize, paddy and soyabean in locations covered by the programme;

similarly, cost of cultivation is estimated to have reduced by nearly 15%, resulting in expansion of farmer incomes by up to 60%.

Your Company has also partnered with the State Government of Andhra Pradesh towards improving the quality of chilli produced in the country to meet global standards. A Public Private Partnership programme - 'Integrated Agri-Extension Platform for Chilli Farm Value Chain Development' - has been conceptualised under which 40,000 farmers covering about 1,00,000 acres are expected to be benefited by 2025. In FY 2022-23, the programme covered over 17,500 farmers and over 72,600 acres across 135 villages. Improved quality, farm productivity and higher share of farm gate sales enabled farmers covered under the project to generate additional income.

Your Company is working towards developing village level institutions and fostering micro entrepreneurship by promoting custom hiring centres for farm mechanisation, post-harvest product management infrastructure and community managed seed banks for self-reliance in quality seed material. Environmentally sustainable farm practices, including zero-till sowing of wheat, direct seeding of rice, micro-irrigation and watershed development, continue to be promoted.

The farm sector faces enormous threats arising out of climate change as evident from the growing number of extreme weather events such as droughts and floods. Given the vulnerabilities, it is critical to strengthen climate resilience and adaptability of the agri-food sector. In this context, your Company's interventions in collaboration with CGIAR's 'Climate Change and Food Security Programme'

Investments made by your Company continue to be guided by the national objectives of 'Make in India' and 'Doubling Farmers' Income' and the overarching theme of 'AatmaNirbhar Bharat' that seeks to make the country stronger, resilient and more competitive.

to build climate smart villages were expanded to over 4,800 villages across 11 states covering 10 lakh acres and supported farmers in the management of risks arising from erratic and extreme weather events. Further, according to CGIAR's estimates, your Company's Climate Smart Village intervention in Madhya Pradesh demonstrated average increase in yield of 38% and 15% in soyabean and wheat respectively, over the baseline. Reduction in cost of cultivation along with yield improvement led to an increase in net income by 93% in soyabean and 46% in wheat over the baseline and average Green House Gas emissions reduced by 66% for soyabean and 13% for wheat as compared to the baseline.

In Kapurthala District, Punjab, your Company under its flagship programme of 'ITC Mission Sunehra Kal' has, over the last five years, implemented solutions that have effectively substituted the burning of paddy stubble by farmers. During the year, the programme covered 2.5 lakh acres with appx. 92.5% of the area (2.3 lakh acres) witnessing total stoppage of stubble burning, thereby avoiding appx. 1.8 lakh tonnes of carbon release into the atmosphere.

Although India has appx. 18% of the world population, its share of natural resources is disproportionately low with only 2% of global land mass, 4% of freshwater resources and 2% of forest resources. It is more critical than ever before to redouble efforts, both at the national and corporate level, to fashion strategies that foster sustainable, equitable and inclusive growth.

It is your Company's belief that businesses can bring about transformational change by pursuing innovative business models that synergise the creation of sustainable livelihoods and the preservation of natural

capital while enhancing shareholder value.

This 'Triple Bottom Line' approach to creating larger 'stakeholder value', as opposed to merely focusing on uni-dimensional 'shareholder value' creation, is the driving force that defines your Company's sustainability vision and its growth path into the future.

Your Company is a global exemplar in 'Triple Bottom Line' performance. The focus on creating unique business models that generate substantial livelihoods across the value chains has led to your Company's Businesses supporting over six million sustainable livelihoods, many of whom belong to the weaker sections of society.

Your Company sustained its 'AA' rating by MSCI-ESG for the fifth successive year - the highest amongst global tobacco companies. Your Company has also been included in the Dow Jones Sustainability Emerging Markets Index for the third year in a row – a reflection of being a sustainability leader in the industry and a recognition of its continued commitment to people and planet. Your Company has also been rated at the 'Leadership Level' score of 'A-' for both Climate Change and Water Security (Asia and Global average at 'C' for climate change and 'B' for water security) by CDP, a reputed independent global platform for disclosures on environmental impacts.

As a testament to your Company's 'Triple Bottom Line' philosophy and Responsible Luxury ethos, all major hotel properties of your Company are LEED Platinum certified, making your Company a trailblazer in green hoteliering globally. ITC Grand Chola, the 600-key super-premium luxury hotel complex in Chennai, is amongst the world's largest LEED Platinum certified green hotels. In 2020, ITC Windsor's best practices

on carbon management distinguished it as the first hotel in the world to be LEED Zero Carbon certified. Since then, 11 more ITC Hotels have been certified as LEED Zero Carbon. ITC Mughal became the first hotel globally to be awarded the LEED Zero Water Certification by the U.S. Green Building Council (USGBC), followed by ITC Sonar, which is the second hotel to be awarded the certification globally. Further, your Company's 'Sankhya' data centre in Bengaluru became the first data centre in the world to be awarded the LEED Zero Carbon certification. Also, the Kovai unit of your Company is the first site in India and the first paper mill in the world to achieve the highest platinum rating under the 'Alliance for Water Stewardship Standards'.

Your Company has been championing the urgent need to combat climate change for building a more secure future and the role it can play in enabling a net-zero economy. Your Company continues to pursue a low carbon growth strategy through extensive decarbonisation programmes across its value chain whilst also developing adaptation plans across its sites. Your Company is the only enterprise in the world of comparable dimensions to have achieved and sustained the three key global indices of environmental sustainability of being 'water positive' (for 21 years), 'carbon positive' (for 18 years), and 'solid waste recycling positive' (for 16 years). With its bold Sustainability 2.0 agenda, your Company is setting the bar even higher, and remains committed to making a meaningful contribution across all the three sectors of the economy – Agri, Manufacturing and Services, while retaining its status as a sustainability exemplar. Further details on this subject are available in the Sustainability section of this Report.

FINANCIAL PERFORMANCE

Against the backdrop of a challenging operating environment as stated earlier, your Company's consumer centricity, agility in seizing market opportunities, focus on execution excellence and proactive strategic interventions enabled it to post strong performance across all operating segments.

Overall for FY 2022-23, Gross Revenue at ₹ 69480.89 crores increased by 17.6%, while EBITDA increased by 26.5% to ₹ 23944.47 crores. Profit Before Tax and Exceptional items at ₹ 24677.54 crores grew by 24.4% over previous year and Profit After Tax stood at ₹ 18753.31 crores (previous year ₹ 15057.83 crores). Total Comprehensive Income for the year stood at ₹ 18782.57 crores (previous year ₹ 15631.68 crores). Earnings Per Share for the year stood at ₹ 15.15 (previous year ₹ 12.22).

- The FMCG-Others Segment registered strong growth amidst subdued demand conditions. Robust growth was witnessed across all major categories of Branded Packaged Foods viz. Staples, Biscuits, Snacks, Noodles, Beverages. While 'Fiama' and 'Vivel' range of Personal Wash products and 'Engage' Fragrances performed well, the Hygiene portfolio witnessed moderation in demand with the ebbing of the effects of the pandemic, while remaining well ahead of pre-pandemic levels. In the Education & Stationery Products Business, notebook sales registered sharp growth with resumption of educational institutions. The Incense Sticks (Agarbattis) Business witnessed robust recovery during the year after two years of pandemic induced disruptions. Segment Revenue for the year grew by 19.6% with Segment EBITDA growing

Against the backdrop of a challenging operating environment, your Company's consumer centricity, agility in seizing market opportunities, focus on execution excellence and proactive strategic interventions enabled it to post strong performance across all operating segments.

at a faster pace of 34.9% to ₹ 1953.97 crores. Segment EBITDA margins expanded by 120 bps amidst severe inflationary pressures. The Businesses continued to drive improvement in profitability through multi-pronged interventions viz. premiumisation, supply chain agility, judicious pricing actions, digital initiatives, strategic cost management and fiscal incentives.

- The FMCG-Cigarettes Segment witnessed sustained claw back of volumes from illicit trade on the back of deterrent actions by enforcement agencies and relative stability in taxes. Market standing continued to be reinforced through focused portfolio/market interventions and agile execution.
- The Hotels Segment witnessed a stellar recovery during the year, clocking robust growth in Revenue and Profits buoyed by weddings, leisure and MICE (Meeting, Incentives, Conferencing, Exhibition) segments along with progressive pick-up in business travel. Segment Revenue doubled over FY 2021-22 and stood at 1.4x of pre-pandemic levels. Segment EBITDA margin stood at 32.2% representing an expansion of 930 bps over FY 2019-20.
- The Agri Business Segment delivered a resilient performance with Segment Revenue and Results growing by 12.2% and 28.8% respectively. Restrictions imposed on wheat & rice exports impacted Segment Revenue. Margin expansion was driven by leaf tobacco exports and value-added agri products.
- The Paperboards, Paper & Packaging Segment demonstrated strong performance during the year

on the back of robust growth across end-user segments; Segment Revenue and Segment Results grew by 18.8% and 34.9% respectively. Segment margins expanded by appx. 300 bps, leveraging the integrated nature of the business model, Industry 4.0, digital interventions and strategic investments in pulp import substitution and proactive capacity augmentation in Value Added Paperboards segment.

The operating environment in the last three financial years has been extremely challenging due to disruptions caused by the pandemic, unprecedented inflationary pressures and sluggish demand conditions, amongst others.

It is heartening to note that, powered by the ITC Next Strategy of building a Future-Ready, Consumer Centric, Climate Positive and Inclusive organisation anchored on the paradigm of 'Responsible Competitiveness', your Company has emerged stronger and enhanced its competitiveness across operating segments through this period, and sustained its position as a global exemplar in Sustainability.

The Directors of your Company are pleased to recommend a Special Dividend of ₹ 2.75 per share in addition to the Final Dividend of ₹ 6.75 per share for the financial year ended 31st March, 2023. Together with the Interim Dividend of ₹ 6.00 per share paid on 3rd March, 2023, the total Dividend for the financial year ended 31st March, 2023 amounts to ₹ 15.50 per share (previous year ₹ 11.50 per share). Total cash outflow on account of Dividend (including Interim Dividend of ₹ 7448.41 crores paid in March 2023) will be ₹ 19255.02 crores.

Powered by the ITC Next Strategy of building a Future-Ready, Consumer Centric, Climate Positive and Inclusive organisation anchored on the paradigm of 'Responsible Competitiveness', your Company has emerged stronger, enhanced its competitiveness across operating segments and sustained its position as a global exemplar in Sustainability.

Report of the Board of Directors

VALUE-ADDED AND CONTRIBUTION TO EXCHEQUER

Over the last five years, the Value-Added by your Company, i.e. the value created by the economic activities of your Company and its employees, aggregated over ₹ 271000 crores, of which over ₹ 183000 crores accrued to the Exchequer.

Including the share of dividends paid and retained earnings attributable to government owned institutions, your Company's contribution to the Central and State Governments represented appx. 75% of its Value-Added during the year.

Your Company has, over the years, ranked amongst the Top 3 Indian corporates in the private sector in terms of Contribution to Exchequer.

FOREIGN EXCHANGE EARNINGS

Your Company continues to view foreign exchange earnings as a priority. All Businesses in your Company's portfolio are mandated to engage with overseas markets with a view to testing and demonstrating international competitiveness and seeking profitable opportunities for growth. Foreign exchange earnings of the ITC Group over the last ten years aggregated nearly US\$ 9.0 billion, of which agri exports constituted appx. 60%. Earnings from agri exports, which effectively link small farmers with international markets, are an indicator of your Company's contribution to the rural economy.

During FY 2022-23, your Company and its subsidiaries earned ₹ 12783 crores in foreign exchange. The direct foreign exchange earned by your Company amounted to ₹ 10777 crores, mainly on account of exports of agri-commodities. Your Company's expenditure in foreign currency

amounted to ₹ 3163 crores, comprising purchase of raw materials, spares and other expenses of ₹ 2950 crores and import of capital goods of ₹ 213 crores.

FMCG CIGARETTES

After two years of severe disruptions due to the pandemic, the legal cigarette industry recovered during the year with normalisation in the operating environment. Stability in taxes on cigarettes, backed by deterrent actions by enforcement agencies enabled the legal cigarette industry to partially claw back volumes from illicit trade. This in turn led to higher demand for Indian tobaccos and robust growth in revenue to the Exchequer from the tobacco sector.

Your Company sustained its leadership position in the cigarette industry through its unwavering focus on nurturing a future-ready portfolio of world-class products anchored on its integrated seed to smoke value chain, superior consumer insights, robust innovation pipeline and world-class product development capabilities. Your Company continues to counter illicit trade and reinforce market standing by fortifying the product portfolio through innovation, democratising premiumisation across segments and enhancing product availability backed by superior on-ground execution. Several differentiated variants such as ‘Classic Connect’, ‘Gold Flake Indie Mint’, ‘Gold Flake Kings Mixpod’, ‘Classic Alphatec’, ‘Gold Flake Smart Mintz’, ‘Wills Fab’ and ‘Lucky Strike’ were recently introduced. The Business also expanded its presence in focus markets with the launch of differentiated offerings across segments and strengthened its presence in Duty-Free outlets at airports.

Globally, cigarettes constitute the dominant form of tobacco use. In the Indian context, tobacco use comprises a diverse range of chewing and smoking formats that are available at multiple price points consequent to punitive and discriminatory taxation on cigarettes. While India is the world’s second largest

consumer of tobacco, legal cigarettes constitute only 8% of overall tobacco consumption in India, as against a global average of 90%. It is pertinent to note that India accounts for less than 2% of global cigarette consumption despite having 18% of the world’s population- making India’s per capita cigarette consumption amongst the lowest in the world.

Over the years, discriminatory and punitive taxation on cigarettes has led to progressive migration from consumption of duty-paid cigarettes to other lightly taxed/tax-evaded forms of tobacco products, comprising illicit cigarettes, bidi, chewing tobacco, gutkha, zarda, snuff, etc. It is pertinent to note that while the share of legal cigarettes in total tobacco consumption has declined from 21% in 1981-82 to a mere 8%, the aggregate tobacco consumption in the country has increased over the same period. As a result, despite accounting for less than 1/10th of the tobacco consumed in the country, duty-paid cigarettes contribute more than 4/5th of the revenue generated from the tobacco sector.

Taxes on cigarettes remain one of the highest in India as depicted in the chart:

Legal cigarettes constitute only 8% of overall tobacco consumption in India. India accounts for less than 2% of global cigarette consumption despite having 18% of the world’s population, making India’s per capita cigarette consumption amongst the lowest in the world.

Report of the Board of Directors

Taxes on cigarettes in India are multiple times higher than in developed countries viz. 17x of USA, 10x of Japan, 7x of Germany and so on. Further, the same is also substantially higher than that in neighbouring countries.

It is pertinent to note that India's per capita cigarette consumption is amongst the lowest in the world and is significantly lower compared to that of China, Japan, USA, UK and even neighbouring countries such as Bangladesh and Pakistan.

During the period FY 2012-13 to FY 2016-17, excise duty on cigarettes increased sharply at a CAGR of 15.7%; however, tax revenue from cigarettes grew by a mere 4.7% CAGR during the same period. In FY 2017-18, the legal cigarette industry was further impacted by a sharp rise of 20% in tax incidence as a result of increase in excise duty and transition to the GST regime. Thereafter, relative stability in taxation until January 2020 helped the legal industry partially claw back volumes lost to the illicit trade in earlier years; consequently, revenue collections witnessed a

marked buoyancy and grew by 10.2% during this period.

Period	Increase in Tax Rate	Growth in Revenue Collections
FY 2012-13 to FY 2016-17 (CAGR)	15.7%	4.7%
Apr'18-Jan'20 over Jul'17-Mar'18	–	10.2%

Relative moderation in taxation in the subsequent period, backed by deterrent actions of the enforcement agencies, has helped the legal industry to partially recover volumes that were ceded to illicit trade in earlier years, benefiting all stakeholders, including the tobacco farmers, the consumers and the Exchequer.

Punitive taxes on the legal cigarette industry in earlier years have resulted in rapid growth of illicit cigarette trade – making India the 4th largest illicit cigarette market globally according to Euromonitor estimates. Over the years this has created attractive tax arbitrage opportunities for unscrupulous players indulging in illicit cigarette trade. While legitimate cigarette industry volumes have declined consistently over the last decade, illicit cigarette trade volumes, in contrast, have grown rapidly during the same period, accounting for about 1/3rd of the legal industry.

During the year, there were extensive media reports on the multitude of cases of evasion of taxes/duties by dealers in illicit cigarettes which were unearthed by raids conducted by Directorate of Revenue Intelligence (DRI) and other enforcement agencies. 'Illicit markets: A Threat to Our National Interests', a study published by FICCI-TARI in September 2022, noted that "The consumption of illegal cigarettes in India has increased, signalling a shift from legal products to cheaper substitutes or illicit products, which have no

or little tax element in them. When taxes are raised beyond a certain optimum level, consumers gravitate towards cheaper alternatives or illicit supplies, which are normally smuggled or tax evaded goods". According to this report, illicit trade causes an annual revenue loss of appx. ₹ 15500 crores to the Exchequer. With respect to other tobacco products as well, the revenue losses are significant since about 68%¹ of the total tobacco consumed in the country remains outside the tax net.

The DRI, in its report "Smuggling in India 2021-22" acknowledges the high incidence of taxes in India providing opportunities for illicit trade of cigarettes. The report states: "High Incidence of tax on cigarettes in India results in a tax arbitrage in favour of smuggled cigarettes on which no taxes are paid and there is no statutory requirement of pictorial warning covering at least 85 percent of the packaging space. More importantly, the smuggled cigarettes are, on an average, 50 percent cheaper in the Indian Market, compared to the price of any similar cigarette brand. From a public health perspective, the smuggling of cigarettes also poses a very serious challenge since a part of the smuggled cigarettes are counterfeits and the quality of tobacco and other ingredients used in the said cigarettes, is inferior."

Tobacco control measures in India have ranked amongst the most stringent in the world from the time of enactment of the Cigarettes (Regulation of Production, Supply and Distribution) Act, 1975, to the present. India is also one of the few countries where tobacco products are regulated across the value chain – from their manufacture to sale to consumers. The Cigarettes and Other Tobacco Products

¹ Report on the impact of current tax framework on the tobacco sector in India and suggestions for its improvement - 2014, by ASSOCHAM and KPMG.

(Prohibition of Advertisement and Regulation of Trade and Commerce, Production, Supply and Distribution) Act, 2003 (COTPA) requires cigarette packages to display the statutorily mandated pictorial and textual warnings covering 85% of the surface area of the packet - one of the largest in the world.

It may be observed that smuggled international brands of cigarettes do not bear any of the pictorial or textual warnings mandated by Indian laws or, bear much smaller pictorial/textual warnings as per the tobacco laws of the countries from where these cigarettes originate. As reported in prior years, findings from research conducted by IMRB International, an independent market research organisation, show that the lack of pictorial warnings on packets of smuggled international brands of cigarettes or their diminutive size creates a perception in the consumers' mind that these illicit cigarettes are 'safer' than domestic duty-paid cigarettes that carry the 85% pictorial warnings. The combination of low prices to consumers due to tax evasion and the misleading perception created by the absence of statutory pictorial warnings provides significant buoyancy to illicit cigarette volumes.

India is among the top three tobacco growing countries in the world. Tobacco plays a significant role in the Indian economy on account of its considerable contribution to the agricultural, industrial and export sectors². The illicit cigarette trade also has a deleterious impact on farmers and farm workers engaged in the tobacco value chain. In India, cigarettes are manufactured largely using Flue Cured Virginia (FCV) tobacco grown in the states of Andhra Pradesh, Telangana and Karnataka. As smuggled international brands of cigarettes do not use Indian

tobaccos, in addition to revenue losses, the growth of illicit cigarette trade has also resulted in a sharp drop in demand for Indian FCV tobaccos in the domestic market.

It is pertinent to note that several other major tobacco producing countries, including the USA, have established regulatory frameworks taking into consideration the economic interests of their tobacco farmers. The punitive and discriminatory taxation & regulatory regime on cigarettes in India continues to adversely affect the livelihood of Indian tobacco farmers with corresponding gains to those countries that have opted for moderate and equitable tobacco regulations. These developments, coupled with lower availability of Indian crop, lower export incentives in India and relative weakness of currencies in certain competing geographies have had a debilitating impact on 46 million livelihoods comprising tobacco farmers, farm workers, etc. who are dependent on the tobacco value chain. It is estimated that since 2014, Indian tobacco farmers have suffered a cumulative drop in earnings of over ₹ 7500 crores.

As reported in earlier years, your Company and several other stakeholders had challenged the validity of the pictorial and textual warning covering 85% of the surface area of the packet prescribed under COTPA. The Honourable Karnataka High Court, by its judgement in December, 2017, held the 85% pictorial warnings to be factually incorrect and unconstitutional. Upon Special Leave Petitions filed by the Government and others, the Honourable Supreme Court has stayed the judgment of the High Court. The cases are pending before the Honourable Supreme Court.

The extremely stringent regulations along with the discriminatory and steep taxation on cigarettes

have had numerous negative, albeit unintended repercussions. These include:

- rapid growth in illicit cigarette volumes, which resulted in sub-optimisation of the revenue potential of the tobacco sector and significant loss to the Exchequer. It is estimated that on account of illicit cigarettes alone, revenue loss to the Government is appx. ₹ 15500 crores per annum.
- widespread availability of illicit cigarettes and other tobacco products of dubious quality and hygiene to consumers at extremely affordable prices. As a result, despite accounting for less than 1/10th of the tobacco consumed in the country, duty-paid cigarettes contribute more than 4/5th of the revenue generated from the tobacco sector.
- a large component of tobacco consumption in the country, aggregating around 68%, remaining outside the tax net.
- persistent negative impact on the livelihood of tobacco farmers and others dependent on tobacco. Studies by the Central Tobacco Research Institute (CTRI) indicate that on account of agro-climatic conditions, there is no equally remunerative alternate crop that can be grown in the FCV tobacco growing regions of the country.

Your Company continues to engage with policy makers for a framework of pragmatic, equitable, non-discriminatory, evidence-based regulations and taxation policies that balance the economic imperatives of the country and tobacco control objectives, cognising for the unique tobacco consumption pattern in India. Stability in taxes is critical to address the interests of all stakeholders of this industry, including tobacco farmers, consumers and the Exchequer.

Manufacturing facilities of the Business continue to be modernised by inducting contemporary technologies to drive innovation and secure higher levels of productivity and product excellence. New benchmarks continue to be set in areas of quality, sustainability, supply chain responsiveness and productivity. Cutting-edge technologies such as Industry 4.0 and Data Sciences are being leveraged to build a smart manufacturing environment of connected systems. These initiatives, coupled with innovative capabilities, in-house design and development expertise, have further improved the speed-to-market of new launches and augmented the innovation pipeline of the Business.

It is extremely satisfying to report that your Company continued to be recognised for its commitment towards operational excellence. The Bengaluru unit won 'Responsible Manufacturer of the Year Award 2022 – Platinum Medallion' by Kaizen Hansei Institute, wing of Kaizen Institute of India. Two projects from Kidderpore and Saharanpur units, were recognised as 'Winner' under 'Automation & Robotics' and 'Operational Excellence Leadership' categories respectively by Frost & Sullivan.

In line with your Company's commitment to the 'Triple Bottom Line', the Business continued to focus its efforts for resource conservation and adoption of best-in-class technologies and processes. During the year, the Business continued to evaluate and adopt various sustainable inputs in its operations. Nearly 57% of the total energy used by the Business is generated from renewable sources. Various interventions over the years such as investments in renewable energy sources, and continued wheeling of wind energy through interstate open access have enabled the same. Sustainability initiatives of the

Business continued to be recognised with Kidderpore unit receiving the 'Excellent Energy Efficient Unit Award' at the CII National Award for Excellence in Energy Management 2022. The 21 MW wind farm in Karnataka also received 'Best Performing Wind Farm Award' in Karnataka, Andhra Pradesh & Telangana by Indian Wind Power Association for FY 2021-22 and 'Performance Excellence Award for Solar and Wind Plants – 2022' under the Wind Category from CII. Ranjangaon unit received 'Shreshtha Suraksha Puraskar' from National Safety Council of India under Safety Awards-2022 (Manufacturing Sector). Saharanpur unit won 'IGBC Excellence Award' under Factory Building category from CII.

Your Company is well positioned to fortify its market standing in the legal cigarette industry, leveraging its superior strategies, integrated seed to smoke value chain, future-ready portfolio, robust innovation pipeline, cutting-edge manufacturing & digital technologies and best-in-class execution capabilities. A stable taxation and regulatory regime remains critical to enable the legal cigarette industry to recover volumes from illicit trade.

FMCG – OTHERS

With steep inflation impinging upon household budgets, consumption demand remained subdued, especially in rural markets and for certain discretionary categories in urban markets. Input costs remained elevated, even as certain commodities witnessed sequential moderation in prices towards the latter half of the year.

markets driven by enhanced distribution footprint, superior last mile execution, deep consumer insights, purposeful innovation and portfolio premiumisation. Discretionary/Out-of-Home categories witnessed strong growth driven by agile innovation and relevant portfolio assortments across consumer cohorts and trade channels. Staples & Convenience Foods registered strong traction driven by region-specific interventions, differentiated offerings and focused brand investments. Health & Hygiene portfolio of personal care products witnessed moderation in demand, while remaining ahead of pre-pandemic levels. The first half of the year saw significant increase in prices of key inputs such as edible oils, packaging materials, soap noodles, fuel, logistics, etc., which exerted considerable pressure on margins. This was mitigated by adopting a comprehensive approach across the value chain focusing sharply on cost management, portfolio premiumisation, competitive trade and marketing investments, fiscal incentives (including PLI), supply chain agility, digital interventions and judicious pricing actions.

Your Company's FMCG Businesses recorded Segment Revenue of ₹ 19122.50 crores representing an increase of 19.6% over the previous year. Segment EBITDA for the year registered a robust growth of 34.9% to ₹ 1953.97 crores with margins improving by 120 bps to 10.2%, amidst elevated commodity prices.

A consumer-centric approach, backed by a future-ready portfolio and agility in execution, remains at the core of your Company's strategy to rapidly scale up the FMCG Businesses.

The Businesses continue to leverage the power of digital to drive superior consumer insights & innovation, deepen consumer engagement and

enhance brand loyalty. Your Company continues to make strategic interventions aimed at creating a futuristic platform to deliver delightful brand experiences seamlessly across touchpoints through personalised journeys mapped to individual's needs, preferences and context.

'Sixth Sense', the Marketing Command Centre and Consumer Data Hub – an AI-powered hyper-personalised platform backed by a robust partner ecosystem for content and data, is being increasingly utilised to gain insights on market trends and consumer behaviour, as well as synthesise the same to craft contextual and hyper-personalised brand communication and product development. Over 3,000 content assets have been deployed leveraging this capability within a relatively short span of time at significantly lower cost.

Your Company continues to leverage deep consumer insights and cutting-edge R&D capability to address present and emergent consumer need spaces. Over 90 new products anchored on the vectors of Health & Nutrition, Hygiene, Protection & Care, Convenience & On-the-Go, Indulgence etc., were launched across target markets during the year, leveraging the R&D platforms of your Company's Life Sciences and Technology Centre (LSTC) and agile product development teams across Businesses.

Cutting-edge digital technologies including Industry 4.0, Advanced Analytics, Big Data and industrial Internet of Things (IoT) continue to be deployed towards strengthening your Company's real time operations and execution platform, and enhancing productivity, driving efficiency and cost agility. The FMCG Businesses comprising Branded Packaged Foods, Personal Care Products, Education and Stationery Products, Incense Sticks (Agarbattis) and Safety Matches have grown at an impressive pace over the past several years.

Your Company’s vibrant portfolio of over 25 world-class Indian brands, largely built through an organic growth strategy in a relatively short period of time, represents an annual consumer spend of nearly ₹ 29000 crores and reach over 230 million households in India. These home-grown, purpose-led Indian brands, powered by agile innovation, support the competitiveness of domestic value chains, especially in the agri space, thereby ensuring creation and retention of value within the country.

Your Company’s FMCG brands have achieved impressive market standing³ in a relatively short span of time in their respective categories viz. Aashirvaad is No. 1 in Branded Atta, Bingo! is No. 1 in the Bridges segment of Snack Foods, Sunfeast is No. 1 in the Cream Biscuits segment, Classmate is No. 1 in Notebooks, YiPPee! is No. 2 in Noodles and Mangaldeep is No. 2 in Agarbattis (No. 1 in Dhoop segment).

Your Company remains focused on rapidly scaling up the FMCG businesses anchored on strong growth platforms and a future-ready portfolio. It is pertinent to note that the chosen categories, which are largely characterised by low household penetration levels and/or low per capita consumption, offer significant headroom for long-term growth. This is borne out by several reports which highlight that your Company’s total addressable market expansion potential is amongst the highest in the Indian FMCG space. In this context, it is noteworthy that your Company is well poised to address value-added adjacencies and categories of the future by leveraging the 25+ powerful mother brands it has established over the years. Recent examples of such brand extensions include Aashirvaad to Dairy, Ready-to-Eat, Vermicelli, Salt and Spices; Sunfeast to Dairy Beverages and Cakes; Bingo to Namkeens; ITC Master Chef to Frozen Snacks and Cooking pastes; Classmate to Writing instruments; Savlon to Sanitisers, Wipes and Disinfectant sprays etc. Simultaneously, the FMCG Businesses continue to make strategic investments in building categories of the future and establishing your Company’s ‘right to win’ by progressively scaling up those nascent categories where beachheads have been created. Your Company is also proactively

pursuing value accretive acquisition, joint venture and collaboration opportunities towards accelerating growth and value creation.

The FMCG Businesses continue to expand their export footprint leveraging the equity of their world-class brands – with a reach now spanning over 60 countries. Your Company also continues to explore strategic opportunities in proximal markets as a potential vector of growth going forward. The PLI scheme has provided further fillip to your Company's exports across Biscuits & Cakes, Snacks, Dairy and Ready-to-Eat categories.

The FMCG Businesses continue to create structural competitive advantages and enhance profitability by leveraging world-class distributed manufacturing and logistics infrastructure, multi-channel distribution network and newer routes to market, smart buying & value engineering and smart manufacturing. Investments over the years in several state-of-the-art Integrated Consumer Goods Manufacturing and Logistics facilities (ICMLs) have laid a strong foundation to drive structural advantages such as ensuring product freshness, enhancing agility and responsiveness of the supply chain, reducing cost of servicing proximal markets through lower distance-to-market etc. Capacity utilisation at the 11 operational ICMLs continues to be ramped up along with focused smart manufacturing interventions leveraging automation and Industry 4.0 technologies to drive operational efficiencies, yield and energy management and further enhance safety and quality. With growing scale, supply chain operations are being increasingly delayed through direct-to-market shipments thereby reducing freight costs and eliminating multiple handling. Your Company is confident that these strategic interventions which are

already delivering substantial benefits will realise their full potential over the medium term and continue to create long-term value.

Your Company remains confident of rapidly scaling up its FMCG Businesses on the back of a future-ready portfolio powered by purpose-led brands, world-class quality, deep consumer insights, cutting-edge innovation and an agile, resilient and efficient supply chain. The Businesses will continue to leverage your Company's institutional strengths viz. strong backward linkages with the Agri Business, deep and wide multi-channel distribution network, cuisine knowledge resident in the Hotels Business, industry-leading packaging knowhow and access to robust R&D platforms nurtured by LSTC.

Branded Packaged Foods

Your Company sustained its position as one of the fastest growing branded packaged foods businesses in the country, leveraging a robust portfolio of brands, a slew of first-to-market products, a range of distinctive products customised to address regional tastes and preferences, supported by an efficient supply chain and distribution network. This was achieved in the face of a volatile operating environment marked by unprecedented inflation in commodity prices, global supply chain disruptions and climate change impacting crop outputs.

Your Company's institutional strengths viz. strong agri business supply chain, product development knowledge of the LSTC and cuisine knowledge in the Hotels Business are being leveraged to develop products providing consumers wholesome and enjoyable food experiences.

Encouraged by the Government of India's initiative of promoting millets, a range of millet-based products have been introduced. In the Staples Business, 'Ragi Flour', 'Gluten Free Flour', 'Multi-Millet Mix' were recently launched under the 'Aashirvaad' brand. The Biscuits Business augmented its portfolio with the launch of 'Sunfeast Farmlite Super Millets', with two variants – 'Chocochip Millet' and 'Multi Millet' cookies; while the Confectionery Business also launched millet based 'Fantastik Choco Sticks'. Your Company is further developing a comprehensive millets-based portfolio under its popular brands and in familiar formats to enable easier adoption.

The Businesses continued to make sharp targeted brand building investments to grow the core portfolio, address value-added adjacencies leveraging mother brands and scale up categories of the future. Clutter-breaking communication and consumer engagements, both in conventional and digital media, along with focused market development efforts resulted in reinforcement of brand positioning for your Company's bouquet of world-class brands in the branded packaged foods space. The Business

continues to deploy robust, scalable and secure digital technologies and infrastructure to enhance agility, accelerate innovation and drive impactful business outcomes. Several campaigns launched during the year received wide recognition and won prestigious awards across leading platforms, including the 'Innovative Integrated Media Campaign' from The Advertising Club's Abbys for Aashirvaad Multigrain Atta's Happy Tummy Campaign, Gold for 'Best Performance Marketing Campaign' by Maddies for B Natural e-Commerce campaign, Gold in 'Innovation in e-Commerce' for Aashirvaad Svasti Ghee, Gold in 'Online Commerce Campaign for Customer Acquisition' for Sunbean Coffee by Campaign India's Digital Crest Awards and Silver in 'Best Content Marketing on Films' for Dark Fantasy Batman Collaboration by Exchange4Media.

The Businesses continue to increasingly leverage 'Sixth Sense', the Marketing Command Centre and Consumer Data Hub and generated more than 3000+ creatives and 50+ content solutions during the year. The rise of social commerce has enabled brands to engage with their target audience in a focused manner using social media. During the year, your Company leveraged technologies such as Augmented Reality (AR) for creating wider impact, worked with popular influencers, especially amongst the youth, and also commenced pilot campaigns integrating AI based solutions and technology.

Relentless focus on delivering superior quality products to consumers continues to be a key source of sustainable competitive advantage for the Branded Packaged Foods Businesses. - In the Staples Business, 'Aashirvaad' witnessed robust growth on an elevated base and fortified its market standing across geographies, while addressing emerging consumer preferences for healthy products and catering to regional tastes. The value-added portfolio, consisting of Multigrain, Select and Sugar Release Control Atta posted healthy growth driven by higher salience in Modern Trade and e-Commerce channels. A differentiated range of products comprising 'Gluten Free Flour', 'Ragi Flour', 'Multi-Millet Mix', 'Organic Atta' and 'Organic Dals' continued to witness strong growth trajectory. 'Aashirvaad Vermicelli', launched last year, gained robust consumer traction; the range was augmented with the launch of 'Ragi Vermicelli' during the year. Product portfolio was further strengthened with the launch of 'Aashirvaad Bansi Rava', 'Aashirvaad Samba Broken Wheat', 'Aashirvaad Double Roasted Suji Rava' and 'Aashirvaad Besan'. The Business also expanded distribution of Frozen Indian Flat Breads (Paratha, Naan and Chapati), hitherto offered only in international markets, in select domestic markets. Focused and purposeful marketing inputs, consumer activations and region-specific interventions supported by sharply directed media investments, especially in digital platforms, enabled further improvement in Aashirvaad's brand health metrics. Powered by the trust reposed by nearly 74 million households, your Company is

confident of sustaining Aashirvaad's position as India's No. 1 Staples brand going forward.

'Aashirvaad Salt' continued to strengthen leadership in key focus geographies and posted healthy growth across markets during the year, supported by its distinctive positioning – 'Created by Sun and Sea - pure just like nature intended it to be'. 'Crystal Salt', the variant recently launched in Southern markets, scaled up to become the No. 2 brand within two years of launch.

In the Spices category, your Company continued to deliver robust growth with its endeavour to provide consumers unique and personalised experiences that meet their taste preferences and reflect the regional flavours of the state. During the year, the Business grew on the back of distribution expansion in focus states, sharp region-specific communication and an enhanced portfolio with innovative new products. The 'Sunrise' brand strengthened its market standing in the core market of West Bengal and extended gains in East/North East markets to fortify its position as one of the leading Spices brands of the region. 'Aashirvaad Spices' continues to enhance its presence in emerging channels and core markets to enable full portfolio play along with expansion of the blended portfolio. Together, the two brands are well positioned to leverage your Company's institutional strengths to progressively enhance their market standing in the Spices category.

- The Biscuits category witnessed strong growth during the year, driven by robust performance of the core portfolio, scale up of innovations and the launch of several exciting and differentiated variants. The Business continues to strengthen its core portfolio with investments behind powerful

- brand ideas, superior products and calibrated pricing actions. The Business augmented its portfolio with the launch of ‘Sunfeast Supermilk’ and ‘Sunfeast Thin Arrowroot’ in select markets. Emerging channels continue to grow at an accelerated pace on the back of superior product assortments and portfolio mix.
- The Snacks Business sustained its robust growth trajectory during the year driven by the core variants as well as new launches. A slew of new launches during the year, viz., ‘Bingo! Street Bites’, a differentiated offering, combining quintessential Indian flavours of Pani Puri & Dahi Chaat in a modern format, lattice cut chips under ‘Bingo! Hashtags’ and refreshed packs of ‘Bingo! Tedhe Medhe’ namkeen portfolio, amongst others, elicited excellent consumer response. ‘Bingo!’ continued to be the market leader in the Bridges segment across the country, and in the potato chips segment in South India.
 - ‘YiPPee!’ witnessed strong growth during the year, aided by judicious pricing interventions and focused brand investments. The product portfolio was augmented with the launch of ‘Quik Mealz’ in a differentiated ‘noodles in a bowl’ format, in target markets. In line with the purpose of creating ‘A better world’, the brand continues to promote sustainability through plastic waste management and recycling. During the year, more than 30 lakh school children were educated on plastic waste recycling with an initiative to collect plastic equivalent to 10 lakh YiPPee! Noodles wrappers across 100+ cities. The Business also organised the ‘Terra by YiPPee!’ contest, a new waste upcycling initiative wherein, contest winners were awarded tote bags/laptop sleeves/pouches made from YiPPee! wrappers.
 - The Ready-To-Eat (RTE) category continued to scale up in the institutional and exports segments. Growth in exports was led by the ‘Kitchens of India’ range to the USA, Canada and other countries along with introduction of a range of ‘Aashirvaad’ products to target the Indian diaspora in the USA. Institutional business registered strong growth driven by acquisition of new customers, including Food Service segment, through a range of customised offerings.
 - The Frozen Snacks category under the ‘ITC Master Chef’ brand, which caters to both Retail and Food Service channels, continued to deliver industry leading growth, powered by a range of innovative and differentiated offerings. Over 65 high quality and differentiated products distributed across both traditional and emerging channels are rapidly gaining consumer franchise. The portfolio offers a delectable range of Indian & Western snacks, Frozen Prawns and Frozen Vegetables.
 - ‘Aashirvaad Svasti’ fresh dairy portfolio comprising pouch milk, curd, lassi and paneer continued to gain strong consumer traction on the back of best-in-class quality standards, differentiated products and superior taste profile. These products are currently available in Bihar, West Bengal and Jharkhand markets. The value-added portfolio is constantly being enriched with launch of differentiated offerings such as ‘Litchi’ flavoured Lassi, select Indian desserts under ‘Aashirvaad Mithaas’, ‘Paneer Slice’ and organic range of ‘Aashirvaad Svasti Ghee’ in select markets. During the year, the Dairy industry witnessed severe pressure on input costs. In spite of a challenging operating environment, the Business registered strong growth during the year.

- With return to normalcy in market conditions, the Beverages portfolio witnessed a resurgence during the year. The Business continued to leverage the ‘Fruit and Fibre’ proposition of ‘B Natural’ to deepen consumer connect and increase brand affinity. The Dairy Beverages portfolio leveraged the strong equity of ‘Sunfeast’ and ‘Dark Fantasy’ to grow rapidly in target markets and in emerging channels. The Business has strengthened presence in rapidly emerging Direct to Consumer (D2C), Travel & QSR segments and sustained consumer facing partnerships with alternate delivery channels which aided the Business to deliver superior performance.
- The Confectionery category continued to nurture its range of premium portfolio by leveraging Fantastik Choco Sticks and ‘Jelimals’ and recovered to pre-pandemic levels. The portfolio was augmented with the launch of ‘Candyman Fruitee Fun 3 in 1 chews’, a differentiated offering in the fruit bucket and has received encouraging consumer feedback. ‘Fabelle’ chocolates continue to receive excellent response from discerning consumers setting new benchmarks in the luxury and premium chocolate segments. During the year, availability of the gourmet range of Fabelle chocolates was enhanced beyond the ITC Hotels boutiques by leveraging e-Commerce platforms and food delivery aggregators in six major cities. The product offering at Fabelle boutiques across ITC Hotels was augmented with the addition of a range of bespoke eclairs. A new Fabelle boutique was launched at the recently opened ITC Narmada in Ahmedabad.
- ‘Sunbean Beaten Caffè’, a unique ready-to-use beaten coffee paste that produces a rich, creamy and frothy cup of coffee, continues to receive favourable response from discerning consumers.

During the year, a convenient powder format was also introduced based on consumer insights. The product has received encouraging consumer response.

- Exports remain a key area of focus for the Business. Currently, your Company’s Branded Packaged Food products are exported to more than 60 countries. During the year, your Company’s exports of Branded Atta was impacted due to restrictions on export of wheat flour. Exports have since resumed under the Advance Authorisation scheme introduced by the Government. With its portfolio of winners and a high quality distribution pipeline, your Company is confident of scaling up exports at an accelerated pace in focus markets across a range of categories, leveraging the equity of its core brands such as Aashirvaad, Sunfeast and Kitchens of India.

Over the years, your Company has made significant investments in setting up state-of-the-art Integrated Consumer Goods Manufacturing and Logistics facilities (ICMLs) proximal to large demand centres. These facilities are at the heart of your Company’s strategy to create structural advantage by enhancing product freshness, improving market responsiveness, reducing the cost of servicing proximal markets, enabling scalability besides setting new benchmarks in safety, quality and product hygiene. Your Company continues to leverage the benefits of the state-of-the-art Ancillary Manufacturing cum Logistics Facilities (AMLFs) at Pudukkottai and Kapurthala. These automated facilities are co-located with the ICMLs and provide several structural advantages including inventory optimisation, layering operations and lowering cost of market servicing.

The Branded Packaged Foods Businesses export to more than 60 countries. With its portfolio of winners and a high quality distribution pipeline, your Company is confident of scaling up exports at an accelerated pace in focus markets across a range of categories, leveraging the equity of its core brands such as Aashirvaad, Sunfeast and Kitchens of India.

Your Company recently commissioned a new ICML at Khordha, Odisha. With this, 11 ICMLs are operational in locations proximal to large demand centres enabling delivery of fresher products, reduction in distance to market and delayering of operations. The capacity utilisation at existing ICMLs continues to be ramped up. With every successive ICML coming on-stream, the representation of women in the workforce has progressively increased. The ICML units received several prestigious awards and accolades from leading industry bodies such as the Confederation of Indian Industry (CII), International Research Institute for Manufacturing (IRIM), Integrated Manufacturing Excellence Initiative (IMexI), National Safety Council of India (NSCI), Ministry of Labour and Employment, etc. for their high standards of safety, quality, operational excellence and benchmarks in green and sustainable manufacturing. The Malur unit became the first food processing facility in Asia to be awarded the AWS Platinum-level certification, the gold standard for water stewardship in the world. These accolades are testament to your Company's unwavering commitment to providing products with the highest levels of quality while reducing the environmental impact of the same.

The Business implemented several strategic cost management initiatives in areas such as supply chain optimisation, smart procurement and productivity improvement through automation, leveraging new-age technologies such as Industry 4.0 and smart utilities. These interventions helped mitigate the unprecedented cost inflation witnessed during the year and also offset start-up costs of new facilities and strategic investments in brand building for gestating categories.

With the growing importance of processed food products in the consumer basket, the food processing

industry has significant potential to transform the agriculture sector through increased market linkages, improvement in the efficiency of resource use, enhancement in the farmer incomes, expansion of exports and generation of employment opportunities. Development of the food processing sector will aid in addressing issues of food security and inflation, improved nutrition availability and prevention of wastage, amongst others.

Recognising this potential and headroom for growth in the Indian market, your Company has made significant investments in food processing and remains focused on establishing itself as the leading player in the branded packaged foods industry. The Government's Production Linked Incentives (PLI) Scheme for the food processing industry will incentivise fresh investments, enable building Indian brands for the global market, promote exports and boost farmer incomes. Your Company has been included under the PLI Scheme towards sales-based incentives in the Ready to Eat, Fruits & Vegetables and Marine categories respectively as well as for incentives towards expenditure incurred for branding and marketing in export markets. Your Company is confident of meeting the requisite investment and sales growth targets towards the same. In line with the Government's initiatives towards promoting millets, a PLI scheme for millet-based products has also been introduced during the year. Your Company has been included under the PLI Scheme for millet-based products as well.

Your Company is well poised to strengthen its position as one of the fastest growing food companies and the 'most trusted provider of food products' in the Indian market in line with its purpose to 'Help India Eat Better'. Your Company remains confident of

rapidly scaling up the Branded Packaged Foods Businesses leveraging the strong growth platforms nurtured over the years in chosen categories which offer immense headroom for growth and powerful purpose-led mother brands that have the potential to be extended to address opportunities in adjacent spaces. In addition, your Company's deep & wide multi-channel distribution network, with growing presence in emerging channels such as e-Commerce, Modern Trade, On-the-go and Institutional sales, continues to deliver competitive advantage through superior product availability, visibility and freshness. Recent investments in establishing a world-class distributed manufacturing footprint have created a solid foundation to secure structural advantage over time. Cutting-edge R&D platforms of your Company's LSTC are driving agile innovation and faster turnaround times for introduction of differentiated & first-to-market products catering to constantly evolving consumer needs. Investments in leading-edge digital technologies and platforms continue to be stepped up across the value chain to drive competitive advantage.

Personal Care Products

Your Company's Personal Care Products Business continued to strengthen its core strategic levers of building brands with purpose, introducing first-in-category innovations, focusing on categories of the future and accelerating presence in emerging channels. Hyper-inflationary pressure on prices of key inputs witnessed in the previous year continued to impact the industry for most of the financial year. The surge in inflation also led to moderation in demand, especially in rural markets; however, progressive improvement was witnessed during the course of the year. Portfolio premiumisation, launch of innovative and differentiated range of products and

agility in mitigating the impact of commodity inflation enabled the Business to strengthen the core and grow emerging categories during the year, in spite of a challenging operating environment.

In the Personal Wash segment, premiumisation continues to remain a key lever of growth. During the year, 'Fiama' registered strong growth fuelled by investments in brand building, wider distribution and growth across channels. Fiama gel bar format witnessed significant gains during the year, whilst providing consumers a differentiated and compelling offering. A new range of 'Happy Naturals' Perfume mists and Shower Gels were launched during the year to meet the growing demand for 'Naturals'. The portfolio was further augmented with launch of 'Deep Clean Charcoal and Grapefruit' range of gel bathing bars and shower gel, exclusively for men. The brand continued building on promoting mental wellness while improving access to mental health experts.

The 'Vivel' range of soaps continued to build momentum and posted healthy growth during the year. The premium 'VedVidya' range was launched during the year in three variants – 'Nargis & Kumkumadi oil', 'Nagarmotha & Bahumanjari oil', 'Chandan & Badamam oil'. Vivel's proposition of empowerment of women through the #AbSamjhautaNahi campaign continues to resonate well with target consumers.

The Fragrance category witnessed strong growth across segments with the premium range of 'Engage' perfumes garnering encouraging response. The Business launched a new premium EDP range with best-in-class fragrances for occasion-based use which includes a differentiated 'gender neutral' variant 'One Soul'. In the popular segment, Deo sprays were also launched in the mini-can format.

Your Company's Personal Care Products Business continued to strengthen its core strategic levers of building brands with purpose, introducing first-in-category innovations, focusing on categories of the future and accelerating presence in emerging channels.

The ‘Savlon’ portfolio witnessed moderation in demand with the waning of the pandemic, while remaining above pre-pandemic levels. Sustained focus on distribution expansion, proactive cost management, enhanced supply chain responsiveness with a range of exciting offerings enabled the Business to augment its germ-protection equity. Savlon powder handwash, in a convenient low unit pack format, witnessed strong traction amongst target consumers.

The Business continued to expand its presence in the Home Hygiene segment by leveraging the ‘Nimyle’ brand. During the year, Nimyle strengthened its leadership position in core markets. The brand continued to demonstrate robust growth in emerging channels on the back of its unique proposition of ‘100% Natural Action’.

Under the Skincare portfolio, ‘Dermafique’ introduced an AI powered smart skin advisor to provide personalised skin health analysis, empowering individuals to know their skin better and adopt solutions suited to unique skin needs. During the year, the brand launched its D2C platform to deepen consumer engagement based on sharp consumer insights and drive revenue growth. The brand also strengthened its equity through relevant product benefit communications, leveraging influencers to drive buzz and engagement, running digital campaigns etc., which is visible in strong conversions and repeat rates on digital platforms.

The Business bolstered its presence in the rapidly growing e-Commerce channel and continues to widen its assortment of offerings tailored to consumer needs. With reinforced focus on footprint expansion, salience of the e-Commerce channel for the Business stood at double digits. The proliferation of digital access

and rapid evolution of ‘beauty tech’ have opened up opportunities for providing relevant personalised experiences to consumers. The Business continues to drive a range of Digital Marketing initiatives to target relevant consumer cohorts.

In order to further strengthen its presence in the D2C segment, your Company acquired a minority stake in ‘Mylo’ – a digital start-up, which offers science backed, expert-led solutions primarily in the mother and baby care segments. In addition, further investments were made during the year in ‘Mother Sparsh’, a premium ayurvedic and natural personal care start-up to support the company’s growth plans.

Your Company is setting up a state-of-the-art Personal Care and Home Care products manufacturing unit in Uluberia, in line with its strategy of building in-house manufacturing capabilities for products with unique formulations, enhancing supply chain agility and responsiveness and reducing distance to market.

Fiama, Vivel and Savlon have been frontrunners in adopting sustainable packaging for the soap portfolio. The Fiama and Vivel wrapped soap portfolio has also transitioned to re-cyclable mono material while Savlon soap wrappers now contain 70% recycled plastic in the PET film used. Sustainable materials are being used for in-store merchandising for Fiama and Vivel soaps. Further, Fiama Shower Gel and Handwash bottles are now made with 50% Post-Consumer Recycled (PCR) material.

The state-of-the-art R&D facility of your Company continued to leverage cross functional collaborations to develop innovative and differentiated products backed by robust science-based claims, to meet the emerging consumer needs.

Your Company's strategic focus continues to be on expanding the core categories of Personal Wash, Fragrance and Homecare through innovative, differentiated and consumer centric products, highest levels of product quality and impactful communication. Your Company, with its future-ready portfolio and purpose-led brands, is well positioned to seize growth opportunities and emerge as a significant player in this space.

Education and Stationery Products

The Education and Stationery Products industry recorded a strong recovery with progressive resumption of physical classes at educational institutions and demand recovering to pre-pandemic levels. However, on the supply side, industry had to contend with unprecedented inflationary pressures.

The Business strengthened its market leadership position in the industry, delivering a competitively superior performance driven by portfolio premiumisation, judicious pricing actions and continued focus on cost and working capital management, leveraging institutional strengths such as backward integration in the value chain for supply of paper and paperboard and multi-channel distribution infrastructure.

The Business continued to leverage its innovation platform in collaboration with your Company's Life Sciences and Technology Centre to craft differentiated products of superior quality.

The 'Classmate Interaktiv' Notebooks portfolio was augmented with the launch of over 40 differentiated variants under the Origami range. Extensive consumer engagement with 1,000+ schools and 2 Lakh+ students through craft-based competitions enabled Classmate to fortify its position as an innovation leader in the industry. In the youth and college segment, the Business accelerated the adoption of 'Classmate Pulse' spiral format through activations and driving new consumption segments. The 'Paperkraft' portfolio was further scaled up with launch of 'Paperkraft Vintage Kraft' cover series for leisure writing and 'Paperkraft Debossed PU' series with motivational quotes. The Writing Instruments portfolio was bolstered with the launch of 'Classmate Hook' pens, a unique innovation that enhances the brand's visibility and appeal.

To promote holistic learning in line with the National Education Policy 2020, an inter school initiative 'Classmate All Rounder' was conceptualised providing students with a platform to nurture and showcase their varied skills. The initiative received tremendous response with over 3 Lakh students across 1000+ schools participating in the very first edition.

The multi-channel capability of your Company's strong distribution network was leveraged to enhance availability and drive sales. The Business sustained its leadership position on e-Commerce platforms through consistent availability of a wide assortment of products, backed by focused interventions to enhance consumer traction. Consumer engagement was further enhanced through Classmateshop.com,

a D2C platform, which facilitates brand affinity through creative product personalisations. Industry-first propositions such as personalised videos and AI (Artificial Intelligence) generated cover designs further enhanced consumer engagement.

The Business continues to ramp up capacity utilisation of its dedicated notebook manufacturing facility at Vijayawada. Equipped with state-of-the-art technology, the facility enables the Business to develop differentiated notebook formats, drive cost reduction and address opportunities in overseas markets. During the year, the Business expanded its exports footprint to newer geographies & segments and successfully onboarded large global retailers leveraging capabilities at the aforesaid facility.

The Classmate and Paperkraft range of notebooks leverage your Company's world-class fibre line at Bhadrachalam - India's first ozone treated elemental chlorine free facility - and embody the environmental capital built by your Company in its paper business. The Business continued to scale up the Paperkraft range of notebooks using Forest Stewardship Council (FSC) certified paper, made at your Company's paper mill.

With over 250 million school going students, India has one of the largest education systems in the world. The Indian Education and Stationery Products industry holds immense potential driven by growing literacy, increasing enrolment ratios, the Government's continued thrust on the education sector and a favourable demographic profile of the country's population. Your Company, with its strong brands, robust product portfolio, collaborative linkages with small & medium enterprises and superior distribution network is well poised to sustain its leadership position in the industry.

Incense Sticks (Agarbattis) and Safety Matches

The Agarbatti industry witnessed robust recovery after two years of pandemic induced disruptions.

Your Company's flagship brand 'Mangaldeep' effectively leveraged market opportunities and continued to enhance its standing in the Incense Sticks category. With presence across several formats viz. Agarbattis, Dhoop and Sambrani, Mangaldeep provides discerning consumers a differentiated and superior product experience with a deep emotional connect with devotion. The Mangaldeep App, which has garnered over 1.6 million downloads, continues to play a key role in the devotional journey of consumers. The Business continued to drive brand salience through sharply focused marketing interventions. Proactive steps were also taken towards driving product mix enrichment and cost optimisation. Unprecedented inflationary headwinds in key ingredients viz. paper board, chemicals, etc. were mitigated by leveraging economies of scale, superior portfolio mix and driving sourcing efficiencies.

Based on superior consumer insights, Mangaldeep introduced a slew of offerings during the year.

The brand launched 'Mangaldeep 3 in 1' Agarbatti in the Popular segment during the year. Built on the proposition of 'Prarthana Ki Mehak, Prarthana Ke Baad Bhi' - Mangaldeep 3 in 1 Agarbatti has three unique long-lasting fragrances enabling longer lasting auspiciousness.

Mangaldeep also introduced 'Dhuno Cups' in West Bengal and Assam markets, which offers a modern and innovative solution to the age-old tradition of Dhunuchi in the daily puja. In the Dhoop segment, staying in tune with the modern consumer's need for

convenience and variety, Mangaldeep introduced bamboo-less 'Dhoop Sticks' in four modern fragrances– Luxury, Flora, Sandal and Rose.

The Business has also partnered with appx. 150 visually impaired fragrance evaluators from across the country as a part of its 'Mangaldeep Sixth Sense' panel for fragrance evaluation and selection.

Over the years, the Business has implemented several measures to enhance the competitiveness of the agarbatti value chain in India. These include import substitution and backward integration of sourcing raw materials and manufacturing raw batters using indigenous inputs. The Business has been a pioneer in developing domestic manufacturing capabilities for raw batters and is also working closely with the Government under the aegis of the 'National Bamboo Mission' and other nodal agencies of state governments for cultivating bamboo plantations in the country.

The proactive measures implemented by your Company, as highlighted above, sub-serve the national priorities of employment generation and provide a source of competitive advantage to the Business while contributing towards enhancing income of bamboo farmers in the agarbatti stick and raw batters manufacturing value chain.

In the Safety Matches industry, the Business strengthened its market leadership position by leveraging the brand 'Homelites' – built on differentiated positioning of stronger, longer and karborised sticks. The Business continues to focus on scaling up the share of value-added products in its portfolio and enhancing supply chain efficiency by sourcing products manufactured closer to markets.

TRADE MARKETING & DISTRIBUTION

Your Company's Trade Marketing & Distribution (TM&D) vertical demonstrated remarkable agility and responsiveness in capitalising on the emergent market opportunities arising from normalisation of market conditions, premiumisation and increasing online purchases. Concerted actions were taken across all nodes of operations to ensure efficient market servicing and availability of your Company's products. These include realigning distribution infrastructure, deploying innovative delivery models, forging strategic partnerships, leveraging digital technologies and adopting a focused approach to accelerate growth in emerging channels.

As stated in earlier years, the dynamic interplay of varied and evolving consumer preferences, multiplicity of channels including emergence of new channels, diverse demographic profiles & socio-economic factors and vast geographical landscape pose a high degree of complexity for distribution of FMCG products in India. Given the varied set of needs and challenges associated with each channel, TM&D continues to sharpen channel-specific strategies to efficiently service consumer demand across the country. Valuable insights into consumer behaviour and channel-specific trends gained over the years continue to be leveraged to deliver superior performance in terms of availability, visibility and freshness.

The rapid growth of Modern Trade & e-Commerce channels, along with the emergence of several new players, has necessitated deployment of differentiated market/outlet specific strategies to seize the emerging opportunities. The Modern Trade channel witnessed robust growth in the retail format aided by store expansion by accounts, both in metros and Tier 2 & Tier 3 cities, coupled with omni-channel presence.

Your Company's Trade Marketing & Distribution vertical demonstrated remarkable agility and responsiveness in capitalising on the emergent market opportunities. TM&D continues to leverage cutting-edge digital technologies to drive productivity, improve market servicing, draw actionable insights for sharp-focused interventions, augment sales force capability and deepen connect with retailers.

Growth in the channel continues to be driven by deploying a format-based assortment approach catering to the needs of a diverse set of shoppers with category specific sell-out strategies. Agile supply chain initiatives including collaborations with supply chain partners led to enhanced operational and execution efficiencies.

Significant increase in internet penetration led by smartphones, growing adoption of digital payments, attractive loyalty programmes, wide assortment of products and faster deliveries continue to drive the rising salience of e-Commerce channel. Your Company's collaborations with leading e-Commerce platforms on all aspects of operations viz. category development, marketing, supply chain and customer acquisition has enabled it to significantly scale up sales in this channel. This was augmented by development of exclusive and relevant pack assortments, driving 'Digital First' brands and enabling platform discoverability through jointly curated campaigns. Joint Business Plans, built and executed in close co-ordination with e-Commerce platforms, coupled with account specific strategies further consolidated the market standing of your Company in this channel. Sales through the e-Commerce channel has grown rapidly in recent years and stood at appx. 5x of FY 2019-20 levels; the channel accounts for over 10% of your Company's Branded Packaged Foods and Personal Care Products sales.

Your Company's multi-channel distribution network, which facilitates availability of its products in nearly seven million retail outlets of which more than one-third are serviced directly, was further strengthened during the year with the addition of new markets and outlets to its direct servicing base. Market coverage was stepped up to appx. 2x of pre-pandemic levels.

During the year, urban markets continued to witness channel shift with the growth of Modern Trade and e-Commerce. Automation, data-led insighting and machine-learning enabled solutions have been increasingly leveraged to drive field-force productivity and performance across urban markets. Customised servicing based on outlet potential and retail engagement programmes have been deployed to stimulate demand for your Company's products with enhanced focus on premium grocery outlets.

In rural markets, your Company continued to deploy market-specific interventions to enhance direct coverage on the basis of socio-economic indicators and market potential. This has been supported through a hub and spoke distribution model with the continued expansion of rural stockists network to 1.2x over previous year and collaborations with rural-focused eB2B players. Your Company has also leveraged its deep connect with rural entrepreneurs in key geographies to build local connect and carry out extensive consumer engagement activities. These initiatives have substantially enhanced distribution reach of your Company's range of products in rural markets leading to sales growth ahead of industry.

The Food Service and Institutional channels have also witnessed robust growth during the year leveraging existing partnerships and enhancement of product range. Further, new routes-to-market were unlocked through several strategic partnerships to cater to specialised segments, including 'on-the-go' consumption, direct marketing, airports & airlines and QSRs. Your Company continues to scale up its presence in the rapidly growing emerging channels and has further expanded availability of its products with new trade partners on Quick Commerce and Social Commerce platforms.

Report of the Board of Directors

During the year, TM&D continued to focus on enhancing availability in markets proximal to its ICMLs through increased awareness levels, product trial generations, expansion of distribution reach and consumer promotions.

TM&D continues to leverage cutting-edge digital technologies to drive productivity, improve market servicing, draw actionable insights for sharp-focused interventions, augment sales force capability and deepen connect with retailers. Technology enablement in the form of customised mobility and routing solutions, machine learning algorithms, data science models, data analytics comprising insightful visualisation tools and predictive analysis is being increasingly leveraged to enable speedy and accurate data capture, enable real-time informed decisions and aid in optimisation of trade inputs to enhance sales. Self-service analytics tools are also being increasingly used to analyse data and present insights which are digitally integrated into business decisions, resulting in intelligent digitalisation of processes.

The digitally powered eB2B platform of your Company, UNNATI, has been rapidly scaled up during the year covering nearly 5.4 lakh outlets. UNNATI facilitates sharp and direct engagement with retailers, superior analytics, personalised recommendations of hyperlocal baskets based on consumer purchase insights, and deeper brand engagement.

In line with your Company's credo of 'Nation First: Sab Saath Badhein', TM&D has partnered with Open Network for Digital Commerce (ONDC) to help small retailers ride the digitalisation wave. As a part of this industry-first initiative, your Company is assisting traditional retailers to on-board the ONDC network and helping them have an omni-channel presence. This intervention would enable such retailers to

enhance their competitiveness in the growing digital marketplace as also enable them to effectively address evolving consumer buying behaviour.

'ITC e-Store', your Company's exclusive D2C platform, is now operational in 24,000+ pin-codes and continues to receive excellent consumer response. ITC e-Store has also partnered with ONDC in the journey of unlocking newer consumer touchpoints and addressing buyer preferences in the growing e-Commerce arena. Powered by state-of-the-art digital technology and robust fulfilment infrastructure, the platform offers consumers on-demand access to a wide range of your Company's FMCG products across 45+ categories and over 900 products under one roof.

The scale and diversity of your Company's distribution network continues to be a critical lever to enhance market presence, gain valuable insights into consumer & trade behaviour and provide speed and scale of execution for launches across geographies. In order to effectively leverage new routes-to-markets and meet the assortment needs of emerging channels, your Company executed over 90 new product launches across target markets besides extending distribution reach of several existing products in the portfolio.

Several interventions were undertaken by TM&D during the year to further improve operational effectiveness & productivity and create structural competitive advantage. These include supply chain & network optimisation, smart buying including efficient freight procurement and layering of operations through direct shipments to customers. During the year, your Company implemented an integrated planning and supply chain tool, which is powered by AI/ML technology for inventory optimisation and productivity enhancement. This intervention is expected to enhance supply chain

agility and efficiency, while also further improving market servicing. An IoT based solution has also been implemented which monitors stock movements on a real time basis resulting in improved vehicle turnaround time and enhanced customer service through data analytics.

TM&D's distribution highway is a source of sustainable competitive advantage for your Company's FMCG Businesses and is well-positioned to support the rapid scale up of operations in the ensuing years leveraging its best-in-class systems and processes, an agile and responsive supply chain, and a synergistic relationship with its channel partners.

HOTELS

The global Travel & Tourism industry, which had been severely impacted in the last two years due to the pandemic, witnessed strong rebound in the current year. As per estimates of the World Travel and Tourism Council (WTTC), the Travel & Tourism sector is expected to contribute US\$ 8.6 trillion to the global economy in 2022 (about 94% of pre-pandemic levels). As per estimates of the WTTC, the sector, which had suffered 62 million job losses in 2020, has almost recovered to pre-pandemic levels, with an estimated 40 million jobs having been added in 2022 on top of the 18 million jobs which were added in 2021.

The Travel & Tourism sector plays a vital role in the Indian economy and holds immense potential for growth. The extensive tourism value chain spanning hotels, travel agents, airlines, tour operators, restaurants, tourist transporters and guides, etc. results in a huge economic multiplier impact, ranking it amongst the highest across industries on this count. The sector's contribution to the Indian economy remains significant and is estimated at appx. 7% of

GDP. While the global passenger traffic has recovered to 68.5% of 2019 volumes in 2022, domestic air travel in India has recovered at a faster pace to over 85% of 2019 levels. However, foreign tourist arrivals in India, while improving over the previous year, remains significantly below pre-pandemic levels.

During the year, your Company's Hotels Business delivered competitively superior performance, on the back of enriched guest experiences, operational excellence and new growth opportunities. The Business continued to focus on its strategy of offering a host of curated propositions across accommodation, dining and banqueting to augment revenues across properties. This included introduction of special packages offering distinct value propositions and flexibility, targeting short getaways/staycations, revamped packages for the MICE & wedding segments and extension of exclusive privileges to members of the Club ITC Loyalty programme.

In the backdrop of a buoyant operating environment, Segment Revenue for the year doubled to ₹ 2585.03 crores while Segment EBITDA stood at ₹ 831.62 crores, as against ₹ 78.03 crores in the previous year. Segment PBIT for the year stood at ₹ 541.90 crores representing a positive swing of ₹ 724.99 crores over the previous year.

Your Company's Hotels Business continues to leverage its 'asset-right' strategy to be amongst the fastest growing hospitality chains in the country with over 120 properties and 11,500 rooms under distinguished and distinctive brands – 'ITC Hotels' in the Luxury segment, 'Welcomhotel' in the Premium segment, 'Fortune' in the Mid-market to Upscale segment and 'WelcomHeritage' in the Leisure & Heritage segment.

Report of the Board of Directors

Further expanding its footprint, the Business had launched two new brands in the previous year - 'Mementos' in the Luxury Lifestyle segment and 'Storii' in the Premium segment, targeting new age travellers looking for varied experiences.

During the year, 12 new properties were added to the Group portfolio, including:

- ITC Narmada at Ahmedabad (Gujarat's first LEED Platinum rated hotel), offering 291 guest rooms and suites, which draws inspiration from the river Narmada along with the iconic architecture, vibrant culture and grandeur of Gujarat.
- Ekaaya Udaipur (managed property), located amidst the Aravali hills, with 117 suites under 'Mementos by ITC Hotels'.
- Storii Shanti Morada at Goa (managed property), offering 20 well-appointed guest rooms, representing a varied confluence of Portuguese and Indian culture.
- Storii Amoha Retreat at Dharamshala (managed property), offering 37 guest rooms and suites; built using sustainable and locally sourced materials.
- Welcomhotel Jim Corbett in Uttarakhand (64-key managed property), offering a premium experience nestled in close proximity to the picturesque Jim Corbett National Park.
- Welcomhotel Ahmedabad (129-key managed property), a premium boutique property offering signature dining experience and expansive banqueting.

All of these properties have received excellent response from guests within a short span of time.

The Welcomhotel brand now consists of 24 hotels and over 2,600 keys. With a strong pipeline of properties

to be onboarded under the management contract route, the brand is well positioned to scale up rapidly in line with the 'asset-right' growth strategy of the Business.

The 'Fortune' brand continues to maintain its pre-eminent position in the Mid-market to Upscale segment, with a positioning of 'First class, full service hotels – an affordable alternative', comprising 43 operating properties and over 3,300 rooms. The 'WelcomHeritage' brand continues to create best-in-class authentic experiences with an operational inventory of 36 hotels comprising over 950 rooms.

With a strong pipeline of properties under the management contract route, the Business's distinctive brands are well poised for rapid scale up, in line with its 'asset-right' growth strategy.

'Responsible Luxury' continues to guide business best practices in line with the 'Triple Bottom Line' philosophy of your Company. The Business has the highest number of hotels in the world to have been awarded the LEED Platinum Certification by USGBC, with 22 of its hotels achieving this feat. Furthering your Company's Responsible Luxury ethos, 12 of its iconic hotels have received LEED Zero Carbon Certification, the first in the world to have received the same. ITC Mughal became the first hotel globally to be awarded the LEED Zero Water Certification by the USGBC, followed by ITC Sonar, which is the second hotel to be awarded the certification globally.

Going forward, the Business has plans to further enhance the renewable energy portfolio, increase the number of LEED Zero Carbon Certifications, and reduce carbon emission levels.

ITC Hotels was recognised as the best Luxury Hotel Chain for the 4th consecutive year at 'Travel + Leisure India's Best Awards 2022'. In the premium segment,

Your Company's Hotels Business, with its ethos of 'Responsible Luxury' scaled new heights with 12 of its iconic hotels being the first in the world to receive the LEED Zero Carbon Certification; while 2 hotels became the first in the world to be awarded the LEED Zero Water Certification.

the Welcomhotel brand continues to strengthen its equity with its characteristic positioning of ‘Enriching Experiences’.

Leveraging its expertise and experience in the domain of sleep, the Business had recently launched its signature ‘*Sleep*’ Boutiques across the country, offering a wide range of premium home bedding products with both online and offline retail options. These boutiques, present across seven ITC Hotels, have received encouraging response and plans are on the anvil to scale up operations going forward.

The world-class ambience of your Company’s luxury hotels continues to be leveraged for gourmet luxury chocolates under the Fabelle brand with exclusive boutiques across nine ITC Hotels and kiosks at four Welcomhotels.

Digital investments continue to be leveraged towards enhancing guest experience, facilitating guest acquisition, augmenting revenue generation and driving operational efficiency. During the year, the Business continued to promote its full stack ITC Hotels App for Food Delivery, Room & Table Reservations, Loyalty Benefits, Exclusive Offers and more. The App has also been enhanced with room automation and entertainment control module, which has been rolled out in select hotels.

ITC Hotels is recognised for its award-winning culinary excellence, with illustrious brands, dishes and concepts revolving around indigenous ingredients and signature dining experiences. From bringing alive local flavours, inspired by the ever-changing seasons, cultures and age-old traditions, the Business has been at the forefront of presenting gastronomical delights to food connoisseurs for decades. Sourcing local ingredients and using time-honoured techniques, the Business continues to remain ahead of peers in creating

delectable dishes from humble ingredients and ensuring every meal is an aromatic celebration par excellence.

The Business continues to enhance its award-winning repertoire of culinary brands. In alignment with the Government’s initiative of promoting millets and in keeping with its ethos of producing sustainable cuisine, the Business has also created a range of millet-based gourmet cuisine across its signature restaurants. Further, it is also promoting easy-to-try recipes with millets to help encourage individuals experiment with the taste and texture of millets.

Over the years, your Company has expanded its footprint in the Luxury and Upper Upscale segments of the Indian hospitality industry. Your Company’s ‘asset-right’ strategy envisages a substantial part of incremental room additions, going forward, to accrue through management contracts. The Business is witnessing growing interest amongst property owners to partner with its iconic brands resulting in healthy generation of leads and pipeline of management contracts. The Business is confident of rapidly scaling up revenues through this route going forward.

As reported earlier, your Company remains committed to implement its ‘asset-right’ strategy, focus on sweating existing assets, create additional revenue streams and pursue alternate structures in view of the strong industry recovery witnessed during the year towards engendering the next horizon of growth as also enhancing value creation.

With its highest standards of hygiene and safety, portfolio of world-class properties, iconic cuisine brands and best-in-class service levels anchored on the ethos of ‘Responsible Luxury’, your Company is well placed to sustain its pre-eminent position in the Indian hospitality industry.

Report of the Board of Directors

PAPERBOARDS, PAPER AND PACKAGING

Paperboards & Specialty Papers

The demand for Paper & Paperboards grew at about 6-7% in FY 2022-23 driven by robust growth across most end-user segments. Sequential moderation was witnessed during the second half of the year, primarily due to inventory pipeline adjustments by export customers and relatively lower offtake by domestic customers towards the end of the year. Cost of key inputs remained elevated with global pulp prices witnessing unprecedented highs during the first half of the year on account of global supply chain disruptions, geopolitical tensions, adverse weather events, higher power and chemical costs. However, pulp prices moderated in the second half of the year due to subdued Chinese demand, recessionary conditions in Europe and progressive normalisation in supply chain operations. Chemical prices, which were also at record highs, moderated towards the end of the financial year, while remaining elevated over pre-pandemic levels. Coal supplies were adversely impacted by supply chain disruptions and prioritisation of domestic supplies to thermal power plants. The Indian Rupee depreciated against the US Dollar during the year which further impacted cost of imports.

Amidst heightened inflationary pressures, the Business delivered robust performance during the year leveraging its integrated business model and strong end-user engagements. Structural interventions across the value chain including, inter alia, developing high yielding clones, augmenting value added paperboard & in-house pulp manufacturing capacity, product & process innovation, digital interventions including Industry 4.0 and creating superior distribution infrastructure continue to provide the Business sustainable competitive advantages.

The Business fortified its clear leadership in the Value Added Paperboard (VAP) segment through innovation focused on developing customised solutions for end-use industries and maintaining best-in-class customer service levels. The Business is also the industry leader in the eco-labelled products segment as well as the premium recycled paperboards space.

The Business continues to ramp up its sustainable products portfolio and achieved appx. two-fold increase in revenue over the previous year. The 'Filo' series of sustainable solutions viz. 'FiloBev' (for cups), 'FiloServe' (for QSR, bakeries, food retail) & 'FiloPack' (packaging for sweets and deep freeze applications), continued to witness strong traction in both domestic and international markets. The 'Omega' series viz. 'OmegaBev' and 'OmegaBev Vio', certified compostable by Central Institute of Petrochemicals Engineering & Technology (CIPET) and also registered with the Central Pollution Control Board (CPCB), continued to increase its franchise with large eco-conscious brands. The Business is stepping up investments in this fast-evolving space which holds immense growth potential, supported by the R&D capabilities of your Company's Life Sciences & Technology Centre and through external collaborations with global specialists.

During the year, your Company set up a wholly owned subsidiary, ITC Fibre Innovations Limited, to foray into the fast-growing premium Moulded Fibre Products (MFP) space. Towards this end, construction of a state-of-the-art MFP manufacturing facility in Badiyakhedi, Madhya Pradesh, is underway. Customers are increasingly seeking solutions that are bio-degradable, substitute single use plastic and meet stakeholder and regulatory expectations across industries including food serving and

delivery, pharmaceutical, beauty and electronics. The raw materials for such products are sourced from environment-friendly, renewable, natural fibres such as wood, bamboo etc. The MFP business will leverage your Company's expertise in fibre value chain, manufacturing excellence and strong sustainability credentials to rapidly scale up business going forward.

During the year, the Business delivered robust performance in the Specialty Papers segment. Market standing continues to be driven by product mix enrichment and diversification of the customer base. The domestic industry continues to remain under pressure on account of cheap imports from China. Anti-dumping duty on Décor paper continues to provide a level playing field for domestic industry, further enhance 'Make in India' opportunities & foster domestic value chains and enable import substitution. A strong distribution network, efficient supply chain and customised product portfolio leveraging cutting-edge innovation capabilities based on superior customer insights, provide structural competitive advantages to the Business to further consolidate its market standing in the fast growing Décor segment.

The Business continues to make structural interventions to reduce dependence on imported pulp, enabling substantial reduction in operating costs. Significant increase in in-house pulp production was achieved through strategic interventions, Industry 4.0 initiatives and improved wood mix. Capacity utilisation of the chemical pulp mill at the Bhadrachalam unit touched a record high during the year.

The Business has been practising the principles of Total Productive Maintenance (TPM), Lean and Six Sigma for over a decade and continues to reap substantial benefits through its Business Excellence initiatives. In recent years, the Business has embarked

upon a comprehensive Digital Transformation Programme across the vectors of manufacturing, supply chain and support services to achieve operational excellence and drive improvement in profitability.

Your Company is a pioneer in the adoption of Industry 4.0 in the Indian Paper & Paperboard industry. Digital and emergent technologies continue to be leveraged towards enhancing operational efficiency, reducing wastages, enabling cost optimisation and improving safety across the value chain. The multi-dimensional digital interventions encompass Industrial IoT for Smart Operations, Integrated Data Platform, AI/ML algorithms for optimisation in the manufacturing process, AI/ML based image analytics and IoT based crop monitoring & advisory, computer vision-based solutions to improve workforce safety. The Business also embarked on collaborating with leading online training platforms to upskill managers across business functions in new age digital tools and technologies. The Business continues to collaborate with partners from the start-up ecosystem, as well as established solution providers, in building scalable solutions that are custom-fit to business requirements. Over 100 use cases have already been developed and implemented across multiple spheres of the Business, aiding in margin expansion.

Your Company continues to procure its wood requirements from sustainable sources. Research on clonal development has resulted in introduction of high-yielding and disease-resistant clones that are adaptable to a wide variety of agro-climatic conditions which aid in increasing farmer income whilst securing greater consistency in earnings. In this context, your Company's Life Sciences & Technology Centre is engaged in developing higher yielding second generation clones with enhanced pest and disease resistant attributes.

Report of the Board of Directors

Your Company has the distinction of being the first in India to have obtained the Forest Stewardship Council-Forest Management (FSC[®]-FM) certification, which confirms compliance with the highest international benchmarks of plantation management across the dimensions of environmental responsibility, social benefit and economic viability. Till date, your Company has received FSC[®]-FM certification for close to 1.5 lakh acres of plantations involving over 25000 farmers. During the year, nearly 4.3 lakh tonnes of FSC[®]-certified wood was procured from these certified plantations. Your Company sustained its position as the leading supplier of FSC[®]-certified paper and paperboards in India.

Initiatives such as bund plantation and scaling up plantations in new catchment areas in Odisha and Chhattisgarh have enabled procurement of more than 10,000 MT of wood from these areas, with further potential for increasing cost-effective access to fibre in the future.

All manufacturing units of the Business continue to recycle nearly 100% of the solid waste generated during operations by converting the same into lime, fly ash bricks, cement, grey boards, egg trays etc. In addition, the Business recycled around 1.1 lakh tonnes of waste paper during the year, thereby sustaining your Company's positive solid waste recycling footprint.

The manufacturing facilities at Bhadrachalam, Kovai, Tribeni and Bollaram continue to receive industry recognition for their green credentials and safety standards in line with your Company's focus on sustainable business practices. The Bhadrachalam unit is the first pulp & paper plant and the second in the country overall, to be rated 'GreenCo Platinum+' by CII, as part of the Green Company rating system.

The Kovai unit has also been rated GreenCo Platinum+ by CII. The unit is the first site in India and the first paper mill in the world to achieve the highest platinum rating under the 'Alliance for Water Stewardship Standards'. Bhadrachalam and Kovai mills won awards for Excellence in Energy Management at the '23rd National Awards' for 'Excellence in Energy Management' in the Pulp & Paper sector. The Bhadrachalam unit was rated as the Winner in 'Within the Fence' category under CII-National awards for Water management.

The Business continues to strengthen its safety management processes, adopt globally recognised best practices and ensure that facilities are designed, constructed, operated and maintained in an inherently safe manner. Your Company continues to deploy various measures viz. use of Data Analytics Tools to identify risk prone areas for proactive mitigation of incidents, video analytics etc.

In line with the objective of enhancing the share of renewable energy in its operations, the Business has implemented several initiatives including investments in a green boiler, high pressure & efficiency circulating fluidised bed boiler, solar & wind energy and increased usage of bio-fuel. With these initiatives, renewable sources presently account for appx. 44% of total energy consumed at the four manufacturing units.

Augmentation of the Bleached Chemical Thermo Mechanical pulp production facility has been completed during the year. The project for augmenting chemical pulp capacity is also nearing completion. These initiatives will further enhance substitution of imported pulp, enhance support to Indian farmers and enable reduction in operating costs. The recently

commissioned state-of-the-art and future-ready High-Pressure Recovery Boiler at the Bhadrachalam mill is progressively enhancing energy efficiency and reducing the carbon footprint of the unit's operations by significantly lowering coal consumption by appx. 25%. These investments are a testament to your Company's commitment towards embedding sustainability in its operations and supporting the 'Make in India' initiative.

Going forward, paperboards demand is expected to be driven by end-user segments such as pharmaceuticals, apparels, FMCG, consumer durables and e-Commerce. Writing & Printing paper demand is also expected to remain firm on the back of demand from the publishing and notebooks industries driven by the Government's thrust on primary and secondary education.

The integrated nature of your Company's business model - comprising access to high-quality, cost competitive and renewable fibre supply chain, in-house pulp manufacturing capability, imported pulp substitution, world-class product quality, state-of-the-art manufacturing facilities, increasing usage of data analytics and Industry 4.0 technologies along with robust forward linkages with the Education and Stationery Products Business and the Packaging and Printing Business - is a key source of competitive advantage for your Company's Paperboards & Specialty Papers Business. Your Company is confident of further consolidating its leadership position in the Indian Paper and Paperboards industry leveraging recent investments in innovation platforms anchored on the development of sustainable products and cutting-edge digital technologies to set new benchmarks in customer satisfaction, operational excellence and sustainability.

Packaging and Printing

Your Company's Packaging and Printing Business is a leading provider of superior value-added packaging solutions leveraging its comprehensive capability-set spanning multiple technology platforms coupled with in-house cylinder making and blown film manufacturing lines. The Business caters to the packaging requirements of leading players across several industry segments viz. Food & Beverage, Personal Care, Home Care, Footwear, Consumer Electronics, QSR, Pharma, Liquor and Tobacco. It also provides strategic support to your Company's FMCG and Cigarettes Businesses by facilitating faster turnaround for new launches, providing innovative packaging solutions, facilitating packaging changes, ensuring security of supplies and delivering benchmarked international quality at competitive cost.

The year under review remained challenging for the Business due to unprecedented inflation in commodity prices. Notwithstanding the challenging operating environment, the Business remained resilient and registered robust growth in domestic and exports businesses.

Amidst heightened competitive intensity and sluggish economic conditions, the Business has been aggressively pursuing new business development opportunities across segments and has acquired several key accounts during the year.

The Business continues to craft innovative packaging solutions leveraging its deep understanding of end-user needs and the capabilities of your Company's Life Sciences and Technology Centre. Recognising the need for sustainable packaging and the emerging demand for plastic substitutes, the Business continues to leverage its flagship 'InnovPack' campaign and

is focusing on end-use segments with potential for rapid adoption of sustainable packaging and plastic substitution solutions. Along with a steady pipeline of pioneering solutions anchored on molecular science research such as 'Bioseal' (compostable packaging solution), 'Oxyblock' (recyclable coating solution to enhance barrier properties in packaging) and 'Germ free coating' (solution for microbial free packaging surface addressing the consumer consciousness towards hygiene and safety), the Business has also pioneered several innovative solutions towards 'Reducing, Reusing and Recycling' of plastic substrates which are under various stages of commercialisation. Going forward, the Business will continue to invest resources to develop sustainable packaging solutions.

The Business continues to be acknowledged as a 'first choice packaging partner' by several reputed FMCG companies in the country for providing superior and cost-effective packaging solutions across areas such as sustainable packaging, superior structural design and enhanced security features. The Business continues to deploy several operational excellence tools along with focused interventions in the areas of efficiency improvement, waste reduction, quality improvement and employee skill building. The Business also continues to be amongst the top ranked global packaging companies on productivity parameters as per the latest International Packaging Group and International Flexibles Packaging Network rankings. During the year, the Business received global recognition and was adjudged winner at the prestigious WorldStar Global Packaging Awards (two awards for pack premiumisation and three for sustainability) and also won nearly 50 national level awards such as the IndiaStar awards, Printweek

awards, IFCA Star awards and SIES SOP Star awards for its excellence in packaging under various categories including sustainability and eco-friendly packaging.

To cater to its growing customer base in Western region and to further improve customer service levels, the Business has commissioned a greenfield manufacturing plant in Nadiad, Gujarat with state-of-the-art equipment for the Cartons packaging platform. Capacity utilisation at the facility is expected to be progressively scaled up going forward.

All four units of the Business are certified as per the Integrated Management System, consisting of ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018. The cartons packaging lines in both the Tiruvottiyur and Haridwar units received the 'Grade A' and the Nadiad unit received 'Grade AA' Brand Reputation Compliance Global Standards (BRCGS) certification, for global standards in packaging and packaging materials - a key enabler for supplies to the packaged foods industry. The Tiruvottiyur unit received the Gold Award for Excellence in EHS from CII.

The Packaging and Printing Business of your Company has established itself as a one-stop packaging solutions provider, offering a wide range of innovative products to cater to the evolving requirements of customers across industries. With world-class technology across a diverse range of packaging platforms, innovative sustainable packaging solutions, best-in-class quality management systems, focused investments in skill development and a distributed manufacturing footprint, the Business is well positioned to grow its marquee customer base while continuing to service the requirements of your Company's FMCG Businesses.

AGRI BUSINESS

Leaf Tobacco

Flue Cured Virginia (FCV) tobacco production in 2022 largely remained at similar levels as that of the previous year with weather conditions adversely impacting crop output in certain origins. The trend of global customers increasing the share of sourcing requirement from suppliers with higher order sustainability credentials gained further momentum during the year. This, coupled with lower FCV supplies from major supply origins such as Brazil provided an opportunity to enhance share in exports which was effectively leveraged by your Company to register robust growth in exports.

The Business continued to leverage its crop development expertise, superior product quality, world-class processing facilities and strong sustainability credentials to strengthen its position as a reliable supply chain partner for global customers. Deeper farmer & customer engagement, operational agility and supply chain efficiency enabled the Business to deliver enhanced value to existing customers and consolidate its pre-eminent position as the largest Indian exporter of unmanufactured tobacco.

The Business continues to make focused investments across the tobacco value chain anchored on the key vectors of Quality, Consistency, Compliance and Sustainability. Crop and region-specific agronomic practices continue to be deployed to cater to the emerging preferences of customers.

The Business continues to set benchmarks in leaf threshing operations through focused initiatives and innovative technological & digital solutions. Investments continue to be made in your Company's

Green Leaf Threshing plants (GLT) at Anaparti, Chirala and Mysuru towards delivering world-class quality and upgrading processing technology. The energy needs of all three GLTs are substantially met from renewable sources in line with your Company's philosophy of adopting a low-carbon growth path.

The Business remains committed to highest standards of EHS (Environment, Health, Safety) & Quality and continues to win recognition in these areas. During the year, the Business received an award for 'Most Innovative Best Practices' from CII and Platinum award for 'Systematic and Sustainable Energy Performance' from Society of Energy Engineers and Managers (SEEM). In addition, the Business received various awards at events organised by the Quality Circle Forum of India and CII for operational excellence.

Strategic cost management across the value chain continues to be a key focus area for the Business. The AI/ML powered real-time buying platform continues to be scaled up to facilitate efficient leaf tobacco buying across auction platforms. Several initiatives implemented in recent years have led to improved operating efficiencies in processing facilities and the supply chain.

Synergistic R&D initiatives with focus on varietal development, climate smart farming techniques and usage of water efficient technologies are being scaled up towards enhancing productivity & product quality, reducing cultivation costs and strengthening resilience of the value chain. The Business enabled farmers to successfully implement integrated energy management initiatives spanning energy conservation, increasing alternative fuel usage and energy plantations, towards achieving fuel self-sufficiency in the curing process of FCV. In addition to these initiatives, your Company is

taking up integrated watershed management programmes to ensure availability of water for irrigation during critical phases of the crop cycle.

A punitive and discriminatory taxation and regulatory regime on cigarettes, apart from providing a fillip to illicit trade and severely impacting the domestic legal cigarette industry, has also adversely impacted demand for the leaf tobacco crop grown in India over the years leading, inter alia, to severe stress on farmer earnings. Illicit cigarettes also continue to impact leaf tobacco trade as these products do not use Indian tobacco. Accordingly, a more balanced regulatory and taxation regime that cognises for the unique tobacco consumption pattern prevalent in India and the economic realities of the country is the need of the hour to support the Indian tobacco farmer and the 46 million livelihoods dependent on tobacco. Lower export incentives in India and high import duty levied in several markets, including the USA and Europe, have weighed on the competitiveness of Indian leaf tobacco exports. Restoring export incentives to earlier levels and necessary policy support to alleviate trade barriers would go a long way in enhancing the competitiveness of unmanufactured tobacco exports from India and contribute to increasing farmer earnings. Your Company continues to engage with policy makers on these matters. The recent stability in the taxation and regulatory regime on cigarettes has enabled engendering domestic demand for Indian tobaccos, while also enhancing farmer incomes.

Going forward, the Business will continue to provide strategic sourcing support to your Company's Cigarettes Business and consolidate its leadership position as a major exporter of quality Indian tobacco thereby catalysing the multiplier impact of increased farmer incomes on the rural economy. With its strong

R&D capability, sustainability leadership, unique crop development & extension expertise, state-of-the-art processing facilities and deep understanding of customer & farmer needs, your Company is well positioned to meet the current and emerging requirements of global customers and sustain its position as a world-class leaf tobacco organisation.

Other Agri Commodities

The operating environment was rendered challenging during the year against the backdrop of severe inflationary headwinds and concerns of food security that emerged due to geopolitical tensions and erratic weather patterns.

Notwithstanding the challenging operating environment, the Business leveraged market opportunities to deliver robust performance during the year. This was achieved on the back of your Company's strong farm linkages and sourcing networks, multi-modal logistics capability, agile supply chain operations, focused scale up of Value-Added Agri Products (VAAP) portfolio and deep customer relationships.

The scope and scale of operations of your Company's Agri Business have grown manifold over the years and currently encompass over 4.5 million tonnes of annual volume throughput in 22 states and over 20 agri-value chains. The strategic focus of the Business in recent years has been to accelerate growth by rapidly developing and scaling up VAAP straddling multiple value chains comprising Spices, Coffee, Frozen Marine Products and Processed Fruits amongst others. The portfolio continues to be rapidly scaled up, leveraging your Company's deep rural linkages and extensive sourcing expertise enabling traceable, attribute based and identity-preserved

sourcing of agri-commodities, besides value addition through processing.

- Your Company is a leading player in whole spices such as Chilli, Turmeric, Coriander and Cumin. In line with its strategy of enhancing value addition and ‘producing the buy’, the Business has, in recent years, scaled up its presence in ‘food safe’ markets viz. USA, EU and Japan, leveraging its key strengths such as identity-preserved sourcing expertise, strong backward integration, custody of supply chain and customer focused strategies. During the year, the Business consolidated its position as a preferred supplier in the food safe segment, private labels, steam sterilised and organic products. Addition of new export customers, improved product mix and higher offtake from large format players in modern retail and e-Commerce segments aided growth. The Business scaled up its Integrated Crop Management (ICM) programme, thereby enhancing its ability to produce food safe spices in a sustainable manner. The Business continues to partner with the various State Governments for production of food safe spices and has maintained an unblemished track record over the years in terms of compliance with stringent food safety parameters. The Business continues to pursue sustainable farm management practices anchored on Rainforest Alliance and Global GAP accreditation.

In this context, during the year, your Company has commissioned a world-class, state-of-the-art Spices processing facility in Andhra Pradesh. This facility, compliant with Global Food Safety standards, will enable your Company in expanding its customer base in food safe export markets, besides promoting inclusive spices value chains benefiting thousands of Indian farmers.

- During the year, Coffee prices remained volatile in the international markets due to supply uncertainties in Brazil & Vietnam and muted demand in Europe due to recessionary trends. In the domestic market, lower availability of the crop led to high prices impacting demand. Notwithstanding these challenges, the Business registered strong growth leveraging its strategic presence in key coffee producing regions in India, deep understanding of estate and region-specific varieties and focus on premium grades of Arabica, Certified Coffees, Specialty and Monsooned Coffee. Apart from servicing the needs of leading coffee houses in the value-added space, the Business continues to source high quality coffee grades customised to the needs of your Company’s gourmet coffee brand, ‘Sunbean’.
- Your Company is one of the leading exporters of value-added frozen marine products from India with expertise in processing individually quick-frozen (IQF), raw and cooked products, which adhere to the highest standards of safety and hygiene prevalent in developed markets such as the US, EU and Japan. During the year, the Business expanded its value-added shrimp portfolio to include Aquaculture Stewardship Council (ASC) certified products for EU markets. Leveraging its strong domain knowledge and sourcing expertise, the Business also supports the ‘ITC Master Chef’ range of ‘Super Safe’ frozen prawns in the domestic market and supplies high-quality shrimps to your Company’s Hotels Business.
- In the Processed Fruits & Vegetables segment, the Business continues to expand its footprint in categories of fruit pulp and tomato paste across conventional and certified segments through a robust collaborative network comprising a large

number of small and marginal farmers across four states.

The Business remains focused on expanding its scope of operations across identified agri commodities, including both fresh and processed products. As these businesses develop critical mass, the Business is also scaling up end-to-end presence across the value chain, supported by the R&D capabilities of your Company's Life Sciences and Technology Centre and external collaborations.

The Business is also scaling up its customised crop development programme in Madhya Pradesh to build deeper expertise in Medicinal and Aromatic Plant Extracts (MAPE). Collaborations with farmers are underway with the Business providing necessary inputs, advisory and on-field support. The Business is also focusing on developing unique value-added products by leveraging the research platforms of your Company's Life Sciences and Technology Centre.

Towards enhancing the competitiveness of domestic agri-value chains, strengthening market linkages and further augmenting value creation opportunities, your Company has successfully scaled up ITCMAARS – a crop-agnostic full stack AgriTech platform, together with a 'phygital' ecosystem across nine states. Over 1150 Farmer Producer Organisations (FPOs) encompassing more than 5,00,000 farmers have been added to your Company's network within a short period since launch. By synergistically integrating NextGen agri technologies, this initiative is creating a robust ecosystem to seamlessly deliver hyperlocal and personalised solutions to the farming community, whilst creating new and scalable revenue streams, strengthening sourcing efficiencies and powering your Company's world-class Indian brands. These include an e-Marketplace for agri inputs and farm outputs,

wide range of advisory services covering weather forecasts, agronomy, best practices for improved productivity, quality assurance, etc. The Business expects to rapidly scale up the initiative to create a unique platform providing significant competitive advantage to your Company's Agri Business as also creating new revenue streams.

Over the years, your Company has invested significantly in building competitively superior agri-commodity sourcing expertise comprising multiple business models, wide geographical spread and customised infrastructure. Rapid adoption of analytics-led smart procurement tools has further augmented the aforesaid expertise. These capabilities and infrastructure have created structural advantages facilitating competitive sourcing of agri raw materials for your Company's Branded Packaged Foods Businesses.

- The Business continues to leverage its strong farm linkages and wide sourcing network across geographies to secure supplies of critical grades of wheat of benchmark quality towards meeting the growing requirements of Aashirvaad atta. During the year, the Business further scaled up its strategic sourcing and supply chain interventions. These include focused crop development towards securing the right varieties for Aashirvaad atta to provide consumers best-in-class product quality and experience, use of multi-modal transportation, cost optimisation through geographical and varietal arbitrage as also enabling supply of attribute based/identity preserved crop. The Business also ramped up direct buying at various atta factories and scaled up utilisation of railway rakes for wheat transportation, which aided in containing the impact of inflation in freight costs. At the Kapurthala ICML plant, for instance, direct buying of wheat

offers substantial benefits to farmers including transparency in grading, weighment and pricing, besides delayering operations and enhancing sourcing & logistics efficiencies. This initiative is being scaled up through focused crop development in the area to upgrade crop quality.

- The Business continues to leverage its strong backward linkages and wide sourcing network across geographies to source high-quality fruit pulp and frozen vegetables for your Company’s ‘B Natural’ and ‘Farmland’ brands.
- Milk procurement network in Bihar and West Bengal was strengthened during the year towards meeting the growing requirements of your Company’s Fresh Dairy portfolio under the ‘Aashirvaad Svasti’ brand, and in Punjab for ‘Sunfeast’ Dairy Beverages. The Business continues to empower farmers by providing infrastructure such as automated milk collection units & chillers and imparting package of best practices to improve operational efficiency, maintain high quality and ensure identity preservation and traceability. The capability to source superior quality milk has enabled the scale-up of ‘Aashirvaad Svasti Easy Digest Milk’ – West Bengal’s first lactose free milk in pouch format and ‘Sunfeast Protein Shake’ in the Fresh Dairy and Beverages categories respectively.
- The Business continues to scale up sourcing of spices to meet the growing requirements of Sunrise and Aashirvaad brands.

In recognition of the various initiatives undertaken by the Business to enable an agile, resilient and responsive sourcing and supply chain, your Company was recognised as the ‘Logistics and Supply Chain Innovation Company of the Year’ and ‘Best Innovator

in Data and Analytics’ by ET Ascent and has also received recognition for its excellence under the Food, Perishables, Beverages & FMCG category by the CII SCALE Awards, 2022.

The Business continues to collaborate with reputed research organisations such as the Indian Agricultural Research Institute, Indian Institute of Wheat & Barley Research, Indian Institute of Rice Research, Indian Institute of Soybean Research, Indian Institute of Vegetable Research, Punjab Agricultural University and Agharkar Research Institute towards building an efficient and cost competitive agri-value chain. During the year, the Business further scaled up its wheat crop development programme and introduced location-specific new and superior seed varieties along with appropriate package of practices across Rajasthan, Uttar Pradesh, Bihar, West Bengal, Punjab, Madhya Pradesh and Maharashtra. Sharp focus on deepening capabilities in proprietary crop intelligence, scaling up the sourcing & delivery network and developing customised blends will support your Company’s Branded Packaged Foods Businesses in the years to come.

As stated earlier, in line with your Company’s commitment to empower farmers, your Company has developed a millets agri-value chain with special thrust on enhancing value-addition and market linkages. Your Company is also promoting FPOs in millet farming anchored by ITCMAARS. The Business has implemented two Public-Private Partnerships projects in Maharashtra and Andhra Pradesh, in partnership with Indian Institute of Millets Research (IIMR), Hyderabad. Your Company remains committed to supporting the Government’s efforts to promote millets given their immense benefits in terms of nutritional properties and attributes as a planet friendly and climate resilient crop.

Report of the Board of Directors

Your Company remains focused on developing climate smart agriculture systems which address the environmental and social impacts of climate change, enhance the resilience of agri-value chains, enable higher productivity and boost farmer incomes whilst also reducing emissions. Towards increasing resilience of agri-value chains, your Company adopts a systematic approach including measuring climate risk impacts of key crop value chains, promoting climate resilient crop varieties, deploying agronomical practices to conserve soil and water usage, etc. For instance, in wheat, rice and soyabean crop value chains, the Business has been helping farmers adopt climate resilient varieties which are tolerant to various biotic and abiotic stress.

In line with the national goal of doubling farmers' income, your Company remains committed to catalyse a transformational shift of the agri ecosystem from the conventional production-centric to demand-responsive value chains. Towards this, the Business continues to focus on developing NextGen Indian agriculture, anchored on ITCMAARS and climate smart agri-value chains with strong market linkages. The focus of these interventions is to reduce vulnerability and increase the resilience of farmers, while lowering greenhouse gas emissions and promoting food security.

Surya Nepal Private Limited

The Nepalese economy grew by 5.6% during the fiscal year ended July 2022, as against a growth of 4.8% in the previous year. However, surging inflation on account of high fuel and other commodity prices spurred by geopolitical developments and external sector imbalances emerged as major challenges for the economy. Nepal Rastra Bank along with the Government of Nepal responded to these challenges through multiple policy actions such as increase in interest rates and imposition of restrictions on import of certain luxury goods from April to December 2022. These policy measures along with robust inward remittances helped stabilise the country's current account and balance of payments. Nepal's foreign exchange reserves increased to US\$ 10.7 billion in March 2023, from US\$ 9.5 billion in July 2022, representing around nine months of import cover.

Although the external sector has seen a marked improvement in the latter half of the period under review, high inflation, muted domestic demand and gradual unwinding of stimulus provided during the pandemic continues to pose significant challenges for the economy. As per a recent report from National Statistics Office, Nepal's GDP growth is estimated to remain subdued at 1.9% for the fiscal year ending July 2023. Measures towards encouraging Foreign Direct Investment (FDI) in the country, incentivising domestic manufacturing to substitute imports, promoting the hospitality sector which has significant potential to generate foreign exchange earnings and employment, on-ground implementation of reforms and promulgation of industry-friendly policies continue to remain the key imperatives for sustained economic growth.

The legal cigarette industry is a major contributor to the manufacturing sector of the country. The industry provides livelihoods, directly and indirectly, to more than five lakh farmers, farm workers and others engaged in the cultivation and trade of tobacco products. However, the legal cigarette industry continues to face significant challenges from a punitive and discriminatory taxation and regulatory regime. The company continues to engage with policy makers for equitable, non-discriminatory, pragmatic, evidence-based regulations and taxation policies that

balance the economic imperatives of the country and tobacco control objectives.

Despite a challenging economic environment, the company reinforced its market standing in the Cigarettes business by leveraging its robust portfolio, superior product quality and wide distribution network. Differentiated and innovative offerings launched under the 'Naulo' and 'Shaan' brand during the year received encouraging response.

The company's manufacturing systems continued to set new benchmarks in responsiveness, quality and productivity. Various initiatives such as installation of state-of-the-art technologies and process automation were implemented during the year which further strengthened the manufacturing capability of the company. Relentless focus on developing world-class products anchored on innovation and benchmarked international quality standards remains a key source of sustainable competitive advantage for the company.

During the year, the company continued to strengthen its market standing in the Agarbatti business leveraging its differentiated product portfolio, sharply focused marketing investments and best-in-class product availability across target markets. The product portfolio was augmented with the launch of new variants such as 'Pushpanjali', 'Indreni' and 'Champa Ziplock'.

The Confectionery business continues to make focused investments towards strengthening its market standing. During the year, two new flavours were launched - 'Toffichoo Chatpata Fun' and 'Toffichoo Tadka Lichhi' which have received encouraging consumer response.

The company continues to make multi-dimensional contributions towards building the societal and economic capital of Nepal. Key interventions are summarised below:

- create agri-infrastructure such as vermicompost pits and harvesting sheds for farmers near the company's operating locations,
- provide training to improve productivity and enhance income generation for farmers through

animal husbandry extension services to improve breeding, health and nutrition for livestock,

- enhance quality of education in public schools in the vicinity of the company's operating locations,
- develop public infrastructure in catchment areas of operating locations,
- participate in environment preservation through measures such as urban plantation, biodiversity preservation and solid waste management.

In addition to the above, the company partnered with the Nepal Army in its Mountain Clean-up campaign during the year which involved cleaning four mountain peaks including Mt. Everest.

During the year, the company recorded Revenue from Operations of NRs. 4953 crores (previous year NRs. 4382 crores) and Net Profit of NRs. 1088 crores (previous year NRs. 1005 crores).

The company is well-positioned to consolidate its leadership position by leveraging its robust portfolio of products, deep & wide distribution network, best-in-class manufacturing facilities and execution excellence while rapidly scaling up the newer FMCG businesses and evaluating emerging opportunities in this space. The company continues to be the largest contributor to the exchequer in Nepal.

ITC Infotech India Limited and its subsidiaries

The Indian Information Technology (IT) Industry remained resilient during the year in the backdrop of heightened uncertainty in the global economic environment. According to NASSCOM estimates, India's technology sector revenues grew by 8.4% in FY 2022-23 to US\$ 245 billion, with IT Services also growing at 8.3% on a high base. The technology industry continues to play a pivotal role in enabling organisations to accelerate digital transformation, optimise costs and enhance operational efficiencies.

Report of the Board of Directors

The company continues to sharpen its focus on the strategic pillars of Customer Centricity, Employee Centricity and Operational Excellence, while building differentiated offerings around the strategic areas of Cloud Technologies, Digital Workplace Solutions, Digital Manufacturing, Customer Experience and Data Analytics. During the year, the company recorded robust growth in revenue on the back of strong traction in the Americas, India and Rest of World markets. Industry 4.0 solutions and Digital Experience using data analytics and Infrastructure services were the key drivers of growth.

During the year, the company entered into a strategic partnership agreement with PTC Inc. to accelerate customer digital transformation initiatives and the adoption of PTC's industry-leading Windchill® product lifecycle management (PLM) software as a service (SaaS). Further, the company commenced a new service line 'Digital transforms Physical' (DxP) Services, comprising a global ecosystem of PLM-led Digital Thread and SaaS experts, bringing together professionals from both companies into a unified global practice which will create offerings, including the tooling and methodologies required, and execute programs to accelerate the adoption of PTC's next generation PLM solutions.

The company also continued to forge new alliances and strengthen existing relationships with Independent Software Vendors (ISVs) in focus areas such as Digital Workplace Solutions, Digital Manufacturing and Data analytics. These partnerships are aligned to the company's vision of taking a leadership role in enabling the Digital Transformation and SaaS adoption journey of its clients. The company also expanded its global footprint by setting up new subsidiaries and branches across several focus geographies.

To fulfil the demand for talent to support growing business requirements, the company continues to invest in hiring, training and retaining high-quality talent while shaping its differentiated employee value proposition built on the core tenets of a compelling purpose & culture, holistic well-being and global career opportunities. Further, the company's

'Hire-from-Anywhere' recruitment model continues to attract quality talent across Tier 1 and Tier 2 cities.

During the year, the company's consolidated Total Income grew by 16.6 % to ₹ 3363.06 crores (previous year ₹ 2884.30 crores). This was driven by the increasing traction in the company's strategic accounts as well as revenues from the DxP Services line. Profit Before Tax stood at ₹ 529.66 crores (previous year ₹ 719.64 crores) and Net Profit stood at ₹ 405.25 crores (previous year ₹ 541.04 crores) after considering certain costs associated with the Strategic Partner Agreement with PTC Inc., resource augmentation, steep escalation in manpower costs and accelerated investments in capability building in strategic focus areas and infrastructure.

Towards this, the company will continue to make client and employee-focused investments to enable clients accelerate their journey of growth and differentiation. An endorsement of this strategy has been the winning of a significant multi-million, multi-year engagement during the year, with an existing marquee client which will bolster mid-term revenue growth.

Technico Agri Sciences Limited

During the year under review, potato production in India stood at 51 million MT, lower by 5% compared to the previous year. The drop in crop production led to stocks being warehoused in anticipation of higher post-harvest prices. However, as the year progressed, demand for seeds remained subdued on account of lower planting due to heavy and continuous rains. This resulted in a pile up of seed inventory in cold stores, leading to a drop in seed prices during the peak selling season.

Amidst a challenging operating environment as aforesaid, the company delivered resilient performance by leveraging institutional strengths,

strong market linkages, superior product quality and wide distribution network.

The company's leadership in production of early generation seed potatoes and strength in agronomy continue to support the 'Bingo!' range of potato chips of your Company and in servicing the seed potato requirements of the farmer base of your Company's Agri Business.

The company's Revenue from Operations stood at ₹ 257.77 crores (previous year ₹ 256.67 crores) with Net Profit of ₹ 41.38 crores (previous year ₹ 43.04 crores). Total Comprehensive Income for the year stood at ₹ 41.42 crores (previous year ₹ 43.04 crores).

The company continues to build on a strong foundation for the future and remains confident of effectively leveraging its deep domain expertise to fortify its market standing in the seed potato industry.

Technico Pty Limited and its subsidiaries

The company continues to focus on upgradation and commercialisation of its TECHNITUBER® Seed Technology and customising its application across various geographies. Further, the company is also engaged in the marketing of TECHNITUBER® seed produced at the facilities of its subsidiaries in China and Canada and Technico Agri Sciences Limited, India, a wholly-owned subsidiary of your Company, to global customers. For the year under review:

- a. Technico Pty Limited, Australia registered a turnover of Australian Dollar (A\$) 1.83 million (previous year A\$ 1.86 million) and a Net Profit of A\$ 1.04 million (previous year A\$ 0.91 million).
- b. Technico Asia Holdings Pty Limited, Australia, Technico Technologies Inc., Canada and Technico Horticultural (Kunming) Co. Limited, China – there were no significant events to report with respect to the above companies.

WelcomHotels Lanka (Private) Limited

WelcomHotels Lanka (Private) Limited (WLPL), a wholly-owned subsidiary of your Company, was incorporated in Sri Lanka in April 2012, with the objective of developing and operating a mixed-use development project ('Project') comprising a luxury

Report of the Board of Directors

hotel and a super-premium residential apartment complex, situated on 5.86 acres of prime sea-facing land in Colombo.

The Project has been accorded the status of a 'Strategic Development Project' entitling the company to various fiscal benefits in Sri Lanka. Further, the Project is also exempt from Sri Lankan foreign exchange regulations.

Project construction activity, which was running on schedule till Q3 of FY 2018-19, was adversely impacted due to disruptions in the aftermath of the terror incidents in 2019, recurrent waves of the COVID pandemic and thereafter by the challenging socio-economic and operating conditions prevailing in the country over the last 18 months. The situation in the country is progressively returning to normalcy. The Government of Sri Lanka has undertaken several steps to stabilise the economy; these include securing financial assistance from multi-lateral agencies and other countries, increasing interest rates to curb inflation, restricting non-essential imports to conserve foreign exchange, introduction of taxes to boost Government revenues, etc. During the year, Sri Lanka secured a 48-month Extended Fund Facility from the International Monetary Fund of US\$ 2.9 billion to support Sri Lanka's economic policies and reforms.

Amidst the aforementioned challenges and operational constraints, the company remains focused on completing the Project in an expeditious manner. While the macro-economic challenges faced by the country have impacted the sales velocity of 'The Sapphire Residences' luxury apartments, given its unique positioning in the market and superior value proposition, the company expects the same to gain momentum with improved stability in the macro-economic environment and as the project nears completion, in line with the trend in other projects in Colombo.

Your Company's investment in WLPL stood at ₹ 2775 crores as at 31st March, 2023.

Landbase India Limited

The company owns and operates the Classic Golf & Country Club, a 27-hole Jack Nicklaus Signature Golf

Espirit Hotels Private Limited

Espirit Hotels Private Limited (EHPL) was set up as a joint venture between your Company and the Ambience Group, Hyderabad, for developing a

luxury hotel complex at Begumpet, Hyderabad. Under the terms of the Joint Venture Agreement, your Company had acquired 26% equity stake in EHPL. Your Company's investment in EHPL stood at ₹ 46.51 crores as at 31st March, 2023.

As reported in prior years, the Ambience Group had expressed its desire to review the timing of further investments in EHPL, citing concerns about the viability of the project in view of the challenging economic environment and the sluggish demand conditions currently prevailing in the relevant market.

Your Company had been exploring its options in this regard.

On 7th April, 2023, your Company divested its entire shareholding i.e. 26% of the paid-up share capital, held in EHPL, consequent to which EHPL ceased to be a joint venture of your Company with effect from the said date.

Logix Developers Private Limited

Logix Developers Private Limited (LDPL) is a joint venture between your Company and Logix Estates Private Limited for developing a luxury hotel-cum-service apartment complex at the company's leasehold site located at Sector 105 in New Okhla Industrial Development Authority (NOIDA). Your Company presently holds 27.9% equity stake in LDPL.

As reported in prior years, your Company reiterated its position with the JV partner that it was committed to developing a luxury hotel-cum-service apartment complex as envisaged under the JV Agreement and that it was not interested in progressing with any alternative project plans proposed by the JV partner. However, the JV partner refused to progress the project and instead expressed its intent to exit from the JV by selling its stake to your Company.

Subsequently, the JV partner proposed that both parties should find a third party to sell the entire shareholding in LDPL. In view of these developments, your Company had filed a petition before the erstwhile Company Law Board submitting that the affairs of the JV entity were being conducted in a manner that was prejudicial to the interest of your Company and the

JV entity. The matter is currently before the National Company Law Tribunal (NCLT). The JV partner had also filed a petition before the Honourable Delhi High Court for winding up the JV company, which was transferred to the NCLT by the Honourable Delhi High Court. The matter was heard before the NCLT on several occasions in the past but could not be concluded. On 21st January, 2020, the matter was assigned to a new bench, post which hearings on the matter are being held.

In July 2022, LDPL received a communication from NOIDA authorities intimating cancellation of the sub-lease for the land on which the project was to be constructed on account of non-payment of lease instalments and non-fulfilment of the conditions of the sub-lease, including forfeiture of the amount deposited. The company is evaluating all options to pursue its rights in the matter. Consequently, as a matter of prudence, the company had derecognised the leasehold land/assets as well as adjusted/reversed the lease liabilities towards NOIDA in accordance with the terms of the sub-lease deed, as an adjusting event in terms of Ind AS 10 – “Events after the Reporting Period” in its financial statements for the year ended 31st March 2022.

During the year ended 31st March, 2023, the company recorded a Net profit of ₹ 0.16 crore (previous year ₹ 152.56 crores, including exceptional item of ₹ 152.45 crores on account of aforesaid derecognition/adjustment of balances in respect of leasehold land). The Net Worth of the company stood at ₹ 5.10 crores as at 31st March, 2023 (previous year ₹ 4.94 crores).

Your Company’s total investment in LDPL was ₹ 41.95 crores. Your Company had made provisions aggregating ₹ 33.45 crores towards diminution in the carrying value of investment in LDPL in the previous years and has made additional provision of ₹ 8.50 crores in the current year. Consequently, the carrying value of your Company’s investment in LDPL as at 31st March, 2023, is Nil.

The financial statements of LDPL for the year ended 31st March, 2023, are yet to be approved by its Board of Directors. In the absence of audited financial

statements of LDPL, the Consolidated Financial Statements of your Company for the year ended 31st March, 2023, have been prepared based on the financial statements prepared by the management of LDPL.

INTERNAL FINANCIAL CONTROLS

The Corporate Governance Policy guides the conduct of affairs of your Company and clearly delineates the roles, responsibilities and authorities at each level of its three-tiered governance structure and key functionaries involved in governance. The ITC Code of Conduct commits management to financial and accounting policies, systems and processes. The Corporate Governance Policy and the ITC Code of Conduct stand widely communicated across the enterprise at all times and together with the Strategy of Organisation, Planning & Review Processes and the Risk Management Framework provide the foundation for Internal Financial Controls with reference to your Company's Financial Statements.

Such Financial Statements are prepared on the basis of the Significant Accounting Policies that are carefully selected by management and approved by the Audit Committee and the Board. These Policies are supported by the Corporate Accounting and Systems Policies that apply to the entity as a whole to implement the tenets of Corporate Governance and Significant Accounting Policies uniformly across your Company. The Accounting Policies are reviewed and updated from time to time. These, in turn, are supported by a set of Divisional policies and Standard Operating Procedures (SOPs) that have been established for individual Businesses.

Your Company uses Enterprise Resource Planning (ERP) systems as a business enabler and also to maintain its books of accounts. The SOPs, in tandem with transactional controls built into the ERP systems, ensure appropriate segregation of duties, tiered approval mechanisms and maintenance of supporting records. The Information Management Policy reinforces the control environment. The systems, SOPs and controls are reviewed by Divisional management and audited by Internal Audit, whose findings and recommendations are reviewed by the Audit Committee and tracked through till implementation.

Your Company has in place adequate internal financial controls with reference to the Financial Statements. These have been designed to provide

reasonable assurance with regard to recording and providing reliable financial information; complying with applicable statutes; safeguarding assets from unauthorised use; ensuring that transactions are carried out with adequate authorisation and complying with Corporate Policies and Processes. Such controls have been assessed during the year, after taking into consideration the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by The Institute of Chartered Accountants of India. Based on the results of such assessment carried out by management, no reportable material weakness or significant deficiency in the design or operation of internal financial controls was observed. Nonetheless, your Company recognises that any internal control framework, no matter how well designed, has inherent limitations and accordingly, regular audit and review processes ensure that such systems are reinforced on an ongoing basis.

RISK MANAGEMENT

As a diversified enterprise, your Company continues to focus on a system-based approach to business risk management. The management of risk is embedded in the corporate strategies of developing a portfolio of world-class businesses that best match organisational capability with opportunities in domestic and international markets, developing capabilities and competencies for the future in order to enhance competitiveness and win in the markets of tomorrow. Accordingly, management of risk has always been an integral part of your Company's 'Strategy of Organisation' and straddles its planning, execution and reporting processes & systems. Backed by strong internal control systems, the current Risk Management Framework consists of the following key elements:

- The Corporate Governance Policy, approved by the Board, clearly lays down the roles and responsibilities of the various entities in relation to risk management covering a range of responsibilities, from the strategic to the operational. These role definitions, inter alia,

Report of the Board of Directors

provide the foundation for appropriate risk management procedures, their effective implementation across your Company and independent monitoring and reporting by Internal Audit.

- The Risk Management Committee, constituted by the Board, monitors and reviews the strategic risk management plans of your Company as a whole and provides necessary directions on the same.
- The Corporate Risk Management Cell, through focused interactions with Businesses, facilitates the identification and prioritisation of strategic and operational risks, development of appropriate mitigation strategies and conducts periodic reviews of the progress on the management of identified risks.
- A combination of centrally issued policies and Divisionally-evolved procedures brings robustness to the process of ensuring that business risks are effectively addressed.
- Appropriate structures are in place to proactively monitor and manage the inherent risks in businesses with unique/relatively high risk profiles.
- Foreign currency exposures continue to be managed within the framework of the Forex Manual.
- A strong and independent Internal Audit function at the Corporate level carries out risk focused audits across all Businesses, enabling identification of areas where risk management processes may need to be strengthened. The Audit Committee of the Board reviews Internal Audit findings and provides strategic guidance on internal controls. The Audit Compliance Review Committee closely monitors the internal control environment within your Company including implementation of the action plans emerging out of internal audit findings.
- At the Business level, Divisional Auditors continuously verify compliance with laid down policies and procedures and help plug control gaps by assisting operating management in the formulation of control procedures.

- A robust and comprehensive framework of strategic planning and performance management ensures realisation of business objectives based on effective strategy implementation. The annual planning exercise requires all Businesses to clearly identify their top risks and set out a mitigation plan with agreed timelines and accountabilities. Businesses are required to confirm periodically that all relevant risks have been identified, assessed, evaluated and that appropriate mitigation systems have been implemented.

Your Company endeavours to continuously sharpen its Risk Management systems and processes in line with a rapidly changing business environment. In this regard, it is pertinent to note that some of the key Businesses of your Company have adopted the ISO 31000 Risk Management Standard and accordingly, the Risk Management systems and processes prevalent in these Businesses have been independently assessed to be compliant with the said global Standard on Risk Management. During the year, three Businesses were assessed for compliance with ISO 31000 Risk Management Standard. This is in addition to the nine Businesses which had previously been assessed for such compliance. The centrally anchored initiative of conducting independent external reviews of key business processes with high 'value at risk' continued during the year. These interventions continue to provide further assurance on the robustness of risk management practices prevalent in your Company.

Recognising Digital as a megatrend shaping the future, your Company remains focused on building a dynamic 'Future-Tech' enterprise powered by state-of-the-art digital technologies and infrastructure across the value chain adding significant impetus to digital marketing, digital commerce and digital operations. Your Company has made several interventions straddling strategic impact areas such as Intelligent new-age insights that reimagine Consumer Experience, Business Model Transformation, Smart Operations and Employee Experience, which continue to be scaled up across your Company. Cutting-edge digital technologies such as Internet of Things (IoT), Data Analytics, Artificial Intelligence/Machine Learning, Augmented/

Virtual Reality, Robotic Process Automation, mobile applications etc., are being embraced by your Company's Businesses. Cumulatively, these are resulting in changes in the risk profile of your Company in a heightened cyber threat environment. The ever-evolving nature of cyber threats and the increased sophistication of attackers make cyber security risk management a critical focus area for the organisation.

A Cyber Security Committee, chaired by the Chief Information Officer, is in place to provide specific focus on cyber security related risks, with the primary responsibility of tracking emerging practices & technologies and providing suitable recommendations for enhancing security of the IT systems and infrastructure.

A multi-tier cyber defence architecture comprising firewalls, anti-virus and anti-malware systems is in place to detect, protect and respond to cyber incidents at various access and data processing points across the organisation. The security policies and practices of the organisation are built on industry standard frameworks such as NIST Cyber Security Framework and ISO 27001. The robustness of the security posture is also premised on end user awareness of safe and secure practices.

Further interventions are underway to enhance surveillance and response capabilities with augmentation of cutting-edge technologies and skills of a Next Generation Cyber Security Operations Centre (SOC). With progressive transitioning of mission-critical data and transaction processing workloads to the Cloud, the network infrastructure of the organisation is also being transformed using contemporary network and security technologies into a Digital-Ready, Cloud-Secure wide area network, to provide all authorised users fast, reliable and safe connections from anywhere through any device and at any time.

During the year, a maturity assessment of the Cyber Security architecture of your Company was carried out by a global network and security solutions provider. As per the study, your Company's Cyber Security Systems and Processes are benchmarked to global majors and outperformed local peers.

Information Technology-Operational Technology (IT-OT) integration for Industrial Control Systems has been identified as a focus area as the convergence and integration between IT and OT is increasing exponentially. Related guidelines have been formulated towards ensuring that your Company's systems & processes remain contemporary and have best-in-class capabilities.

India ranks amongst the most vulnerable countries around the world in terms of climate change impact. Accordingly, to mitigate the impact of climate change on the operations of your Company, as part of its Sustainability 2.0 vision, your Company is pursuing a multi-pronged climate strategy that entails extensive decarbonisation and building resilience against climate risk across the value chain. Your Company's low carbon growth approach focuses on increasing the share of renewable energy, improving energy productivity, construction of green buildings, greening logistics, optimising 'distance-to-market' and promoting regenerative agriculture practices in agri-value chains, thus enabling transition to a net zero economy. At the same time, your Company is actively working towards climate proofing its operations and agri-value chains by using latest climate risk modelling techniques, and developing site-specific adaptation strategies.

Your Company sources several commodities for use as inputs in its Businesses and also engages in agri-commodity trading as part of its Agri Business. In respect of commodities sourced for use as inputs in its Businesses, your Company has well laid out policies to manage risks arising out of the inherent price volatility associated with such commodities. This includes robust mechanisms for monitoring market dynamics towards making informed sourcing decisions, well defined inventory holding norms based on considerations such as seasonality and the strategic nature of the commodity concerned, long-term contracts with suppliers and continuously diversify supplier base to secure supply of critical items at competitive costs. Multiple sourcing models, wide geographical spread, extensive sourcing and supply chain network and associated infrastructure

Report of the Board of Directors

in key growing areas coupled with deep-rooted farmer linkages ensure sourcing of high quality agri-commodities at competitive costs.

In respect of Agri-commodity trading, your Company has a well laid out policy to manage risks associated with sourcing of such commodities. This includes:

- segregation of duties and robust internal controls through a system of checks and balances embedded in the organisation and governance structure;
- clearly defined limits for trading position (long and short) and net cash loss for specific commodities/ commodity groups;
- mitigation of price, liquidity and counter party risks through hedging on commodity exchanges (mainly NCDEX) for certain commodities, as applicable. Correlation between prices prevailing in the physical market and those on the commodity exchange is analysed regularly to ensure effectiveness of hedging;
- robust monitoring and review mechanisms of net open positions and 'value at risk'.

The combination of policies and processes as outlined above adequately addresses the various risks associated with sourcing of commodities for your Company's Businesses.

Your Company's strategy of backward integration in sourcing of agri-commodities such as wheat, potato, fruit pulp, spices, milk and leaf tobacco; in-house manufacturing of paperboards, paper and packaging (including pulp production and print cylinder making facilities); wood procurement from the economic vicinity of the Bhadrachalam unit, facilitates access to critical inputs at benchmark quality and competitive cost besides ensuring security of supplies. Further, each of your Company's Businesses continuously focuses on product mix enrichment and yield improvement towards protecting margins and insulating operations from spikes in input prices.

The Risk Management Committee met thrice during the year and was updated on the status and effectiveness of the risk management plans. The Audit Committee

was also updated on the effectiveness of your Company's Risk Management systems and policies.

The risk management practices of your Company, as reviewed through the Risk Management Cell and Internal Audit processes, have been found to be relevant and commensurate with the size and complexity of its operations.

AUDIT AND SYSTEMS

Your Company believes that strong internal control systems that are commensurate with the scale, scope and complexity of its operations are concomitant to the principle of governance that freedom of management should be exercised within a framework of appropriate checks and balances.

Your Company remains committed to ensuring a mature and effective internal control environment that, inter alia, provides assurance on orderly and efficient conduct of operations, security of assets, prevention and detection of frauds/errors, accuracy and completeness of accounting records and Management Information Systems, timely preparation of reliable financial information, adherence with relevant statutes and compliance with related party transactions.

Your Company's internal control systems include documented policies and procedures, segregation of duties and careful selection and development of employees.

Your Company's independent and robust Internal Audit processes, both at the Business and Corporate level, provide assurance on the adequacy and effectiveness of internal controls, compliance with operating systems, internal policies and regulatory requirements. The role of Internal Audit is to enhance and protect organisational value by providing risk-based assurance, advice and insight while enabling continuous improvement of your Company's control systems.

The Internal Audit function, consisting of professionally qualified accountants, engineers and Information Technology (IT) specialists, is adequately skilled and resourced to deliver audit assurances at highest levels. Targeted Learning and Development

programmes on contemporary topics are periodically organised to enhance knowledge and skill sets.

In the context of your Company's IT environment, systems and policies relating to Information Management are periodically reviewed and benchmarked for contemporariness. Compliance with the Information Management policies receives focused attention of the Internal Audit function.

With the increased importance of information security, cyber security and adoption of emerging technologies, focused reviews are carried out for IT applications and processes across Businesses. These primarily focus on assessment of controls pertaining to confidentiality, integrity and availability of business information and systems covering General IT Controls and security of your Company's IT Infrastructure. All critical Business-led Information Technology systems undergo pre-implementation audit before being deployed in the operating environment, thereby delivering assurance with respect to the rigour of implementation and operational readiness of the proposed systems.

The scope and coverage of Internal Audit continues to remain contemporary and includes, inter alia, assessment of emerging risks in the social media ecosystem, cloud infrastructure, robotic process automation, information technology-operational technology (IT-OT) integration and protection of sensitive personal data and information.

Qualified engineers in the Internal Audit function review the quality of design, planning and execution of all ongoing projects involving significant expenditure to ensure that project management controls are adequate and yield 'value for money'. Internal Audit continues to use state-of-the-art tools and software for conducting project audits.

Your Company's Internal Audit function has implemented a 'hybrid' audit approach, involving a combination of onsite and offsite audits, to further enhance productivity and optimise costs. Processes in the Internal Audit function are continuously strengthened for enhanced effectiveness and

productivity including the deployment of contemporary best-in-class tools for audit analytics.

Your Company's Internal Audit processes are certified as complying with ISO 9001:2015 Quality Standards. Further, systems and processes are in accordance with the Standards on Internal Audit (SIA) issued by The Institute of Chartered Accountants of India.

The Audit Committee of your Board met seven times during the year. The Terms of Reference of the Audit Committee, inter alia, include reviewing the effectiveness of the internal control environment, evaluation of your Company's internal financial controls, and risk management systems, monitoring implementation of the action plans emerging out of review of significant Internal Audit findings including those relating to strengthening of your Company's risk management systems and discharging of statutory mandates. Material observations (as defined in Terms of Reference) are reviewed at the highest level by the Audit Compliance and Review Committee (ACRC) and the Audit Committee.

HUMAN RESOURCE DEVELOPMENT

The talent management strategy of your Company focuses on sustaining ITC's position as one of India's most valuable corporations, remaining customer-centric, nimble and performance driven whilst continuing with its mission of building a responsible 'Future-Tech' enterprise. Your Company's thought, strategy and action are inspired by a larger purpose of being an exemplary Indian enterprise that not only pursues agile innovation for competitive advantage, but also embeds sustainability and inclusiveness at the core of its Businesses. This approach has enabled it to create enduring value for the Indian economy and the larger community of stakeholders, while delighting consumers with a vibrant portfolio of best-in-class products and services. Your Company's employees relentlessly strive to deliver world-class performance, foster team spirit and discharge their role as 'trustees' of all stakeholders. Your Company is committed to perpetuating this vitality – its growth as a value generating engine and also as an exemplary

Report of the Board of Directors

institution – so that it continues to succeed in its relentless pursuit of creating enduring value.

Your Company's Human Resources development approach spans four key organisational dimensions of Agility, Alignment, Ability and Architecture which are supported through strategies crafted in areas of impact such as talent acquisition, engagement, diversity & inclusion, capability building, employee relations, performance & rewards and employee well-being. The initiatives and processes of your Company strive to deliver the unique talent promise of Building Winning Businesses, Building Business Leaders and Creating Value for India. The talent development practices help create, foster and strengthen the capability of human capital to deliver critical outcomes on the vectors of strategic impact, operational efficiency and capital productivity while reimagining consumer experience, driving business model transformation and enhancing employee experience.

Your Company's 'Strategy of Organisation' is designed to promote agility through a culture and practice of distributed leadership enabled by a three-tier governance structure. This is manifested in market and consumer facing Businesses, which are driven by empowered, cluster-based teams and supported by shared assets and capabilities, enabling strategic relevance, speed, responsiveness, and operational excellence. This approach allows Businesses, through their Management Committees, to focus, develop and execute Business Plans relevant to their product-market spaces while leveraging the institutional strengths of your Company and harvesting internal synergies.

While the year under review witnessed recovery from the pandemic, geopolitical developments and volatility in the macro-economic environment impacted the overall talent market. Workforce readjustment, moderation of start-up opportunities, flexible work configurations, increased female participation in the workforce and a growing focus on reskilling were some of the year's defining developments. Industry attrition levels, which witnessed significant increase during the year, are expected to soften with global

technology companies rationalising their workforce and global entities experiencing growth challenges in certain primary markets. Your Company's unique employer equity as an exemplary Indian enterprise creating world-class brands, building business leaders and generating economic, social and environmental capital for the Indian economy, continues to play a vital role in the attraction and retention of high-quality talent. The management trainee programme, augmented with recruitment of experienced talent from the market, is an integral part of the leadership pipeline development process. Your Company continues to draw the finest management, technical and commercial talent from premier institutions in the country and is ranked amongst the leading companies in these institutions. Intensive engagement with the country's premier academic institutions over the years to communicate your Company's talent proposition through case-study competitions, knowledge-sharing programmes by senior managers and the annual internship programmes have all contributed to creating a compelling proposition for the best candidates to aspire for a career with your Company. Your Company continues to enthuse talent with high-impact roles, competitive and performance driven remuneration with an emphasis on long-term incentives, a wealth of learning opportunities, a commitment to enhancing diversity, equity & inclusion, an employee-centric climate, well-being focused infrastructure and support that promotes fellowship and commitment amongst employees.

Your Company's talent development approach is founded on the belief that learning initiatives must remain synergistic and aligned to business outcomes. Towards this end, your Company has built a culture of continuous learning, innovation and collaboration. Your Company provides managers with contemporary and relevant learning and development support through a combination of classroom programmes, on-the-job assignments, self-paced e-learning modules and application projects with emphasis on experiential learning and exposure to nationally and globally renowned faculty. Deep functional expertise is fostered early in one's career through immersion in complex problem-solving

assignments requiring the application of domain expertise. Managers are assessed on your Company's behavioural competency framework and provided with learning and development support to address areas identified for improvement. Key talent is provided critical experiences in high-impact roles and mentored by senior managers, promoting the development of a steady pool of high-quality talent.

Your Company has identified three capability platforms relevant to making Businesses future-ready – Business Critical Strategic Competencies, Leadership Development and Organisation Identity & Pride. Capability needs, vitally significant to competitive performance, are identified for talent cohorts across domains. These include Marketing Strategy, Data Science and Analytics, Marketing in a Digital world, Business Strategy and Commercial Acumen. Globally benchmarked curriculums are designed in these domains, delivered through internationally renowned faculty and supplemented with business-critical application projects. Similarly, as a part of leadership development initiatives, the Reflections 360 programme comprising feedback from team members, peers and managers enables personal development of employees. This approach, collectively ensures relevance and impact, thereby enhancing the capability index of your Company's human capital. Periodic induction programmes, anchored by senior leaders, are conducted to enable new entrants to appreciate your Company's Vision, Mission, Culture, Values and Strategies while fostering pride in affiliation with your Company.

Your Company continues to strengthen its performance management system and its culture of accountability through the widespread adoption of the system of Management-by-Objectives. Performance planning through clearly defined goals, outcome-based assessment, and alignment of rewards for achievement of results have all contributed to a robust culture of ownership and accountability. 'Career Conversations' and succession planning processes have contributed to helping employees realise their potential, craft their careers while recognising their strengths and areas of development and ensuring a sound workforce planning system.

In the spirit of continuous improvement, your Company maintains a practice of periodically assessing employee engagement through a Company-wide survey. The recent survey in 2022 affirms high levels of employee engagement and reflects significant consolidation of gains achieved over recent years. The employee engagement, managerial effectiveness and performance enablement indices have all improved, ranging from 7 to 12 percentage points since the survey's inception in 2016. Employees have expressed overwhelming appreciation on several dimensions with over 90% of employees reporting a deep sense of pride, belief in your Company's overarching goals & leadership and optimism for the future. These sentiments are reflected in your Company's superior standing in terms of voluntary attrition across Businesses. During the year, a range of engagement programmes were undertaken including initiatives such as leadership outreach through extensive communication, recognition programmes acknowledging exceptional contributions of employees and teams, career conversations and development planning for robust positioning and progression decisions and investments in employee wellbeing. The year witnessed the Hotels Business winning the W.E. Global Employees Choice Award 2022 by W.E.-Matter involving participation of appx. 1000 managers.

Your Company's efforts to enhance Diversity, Equity and Inclusion are founded on the conviction that a diverse workforce contributes to rich discourse, promotes holistic perspectives, fosters creative solutions and is integral to serving customers better while creating value for all stakeholders. Your Company's policy on Diversity, Equity and Inclusion articulates and institutionalises this conviction. Your Company is committed to enhancing gender diversity and participation of the differently-abled in the workforce. Such concerted actions span three vectors, namely:

- Representation
- Inclusion & Enablement
- Commitment and Assurance

Report of the Board of Directors

Measures to enhance diversity include ensuring sufficient representation of women in selection pools and deployment of the differently-abled across suitable opportunities in the value chain. Through progressive policies offering flexible work arrangements, extended child-care leave, travel support for infants and care-givers, secure transport, paternity leave, same gender partner medical benefits, infrastructure support coupled with various sensitisation programmes, Employee Resource Groups, development interventions tailored for women talent, and the commitment and sponsorship of leaders; your Company provides an enabling environment to further its Diversity, Equity and Inclusion goals. To ensure a safe and progressive work environment, Internal Complaints Committees have been institutionalised as per provisions of the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.

Your Company continued its practice of active leadership outreach to employees. Periodic communication with the ITC community through 'StudioOne Townhalls' led by the Chairman, provided employees avenues to hear from and engage with leaders about your Company's vision, strategy and milestones. This was supplemented by a more personalised engagement through the 'StudioOne Xchange' initiative. The Chairman and other members of the Corporate Management Committee interacted with managers across Businesses in small groups, sharing your Company's vision and strategies while also inviting suggestions and feedback. Your Company believes that alignment of all employees to a shared vision and purpose is vital for winning in the marketplace. It also recognises the mutuality of interests with key stakeholders and is committed to continue building harmonious employee relations. Your Company remains dedicated to an Employee Relations climate of partnership and mutuality while ensuring operations are competitive, flexible and responsive. The Employee Relations philosophy of your Company, anchored in the tenets of Scientific Management, Industrial Democracy, Human Relations and Employee Well-being, has contributed towards

building a robust platform which has aided the conclusion of collective bargaining agreements at several of its manufacturing units and hotel properties, ensuring smooth commencement of operations at greenfield locations and the execution of productivity improvement practices.

WHISTLEBLOWER POLICY

Your Company's Whistleblower Policy encourages Directors and employees to bring to your Company's attention, instances of illegal or unethical conduct, actual or suspected incidents of fraud, actions that affect the financial integrity of your Company, or actual or suspected instances of leak of unpublished price sensitive information that could adversely impact your Company's operations, business performance and/or reputation. The Policy requires your Company to investigate such incidents, when reported, in an impartial manner and take appropriate action to ensure that the requisite standards of professional and ethical conduct are always upheld. Anonymous complaints are also entertained if the complaint sets out specific allegations & verifiable facts, and is accompanied with supporting evidence. It is your Company's Policy to ensure that no complainant is victimised or harassed for bringing such incidents to the attention of your Company, and to keep the information disclosed during the course of the investigation as confidential. The practice of the Whistleblower Policy is overseen by the Audit Committee and no employee was denied access to the Committee during the year. The Whistleblower Policy is available on your Company's corporate website at <https://www.itcportal.com/whistleblower-policy>.

SUSTAINABILITY 2.0

Your Company believes that when enterprises make societal value creation an integral part of their corporate strategy, powerful drivers of innovation emerge that make growth more enduring for all stakeholders. This paradigm is called '*Responsible Competitiveness*' - an abiding strategy that focuses on extreme competitiveness but in a manner that replenishes the environment and supports sustainable livelihoods.

Your Company's innovative business models synergise the building of economic, environmental and social capital, thus embedding sustainability at the core of its corporate strategy. Today, this strategy has not only contributed to building strong businesses of the future as well as a portfolio of winning world-class brands, but also in making your Company a global exemplar in 'Triple Bottom Line' performance. Your Company is the only enterprise in the world of comparable dimensions to have achieved and sustained the three key global indices of environmental sustainability of being 'water positive' (for 21 years), 'carbon positive' (for 18 years), and 'solid waste recycling positive' (for 16 years). This approach has enabled your Company and its businesses to support sustainable livelihoods for more than six million people.

Your Company is actively working towards *Sustainability 2.0*, an agenda which reimagines sustainability under the pressing challenges of climate change and social inequity. *Sustainability 2.0* calls for inclusive strategies that can support sustainable livelihoods, pursue newer ways to fight climate change, enable the transition to a net zero economy, work towards ensuring water security for all and create an effective circular economy for post-consumer packaging waste. It also entails protecting and restoring biodiversity and ecosystem services through adoption of nature-based solutions. Your Company believes that agility in thought and action, meaningful public-private-people partnerships and Responsible Competitiveness will act as core enablers of this new agenda. Your Company has the potential to make a large-scale impact not only from an economic standpoint, but also from an employment generation and social enablement lens because of its presence across several critical sectors of the economy. With its bold Sustainability 2.0 agenda, your Company is setting the bar higher and remains committed to making meaningful contribution to the Nation's future while retaining its status as a sustainability exemplar. The Sustainability 2.0 ambitions include:

Climate Change

- Enhancing the share of renewable energy usage to 50% of total energy consumption by 2030.
- Meeting 100% of purchased grid electricity requirements from renewable sources by 2030.
- Reducing specific energy consumption by 30% and specific GHG emissions by 50% by 2030 as compared to the FY 2018-19 baseline.
- Sustain and enhance carbon sequestration by expanding forestry projects on wastelands through your Company's Social and Farm Forestry programme and other such initiatives covering over 15 lakh acres by 2030.

Water Stewardship

- Achieving 40% reduction in specific water consumption by 2030 as compared to the FY 2018-19 baseline.
- Creation of rainwater harvesting potential equivalent to over 5 times the net water consumption by 2030.
- Certification of all sites in high water stressed areas as per the international water stewardship standard by Alliance for Water Stewardship (AWS) by 2035.
- Improve crop water-use efficiency in agri-value chains through demand side management interventions and enable savings of 2000 million kl of water by 2030.

Plastic Waste and Circular Economy

- 100% of your Company's Packaging to be Reusable, Recyclable or Compostable/ Biodegradable by 2028.

Sustainable Agriculture

- Promote climate smart village approach in core Agri Business catchments covering over 3 million acres by 2030.

Biodiversity Conservation

- Revive & sustain ecosystem services and products provided by nature, through adoption of nature-based solutions and biodiversity conservation covering over 1 million acres by 2030.

Report of the Board of Directors

Sustainable Livelihoods

- Supporting sustainable livelihoods for 10 million people by 2030.

Your Company's Businesses are actively working towards achieving your Company's Sustainability 2.0 vision. During the year, around 43% of your Company's total energy requirements were met from renewable sources. Commendable progress has been made in line with 2030 targets relating to specific energy, specific GHG emissions and specific water consumption across Businesses. In line with its commitment, your Company continued to remain plastic neutral during FY 2022-23 by sustainably managing more plastic packaging waste than the amount of plastic packaging utilised. During the year, your Company's large-scale programmes on Sustainable Agriculture were augmented to cover 2.3 million acres. A detailed performance dashboard against 2030 commitments is available in your Company's Sustainability Report, 2023.

To achieve its Sustainability 2.0 vision, your Company continues to strengthen its management approach which is guided by a comprehensive set of sustainability policies and is being implemented across the organisation. Your Company is also strengthening the mechanisms of engagement with key stakeholders, identification of material sustainability issues and progressively monitoring and mitigating the impacts along the value chain of each Business. Your Company will continue to update these systems and processes in line with evolving disclosure standards and Environmental, Social and Governance (ESG) requirements.

Your Company's 19th Sustainability Report published during the year detailed the progress made across all dimensions of the 'Triple Bottom Line' for FY 2021-22. This report was prepared in conformance with both the Global Reporting Initiative (GRI) standards and International <IR> Framework published by Value Reporting Foundation. The report presents a range of financial and non-financial disclosures to illustrate how different 'capitals' are deployed to enable creation of enduring value. In addition, the report is prepared in

line with 'In Accordance – Comprehensive' criteria of the GRI standards and is third-party assured to 'Reasonable Level' as per International Standard on Assurance Engagements (ISAE) 3000.

Your Company's Sustainability Report for FY 2022-23 is being prepared and will be made available on your Company's corporate website in due course.

In addition, the Business Responsibility & Sustainability Report (BRSR), as mandated by the Securities and Exchange Board of India (SEBI) for the year under review is annexed to the Report and Accounts. The BRSR maps the sustainability performance of your Company against the nine principles forming part of the National Guidelines on Responsible Business Conduct (NGRBC) issued by the Ministry of Corporate Affairs, Government of India.

During the year, your Company sustained its 'AA' rating by MSCI-ESG for the fifth consecutive year, the highest rating among global tobacco majors, and has also been included in the Dow Jones Sustainability Emerging Markets Index for the third year in a row. Additionally, your Company was rated 'A-' at Leadership Level for both Climate Change and Water Security by CDP, which is above the Asia and Global average of 'C' for climate change and 'B' for water security.

Contribution to the United Nations Sustainable Development Goals (UN SDGs)

Your Company's Sustainability strategies and Social Investment Programmes & interventions, in addition to their alignment with national priorities, are also well positioned to contribute to the achievement of India's commitment under the UN SDGs. For instance, your Company's programme on Climate Smart Agriculture is aligned to the Government's National Mission for Sustainable Agriculture, and also contributes to the achievement of multiple SDGs, including SDG 13 (Climate Action), SDG 15 (Life on Land), SDG 1 (No Poverty) and SDG 2 (Zero Hunger). A comprehensive statement linking your Company's interventions to the SDGs including corresponding targets will be available in your Company's Sustainability Report for FY 2022-23.

Building Climate Resilience

Your Company recognises the urgent need to combat climate change for building a more secure future and the role it can play in enabling a net-zero economy. To address the risks of climate change, your Company is pursuing a low carbon growth strategy through extensive decarbonisation programmes across its value chain. These include increasing the share of renewable energy, continuous reduction of specific energy, construction of green buildings, greening logistics & optimising distance-to-market, and promoting regenerative agriculture practices in agri-value chains. Your Company is also conducting life-cycle analysis (LCA) studies for developing a portfolio of innovative and sustainable products in line with growing consumer preference for climate friendly products.

Additionally, in order to identify long-term physical risks of climate change, your Company is working with climate experts to conduct comprehensive climate risk and vulnerability assessments using climate models across its operating locations (factories, hotels and warehouses). These assessments consider impact of climate hazards related to changes in temperature, precipitation, sea level rise, flooding and other extreme weather events over different time frames under various Representative Concentration Pathways (RCP)/Shared Socioeconomic Pathways (SSPs) scenarios. Based on the findings of these assessments, detailed site-specific studies are undertaken for developing contextual location-specific adaptation plans and strategies.

Similarly, factors such as rise in extreme weather events, varying climatic parameters and dependence on rainwater for irrigation make agriculture in India quite vulnerable to climate change. For major crops like wheat, pulp-wood and leaf tobacco among others, there is significant and sustained work being done by your Company on the development of climate-tolerant varieties as well as dissemination of climate-resilient and regenerative agronomic practices in the growing areas.

Detailed farm-level studies have also been conducted to understand the potential adverse impacts of climate change on your Company's key agri-value

chains. These risk assessments help further calibrate the climate resilience measures that are being implemented across your Company's value chains.

Energy Conservation and Renewable Energy

As a responsible corporate citizen, your Company has made a commitment to reduce dependence on energy from fossil fuels. Accordingly, all factories incorporate appropriate green features and premium luxury hotels and office complexes continue to be certified at the highest level by either the USGBC or Indian Green Building Council (IGBC). During the year, around 43% (previous year: 42%) of your Company's total energy requirements were met from renewable sources such as biomass, wind and solar. As on date, your Company has installed and commissioned 178 MW of renewable energy capacity in the form of solar and wind power across the country. Additionally, your Company's Paperboards & Specialty Papers Business commissioned a state-of-the-art and future-ready High Pressure Recovery Boiler at the Bhadrachalam mill, replacing conventional soda recovery boilers, which will contribute towards reducing carbon footprint through lower coal consumption.

Your Company is well positioned to benefit from energy conservation and renewable energy promotion schemes such as Perform, Achieve and Trade (PAT) and Renewable Energy Certificates (RECs) promoted by the Government of India. Your Company continues its efforts towards meeting 100% of purchased grid electricity requirements from renewable sources, and achieving 50% renewable energy share in its total energy consumption by 2030 based on a mix of energy conservation and renewable energy investments, despite significant enhancement in its scale of operations going forward.

Greenhouse Gases (GHG) and Carbon Sequestration

The GHG inventory of your Company for FY 2022-23 compiled according to the ISO 14064 Standard has been assured, as in the earlier years, at the 'Reasonable Level' by an independent third party. The GHG inventory covers emissions from your Company's operations and GHG removals from your Company's large-scale forestry programmes.

Report of the Board of Directors

Your Company's Social and Farm Forestry initiatives, besides sequestering carbon from the atmosphere, help towards greening of degraded wasteland, prevent soil erosion, enhance organic matter content in soil and increase ground water recharge.

Towards Water Security for All

With water scarcity increasingly becoming an area of global and national concern, your Company continues to focus on an integrated water management approach that includes water conservation and harvesting initiatives at its units – while at the same time working towards meeting the water security needs of all stakeholders at the local watershed level. Several interventions have been rolled out to improve water-use efficiencies such as adopting latest technologies and increasing reuse and recycling practices within the fence while also working with farmers and other community members towards improving water-use efficiencies.

Demand side management is a critical component of your Company's Water Stewardship programme. Recognising the critical imperative of reducing water use, especially in agriculture, your Company continues to work with farmers to achieve 'more crop per drop' and improve farmer incomes. Over 11.8 lakh acres have been covered till date across 12 states through micro irrigation technologies and crop-specific agronomical practices. Various studies indicate potential water savings to the tune of 780 million kl during the year.

The demand side measures are implemented along with augmenting supply at the sub-catchment level through various interventions focused on harvesting rainwater based on the recommendations of hydro-geological studies. The supply side interventions include enhancing capture and storage of rainwater (within soil surface and storage structures) and recharging aquifers. Your Company also conducts efficacy studies to assess the impact of the watershed work carried out, and to ensure that maximum benefits accrue in the long-term. As on 31st March, 2023, your Company's integrated watershed development projects covering over 1.47 million acres of land have created a total

rainwater harvesting potential (RWH) of 48.9 million kl. In total, nearly 50 million kl of rainwater has been harvested, including within the fence, which is over 3 times the net water consumed by your Company's operations in FY 2022-23.

During the year, your Company's Foods unit at Malur became the first foods processing facility in Asia to be awarded the AWS Platinum level certification, the highest recognition for water stewardship in the world. Your Company is in the process of implementing the AWS Standards at other units in high water stress areas and will progressively obtain AWS certification for these sites.

Pioneering the Green Building Movement in India

In order to continuously reduce your Company's energy footprint, green features are being integrated in all new and old constructions including hotels, manufacturing units, warehouses and office complexes. Your Company is a pioneer in the green building movement, with 40 buildings having received Platinum certification by USGBC/IGBC.

Several of your Company's factories and office complexes have received the Green Building certification from IGBC and the Leadership in Energy & Environmental Design (LEED) certification from USGBC. In 2004, the ITC Green Centre at Gurugram received LEED Platinum certification by USGBC, making it the largest Platinum rated building in the world at that point in time. The data centre at Bengaluru, ITC Sankhya, is the first data centre in the world to receive the LEED Platinum certification by USGBC. Large infrastructure investments such as the ITC Green Centre at Guntur and the ITC Green Centre at Bengaluru (both LEED Platinum certified) continue to demonstrate your Company's commitment to green buildings. Virginia House, Kolkata and ITC Centre, Kolkata – the headquarters of your Company, are also certified at the highest 'LEED Platinum' rated Green Building by USGBC.

Reaffirming your Company's commitment to the ethos of 'Responsible Luxury', all luxury collection hotels of your Company are LEED Platinum certified,

making your Company a trailblazer in green hoteliering globally. ITC Grand Chola, the 600-key super-premium luxury hotel complex in Chennai, is amongst the world's largest LEED Platinum certified green hotels.

In 2020, ITC Windsor's best practices on carbon management distinguished it as the first hotel in the world to be LEED Zero Carbon certified. Since then, 11 additional ITC Hotels have been certified as LEED Zero Carbon. Further, your Company's Sankhya data center in Bengaluru became the first data center in the world to be awarded the LEED Zero Carbon certification.

Enabling a Circular Economy

Your Company continues to make significant progress in improving the circularity of waste generated in operations. The focus is on reducing waste through constant monitoring, improvement of efficiencies in material utilisation and adequate waste segregation improving recycling rates. During the year, your Company achieved over 99% recycling of waste generated in course of its operations. This has prevented waste from reaching landfills, with the associated problems of soil & groundwater contamination and GHG emissions, all of which can adversely impact public health. In addition, your Company's Paperboards & Specialty Papers Business recycled nearly 84,000 tonnes of externally sourced post-consumer waste paper, thereby creating yet another positive environmental footprint.

Your Company aims to go beyond the requirements of Plastic Waste Management Rules, 2022 to ensure that over the next decade, 100% of packaging is reusable, recyclable or compostable/biodegradable. Your Company is working towards optimising packaging in a way that reduces the environmental impact arising out of post-consumer packaging waste without affecting product integrity. This is being addressed in a comprehensive manner by optimising packaging design, introducing recycled content in packaging, identifying alternative packaging material with lower environmental impact and supporting development of suitable end-of-life solutions for packaging waste.

Your Company has successfully implemented multiple large-scale models of solid waste management across the country. These models, based on principles of circular economy, are scalable, replicable and sustainable, and have enabled your Company to sustain its plastic neutral status since FY 2021-22. The approach is centred around treating waste as a resource and ensuring that minimal waste goes to landfill, which can be achieved only when waste is segregated at source. The initiatives focus on educating citizens on segregating waste at source into dry & wet streams, ensuring that value is derived from these resources and, in the process, support sustainable livelihood for waste collectors. These models operate on a public-private partnership basis with active involvement of urban local bodies, civil society and the informal sector of waste collectors.

Your Company has exceeded its commitment on plastic neutrality for the second consecutive year by collecting and sustainably managing more than 60,000 tonnes of plastic waste across 36 States/Union Territories, which is more than the plastic packaging utilised by your Company.

Your Company's waste recycling programme, 'WOW – Well Being Out of Waste', enables the creation of a clean & green environment and promotes sustainable livelihoods for waste collectors. During the year, the programme continued to be executed in Bengaluru, Mysuru, Hyderabad, Coimbatore, Chennai, Delhi, major towns of Telangana and several districts of Andhra Pradesh. The quantum of dry waste collected during the year was about 64,000 MT from over 1,270 wards. The programme has covered over 2.2 crore citizens in over 55 lakh households, 57 lakh school children and around 2,100 corporates since its inception. It has promoted sustainable livelihood for over 17,750 waste collectors by facilitating an effective collection system in collaboration with Municipal Corporations. The intervention has also created over 150 social entrepreneurs who are involved in maximising value capture from the collected dry waste. In Pune, your Company is supporting a circular economy, based on first-of-its-kind Multi-Layer Plastic (MLP) collection and recycling programme.

Report of the Board of Directors

In addition to WOW, a separate community-driven programme on decentralised Solid Waste Management (SWM), in collaboration with Swachh Bharat Mission, is operational in 18 districts across 10 states covering 10.7 lakh new households, taking the cumulative coverage to 25.3 lakh households. This programme deals with both wet and dry waste and focuses on minimising waste to landfill by managing waste at source. Under the programme, more than 2.6 lakh MT of waste was collected during FY 2022-23, out of which around 1.6 lakh MT of wet waste was composted, 64,000 MT of dry waste was recycled, and 87% of the total waste was avoided from being sent to landfills. Further, home composting was practiced by over 5 lakh households.

In Uttar Pradesh, your Company partnered with Urban Development Department under which over 3,100 Government officials from 57 municipalities have been trained on decentralised SWM, thus enabling the extension of coverage of decentralised waste management to over 19 lakh households. Your Company had also signed an MoU with Lohiya Swachh Bihar Abhiyan (LSBA), Rural Development Department, Government of Bihar to train officials on implementation of decentralised SWM in 472 villages of Ganga region ('Ganga Gram') across 12 districts of Bihar. During the year, Panchayat officials of 446 Ganga Gram villages were trained through a cascade approach, who then initiated focused waste management activities in their villages.

During the year, your Company has also collaborated with Department of Drinking Water and Sanitation (DDWS), Government of India, and India Sanitation Coalition (ISC), FICCI, to develop 36 Gram Panchayats (GPs) across 10 states as Lighthouses, demonstrating best practices in sanitation and waste management, which will be adopted by other GPs gradually. The partnership is part of the DDWS's plan of creating 75 lighthouse Gram Panchayats across India.

The 'Green Temple' initiative, powered by your Company's Social Investments programme 'Mission Sunehra Kal', is a closed loop waste

management model involving processing of waste generated in temples to provide biogas to the temple kitchens and compost for its gardens. The initiative has expanded to over 950 temples across Andhra Pradesh, Uttar Pradesh, Uttarakhand, Tamil Nadu, Telangana, Karnataka and Maharashtra.

Promoting Thought Leadership in Sustainability

To ensure wider adoption of the 'Triple Bottom Line' philosophy across the Industry, your Company established the 'CII – ITC Centre of Excellence for Sustainable Development' (CESD) in 2006 in collaboration with the Confederation of Indian Industry (CII). The Centre continues to focus on its endeavour to promote sustainable business practices amongst Indian enterprises. The major highlights during the year include the following:

Climate Change

- The CII Climate Action Charter was launched in September 2022, at the 17th Sustainability Summit. The Charter has more than 150 signatories from a wide variety of sectors including hard-to-abate and service sectors, diversified businesses and MSMEs⁴.
- India released its Long-term Low Emissions and Development Strategies (LTLEDS) at the UN climate conference (COP27) at Sharm El-Shiekh, Egypt in November 2022. The Centre was nominated by MoEFCC⁵ as Technical Advisory Unit and the Chair for the Task Force 4 on low-emission industrial systems. Inputs for the LTLEDS were provided to MoEFCC via consultations with stakeholders under this taskforce.
- The Centre organised three key events at COP 27 – 'Driving Climate Adaptation & Resilience through Nature Conservation', 'Aligning Clean Air & Climate Actions' and 'Energy Storage - Charging the energy transition for businesses in India'.
- Under India's G20 presidency, CII is playing the role of B20 secretariat. The Centre is leading the work on framing policy briefs under the Taskforce

⁴ Micro, Small and Medium Enterprises

⁵ Ministry of Environment, Forest and Climate Change

on Energy, Climate Change & Resource Efficiency and Action Council on ESG in Business.

- The Centre has assisted in preparing GHG inventory and report for the Industrial Processes and Product Use (IPPU) sector for India's Third National Communication to the United Nations Framework Convention on Climate Change (UNFCCC) on 'Greening India's Power Grids'.

Circular Economy

- 'India Plastics Pact' (IPP) is a business-led initiative to transform the plastics packaging value chain from linear to circular. IPP is the first in Asia and joins a global network of 13 Plastic Pacts. The first IPP Annual Conference was held in September 2022 where 'India Plastics Pact: Roadmap to 2030' was launched.
- 65 companies operating in India have undertaken CESD's Plastic-use Protocol to record, verify and certify elimination/phasing out of single use plastics.
- The Centre completed work on a study that aims to identify greenhouse gas mitigation strategies through Resource Efficiency and Circular Economy across the cement value chain.

Biodiversity

- A Memorandum of Cooperation with MoEFCC to support multi-stakeholder partnership for Wetlands Conservation was signed in May 2022, followed by launch of India Wetland Coalition (IWC).
- India Business and Biodiversity Initiative (IBBI) submitted businesses' recommendations on Post 2020 Global Biodiversity Framework to MoEFCC, which were used during the COP15 of UN Convention on Biological Diversity (CBD).
- IBBI facilitated a National Consultation Group on draft Taskforce for Nature related Financial Disclosure Framework (TNFD), to be launched in 2023.

Air Pollution

- In all, 101 signatories to the 'India CEO Forum for Clean Air' have committed to take action on air pollution.

- A national-level dynamic library of solutions designed for air pollution was launched in August 2022.
- Crop Residue Management intervention covering 300 villages across 12 districts of Punjab-Haryana was carried out - preliminary results show avoidance of burning on 85% of total intervened farmland (appx. 3 lakh acres) in the year 2022. A report summarising the impacts and learnings of Crop Residue Management activity was released on International Day for Clean Air in September 2022.

Excellence in Sustainability

- The 17th Sustainability Summit, with the theme of Building a Sustainable Tomorrow: Transforming Risks into Opportunities was organised with the support of 28 partner organisations.

ESG Intelligence & Analytics: The Centre conceptualised this service to help Indian companies understand material ESG risks and opportunities and help develop mitigation actions. The service is based on a SaaS-based tool developed by CII CESD with support of third-party vendors.

Eco Edge launched by the Centre is aimed at integrating sustainability in value chains of companies. Key action areas in 2022 included training, developing assessment methodology, stakeholder consultations, among others.

CORPORATE SOCIAL RESPONSIBILITY (CSR)

Your Company's overarching commitment towards creating significant and sustainable societal value is manifest in its CSR initiatives that embrace the most disadvantaged sections of society, especially in rural India, through economic empowerment based on grassroots capacity building. Your Company has a comprehensive CSR Policy outlining programmes, projects and activities that your Company undertakes to create a significant positive impact on identified stakeholders. All these programmes fall within the purview of Section 135 read with Schedule VII of the Companies Act, 2013 and the Companies (Corporate Social Responsibility Policy) Rules, 2014.

Report of the Board of Directors

The key elements of your Company's CSR interventions are to:

- deepen engagement in identified core operational geographies to promote holistic development and design interventions in order to respond to the most significant development challenges of your Company's stakeholder groups.
- strengthen capabilities of Non-Government Organisations (NGOs)/Community Based Organisations (CBOs) in all project catchments for participatory planning, ownership and sustainability of interventions.
- drive the development agenda in a manner that empowers women and benefits the poor and marginalised communities in the vicinity of your Company's factories and agri-catchments, thereby significantly improving Human Development Indices (HDI).
- ensure behavioural change through focus on demand generation for all interventions, thereby enabling participation, contribution and asset creation for the community.
- strive for scale with impact by leveraging government partnerships and accessing the most contemporary knowledge/technical know-how.

Your Company's stakeholders are confronted with multi-dimensional and inter-related concerns, at the core of which is the challenge of securing sustainable livelihoods. Your Company undertakes periodic stakeholder engagements in the form of community need assessments, impact assessments and other evaluations. During the year, your Company undertook 66 community engagements across 14 states where your Company's Social Investments Programme is being implemented to discuss views and grievances, if any, of the community members. Additionally, over 26,000 household surveys were taken up in 14 states to estimate the household level gaps that need to be addressed. Accordingly, interventions under your Company's Social Investments programme are appropriately designed to build capacities and promote sustainable livelihoods.

Your Company's Social Investments Programme follows the Two Horizon approach that focuses

on inclusive growth and holistic development of households with women and poor & vulnerable communities at the core. In addition to being beneficiaries of several programmes, women are also influencers and active participants in grassroot institutions. Several progressive women beneficiaries also act as change makers in society.

The Two Horizon approach provides an integrated and affirmative response to development with Horizon-I focusing on strengthening and sustaining livelihoods of communities (primarily agriculture and allied sector livelihoods) and Horizon-II focusing on building capabilities and capacities to empower beneficiaries for a better life tomorrow.

The footprint of your Company's CSR projects is spread across 27 States/Union Territories covering over 300 districts.

Your Company's CSR interventions were conferred with three prestigious awards and recognitions during FY 2022-23:

- 16th Edition of CII – National Awards for Excellence in Water Management under the category 'Beyond the Fence' for its Ghod River Basin Project.
- FICCI CSR Award for its 'Ghod River Basin Project' under the category 'Environment Sustainability' for Private Sector Companies with turnover of over ₹ 3000 crores per annum.
- Recognition under 'Protect and Restore Community Water Structures' category at Water Sustainability Awards by TERI in collaboration with UNDP and the International Water Association (IWA).

Social Forestry

Your Company's pioneering afforestation initiative through the Social Forestry programme greened over 31,000 acres during the year. It is currently spread across 17 districts in 6 States covering over 4.56 lakh acres in nearly 7,000 villages, impacting over 1.76 lakh poor households. Together with your Company's Farm Forestry programme, this initiative has greened over 10.4 lakh acres till date, and generated about 190 million-person days of employment for rural households, including women, poor tribal and

marginal farmers. Integral to the Social Forestry programme is the Agro-Forestry initiative including plantations on bunds, which cumulatively extends to about 2 lakh acres and ensures food, fodder and wood security. Further, fast growing, high yielding and disease resistant hybrid clones and saplings of eucalyptus pulpwood developed by your Company deliver significantly higher productivity vis-a-vis earlier clones. The clones have been developed to grow under varying ecological conditions, thereby building resilience and contributing towards increasing income for the farming community.

Besides enhancing farm level employment, generating incomes and increasing green cover, this large-scale initiative also contributes meaningfully to the nation's endeavour to create additional carbon sinks for tackling climate change.

In addition to the above, the Social and Farm Forestry initiative of your Company, through a multiplier effect, has led to improvement in pulpwood and fuelwood availability in Andhra Pradesh, Telangana, Karnataka and Odisha.

Water Stewardship Programme

The Water Stewardship programme aims to facilitate water security for all dependents in the factory catchments and to drought-proof the agri-catchments to minimise risks to agricultural livelihoods arising from drought and moisture stress. The programme promotes the development and management of local water resources in moisture-stressed areas by facilitating community participation in planning and implementing such measures, as well as building, reviving and maintaining water-harvesting structures. The coverage of this programme currently extends to 45 districts of 16 states. During the year, the area under watershed increased by over 1.36 lakh acres, taking the cumulative coverage area to over 14.7 lakh acres. Over 3,100 water-harvesting structures including ground water recharge structures were built during the year, creating nearly 3.8 million cubic metres of rainwater harvesting potential. This took the total number of water harvesting structures to over 28,300 and the net water storage to over 48.9 million cubic meters. In addition, as part of

demand management intervention, your Company continues to work with farmers to achieve 'more crop per drop' by promoting agronomic practices and micro irrigation techniques targeted towards saving water in cultivation and improving farmer incomes. Around 11.8 lakh acres have been covered across 12 states during the year as part of demand management; more than twice that of the previous year. Studies have been conducted by Vasantdada Sugar Institute and Tamil Nadu Agricultural University to estimate water savings in sugarcane, coconut and banana in your Company's programme locations. According to these studies and other research documents, demand management practices promoted by your Company have led to potential water savings to the tune of nearly 780 million cubic metres during the year.

Additionally, your Company is continuing partnerships with multiple state government departments for Water Stewardship. Under the partnership with Watershed Development Department, Government of Karnataka, capacities are being built using your Company's Water Stewardship approach to drought-proof 157 watersheds across 29 districts covering over 11.6 lakh acres. During the year, Government officials responsible for all watersheds were trained to incorporate your Company's drought-proofing framework and positive water balance-based planning. The Government has initiated work on 135 watersheds covering 2 lakh acres and has already constructed 818 water harvesting and ground water recharge structures based on the training provided by your Company.

Driven by your Company's Water Stewardship programme, Malur Food unit of your Company became the second unit after Kovai Paper to receive an AWS certification in Platinum category.

Biodiversity

The focus of the programme is on reviving ecosystem services provided to agriculture such as natural regulation of pests, pollination, nutrient cycling, soil health retention and genetic diversity, which have witnessed considerable erosion over the past few decades. During the year, your Company's biodiversity conservation initiative covered over

Report of the Board of Directors

1.5 lakh acres in over 41 districts across 11 states, taking the cumulative area under biodiversity conservation to over 2.9 lakh acres. While the conservation work is being carried out in village commons, this intervention significantly benefits agricultural activity in the vicinity of these plots through soil moisture retention, carbon sequestration and by acting as hosts to insects and birds beneficial to agriculture. During the year, two technical studies were undertaken through 'The Energy and Resources Institute' (TERI) & 'IORA Ecological Solutions'. These studies covered a universe of over 1 lakh acres of biodiversity conservation work done by your Company in two years across seven states. The studies have recorded improvement in carbon stocks, i.e. carbon sequestered by trees, as well as floral and faunal biodiversity compared to control areas.

To increase the coverage for pastureland development and biodiversity conservation, your Company partnered with Forest Departments of Maharashtra and Telangana, and Wasteland & Pastureland Development Board (WPDB) of Rajasthan. The partnership with WPDB is targeted to cover 2.5 lakh acres across 8 districts. Further, as part of this partnership, during the year, 924 Government staff of these districts were trained for implementing the programme across 3,600 villages.

Climate Smart Agriculture

The Climate Smart Agriculture programme attempts to de-risk farmers from erratic weather events through the promotion and adaptation of climate-smart agriculture premised on dissemination of relevant package of practices, adoption of appropriate mechanisation and provision of institutional services. Currently, 23.4 lakh acres and over 7.4 lakh farmers are covered under the programme, representing an increase of 54% and 64% respectively over previous year. To provide additional support to farmers in dealing with climate risks, 9.5 lakh linkages were facilitated for farmers with six major Government schemes. In addition to promotion of Climate Smart Agri practices at scale, in core agricultural catchments, Climate Smart Village (CSV) programme has also been initiated, wherein support is provided to majority of village population to

enable adaptation to climate risks, mitigating the same through knowledge, livelihood diversification, natural resources management and institutional support. Details of Climate Smart Agriculture interventions are also provided in the section on 'Socio-Economic Environment'.

During the year, knowledge was disseminated through more than 8,200 Farmer Field Schools and over 2,300 Choupal Pradarshan Khets. Over 900 Agri Business Centres delivered extension services, arranged agri-credit linkages, established collective input procurement and provided agricultural equipment for hire. In pursuit of your Company's long-term sustainability objective of increasing soil organic carbon, more than 3,600 compost units were constructed during the year, taking the total number till date to over 55,000 units.

Your Company, with its presence across multiple commodities and geographies including e-Choupal network and agri extension programmes network, undertook an initiative to facilitate formation of new FPOs and/or strengthening existing FPOs, thus enhancing farm incomes, rural livelihood and partnering in other relevant rural development initiatives. During FY 2022-23, your Company supported additional 905 FPOs taking the cumulative number to 1,150 FPOs.

The 'Adarsh Gram Programme' pioneered by your Company's Agri Business presently covers 350 model villages in the states of Andhra Pradesh and Karnataka. Under this initiative, your Company supports villages to become economically, ecologically and socially sustainable. Your Company is also addressing the human rights and farm safety challenges in Indian farming by educating the farmers, labour & community, providing access to Personal Protective Equipment (PPE) kits and adopting smart technologies like drones for spraying activities on the farms.

The 'Baareh Mahine Hariyali' programme in select districts of Uttar Pradesh (Chandauli, Ghazipur, Prayagraj and Varanasi) is a pioneering initiative to facilitate farmers to enhance their incomes. This programme is founded on a 360-degree, multipronged approach with interventions such as

increased cropping intensity with a third crop during summer, enhancement of productivity through context-specific agronomic practices demonstrated through Choupal Pradarshan Khets (on-farm demonstrations) and provision of market linkages with transparency in assessment of quality, price and weighment. In some regions, taking a holistic approach to income diversification as an adjacency, livestock development, women empowerment and agro-forestry are also included. Over 2 lakh farmers have already benefited from the interventions under this programme – over 35,000 farmers who have adopted the package of practices reported doubling of income and those who have implemented the programme partially reported increase in their incomes by 30% to 75%.

Livestock Development

The programme provides an opportunity for households to improve their livestock-based livelihoods by improving productivity of the progeny through breed improvement and dissemination of improved animal husbandry practices.

The programme provided extension services, including breeding, fodder propagation and training to farmers owning cows and buffaloes in 8 states and 22 districts. During the year, over 1.35 lakh artificial inseminations (AIs) were carried out which led to the birth of 0.45 lakh high yielding progeny. Cumulatively, the figures for AIs and calving stand at around 28.6 lakh and 10 lakh respectively. In addition, the livestock programme also covered families engaged in goat and sheep, poultry, piggery and fishery rearing, enhancing their productivity through promotion of improved management practices. Under the programme, over 400 women trained as 'Pashu Sakhis' have provided extension services to over 45,000 households till date, thus enabling Pashu Sakhis to earn supplementary income of up to ₹ 5000 per month.

Your Company is also working with dairy farmers in Bihar and West Bengal to improve productivity through several extension services and to facilitate higher milk production. Qualified teams comprising veterinarians and para-veterinarians have been deployed to facilitate animal breeding, animal nutrition and animal health services towards improving

productivity and promoting commercial dairy farming among farmers. During the year, about 84,700 cattle of over 33,800 dairy farmers across 547 villages in 9 districts of Bihar and 3 districts of West Bengal were supported through training programmes on clean milk production, mastitis control and animal husbandry services like deworming, ectoparasite control, etc.

Women Empowerment

During the year, this initiative provided a range of gainful livelihood opportunities to around 35,400 poor women, taking the cumulative coverage to over 1.22 lakh. Of the beneficiaries till date, about 32,600 ultra-poor women in your Company's core catchments were provided with assets and support to initiate enterprise of their choice and now have access to sustainable sources of income through various livelihood opportunities. Studies have shown that the income of these ultra-poor women beneficiaries has increased by more than five-fold, aided by the programme. The financial literacy and inclusion project, in partnership with Madhya Pradesh State Rural Livelihood Mission (MPSRLM) and CRISIL Foundation, was extended for two more years to cover 9 additional districts, increasing the operational presence in the State to 52 districts. 173 Super Trainers were trained directly who in turn trained 1,372 Master Trainers; the training was thereafter cascaded to over 83,000 self-help-groups (SHGs) covering more than 7.6 lakh women during the year. The programme has cumulatively covered over 2.1 lakh SHGs benefiting over 20.7 lakh women across more than 20,800 villages. Over 16.9 lakh trained women have also been provided access to bank accounts and government social security schemes till date.

Education

The Primary Education programme aims to provide children from weaker sections of society access to education with focus on learning outcomes and retention. Operational in 32 districts of 12 states, the programme covered over 2.5 lakh children during the year, taking the cumulative coverage to over 11 lakh children. Under the Read India Programme, the proportion of primary level children who were

Report of the Board of Directors

able to perform basic mathematical computations increased from 15% to 90%. Over 386 government primary schools and anganwadis were provided infrastructure support comprising boundary walls, additional classrooms, sanitation units and furniture, taking the total number of government primary schools and anganwadis covered till date to around 3,300. Infrastructure support to government schools has helped in increasing enrolment, particularly of girls, in schools. To ensure sustainable operations and maintenance of infrastructure provided, more than 780 School Management Committees and around 680 Child Cabinets and Water and Sanitation (WATSAN) Committees were operational in various schools during the year with active involvement of students and teachers. Further, 125 Supplementary Learning Centres (SLCs) were operational during the year, mainstreaming more than 2,000 out-of-school children into the formal education system.

Skilling & Vocational Training

This programme provides training in market linked skills to youth to enable them to compete in the job market. More than 14,400 youth were trained under different courses during the year of which 46% were female. The placement percentage for those trained during the year stood at 68%. Further, a pilot program for skilling differently abled youth was also initiated in Bangalore, with placements of over 75%.

Cumulatively, over 1 lakh youth have been trained under the skilling programme, with presence expanding to 34 districts in 16 States.

Sanitation

Your Company continues to adopt a multi-pronged approach towards improving public health and hygiene across 10 districts and 7 states. To promote a hygienic environment through prevention of open defecation and reduced incidence of water-borne diseases, 200 Individual Household Toilets (IHHTs) were constructed in collaboration with the State Government/District sanitation departments, taking the total to over 39,600 IHHTs constructed so far in your Company's catchment areas. In addition, during the year, 35 community toilets were constructed/

renovated for households without land, taking the cumulative to 157. Cumulatively, IHHTs and community toilets are estimated to be benefiting over 1.15 lakh community members. In West Bengal, more than 6,700 women benefited from well-maintained separate community toilets with incinerator facilities. Along with sanitation infrastructure development, special focus was also given to awareness campaigns to drive behavioural change.

Health & Nutrition

Your Company continued to enhance awareness on various health related issues through a network of 430 women Village Health Champions (VHCs) who covered nearly 1.16 lakh women and adolescent girls during the year. The programme is operational in seven districts of Uttar Pradesh and three districts of Madhya Pradesh. The VHCs conducted door-to-door visits in the villages focusing on aspects like sanitation, menstrual and personal hygiene, family planning, diarrhoea prevention and nutrition.

Over 5.6 lakh beneficiaries were covered under the Mother and Child Health and Nutrition initiative aimed at improving the health-nutrition status of women, adolescents and children in the catchments of a few of your Company's factories with high maternal and infant mortality indices. As per internal estimates, the proportion of underweight children between 0-5 years of age in the two districts of Kamrup and Darrang stood at 5.6% and 9.8% in FY 2022-23, significantly lower than districts' averages⁶ of 19.7% and 33.1% respectively. Based on success of the programme in these two districts, Directorate of Social Welfare, Government of Assam has entered into a partnership with your Company to help address challenges of malnutrition in 8 districts including 7 aspirational districts in the state.

Additionally, Project Samposhan was undertaken during the year to address the issue of anaemia amongst adolescent girls in the districts of Bahraich & Chandauli, Uttar Pradesh. Similarly, Project Balposhan was undertaken in Valsad district of Gujarat to create awareness amongst mothers, pregnant & lactating women on child malnutrition.

⁶ as per NFHS-5 data of FY 2019-20

To bridge the gaps in primary and secondary healthcare delivery and to address the challenges of awareness, availability, accessibility and affordability, your Company has undertaken several Rural Healthcare interventions that are being implemented in a phased manner. After starting with the Mother and Child Health initiative in FY 2016-17, your Company is now adopting a holistic approach focusing on two major components - preventive health care and curative services. The objective of the initiative is to improve health and nutrition by strengthening institutional capacity, supplementing existing infrastructure, promoting greater convergence with existing government schemes, leveraging technology and increasing access to basic primary and secondary healthcare services. As part of this project, 'ITC Swasth Kiran' initiative was launched during FY 2021-22 in Saharanpur and Munger districts. Under the initiative, 8 Mobile Medical Units (MMU) - 4 each in Saharanpur & Munger became operational during the year. These MMUs provided free medical consultation and medicines to the rural community at doorstep. During the year, more than 57,000 individual engagements were made with community members, 56% of which were women, across over 690 villages. Further, 6,900 diagnostic tests were conducted and 5,600 referrals were made during the year. Upgradation of Public Healthcare Centres was also initiated with the involvement of the local community under the initiative. Simultaneously, plans to set up a 50-bed hospital for secondary care are being pursued. Accordingly, for such ongoing activities, in FY 2022-23, an amount of ₹ 23.10 crores has been kept aside under unspent CSR account and will be spent over a period of next three financial years.

To make potable water available to local communities in Andhra Pradesh, Reverse Osmosis (RO) water purification plants were set up in villages where the water quality was poor. 9 new RO plants were established in FY 2022-23 taking the total operational RO plants to 160, thus providing safe drinking water to over 2.1 lakh rural people.

Your Company's 'Swasth India Mission' programme has been a front runner in driving behavioural change towards good hand hygiene habits since its inception in 2016. The Swasth India Mission drove a range of

initiatives to aid and enable the country in its fight against preventable infections that create huge economic burden on the country.

- Your Company launched a campaign focused on children, rooted in the belief '*Swasth Bacche, Mazboot Desh*'. The mission reached out to school students through an innovative school programme focused on seeding good hygiene behavior. The school programme covered 8,383 schools reaching out to appx. 22.4 lakh students.
- Your Company launched the #HandwashFirst campaign on the occasion of World Hand Hygiene Day, which was promoted nationally on TV and digital media including tie-ups with influencers on the short video platform 'Josh'.
- Your Company also launched an innovative digital campaign using gamified creatives to spread awareness about proper health & hygiene practices to be followed during monsoon season.

Your Company joined hands with Master Blaster Sachin Tendulkar, World's first 'Hand Ambassador', and launched a series of short films to promote the practice of washing hands, with the message being widely disseminated through multiple outreach formats.

Waste Management

Your Company's initiatives focus on creating replicable, scalable and sustainable models of municipal and rural waste management that can be implemented across the country to ensure that zero waste goes to landfills. Details of these models are provided in the section on 'Building a Circular Economy for Post-Consumer Packaging' above.

ITC Sangeet Research Academy

The ITC Sangeet Research Academy (ITC SRA), established in 1977, is an embodiment of your Company's sustained commitment to a priceless national heritage. Your Company's pledge towards ensuring enduring excellence in Classical Music education continues to drive ITC SRA in furthering its objective of preserving and propagating Hindustani Classical Music based on the age-old principle of 'Guru-Shishya Parampara'. The eminent Gurus of

Report of the Board of Directors

the Academy impart intensive training and quality education in Hindustani classical music to the scholars. The present Gurus of the Academy are Padma Bhushan Pt. Ajoy Chakrabarty, Padma Shri Pt. Ulhas Kashalkar, Pt. Partha Chatterjee, Pt. Uday Bhawalkar, Vidushi Subhra Guha, Shri Omkar Dadarkar and Shri Brajeswar Mukherjee. The Academy's focus continues to be on nurturing exceptionally gifted students selected from across the country through a system of multi-level audition. Full scholarship is provided to them to reside and pursue music education in the Academy's campus and in other designated locations under the tutelage of the country's most distinguished musicians. Creation of the next generation of masters of Hindustani classical music for the propagation of a precious legacy continues to be the Academy's objective.

Forging Multi-Stakeholder Partnerships

Your Company's Social Investments Programme lays continuous emphasis on building partnerships of value for driving innovation & gaining contemporary knowledge while effectively amplifying and executing programmes.

Your Company formed Knowledge Partnerships with several national & international organisations/agencies to maintain contemporariness and leverage latest knowledge/technical know-how to continuously improve the quality of programmes.

Public-Private Partnerships, aimed at pooling resources, and partnership with Governments are effectively leveraged to scale-up and amplify programmes implemented in your Company's catchment areas.

The meaningful contribution made by your Company's Social Investments Programme to address some of the country's key development challenges, has been possible in significant measure, due to your Company's partnerships with renowned NGOs such as BAIF, DSC, FES, DHAN Foundation, MYRADA, Pratham, SEWA Bharat, WASH Institute, Water for People, MAMTA, Youth Invest, Cheshire Disability Trust amongst others. These partnerships, which bring together the best-in-class management practices of your Company and the development experience

and mobilisation skills of NGOs, will continue to provide innovative grassroots solutions to some of India's most challenging problems of development in the years to come.

CSR Expenditure

The annual report on Corporate Social Responsibility activities, as required under Sections 134 and 135 of the Companies Act, 2013 read with Rule 8 of the Companies (Corporate Social Responsibility Policy) Rules, 2014 and Rule 9 of the Companies (Accounts) Rules, 2014, is provided in the Annexure forming part of this Report.

Environment, Health & Safety

Your Company's Environment, Health & Safety (EHS) strategies are directed towards achieving the greenest and safest operations across all your Company's units by optimising natural resource usage and providing a safe and healthy workplace. Systemic efforts continue to be made towards natural resource conservation by continuously improving resource-use efficiencies.

Your Company believes that a safe and healthy work environment is a pre-requisite for ensuring employee well-being, and adopting best practices in occupational health & safety bears a direct impact on overall performance. With an aim to percolate safety deeper into ITC's operational practices and achieve the 'Zero Accident' goal, your Company has adopted a comprehensive EHS strategy founded on two pillars: 'Safety by Design' and 'Safety by Culture'.

Safety

Your Company sustained focus on 'Safety by Design' by continuously striving to improve safety performance and incorporating best-in-class engineering standards for all investments in the built environment. Designs for all new greenfield & brownfield project investments are scrutinised to ensure compliance with relevant standards and codes on safety. Periodic Environment, Health & Safety audits continue to be carried out in operational units to verify compliance with relevant standards.

To drive a culture of safety, your Company, in addition to comprehensive focus on training, continues to hold

structured conversations with workers on 'Safe and Unsafe' Acts. These are supplemented by adoption of keystone behaviours that inculcates individual ownership for safe behaviour. Your Company has also pioneered the usage of Design Thinking principles for seamless integration of safety in business operations. This initiative is bringing in positive behavioural changes.

Several national awards and certifications received by various units reaffirm your Company's commitment to provide safe and healthy workplace to all.

R&D, QUALITY AND PRODUCT DEVELOPMENT

Your Company's state-of-the-art Life Sciences and Technology Centre (LSTC) in Bengaluru is at the core of driving science-led product innovation to build and support your Company's portfolio of world-class products and brands. LSTC is on the verge of completing five decades of innovation this year. Over the years, LSTC has emerged as a robust innovation engine that is a key enabler of the 'ITC Next' growth strategy. Reinforced with world-class infrastructure, resourced with a diverse team of over 400 highly qualified scientists, LSTC is leading various initiatives to provide a competitive edge to your Company's brands and products.

Driving purposeful innovations that fulfil the needs of the Indian consumer through superior offerings remains the key objective of LSTC. Centres of Excellence across domains viz. Biosciences, Agri-sciences & Materials sciences enabled building capabilities over the years to cater to the constantly evolving needs of consumers. Focused research across identified domains viz. Health & Wellness, Formulation Design, Sustainable Materials & Packaging, Agro-forestry and Crop Science has enabled the teams to harness contemporary advances in relevant core areas to translate 'proofs of concept' to novel product opportunities. Bearing testimony to LSTC's innovation capabilities while building the intellectual assets for your Company, over 800 patent applications have been filed till date. Robust risk management practices are in place to ensure that your Company's intellectual properties remain adequately protected and to ensure mitigation of information and infrastructure risk.

Research programmes and projects are structured through close alignment with the various Businesses of your Company resulting in a robust innovation pipeline. Additionally, in line with your Company's relentless focus on operational excellence and quality, each Business is mandated to continuously innovate on materials, processes and systems to enhance their competitiveness.

Your Company has been a forerunner in introducing first-to-market innovative products for Indian consumers. In the post-pandemic operating scenario of unprecedented volatility and hyper-inflationary pressures, LSTC scientists and product development teams continue to enable the Branded Packaged Foods and Personal Care Businesses to deliver a range of differentiated, superior quality products at competitive costs. Innovative science-based programmes continue to be leveraged to drive creation of healthier foods through systematic reduction in salt, sugar and fat without compromising on sensory attributes. Leading edge technology platforms in Personal Health & Hygiene, Health & Wellness continue to power innovation and develop next generation product offerings to serve emergent consumer needs. LSTC's unique competencies in Materials and Packaging have enabled development of innovative recyclable flexible packaging options and bio-compostable coating solutions.

In Agro-Forestry and Crop Science Platforms, LSTC has an ambitious R&D programme on improving yield and quality, given the rising challenges of climate change and depleting resources. Ongoing research on climate resilient crops and pulp wood seeks to address the security of raw material supplies across your Company's value chains while ensuring enhanced farmer profitability. Research on wheat and potato varietal securitisation are at advanced stages of development to achieve flexibility in sourcing of raw material, create region-specific blends and ensure robust agro-climatic adaptability. Future ready, alternate value chains that mitigate risks arising out of disruptions to existing sourcing models continue to be explored. LSTC, in collaboration with the Agri and Branded Packaged Foods Businesses, endeavours to ensure that

Report of the Board of Directors

science-based ideas are fully integrated across the value chain from farm to fork.

Infrastructure capabilities across science areas and new product development are strengthened continuously keeping in pace with the global developments. Modern testing facilities include estimation of disease resistance in plant varieties, determination of biodegradability of newly developed materials for sustainable packaging, detection of extraneous materials in foods and prediction of packaged product structural stability during transit.

Rigorous systems, processes and industry best practices are continuously upgraded to secure quality certifications of the highest levels – a key enabler in delivering products that follow the highest standards in quality, safety and efficacy to the Indian consumer. All branded packaged foods manufacturing units of your Company not only have ISO quality certification but also follow the highest standards under the integrated food quality management system-FSSC 22000; these systems ensure adherence to internationally accepted quality standards in producing safe and high-quality food. All manufacturing units of the Branded Packaged Foods Businesses (including contract manufacturing units) and Hotels operate in compliance with stringent food safety and quality standards. Your Company's food quality assurance laboratories are accredited by the National Accreditation Board for Testing and Calibration Laboratories (NABL) under ISO 17025, a global standard for testing and calibrating labs, which guarantees quality. Additionally, the quality of all FMCG products of your Company is monitored through best-in-class customer-centric 'Quality Control and Quality Assurance Processes' and 'Product Quality Ratings Systems' (PQRS) enhancing competitive superiority of your Company's product offerings.

In its quest to continuously enhance efficiency and be future-ready, LSTC is developing and deploying cutting-edge digital tools for quality performance analytics and competition benchmarking. LSTC continues to leverage AI/ML technology platforms to strengthen quality management systems. Going forward, LSTC will continue to identify growth

opportunities leveraging your Company's diverse core competencies and R&D insights emerging from contemporary science & technology.

PROCEEDINGS INITIATED BY THE ENFORCEMENT DIRECTORATE

In the proceedings initiated by the Enforcement Directorate in 1997, the appropriate authority after hearing arguments on behalf of your Company has passed orders in favour of your Company and dropped some of the show cause notices issued by the Directorate. In respect of some of the remaining notices, your Company filed writ petitions challenging their validity. The Honourable Calcutta High Court, by its orders, allowed these writ petitions, and the proceedings in respect of these notices were quashed. The remaining notices are pending.

Meanwhile, some of the prosecutions launched by the Enforcement Directorate have been quashed by the Honourable Calcutta High Court while others are pending.

TREASURY OPERATIONS

Your Company's treasury operations continued to focus on deployment of surplus liquidity and management of foreign exchange exposures within a well-defined risk management framework.

FY 2022-23 witnessed significant volatility in the global economy and financial markets. Globally, inflation remained at elevated levels for most part of the year due to disruptions in supply chains, rise in energy and other commodity prices. Central banks across the world responded swiftly increasing interest rates sharply to rein in inflation. In India, Reserve Bank of India (RBI) raised Repo rate by 250 bps which resulted in market interest rates moving higher across tenures. In addition, decline in the Banking system liquidity also contributed to increase in market interest rates, particularly in the short tenure segment.

Investment decisions relating to deployment of surplus liquidity continued to be guided by the tenets of Safety, Liquidity and Return. Treasury operations focused on proactive rebalancing of portfolio

duration and mix in line with the evolving interest rate environment. Further, continuous review and monitoring of credit worthiness, including engagement with market participants, ensured that the investment portfolio was not exposed to undue credit risks.

As in earlier years, commensurate with the size of the temporary surplus liquidity under management, treasury operations continue to be supported by appropriate internal control systems, and independent check of 100% of transactions by your Company's Internal Audit Department.

In the currency market, the Indian Rupee (INR) depreciated sharply against the US Dollar (US\$) during the first half of the year. The weakness was largely attributable to strength of the US\$ relative to all major currencies during the year. Towards the end of the financial year inversion in US interest rate curve, decline in India's trade deficit, relative strength of foreign exchange reserves and judicious interventions in the forex market by RBI provided support to the INR.

To effectively navigate the high volatility in currency markets, your Company adopted a proactive risk management strategy and actively managed foreign currency exposures through appropriate hedging strategies and market instruments to protect business margins.

DEPOSITS

Your Company's erstwhile Public Deposit Scheme closed in the year 2000. As at 31st March, 2023, there were no deposits due for repayment except in respect of two deposit holders aggregating ₹ 20000 which have been withheld on the basis of directives received from the government agencies.

There was no failure to make repayments of Fixed Deposits on maturity and the interest due thereon in terms of the conditions of your Company's erstwhile Schemes.

Your Company has not accepted any deposit from the public/members under Section 73 of the Companies Act, 2013 read with the Companies (Acceptance of Deposits) Rules, 2014 during the year.

Further, on the recommendation of the Committee, the Board has recommended for the approval of the Members, the appointment of Mr. Hemant Malik as a Director, liable to retire by rotation, and also as a Wholetime Director of your Company for a period of three years with effect from 12th August, 2023.

Mr. Sanjiv Puri will complete his present term as the Managing Director of your Company on

Report of the Board of Directors

21st July, 2024. The Board, on the recommendation of the Committee, has also recommended for the approval of the Members, re-appointment of Mr. Puri as a Director, not liable to retire by rotation, and as the Managing Director & Chairman of your Company for a period of five years with effect from 22nd July, 2024.

Appropriate resolutions seeking your approval to the above are appearing in the Notice convening the 112th Annual General Meeting ('AGM') of your Company.

Mr. Rajiv Tandon completed his term as a Wholetime Director of your Company with effect from close of work on 21st July, 2022 after being associated with the ITC Group for 42 years, including 35 years with the Company. Further, Mr. Navneet Doda, representing GIPSA, stepped down from the Board with effect from 20th January, 2023. Your Directors place on record their appreciation for the contribution made by Messrs. Tandon and Doda during their tenure with your Company.

Retirement by Rotation

In accordance with the provisions of Section 152 of the Companies Act, 2013 ('the Act') read with Articles 94 and 95 of the Articles of Association of your Company, Messrs. Sumant Bhargavan and Mukesh Gupta will retire by rotation at the ensuing AGM and being eligible, offer themselves for re-election. Your Board has recommended their re-election.

Number of Board Meetings

Six meetings of the Board were held during the year ended 31st March, 2023.

Attributes, Qualifications & Independence of Directors and their Appointment

The Corporate Governance Policy of your Company, inter alia, requires that the Non-Executive Directors be drawn from amongst eminent professionals, with experience in business/finance/law/public administration and enterprises. The Nomination & Compensation Committee has laid down the criteria for determining qualifications, positive attributes and

independence of Directors (including Independent Directors). The Policy on Board Diversity of your Company requires the Board to have balance of skills, competencies, experience and diversity of perspectives appropriate to your Company. The skills, expertise and competencies of the Directors as identified by the Board, along with those available in the present mix of the Directors of your Company, are provided in the 'Report on Corporate Governance' forming part of the Report and Accounts.

In terms of the applicable regulatory requirements read with the Articles of Association of your Company, the strength of the Board shall not be fewer than six nor more than eighteen. Directors are appointed/re-appointed with the approval of the Members for a period of three to five years or a shorter duration, in accordance with retirement guidelines and as may be determined by the Board from time to time. All Directors, other than Independent Directors, are liable to retire by rotation, unless otherwise approved by the Members. One-third of the Directors who are liable to retire by rotation, retire every year and are eligible for re-election.

The Independent Directors of your Company have confirmed that (a) they meet the criteria of independence prescribed under Section 149 of the Act and Regulation 16 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations'), (b) they are independent from the management of your Company, and (c) they are not aware of any circumstance or situation which could impair or impact their ability to discharge duties with an objective independent judgement and without any external influence. In the opinion of the Board, the Independent Directors fulfil the conditions prescribed under the Act and the Listing Regulations, and are independent of the management of your Company.

Remuneration Policy

Details of your Company's Policy on remuneration of Directors, Key Managerial Personnel and other employees are provided in the 'Report on Corporate Governance' forming part of the Report and Accounts.

Evaluation of Board, Board Committees and individual Directors

The Nomination & Compensation Committee, as reported in earlier years, formulated the Policy on Board evaluation, evaluation of Board Committees' functioning and individual Director evaluation, and also specified that such evaluation will be done by the Board.

In keeping with ITC's belief that it is the collective effectiveness of the Board that impacts Company's performance, the primary evaluation platform is that of collective performance of the Board as a whole. Board performance is assessed, inter alia, against the roles and responsibilities of the Board as provided in the Act, the Listing Regulations and your Company's Governance Policy. The parameters for Board performance evaluation have been derived from the Board's core role of trusteeship to protect and enhance shareholder value as well as to fulfil expectations of other stakeholders through strategic supervision of your Company; such parameters include securing alignment of your Company's goals with the nation's economic, ecological and social priorities, ensuring that your Company has a clearly defined strategic direction for realisation of its vision, and supporting your Company's management to meet challenges arising from the operating & policy environment in the country. Evaluation of functioning of Board Committees is based on discussions amongst Committee members and shared by the respective Committee Chairmen with the Board. Individual Directors are evaluated in the context of the role played by each Director as a member of the Board at its meetings, in assisting the Board in realising its role of strategic supervision of the functioning of your Company in pursuit of its purpose and goals. The peer group ratings of the individual Directors are collated by the Chairman of the Nomination & Compensation Committee and made available to the Chairman of your Company.

While the Board evaluated its performance against the parameters laid down by the Nomination & Compensation Committee, the evaluation of individual Directors was carried out against the laid down parameters anonymously in order to ensure

objectivity. Reports on the functioning of Committees were placed before the Board. The Independent Directors Committee of the Board also reviewed the performance of the Chairman, other non-Independent Directors and the Board, pursuant to Schedule IV to the Act and Regulation 25 of the Listing Regulations.

KEY MANAGERIAL PERSONNEL

As stated earlier, Mr. Rajiv Tandon ceased to be a Wholetime Director of your Company upon completion of term, and Mr. Supratim Dutta was appointed as a Wholetime Director of your Company, with effect from 22nd July, 2022. There were no other changes in the Key Managerial Personnel of your Company during the year.

INVESTOR SERVICE CENTRE

The Investor Service Centre of your Company ('ISC'), registered with the Securities and Exchange Board of India as Category II Share Transfer Agent for providing in-house share registration and related services, continues to maintain exemplary standards of investor servicing, while ensuring compliance with the applicable statutory requirements.

The ISO 9001:2015 Quality Management System Certification for investor servicing by ISC was renewed during the year by DNV, the accredited agency for ISO certification, for a period of three years up to 22nd March, 2026. DNV accorded the highest possible 'Level 5' rating to ISC's systems and processes, exemplifying the excellence achieved by ISC in providing best-in-class services to the shareholders and investors of your Company.

A Shareholder Satisfaction Survey was conducted by the Company during the year with a view to assess and further improve the performance standards of ISC. Over 49,000 shareholders participated in the Survey. Of the same, more than 94% were satisfied with the services provided by ISC, with 80% of the shareholders rating the services as excellent. The feedback/suggestions provided by the shareholders are being evaluated for appropriate action.

The 'Investor Relations' section on your Company's corporate website <http://www.itcportal.com> serves as a user-friendly reference for the shareholders and investors in respect of share related matters.

RELATED PARTY TRANSACTIONS

All contracts or arrangements entered into by your Company with its related parties during the financial year were in accordance with the provisions of the Companies Act, 2013 and the Listing Regulations. All such contracts or arrangements, which were approved by the Audit Committee, were in the ordinary course of business and on arm's length basis. No material contracts or arrangements with related parties within the purview of Section 188(1) of the Act were entered into during the year under review. Accordingly, the disclosure of Related Party Transactions as required in terms of Section 134 of the Act read with Rule 8 of the Companies (Accounts) Rules, 2014 in Form AOC -2 is not applicable for this year.

CONCLUSION

Your Company's 'Triple Bottom Line' philosophy has over the years spurred the creation of innovative business models that synergise the building of economic, environmental and social capital. It is now universally evident that enterprises of the future will not only have to be agile, consumer-centric, innovative and digital-first but also purpose-driven and responsibly competitive. Your Company's superordinate goal of serving larger national priorities and creating value for all stakeholders has evolved into a new paradigm - 'Responsible Competitiveness' - that focuses on extreme competitiveness but in a manner that replenishes the environment and supports sustainable livelihoods.

The strategic Vision of creating multiple drivers of growth through the pursuit of market opportunities that best match institutional strengths, has resulted in the development of strong Businesses of the future anchored on a portfolio of purpose-led brands, future-ready products and world-class quality. Today,

your Company is the leading FMCG marketer in India, a pre-eminent hotel chain and a globally acclaimed icon in green hoteliering, the clear market leader in the Indian Paperboards and Packaging industry, a pioneering trailblazer in farmer and rural empowerment through its Agri Business and a global exemplar in sustainable business practices. In the last two decades, your Company's non-cigarettes businesses have grown over 31-fold and presently constitute over two-thirds of Net Segment Revenue. At the heart of this transformation lies the power of synergy, with seamless access for your Company's new Businesses/initiatives to the deep and varied capabilities resident across different parts of the enterprise, and its world-class talent pool.

An extensive strategy reset has been undertaken in recent years to architect the structural drivers that will power the ITC Next strategy of building a Future-Ready, Consumer-Centric, Climate Positive and Inclusive organisation anchored on the Responsible Competitiveness paradigm.

In recent years, the FMCG Businesses have delivered strong revenue growth along with significant margin expansion, and are well poised to be rapidly scaled up. Multi-dimensional interventions have been made to strengthen the FMCG Businesses for sustained profitable growth. The product portfolio of your Company has been further strengthened in alignment with new opportunities and enterprise strengths with sharper focus on fortifying the core businesses, addressing adjacent opportunities leveraging Mother Brands and building emerging businesses for the future. To accentuate consumer-centricity, agility and enable sharper focus in the context of the growing scale and complexity of operations, the Branded Packaged Foods Businesses have been reorganised into product market centric clusters with integrated and empowered teams. Focused interventions made in the recent past have also augmented your Company's multi-channel go-to-market capability, resulting in manifold expansion in the reach and availability of its products. Over the last five years, market and outlet coverage have grown 3.5x and 1.5x respectively while the network of stockists has

expanded to 8.3x during the same period. Sharp-focused investments have augmented capability in emerging channels such as e-Commerce and Modern Trade, resulting in strong growth in sales and enhanced market standing. In addition, investments towards accelerating agile and purposeful innovation, optimising supply chain efficiencies, accelerated digital adoption, and strategic partnerships have significantly enhanced competitiveness. The impact of these multi-dimensional interventions is evident in the substantial margin expansion of 620 bps in Segment EBITDA over the last five years even in the face of severe inflationary headwinds.

The FMCG Businesses will continue to leverage your Company's institutional strengths as a key source of sustainable competitive advantage viz. strong backward linkages with the Agri Business, a deep & wide multi-channel distribution network, cuisine knowledge resident in the Hotels Business, packaging knowhow and the robust R&D platforms nurtured by LSTC. Structural advantages arising out of distributed manufacturing footprint, anchored on state-of-the-art ICMLs strategically located proximal to large demand centres, will be increasingly leveraged to drive rapid growth of the FMCG Businesses. With enhanced scale and margin expansion, the FMCG Businesses are expected to make increasingly higher contributions to your Company's profit pool, thereby setting the stage for further value enhancement opportunities.

The Agri Business has been a strong backbone and a key source of competitive advantage for your Company's FMCG and Cigarettes Businesses. The scope and scale of operations have grown manifold over the years and currently encompass over 4.5 million tonnes of annual volume throughput in 22 states and over 20 agri-value chains. In recent years, the Business has pivoted its strategic focus towards rapidly scaling up its Value-Added Agri Products portfolio to accelerate growth and margins. With policy enablers in place, your Company is developing NextGen agriculture value chains that are digitally enabled and climate smart, and re-structuring

Report of the Board of Directors

the back-end into a robust network of Farmer Producer Organisations. This will further strengthen the sourcing network and facilitate the development of customised supply chains for traceable and identity-preserved sourcing of agri-commodities and in augmenting the product portfolio with the addition of value-added products such as staples for the Food Service segment, fresh and frozen fruits & vegetables, medicinal and aromatic plant extracts etc. Towards enhancing the competitiveness of domestic agri-value chains, fostering new business models and augmenting value creation opportunities, your Company has launched ITCMAARS – a crop-agnostic ‘phygital’ full stack AgriTech platform integrating NextGen agri-technologies and solutions – to seamlessly deliver hyperlocal and personalised solutions to the farming community whilst creating new and scalable revenue streams and strengthening sourcing efficiencies.

The Paperboards, Paper and Packaging Businesses have made significant progress in recent years in terms of enhanced scale and profitability improvement. Strategic investments have been stepped up in areas such as pulp import substitution, proactive capacity augmentation in Value Added Paperboards segment, decarbonisation of operations, deployment of Industry 4.0 technologies and towards nurturing robust innovation platforms. The focus going forward is to fortify market leadership in the fast growing Value Added Paperboards segment by augmenting scale, driving cutting-edge innovation to rapidly scale up single use plastic substitutes as a new vector of growth, building structural advantage through product mix enrichment and scaling up the use of emergent technologies such as Industry 4.0 to enhance operational efficiency, reduce wastage and costs.

The Hotels Business has over the years established a strong footprint of iconic properties and F&B brands on the back of an investment-led growth strategy. In recent years, the strategy has been reset to pursue an ‘asset-right’ growth path and augment revenue streams while simultaneously leveraging your Company’s world-class properties and iconic cuisine brands to

drive growth. Investments have been stepped up to harness the power of Digital to enhance guest experience, efficiency and productivity across all nodes of the value chain. As reported earlier, your Company remains committed to implement its ‘asset-right’ strategy, focus on sweating existing assets, create additional revenue streams and pursue alternate structures in view of the strong industry recovery witnessed during the year towards engendering the next horizon of growth as also enhancing value creation.

Your Company’s purposeful innovation engine across the portfolio of Businesses based on deep consumer insights, superior vectors of differentiation and agile execution capabilities remains a strong source of sustainable competitive advantage. The state-of-the-art Life Sciences & Technology Centre at Bengaluru, with its multi-dimensional science-based research platforms and centres of excellence, powers the innovation engine across your Company, and is effectively complemented through collaborations and partnerships with several prestigious institutions in India and across the world.

Your Company continues to build a dynamic ‘Future-Tech’ enterprise powered by state-of-the-art digital technologies and infrastructure across the value chain adding significant impetus to digital marketing, digital commerce, digital products and digital operations. Your Company today, is a pioneer in adoption of cutting-edge digital technologies across strategic impact areas spanning Intelligent new-age insights that reimagine Consumer Experience, Business Model Transformation, Smart Operations and Employee Experience. Foundational initiatives such as ‘DigiNext’ and ‘Young Digital Innovator’s Lab’ are accelerating your Company’s digital journey and inculcating a data driven and ‘digital first’ culture across the organisation.

Your Company is actively pursuing its Sustainability 2.0 agenda which calls for inclusive strategies that can support sustainable livelihoods, pursue newer ways to fight climate change, enable the transition to a net zero economy, aid adaptation, work towards ensuring water security for all and create an effective circular economy. With its bold Sustainability 2.0 ambitions,

your Company is setting the bar higher with a multi-dimensional contribution to societal value creation, and remains committed to making a meaningful impact on the Nation's future while retaining its status as a sustainability exemplar.

Disruptive business models and value propositions anchored at the intersection of future frontiers of Digitalisation and Sustainability form an integral part of your Company's strategic roadmap going forward. NextGen business models such as ITCMAARS in the agri-ecosystem, tech-enabled cloud kitchens in the food service space, sustainable paperboards and packaging solutions customised for end-use with focus on single use plastic substitutes, are being piloted/progressed to actualise these opportunities. Value-accretive acquisitions, joint venture and collaborations continue to be proactively pursued towards accelerating growth and value creation.

The global operating environment has become increasingly complex, uncertain and volatile. In the wake of several upheavals witnessed over the last few years, there is now a spectre of 'permacrisis' i.e. an extended period of crisis from a series of extremely disruptive events, viz. pandemic, extreme weather events caused by climate change, geopolitical tensions, severe inflationary pressures. This is exacerbated by the phenomenon of 'polycrisis', signifying simultaneous occurrence of several crises.

India remains one of the few bright spots in an increasingly volatile and unpredictable world. With structural drivers of growth firmly in place, India is firmly positioned to play a larger role on the global stage going forward. Your Company, with its robust

and dynamic strategy pillars as aforesaid, is well poised to rapidly scale up and enhance its market standing across operating segments.

The resilience, agility and adaptive capacity demonstrated by your Company is a testament to the talent, determination and untiring efforts of its pool of dedicated professionals, associates and partners. Your Company's diverse talent pool of professional entrepreneurs, 'proneurs', have the unique opportunity to nurture categories, products and brands from ideation to execution. This talent pool is being harnessed not only to create winning products and services for today, but also to seize larger opportunities as they emerge from the expanding horizons of your Company's Businesses.

Your Company's Board and employees are inspired by the Vision of sustaining ITC's position as one of India's most admired and valuable companies, creating enduring value for all stakeholders, including the shareholders and the Indian society. The vision of enlarging your Company's contribution to the Indian economy is driven by its 'Nation First: Sab Saath Badhein' credo anchored on the core values of Trusteeship, Transparency, Empowerment, Accountability and Ethical Citizenship, which are the cornerstones of your Company's Corporate Governance philosophy.

Inspired by this Vision, driven by Values and powered by internal Vitality, your Directors and employees look forward to the future with confidence and stand committed to creating an even brighter future for all stakeholders.

Annexure to the Report of the Board of Directors For the Financial Year Ended 31st March, 2023

ANNUAL REPORT ON CORPORATE SOCIAL RESPONSIBILITY (CSR) ACTIVITIES OF THE COMPANY

1. CSR Policy - Brief outline and Overview

a. Brief outline of the CSR Policy:

It is ITC's Policy to direct its CSR Programmes, inter alia, towards achieving one or more of the following – poverty alleviation; promoting education and skill development; promoting healthcare including preventive healthcare; providing sanitation and drinking water; ensuring environmental sustainability; enabling climate resilience; rural development projects; creating livelihoods for people, especially those from disadvantaged sections of society; protection of national heritage, art and culture; preserving and promoting music and sports; and providing relief and assistance to victims of disasters and calamities.

In pursuit of the above, ITC has identified the following focus areas for its CSR Programmes based on comprehensive need assessment surveys of its stakeholders:

- (i) Create **sustainable livelihoods and alleviate poverty** through promotion of afforestation, water stewardship, sustainable agriculture and climate smart practices, livestock development and women empowerment;
- (ii) Build **capabilities for tomorrow** through interventions in education, vocational training, sanitation, school WASH (Water, Sanitation & Hygiene), safe drinking water and waste management;
- (iii) Promote **healthcare, including preventive healthcare**, and improve critical nutritional & health status of at-risk population through interventions to strengthen mother & child health, nutritional content, delivery, outreach and outcomes;
- (iv) Protect **national heritage, art & culture**, and preserve & promote music and sports; and
- (v) Provide relief and assistance to victims of **disasters and calamities**.

The CSR Policy of the Company may be accessed on its corporate website at <https://www.itcportal.com/about-itc/policies/corporate-social-responsibility-policy.aspx>

b. Role of the CSR and Sustainability Committee:

The role of the CSR and Sustainability Committee is inter alia, to review, monitor and provide strategic direction to the Company's CSR and sustainability practices towards fulfilling its triple bottom line objectives. The Committee seeks to guide the Company in crafting unique models to support creation of sustainable livelihoods together with environmental regeneration. Formulation and monitoring of the CSR Policy and recommendation of the annual CSR Action Plan to the Board form part of the role of the Committee.

c. CSR Programmes / Projects:

The two most important stakeholders for ITC's CSR programmes / projects are:

- Rural communities, primarily in the Company's Agri Business areas.
- Communities residing in close proximity to the Company's production units.

The Company's stakeholder profile is varied, calling for an integrated approach to development comprising several layers of interventions which are summarised below, in line with Schedule VII to the Companies Act, 2013:

i. Promoting Preventive Healthcare, Sanitation & Poverty Alleviation (Schedule VII – i):

- **Sanitation:** Promote a hygienic environment through prevention of open defecation and reduce incidence of waterborne diseases. The focus of the interventions is on enhancing awareness and impacting behaviour change on Water, Sanitation & Hygiene (WASH). Facilitate health impacting social and civic infrastructure initiatives like improved sanitation and hygiene, potable drinking water etc., in the neighbourhood of our catchments.
- **Health and Nutrition:** Focus on preventive aspects through emphasis on maternal and child care (MCH) & nutrition through awareness and counselling by leveraging institutions like Anganwadis, Asha workers and network of women Village Health Champions (VHC). Also strengthen healthcare related services by supplementing primary & secondary infrastructure, upgrade Primary Health Centres (PHC), provide access to healthcare through mobile services & other interventions, and encourage adoption of effective nutritional practices.

- **Waste Management:** Create a clean and healthy environment through awareness & behaviour change for inculcating individual & community responsibility, facilitate source segregation & recycling of dry & wet waste, and enable sustainable livelihoods for waste collectors.
 - **Poverty Alleviation:** Target the needy and poor through interventions that enable income generation, and also provide access to basic needs like clothing, food, etc., as needed.
- ii. **Livelihood Enhancement (Schedule VII – ii):**
- **Integrated Animal Husbandry Programme:** Enhance incomes of farmers and their families by increasing productivity of large and small ruminants including poultry and fisheries through a comprehensive package of extension services and capability building.
 - **Education:** Provide children from weaker sections access to education with focus on enrolment, learning retention and improved pedagogy.
 - **Vocational Training:** Build and upgrade skills of youth with the emerging needs of the job market across sectors.
- iii. **Economic Empowerment of Women (Schedule VII – iii):**
- Provide a range of gainful employment and entrepreneurial opportunities to women supported with access to financial assistance by way of loans & grants and also provide for access to insurance & social security.
- iv. **Ensuring Environmental Sustainability (Schedule VII – iv):**
- **Social Forestry:** Provide food, fuel & fodder security to farmers through social & agro-forestry interventions.
 - **Water Stewardship:** Promote local management of water resources by facilitating community-based participation in planning & executing watershed projects, and also identify & enable extensive use of water efficient agri practices.
 - **CII-ITC Centre of Excellence for Sustainable Development:** Enable other businesses / organisations in India to create enduring value on a sustainable basis by embedding the imperatives of sustainable development in their strategies & processes.
- v. **Protection of National Heritage, Art & Culture (Schedule VII – v):**
- Revive and restore vanishing musical sub-genres by enlisting the goodwill of some of the finest musicians through the ITC Sangeet Research Academy (ITC SRA), which was established in 1977 as an embodiment of the Company's sustained commitment to a priceless national heritage.
- vi. **Research in science, technology, engineering and medicine aimed at promoting Sustainable Development Goals (Schedule VII – ix-b):**
- Leverage the technical expertise of premier institutions through partnerships and support R&D activities in the areas of science, technology, engineering, environment, agriculture and health aimed at promoting Sustainable Development Goals (SDGs).
- vii. **Rural Development (Schedule VII – x):**
- **Sustainable Agriculture:** Introduce advanced knowledge & technologies through package of practices, increase awareness of farmers on optimum use of natural resources in order to increase farm incomes, minimise cost of cultivation, and make agriculture resilient to extreme weather events.
 - **Knowledge Empowerment:** Enable farmers and farmer collectives to make informed choices by providing relevant and real-time information on commodity prices, local weather reports, customised knowledge & best practices on farm management, risk management and scientific farming.
 - **Agri-extension / services:** Encourage sustainable agricultural practices through various extension platforms to enable access to relevant farm mechanisation technologies & implements, as also institutional support mechanisms including linkages with Government schemes, especially for small farm holdings, to enhance farm productivity and farm-based incomes.
- viii. **Disaster Assistance (Schedule VII – xii):**
- Provide relief especially to the poor and vulnerable sections of society who face severe disruption to their livelihoods in the event of disasters and calamities, directly or through government bodies.

Executive Summary – Impact Assessment of ITC’s CSR Projects for the financial year 2020-21

Brief Description	ITC implements its CSR Programmes across the country under a Two Horizon approach aimed at holistic development of communities.
Thematic Areas / Programmes Covered	The specific themes covered under the Two Horizon approach included: Horizon – I: Strengthening today’s livelihoods <ul style="list-style-type: none"> ● Climate Smart Agriculture ● Water Stewardship ● Social Forestry Horizon – II: Building Capabilities for Tomorrow <ul style="list-style-type: none"> ● Support to Education ● Public Health: Sanitation, Health & Nutrition including Swasth India Mission ● Waste Management including Well Being out of Waste ● Skilling of Youth ● Women Empowerment
Projects Covered	36 projects having budget of more than ₹ 1 crore each during the financial year 2020-21 were taken up for impact assessment. The purpose of these impact assessment studies was to assess the impact of the CSR projects and also learn from the findings to make course corrections, where required, and to feed into future programme designing.
Projects Duration	FY 2020-21

States	The assessments covered interventions in the States of Assam, Bihar, Madhya Pradesh, Odisha, West Bengal, Andhra Pradesh, Karnataka, Maharashtra, Punjab, Rajasthan, Tamil Nadu, Telangana and Uttar Pradesh.
Impact Assessment Agencies	<p>These impact assessments were done by the following six external agencies selected through competitive bidding process, and assigned specific projects / geographies for assessment:</p> <ul style="list-style-type: none"> ● CRISIL Private Limited, Mumbai ● Sutra Consulting Private Limited, Bhubaneswar ● FDRI Private Limited, Faridabad ● Ingrain Technologies, Hyderabad ● Kantar, Mumbai ● Surge Impact Foundation, Hyderabad
Period of Study	FY 2022-23
Methodology	The agencies took up studies through a mixed method approach covering quantitative and qualitative data collection. A statistically significant sample size was covered under each project.

The **major impacts** recorded by the impact studies are as follows –

Horizon – I

- Overall, the projects assessed under Horizon-I were found to be relevant, effective, efficient and sustainable. They have not only contributed to higher incomes for farmers, but also enabled climate adaptation and conservation of natural resources. More importantly, their implementation was not affected because of Covid, wherein digital was not only leveraged, but also adopted quickly by the beneficiaries.

Climate Smart Agriculture:

- Under Climate Smart Agriculture, the study covered Bihar, MP and Assam where post intervention, improvement was observed in average yields of major crops of wheat, maize, paddy and soyabean. Overall, 35% improvement was witnessed in wheat as compared to baseline and as against 13% reduction in control group, with highest increase of 81% observed in Begusarai.
- Overall increase in production for all major crops due to adoption of Climate Smart Agricultural practices was 52% in the study conducted covering Maharashtra and Punjab. Among major crops (onion, sugarcane, wheat and paddy), highest increase in production was in onion (50%).
- 2.4 times and 5.3 times increase in awareness; and 3 times & 2.3 times increase in adoption of seed treatment practices in the model villages of Assam and Bihar, respectively.
- Integrated Pest Management Kit - Farmers appreciated the utility of pheromone traps and 96% continued usage of the same in subsequent years after the project. The traps helped in reducing the number of rounds of pesticide spray (by 2-3 in number), thus saving costs to the tune of ₹ 6,000 to ₹ 8,000 per hectare.
- Tray seedlings showed up to 99% establishment in main field even in non-conducive climate, wherein they could withstand water stress and could give yield improvement of 12% to 17%. The barn roof insulations and turbo ventilators were instrumental in saving 25% to 28% of fuel wood.

Water Stewardship:

- In the assessment conducted in select Districts of Bihar, Madhya Pradesh and Odisha, improvement in water availability due to the Water Stewardship Programme resulted in an increase in average irrigated area by 7.5% post intervention. In the study covering Andhra Pradesh, Telangana, Rajasthan, Karnataka and Tamil Nadu, 99% respondents stated that the project had resulted not only in reduction in water consumption, but also improvement in income because of timely availability of water.

Social Forestry:

- Additional income of more than ₹ 45,000/- per household was observed in Karnataka through plantation of Silver trees and ₹ 60,000/- per household for Melia Dubia.

Horizon – II

- Projects were of high relevance and successfully continued through online and community intervention inspite of lockdown, because of changes made in the design to cognize for the changed context.

Support to Education:

- In the study conducted in the states of Uttar Pradesh, Maharashtra, Telangana, Karnataka and Andhra Pradesh, 98% students stated improvement in learning levels in reading ability and math skills as an outcome of the Online Learning and Mohalla Classes under the Read India Programme.

Public Health:

- Availability of separate toilets for boys and girls, hand wash stations, drinking water, sanitary napkin dispensers and incinerators increased in intervention schools compared to baseline and control. Maintenance fund generation by School Management Committees increased by 70% compared with baseline resulting in better cleanliness of toilets in Saharanpur, Uttar Pradesh. The beneficiary group witnessed an improvement in the student-toilet ratio, which is at 1:33, whereas the control group has a ratio of 1:92. For the beneficiary group, the ratio for girl students is 1:28, and for boys, it is 1:40. Moreover, post intervention, the enrolment rate in intervention group increased by 30% and the drop-out rate among girls also reduced by upto 50%.
- 100% of the respondents in intervention areas in West Bengal have mentioned having access to toilet due to construction of community toilets managed by Mohalla Committees in which 83% are women. The intervention has also helped women overcome the challenges that they faced before having access to toilets, apart from giving them security and greater dignity.
- As a result of Mother & Child Health programme in Assam and West Bengal, underweight children in intervention Anganwadis is lower as compared to control in the project locations. In the intervention areas, over 93% women reported practicing exclusive breastfeeding and 95% women also reported having introduced semi-solid food after completion of 6 months as advised.
- There was a significant positive, timely and much needed improvement in awareness on handwash and hygiene practices because of the campaign as part of the Savlon Swasth India Mission. 9 out of 10 people agreed that the campaign helped them understand the need and criticality of following a handwashing regime of 20 seconds or more to stay protected from germs, coronavirus and other infections. 95% of the people also agreed that the masking campaign influenced them to wear a mask properly during COVID.

Waste Management:

- Under the Wellbeing Out of Waste project, out of the total collected waste in Bengaluru, 73.6% was recyclable, and the rest of the waste comprising Low-value plastics, Mixed waste and other waste was sent for co-processing and Refused Derived Fuel (RDF). The project also provided livelihood opportunities to over 590 waste collectors in the city.
- All the sampled households in intervention areas of the Solid Waste Management project in Tamil Nadu & Telangana practiced source segregation of waste as against only 17% in control.

Skilling of Youth:

- Vocational training in Andhra Pradesh, Tamil Nadu, Maharashtra & Punjab has helped in increasing average monthly family income of the candidates by 69% because of skilling and consequent placement of youth in the family. In Bihar, Madhya Pradesh & West Bengal over 82% of the candidates also reported taking independent financial decisions, 78% started playing a role in family decision making process and 67% reported having contributed to household assets.

Women Empowerment:

- Average monthly income of ultra-poor women covered in the Targeting Hardcore Poor Programme in Telangana & Uttar Pradesh increased by over 5 times compared to pre-intervention, against their earlier income of just ₹ 2,312/- per month. 100% of the women in the intervention area were part of SHG compared with only 8% in control.

Annexure to the Report of the Board of Directors

INFORMATION UNDER SECTION 134 (3) (m) OF THE COMPANIES ACT, 2013 READ WITH COMPANIES (ACCOUNTS) RULES, 2014 AND FORMING PART OF THE REPORT OF THE BOARD OF DIRECTORS

CONSERVATION OF ENERGY:

All business units continued their efforts to improve energy usage efficiencies and increase the share of renewable energy in line with ITC's 2030 Goals. These goals include reduction in specific energy by 30% and specific GHG by 50% along with increasing renewable energy share to 50% and sourcing 100% of purchased electricity from renewables. The Company regularly tracks its performance against these key performance indicators. The Company invests in energy conservation and renewable energy projects along with exploring innovative technologies to bring alignment with the goals. These investments are done in phases by taking into account future expansion plans, evolving regulatory frameworks, techno-commercial feasibility and socio-political aspects.

a) Steps taken or impact on conservation of energy:

Some of the energy conservation measures adopted across the Company are outlined below:

- I. Installation of energy efficient electric boiler and electric dryer in ITC Hotels.
- II. Optimisation of compressed air management through measures such as installation of intelligent flow controller to remove pressure surges, installation of additional low-pressure compressor etc. in Foods Business.
- III. Reduction of steam consumption for evaporating effluent by concentrating it through an additional Reverse Osmosis stage in Foods Business.
- IV. Installation of energy efficient multi-disc screw press by replacing decanter for sludge dewatering in Foods Business.
- V. Installation of heat pump for simultaneous cooling and heating applications.
- VI. Installation of Variable Frequency Drives (VFDs) for various pumps, motors and chillers across Businesses.
- VII. Replacement of cooling tower, Air Handling Units (AHUs), chillers, air conditioners, motors, fans, pumps, agitators, UPS and pulp refiner with higher efficiency ones across Businesses.
- VIII. Improvement in energy usage efficiency in lighting systems by changing over to efficient lighting solutions such as Light Emitting Diodes (LEDs) across Businesses.
- IX. Process improvements to enhance productivity and reduce specific energy consumption across Businesses.

These investments have resulted in energy savings of over 200 TJ during the year.

b) Steps taken for utilising alternate sources of energy:

Some of the renewable energy initiatives undertaken during the year are as follows:

- I. Commissioning of 3MWp offsite solar photovoltaic power plant in Tamil Nadu
- II. Commissioning of additional rooftop solar photovoltaic power plants.
- III. Commissioning of biomass boilers at few locations.
- IV. Continued use of biomass-based fuels in existing biomass boilers for thermal energy generation to reduce dependency on fossil fuels across Businesses.

These investments have helped ITC increase its renewable electricity capacity to 178 MW. These investments along with investments in renewable thermal energy have helped ITC achieve an overall renewable energy share of 43%.

c) Capital investment on energy conservation equipment: ₹ 1892.57 lakhs

TECHNOLOGY ABSORPTION:

a) Efforts made towards technology absorption:

- I. As a part of Industry 4.0 initiative, various technological innovations are being implemented in large Businesses such as Paper and Foods. Key highlights are presented below:
 - a. Implemented IIoT (Industrial Internet of Things) sensors to monitor equipment condition and plan for predictive maintenance and reduce downtime.
 - b. Installed advanced data management system to capture real-time operations data across businesses that helps in building machine learning tools. These tools help in improving quality; increasing throughput and energy performance; reducing material consumption and costs.
 - c. Automation coupled with machine learning models to help standardise processes across factories to maintain consistent product quality in noodles manufacturing line.
- II. State-of-the-art machine installed in Printing and Packaging Business for cylinder making process that integrates excess material removal and surface smoothing.
- III. Pulsed Electric Field technology that softens potatoes resulting in lower starch loss in potato chips manufacturing.
- IV. Laser diffraction-based particle size analyser for better quality control in Atta plant.
- V. New process and product technologies on personal hygiene, skin care and fragrances developed through in-house Research & Development in the Personal Care Products Business.
- VI. Induction of contemporary technologies and continuous improvement across businesses, towards reducing process variability, cycle time and wastages while enhancing manufacturing flexibility, productivity and capability across Businesses.

b) Benefits derived:

- I. Cycle time reduction and productivity enhancement
- II. World-class quality and differentiated products
- III. Addressing market specific end-use applications
- IV. Conservation of resources and improved efficiencies

c) The expenditure incurred on Research and Development:

	For the year ended 31st March, 2023
Expenditure on R&D:	(₹ in Lakhs)
i) Capital	966.98
ii) Revenue	16,131.46
Total	17,098.44

% Was on deputation to the Company's Subsidiary and reverted to Company on July 25, 2022.

Notes :

- Remuneration includes salary, performance bonus, long term incentives, allowances, contribution to the approved Provident Fund & Pension Funds & other benefits/applicable perquisites borne by the Company, except the contribution to approved Gratuity Funds and provisions for leave encashment which are actuarially determined on an overall Company basis. The term 'remuneration' has the meaning assigned to it under the Companies Act, 2013.
- The Company grants Stock Options to the Directors, KMP and other employees under its Employee Stock Option Schemes at 'market price' [within the meaning of the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021]. Since such Stock Options are not tradeable, no perquisite or benefit is immediately conferred upon the employee by grant of such Options and accordingly the said grant has not been considered as remuneration.
- Net remuneration comprises cash income less:
 - income tax, surcharge (as applicable) & education cess deducted at source
 - employees' own contribution to Provident Fund.
- All appointments are/were contractual in accordance with terms and conditions as per Company rules
- None of the above employees is a relative of any Director of the Company
- The above list does not include employees who are on deputation and whose cost is not borne by the Company

Annexure to the Report of the Board of Directors

Independent Auditor's Report on compliance with the conditions of Corporate Governance as per provisions of Chapter IV of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended

The Members of ITC Limited

1. The Corporate Governance Report prepared by ITC Limited (hereinafter the "Company"), contains details as specified in regulations 17 to 27, clauses (b) to (i) and (t) of sub – regulation (2) of regulation 46 and para C, D and E of Schedule V of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("the Listing Regulations") ('Applicable criteria') for the year ended March 31, 2023, and the said Report will be submitted by the Company to the Stock Exchanges as part of the Annual Report.

Management's Responsibility

2. The preparation of the Corporate Governance Report is the responsibility of the Management of the Company including the preparation and maintenance of all relevant supporting records and documents. This responsibility also includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the Corporate Governance Report.
3. The Management along with the Board of Directors are also responsible for ensuring that the Company complies with the conditions of Corporate Governance as stipulated in the Listing Regulations, issued by the Securities and Exchange Board of India.

Auditor's Responsibility

4. Pursuant to the requirements of the Listing Regulations, our responsibility is to provide a reasonable assurance in the form of an opinion whether, the Company has complied with the conditions of Corporate Governance as specified in the Listing Regulations.
5. We conducted our examination of the Corporate Governance Report in accordance with the Guidance Note on Reports or Certificates for Special Purposes and the Guidance Note on Certification of Corporate Governance, both issued by the Institute of Chartered Accountants of India ("ICAI"). The Guidance Note on Reports or Certificates for Special Purposes requires that we comply with the ethical requirements of the Code of Ethics issued by ICAI.
6. We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.
7. The procedures selected depend on the auditor's judgement, including the assessment of the risks associated in compliance of the Corporate Governance Report with the applicable criteria. Summary of procedures performed include:
 - i. Read and understood the information prepared by the Company and included in its Corporate Governance Report;
 - ii. Obtained and verified that the composition of the Board of Directors with respect to executive and non-executive directors has been met throughout the reporting period;
 - iii. Obtained and read the Register of Directors as on March 31, 2023 and verified that atleast one independent woman director was on the Board of Directors throughout the year;
 - iv. Obtained and read the minutes of the following committee meetings / other meetings held from April 01, 2022 to March 31, 2023:

 - v. Obtained necessary declarations from the directors of the Company.
 - vi. Obtained and read the policy adopted by the Company for related party transactions.
 - vii. Obtained the schedule of related party transactions during the year and balances at the year-end.
 - viii. Obtained and read the minutes of the audit committee meeting wherein such related party transactions have been pre-approved by the audit committee.
 - ix. Performed necessary inquiries with the management and also obtained necessary specific representations from management.
8. The above-mentioned procedures include examining evidence supporting the particulars in the Corporate Governance Report on a test basis. Further, our scope of work under this report did not involve us performing audit tests for the purposes of expressing an opinion on the fairness or accuracy of any of the financial information or the financial statements of the Company taken as a whole.

Opinion

9. Based on the procedures performed by us, as referred in paragraph 7 above, and according to the information and explanations given to us, we are of the opinion that the Company has complied with the conditions of Corporate Governance as specified in the Listing Regulations, as applicable for the year ended March 31, 2023, referred to in paragraph 4 above.

Other matters and Restriction on Use

10. This report is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.
11. This report is addressed to and provided to the members of the Company solely for the purpose of enabling it to comply with its obligations under the Listing Regulations with reference to compliance with the relevant regulations of Corporate Governance and should not be used by any other person or for any other purpose. Accordingly, we do not accept or assume any liability or any duty of care or for any other purpose or to any other party to whom it is shown or into whose hands it may come without our prior consent in writing. The Board of Directors of the Company has recommended Special Dividend of ₹ 2.75 per Ordinary Share in addition to the Final Dividend of ₹ 6.75 per Ordinary Share for the financial year ended 31st March, 2023 (previous year - ₹ 6.25 per Ordinary Share) to be paid on fully paid Equity Shares amounting to ₹ 11806.61 Crores. The said Final and Special Dividend is subject to the approval of the shareholders at the Annual General Meeting and has not been included as a liability in these financial statements.

Together with the Interim Dividend of ₹ 6.00 per Ordinary Share (previous year - ₹ 5.25 per Ordinary Share) paid on 3rd March, 2023, the total Equity Dividend for the financial year ended 31st March, 2023 is ₹ 15.50 per Ordinary Share (previous year - ₹ 11.50 per Ordinary Share).

Capital Reserve: This Reserve represents the difference between value of the net assets transferred to the Company in the course of business combinations and the consideration paid for such combinations.

Securities Premium: This Reserve represents the premium on issue of shares and can be utilized in accordance with the provisions of the Companies Act, 2013.

Share Options Outstanding Account: This Reserve relates to stock options granted by the Company to employees under ITC Employee Stock Option Schemes. This Reserve is transferred to Securities Premium or Retained Earnings on exercise or lapse of vested options.

Capital Redemption Reserve: This Reserve has been transferred to the Company in the course of business combinations and can be utilized in accordance with the provisions of the Companies Act, 2013.

Contingency Reserve: This Reserve has been created out of Retained Earnings, as a matter of prudence, to take care of any unforeseen adverse developments in pending legal disputes.

General Reserve: This Reserve has been created by an appropriation from one component of equity (generally Retained Earnings) to another, not being an item of Other Comprehensive Income. The same can be utilized in accordance with the provisions of the Companies Act, 2013.

Retained Earnings: This Reserve represents the cumulative profits of the Company and effects of remeasurement of defined benefit obligations. This Reserve can be utilized in accordance with the provisions of the Companies Act, 2013.

Debt Instruments through Other Comprehensive Income: This Reserve represents the cumulative gains (net of losses) arising on revaluation of Debt Instruments measured at Fair Value through Other Comprehensive Income, net of amounts reclassified, if any, to profit or loss when those instruments are disposed of.

Equity Instruments through Other Comprehensive Income: This Reserve represents the cumulative gains (net of losses) arising on revaluation of Equity Instruments measured at Fair Value through Other Comprehensive Income, net of amounts reclassified, if any, to Retained Earnings when those instruments are disposed of.

Effective portion of Cash Flow Hedges: This Reserve represents the cumulative effective portion of changes in Fair Value of hedging instrument that are designated as Cash Flow Hedges. It will be reclassified to profit or loss or included in the carrying amount of the non-financial asset in accordance with the Company's accounting policy.

Foreign Currency Translation Reserve: This Reserve contains the accumulated balance of foreign exchange differences arising on monetary items that, in substance, form part of the Company's net investment in a foreign operation whose functional currency is other than Indian Rupee. Exchange differences previously accumulated in this Reserve are reclassified to profit or loss on disposal of the foreign operation.

Notes to the Financial Statements

1. Significant Accounting Policies

Statement of Compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013. The financial statements have also been prepared in accordance with the relevant presentation requirements of the Companies Act, 2013. The Company adopted Ind AS from 1st April, 2016.

Basis of Preparation

The financial statements are prepared in accordance with the historical cost convention, except for certain items that are measured at fair values, as explained in the accounting policies.

Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102 – Share-based Payment, leasing transactions that are within the scope of Ind AS 116 – Leases, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 – Inventories or value in use in Ind AS 36 – Impairment of Assets.

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of the accounting policies and the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period; they are recognised in the period of the revision and future periods if the revision affects both current and future periods.

Operating Cycle

All assets and liabilities have been classified as current or non-current as per the Company's normal operating

cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1 – Presentation of Financial Statements based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

Property, Plant and Equipment – Tangible Assets

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation and impairment, if any. For this purpose, cost includes deemed cost which represents the carrying value of property, plant and equipment recognised as at 1st April, 2015 measured as per the previous Generally Accepted Accounting Principles (GAAP).

Cost is inclusive of inward freight, duties and taxes and incidental expenses related to acquisition. In respect of major projects involving construction, related pre-operational expenses form part of the value of assets capitalised. Expenses capitalised also include applicable borrowing costs for qualifying assets, if any. All upgradation/enhancements are charged off as revenue expenditure unless they bring similar significant additional benefits.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in Statement of Profit and Loss.

Depreciation of these assets commences when the assets are ready for their intended use which is generally on commissioning. Items of property, plant and equipment are depreciated in a manner that amortizes the cost (or other amount substituted for cost) of the assets after commissioning, less its residual value, over their useful lives as specified in Schedule II of the Companies Act, 2013 on a straight line basis. Land is not depreciated.

The estimated useful lives of property, plant and equipment of the Company are as follows:

Buildings	30-60 Years
Leasehold Improvements	Shorter of lease period or estimated useful lives
Plant and Equipment	3-25 Years
Furniture and Fixtures	8-10 Years
Vehicles	8-10 Years
Office Equipment	5 Years

Notes to the Financial Statements

1. Significant Accounting Policies (Contd.)

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant lease.

Property, plant and equipment's residual values and useful lives are reviewed at each Balance Sheet date and changes, if any, are treated as changes in accounting estimate.

Intangible Assets

Intangible Assets that the Company controls and from which it expects future economic benefits are capitalised upon acquisition and measured initially:

- a. for assets acquired in a business combination, at fair value on the date of acquisition.
- b. for separately acquired assets, at cost comprising the purchase price (including import duties and non-refundable taxes) and directly attributable costs to prepare the asset for its intended use.

Internally generated assets for which the cost is clearly identifiable are capitalised at cost. Research expenditure is recognised as an expense when it is incurred. Development costs are capitalised only after the technical and commercial feasibility of the asset for sale or use has been established. Thereafter, all directly attributable expenditure incurred to prepare the asset for its intended use are recognised as the cost of such assets. Internally generated brands, websites and customer lists are not recognised as intangible assets.

The carrying value of intangible assets includes deemed cost which represents the carrying value of intangible assets recognised as at 1st April, 2015 measured as per the previous GAAP.

The useful life of an intangible asset is considered finite where the rights to such assets are limited to a specified period of time by contract or law (e.g. patents, licences, trademarks, franchise and servicing rights) or the likelihood of technical, technological obsolescence (e.g. computer software, design, prototypes) or commercial obsolescence (e.g. lesser known brands are those to which adequate marketing support may not be provided). If, there are no such limitations, the useful life is taken to be indefinite.

Intangible assets that have finite lives are amortized over their estimated useful lives by the straight line method unless it is practical to reliably determine the pattern of benefits arising from the asset. An intangible asset with an indefinite useful life is not amortized.

All intangible assets are tested for impairment. Amortization expenses and impairment losses and reversal of impairment losses are taken to the Statement of Profit and Loss. Thus, after initial recognition, an intangible asset is carried at

its cost less accumulated amortization and/or impairment losses.

The useful lives of intangible assets are reviewed annually to determine if a reset of such useful life is required for assets with finite lives and to confirm that business circumstances continue to support an indefinite useful life assessment for assets so classified. Based on such review, the useful life may change or the useful life assessment may change from indefinite to finite. The impact of such changes is accounted for as a change in accounting estimate.

Investment Property

Properties that are held for long-term rental yields and/or for capital appreciation are classified as investment properties. Investment properties are stated at cost of acquisition or construction less accumulated depreciation and impairment, if any. Depreciation is recognised using the straight line method so as to amortise the cost of investment properties over their useful lives as specified in Schedule II of the Companies Act, 2013. Freehold land and properties under construction are not depreciated.

Transfers to, or from, investment properties are made at the carrying amount when and only when there is a change in use.

An item of investment property is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of asset. Any gain or loss arising on the disposal or retirement of an item of investment property is determined as the difference between the sales proceeds and the carrying amount of the property and is recognised in the Statement of Profit and Loss.

Income received from investment property is recognised in the Statement of Profit and Loss on a straight line basis over the term of the lease.

Impairment of Assets

Impairment loss, if any, is provided to the extent, the carrying amount of assets or cash generating units exceed their recoverable amount.

Recoverable amount is higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset or cash generating unit and from its disposal at the end of its useful life.

Impairment losses recognised in prior years are reversed when there is an indication that the impairment losses recognised no longer exist or have decreased. Such reversals are recognised as an increase in carrying amounts of assets to the extent that it does not exceed the

Notes to the Financial Statements

1. Significant Accounting Policies (Contd.)

carrying amounts that would have been determined (net of amortization or depreciation) had no impairment loss been recognised in previous years.

Inventories

Inventories are stated at lower of cost and net realisable value. The cost is calculated on weighted average method. Cost comprises expenditure incurred in the normal course of business in bringing such inventories to their present location and condition and includes, where applicable, appropriate overheads based on normal level of activity. Net realisable value is the estimated selling price less estimated costs for completion and sale.

Obsolete, slow moving and defective inventories are identified from time to time and, where necessary, a provision is made for such inventories.

Foreign Currency Transactions

The functional and presentation currency of the Company is Indian Rupee.

Transactions in foreign currency are accounted for at the exchange rate prevailing on the transaction date. Gains/losses arising on settlement as also on translation of monetary items are recognised in the Statement of Profit and Loss.

Exchange differences arising on monetary items that, in substance, form part of the Company's net investment in a foreign operation (having a functional currency other than Indian Rupee) are accumulated in Foreign Currency Translation Reserve.

Derivatives and Hedge Accounting

Derivatives are initially recognised at fair value and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gains/losses are recognised in Statement of Profit and Loss immediately unless the derivative is designated and effective as a hedging instrument, in which case the resulting gain/loss is recognised as per the hedge accounting principles stated below.

The Company complies with the principles of hedge accounting where derivative contracts and / or non-derivative financial assets/liabilities that are permitted under applicable accounting standards are designated as hedging instruments. At the inception of the hedge relationship, the Company documents the relationship between the hedging instrument and the hedged item, along with the risk management objectives and its strategy for undertaking hedge transaction, which can be a fair value hedge or a cash flow hedge.

(i) Fair value hedges

Changes in fair value of the designated portion of hedging instruments that qualify as fair value hedges are recognised in profit or loss immediately, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk. The change in the fair value of the designated portion of hedging instrument and the change in fair value of the hedged item attributable to the hedged risk are recognised in Statement of Profit and Loss in the line item relating to the hedged item.

Hedge accounting is discontinued when the hedging instrument is derecognised, expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. The fair value adjustment to the carrying amount of the hedged item arising from the hedged risk is amortised to profit or loss from that date.

(ii) Cash flow hedges

The effective portion of changes in the fair value of hedging instruments that are designated and qualify as cash flow hedges is recognised in the other comprehensive income and accumulated as 'Cash Flow Hedge Reserve'. The gains/losses relating to the ineffective portion are recognised immediately in the Statement of Profit and Loss.

Amounts previously recognised and accumulated in other comprehensive income are reclassified to profit or loss when the hedged item affects the Statement of Profit and Loss. However, when the hedged item results in the recognition of a non – financial asset, such gains/losses are transferred from equity (but not as reclassification adjustment) and included in the initial measurement cost of the non–financial asset.

Hedge accounting is discontinued when the hedging instrument is derecognised, expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gains/losses recognised in other comprehensive income and accumulated in equity at that time remain in equity and is reclassified when the underlying transaction is ultimately recognised. When an underlying transaction is no longer expected to occur, the gains/losses accumulated in equity are recognised immediately in the Statement of Profit and Loss.

Investment in Subsidiaries, Associates and Joint Ventures

Investment in subsidiaries, associates and joint ventures are carried at cost less accumulated impairment, if any.

Notes to the Financial Statements

1. Significant Accounting Policies (Contd.)

Financial instruments, Financial assets, Financial liabilities and Equity Instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the relevant instrument and are initially measured at fair value except for trade receivables that do not contain a significant financing component, which are measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities measured at fair value through profit or loss) are added to or deducted from the fair value on initial recognition of financial assets or financial liabilities. Purchase or sale of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date when the Company commits to purchase or sell the asset.

Financial Assets

Recognition: Financial assets include Investments, Trade Receivables, Advances, Security Deposits, Cash and Cash equivalents. Such assets are initially recognised at fair value or transaction price, as applicable, when the Company becomes party to contractual obligations. The transaction price includes transaction costs unless the asset is being fair valued through the Statement of Profit and Loss.

Classification: Management determines the classification of an asset at initial recognition depending on the purpose for which the assets were acquired. The subsequent measurement of financial assets depends on such classification.

Financial assets are classified as those measured at:

- (a) amortised cost, where the financial assets are held solely for collection of cash flows arising from payments of principal and/or interest.
- (b) fair value through other comprehensive income (FVTOCI), where the financial assets are held not only for collection of cash flows arising from payments of principal and interest but also from the sale of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in other comprehensive income.
- (c) fair value through profit or loss (FVTPL), where the assets are managed in accordance with an approved investment strategy that triggers purchase and sale decisions based on the fair value of such assets. Such assets are subsequently measured at fair value, with

unrealised gains and losses arising from changes in the fair value being recognised in the Statement of Profit and Loss in the period in which they arise.

Trade Receivables, Advances, Security Deposits, Cash and Cash equivalents etc. are classified for measurement at amortised cost while investments may fall under any of the aforesaid classes. However, in respect of particular investments in equity instruments that would otherwise be measured at fair value through profit or loss, an irrevocable election at initial recognition may be made to present subsequent changes in fair value through other comprehensive income.

Impairment: The Company assesses at each reporting date whether a financial asset (or a group of financial assets) such as investments, trade receivables, advances and security deposits held at amortised cost and financial assets that are measured at fair value through other comprehensive income are tested for impairment based on evidence or information that is available without undue cost or effort. Expected credit losses are assessed and loss allowances recognised if the credit quality of the financial asset has deteriorated significantly since initial recognition.

Reclassification: When and only when the business model is changed, the Company shall reclassify all affected financial assets prospectively from the reclassification date as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss without restating the previously recognised gains, losses or interest and in terms of the reclassification principles laid down in the Ind AS relating to Financial Instruments.

Derecognition: Financial assets are derecognised when the right to receive cash flows from the assets has expired, or has been transferred, and the Company has transferred substantially all of the risks and rewards of ownership. Concomitantly, if the asset is one that is measured at:

- (a) amortised cost, the gain or loss is recognised in the Statement of Profit and Loss;
- (b) fair value through other comprehensive income, the cumulative fair value adjustments previously taken to reserves are reclassified to the Statement of Profit and Loss unless the asset represents an equity investment, in which case the cumulative fair value adjustments previously taken to reserves are reclassified within equity.

Income Recognition: Interest income is recognised in the Statement of Profit and Loss using the effective interest method. Dividend income is recognised in the Statement of Profit and Loss when the right to receive dividend is established.

Notes to the Financial Statements

1. Significant Accounting Policies (Contd.)

Financial Liabilities

Borrowings, trade payables and other financial liabilities are initially recognised at fair value and are subsequently measured at amortised cost. Any discount or premium on redemption/settlement is recognised in the Statement of Profit and Loss as finance cost over the life of the liability using the effective interest method and adjusted to the liability figure disclosed in the Balance Sheet.

Financial liabilities are derecognised when the liability is extinguished, that is, when the contractual obligation is discharged, cancelled or on expiry.

Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount is included in the Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

Equity Instruments

Equity instruments are recognised at the value of the proceeds, net of direct costs of the capital issue.

Revenue

Revenue is measured at the transaction price that the Company receives or expects to receive as consideration for goods supplied and services rendered, net of returns and estimates of variable consideration such as discounts to customers. Revenue from the sale of goods includes Excise Duties and National Calamity Contingent Duty which are payable on manufacture of goods but excludes taxes such as VAT and Goods and Services Tax which are payable in respect of sale of goods and services.

Revenue from the sale of goods and services is recognised when the Company performs its obligations to its customers and the amount of revenue can be measured reliably and recovery of the consideration is probable. The timing of such recognition in case of sale of goods is when the control over the same is transferred to the customer, which is mainly upon delivery and in case of services, in the period in which such services are rendered.

Government Grant

The Company may receive government grants that require compliance with certain conditions related to the Company's operating activities or are provided to the Company by way of financial assistance on the basis of certain qualifying criteria.

Government grants are recognised when there is reasonable assurance that the grant will be received upon the Company complying with the conditions attached to the grant.

Accordingly, government grants:

- (a) related to or used for assets, are deducted from the carrying amount of the asset.
- (b) related to incurring specific expenditures are taken to the Statement of Profit and Loss on the same basis and in the same periods as the expenditures incurred.
- (c) by way of financial assistance on the basis of certain qualifying criteria are recognised as they become receivable.

In the unlikely event that a grant previously recognised is ultimately not received, it is treated as a change in estimate and the amount cumulatively recognised is expensed in the Statement of Profit and Loss.

Dividend Distribution

Dividends paid (including income tax thereon) are recognised in the period in which the interim dividends are approved by the Board of Directors, or in respect of the final dividend when approved by shareholders.

Employee Benefits

The Company makes contributions to both defined benefit and defined contribution schemes which are mainly administered through duly constituted and approved Trusts.

Provident Fund contributions are in the nature of defined contribution scheme. In respect of employees who are members of constituted and approved trusts, the Company recognises contribution payable to such trusts as an expense including any shortfall in interest between the amount of interest realised by the investment and the interest payable to members at the rate declared by the Government of India. In respect of other employees, provident funds are deposited with the Government and recognised as expense.

The Company makes contribution to defined contribution pension plan. The contribution payable is recognised as an expense, when an employee renders the related service.

The Company also makes contribution to defined benefit pension and gratuity plan. The cost of providing benefits under the defined benefit obligation is calculated by independent actuary using the projected unit credit method. Service costs and net interest expense or income is reflected in the Statement of Profit and Loss. Gain or Loss on account of remeasurements are recognised immediately through other comprehensive income in the period in which they occur.

The employees of the Company are entitled to compensated leave for which the Company records the liability based on actuarial valuation computed using projected unit credit method. These benefits are unfunded.

Notes to the Financial Statements

1. Significant Accounting Policies (Contd.)

Actual disbursements made under the Workers' Voluntary Retirement Scheme are accounted as revenue expenses.

Employee Share Based Compensation

Stock Options

Stock Options are granted to eligible employees under the ITC Employee Stock Option Schemes ("ITC ESOS"), as may be decided by the Nomination & Compensation Committee/Board. Eligible employees for this purpose include employees of the Company including Directors and those on deputation and employees of the Company's subsidiary companies including Managing Director/Wholetime Director of a subsidiary.

Under Ind AS, the cost of ITC Stock Options (Stock Options) is recognised based on the fair value of Stock Options as on the grant date.

While the fair value of Stock Options granted is recognised in the Statement of Profit and Loss for employees of the Company (other than those out on deputation), the value of Stock Options, net of reimbursements, granted to employees on deputation and to employees of the wholly owned and other subsidiary companies is considered as capital contribution/investment.

The Company generally seeks reimbursement of the value of Stock Options from such companies, as applicable. It may, if so recommended by the Corporate Management Committee and approved by the Audit Committee, decide not to seek such reimbursements from:

- (a) Wholly owned subsidiaries who need to conserve financial capacity to sustain their business and growth plans and to address contingencies that may arise, taking into account the economic and market conditions then prevailing and opportunities and threats in the competitive context.
- (b) Other companies not covered under (a) above, who need to conserve financial capacity to sustain their business and growth plans and where the quantum of reimbursement is not material - the materiality threshold being ₹ 5 Crores for each entity for a financial year.

Cash Settled Stock Appreciation Linked Reward (SAR) Plan

Cash Settled SAR units are granted to eligible employees under the ITC Employee Cash Settled Stock Appreciation Linked Reward Plan ("ITC ESARP"). The eligible employees for this purpose are such present and future permanent employees of the Company, including a Director of the Company, as may be decided by the CMC/Nomination & Compensation Committee/Board.

For cash settled SAR units granted to eligible employees, a liability is initially measured at fair value at the grant date and is subsequently remeasured at each reporting period, until settled. The fair value of ESAR units granted is recognised in the Statement of Profit and Loss for employees of the Company. In case of employees on deputation to group companies, the Company generally seeks reimbursements from the concerned group company. The value of such payments, net of reimbursements, is considered as capital contribution/investment.

Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a Lessee

Right-of-Use (ROU) assets are recognised at inception of a contract or arrangement for significant lease components at cost less lease incentives, if any. ROU assets are subsequently measured at cost less accumulated depreciation and impairment losses, if any. The cost of ROU assets includes the amount of lease liabilities recognised, initial direct cost incurred and lease payments made at or before the lease commencement date. ROU assets are generally depreciated over the shorter of the lease term and estimated useful lives of the underlying assets on a straight line basis. Lease term is determined based on consideration of facts and circumstances that create an economic incentive to exercise an extension option, or not to exercise a termination option. Lease payments associated with short-term leases and low value leases are charged to the Statement of Profit and Loss on a straight line basis over the term of the relevant lease.

The Company recognises lease liabilities measured at the present value of lease payments to be made on the date of recognition of the lease. Such lease liabilities do not include variable lease payments (that do not depend on an index or a rate), which are recognised as expense in the periods in which they are incurred. Interest on lease liability is recognised using the effective interest method. Lease liabilities are subsequently increased to reflect the accretion of interest and reduced for the lease payments made. The carrying amount of lease liabilities is also remeasured upon modification of lease arrangement or upon change in the assessment of the lease term. The effect of such remeasurements is adjusted to the value of the ROU assets.

Notes to the Financial Statements

1. Significant Accounting Policies (Contd.)

Company as a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Where the Company is a lessor under an operating lease, the asset is capitalised within property, plant and equipment or investment property and depreciated over its useful economic life. Payments received under operating leases are recognised in the Statement of Profit and Loss on a straight line basis over the term of the lease.

Taxes on Income

Taxes on income comprise current taxes and deferred taxes. Current tax in the Statement of Profit and Loss is provided as the amount of tax payable in respect of taxable income for the period using tax rates and tax laws enacted during the period, together with any adjustment to tax payable in respect of previous years.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities and the amounts used for taxation purposes (tax base), at the tax rates and tax laws enacted or substantively enacted by the end of the reporting period.

Deferred tax assets are recognised for the future tax consequences to the extent it is probable that future taxable profits will be available against which the deductible temporary differences can be utilised.

Income tax, insofar as it relates to items disclosed under other comprehensive income or equity, is disclosed separately under other comprehensive income or equity, as applicable.

Deferred tax assets and liabilities are offset when there is legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on net basis, or to realize the asset and settle the liability simultaneously.

Claims

Claims against the Company not acknowledged as debts are disclosed after a careful evaluation of the facts and legal aspects of the matter involved.

Provisions

Provisions are recognised when, as a result of a past event, the Company has a legal or constructive obligation; it is probable that an outflow of resources will be required to settle the obligation; and the amount can be reliably estimated. The amount so recognised is a best estimate of the consideration required to settle the obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation.

In an event when the time value of money is material, the provision is carried at the present value of the cash flows estimated to settle the obligation.

Operating Segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker (CODM). The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Corporate Management Committee.

Segments are organised based on businesses which have similar economic characteristics as well as exhibit similarities in nature of products and services offered, the nature of production processes, the type and class of customer and distribution methods.

Segment revenue arising from third party customers is reported on the same basis as revenue in the financial statements. Inter-segment revenue is reported on the basis of transactions which are primarily market led. Segment results represent profits before finance charges, unallocated corporate expenses and taxes.

“Unallocated Corporate Expenses” include revenue and expenses that relate to initiatives/costs attributable to the enterprise as a whole.

Financial and Management Information Systems

The Company's Accounting System is designed to unify the Financial and Cost Records and also to comply with the relevant provisions of the Companies Act, 2013, to provide financial and cost information appropriate to the businesses and facilitate Internal Control.

Notes to the Financial Statements

2. Use of estimates and judgements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

A. Judgements in applying accounting policies

The judgements, apart from those involving estimations (see note B below), that the Company has made in the process of applying its accounting policies and that have a significant effect on the amounts recognised in these financial statements pertain to useful life of intangible assets. The Company is required to determine whether its intangible assets have indefinite or finite life which is a subject matter of judgement. Certain trademarks have been considered of having an indefinite useful life taking into account that there are no technical, technological or commercial risks of obsolescence or limitations under contract or law. Other trademarks have been amortised over their useful economic life. Refer notes to the financial statements.

B. Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

1. Useful lives of property, plant and equipment, investment property and intangible assets:

As described in the significant accounting policies, the Company reviews the estimated useful lives of property, plant and equipment, investment property and intangible assets at the end of each reporting

period and the impact of changes in the estimated useful life is considered in the period in which the estimate is revised.

2. Fair value measurements and valuation processes:

Some of the Company's assets and liabilities are measured at fair value for financial reporting purposes. In estimating the fair value of an asset or a liability, the Company uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Company engages third party valuers, where required, to perform the valuation. Information about the valuation techniques and inputs used in determining the fair value of various assets, liabilities and share based payments are disclosed in the notes to the financial statements.

3. Actuarial Valuation:

The determination of Company's liability towards defined benefit obligation to employees is made through independent actuarial valuation including determination of amounts to be recognised in the Statement of Profit and Loss and in Other Comprehensive Income. Such valuation depends upon assumptions determined after taking into account inflation, seniority, promotion and other relevant factors such as supply and demand factors in the employment market. Information about such valuation is provided in notes to the financial statements.

4. Claims, Provisions and Contingent Liabilities:

The Company has ongoing litigations with various regulatory authorities and third parties. Where an outflow of funds is believed to be probable and a reliable estimate of the outcome of the dispute can be made based on management's assessment of specific circumstances of each dispute and relevant external advice, management provides for its best estimate of the liability. Such accruals are by nature complex and can take number of years to resolve and can involve estimation uncertainty. Information about such litigations is provided in notes to the financial statements.

Notes:

- Land includes certain lands at Munger with Gross Block - ₹ 1.16 Crores (2022 - ₹ 1.16 Crores) which stood vested with the State of Bihar under the Bihar Land Reforms Act, 1950 for which compensation has not yet been determined.
- a) Goodwill arising on Business Combination is carried at cost and annually tested for impairment in line with applicable Accounting Standards.
The Company has also considered certain acquired Trademarks aggregating ₹ 1889.78 Crores (2022 - ₹ 1889.78 Crores) as having indefinite useful lives. The indefinite useful life for such trademarks has been assessed considering no technical, technological or commercial risks of obsolescence or any limitations under contract or law. Such assets are also annually tested for impairment. These assets pertain to the 'FMCG - Others' Segment and are related to the Branded Packaged Foods and Personal Care Products businesses of the Company. Impairment testing for goodwill and intangible assets with indefinite useful lives has been carried out considering their recoverable amounts which, inter-alia, includes estimation of their value-in-use based on management projections. These projections have been made for a period of five years, or longer, as applicable and consider various factors, such as market scenario, growth trends, growth and margin projections, and terminal growth rates specific to the business. For such projections, discount rate of 10% (2022 - 10%) and long-term growth rates ranging between 5% to 6% (2022 - 5% to 6%) have been considered. Discount rate has been determined considering the Weighted Average Cost of Capital (WACC) of market benchmarks. Based on the above assessment, no impairment has been recognised during the year.
- b) Computer software and Customer Relationships are amortized over a period of 5 years and 8 years respectively. Other Intangibles with finite useful life are amortized over a period of 10 years unless shorter useful life is required based on contractual or legal terms.
- The amortization expense of intangible assets has been included under 'Depreciation and amortization expense' in the Statement of Profit and Loss.
- The amount of expenditure recognised in the carrying amount of property, plant and equipment in the course of construction is ₹ 90.50 Crores (2022 - ₹ 147.39 Crores).
- The fair value of the investment property is ₹ 903.04 Crores (2022 - ₹ 870.11 Crores). The fair value has been determined on the basis of valuation carried out at the reporting date by registered valuer as defined under rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017 and the same has been categorised as Level 2 based on the valuation techniques used and inputs applied. The main inputs considered by the valuer are government rates, property location, market research & trends, contracted rentals, terminal yields, discount rates and comparable values, as appropriate.

Amounts recognised in the Statement of Profit and Loss in respect of the investment property is as under:

Aggregate market value of quoted investments ₹ 8340.39 Crores (2022 - ₹ 11205.72 Crores).

Aggregate amount of impairment in value of investments ₹ 77.05 Crores (2022 - ₹ 68.55 Crores).

* Investments in Fixed Maturity Plans (FMPs) that are intended to be held by the Company till maturity are classified as amortised cost. The underlying instruments in the portfolio of these FMPs have minimal churn and are held to receive contractual cashflows.

** Exchange Traded/Target Maturity Index Funds follow a passive buy and hold investment strategy to receive contractual cashflows except for meeting redemption and rebalancing requirements. Investment in such funds are classified as FVTOCI as cash flows from these investments are realised on maturity or upon sale.

Additional Tier 1 bonds, which are perpetual in nature, are issued by commercial banks under Reserve Bank of India guidelines. These have been classified as debt instruments by the Company based on the substantive characteristics of the contract.

(vi) Employee Benefit Plans

Description of Plans

The Company makes contributions to both Defined Benefit and Defined Contribution Plans for qualifying employees. These Plans are administered through approved Trusts, which operate in accordance with the Trust Deeds, Rules and applicable Statutes. The concerned Trusts are managed by Trustees who provide strategic guidance with regard to the management of their investments and liabilities and also periodically review their performance.

Provident Fund, Pension and Gratuity Benefits are funded and Leave Encashment Benefits are unfunded in nature. The Defined Benefit Pension Plans are based on employees' pensionable remuneration and length of service. Under the Provident Fund, Gratuity and Leave Encashment Schemes, employees are entitled to receive lump sum benefits.

(a) Defined Benefit Plans:

The liabilities arising in the Defined Benefit Schemes are determined in accordance with the advice of independent, professionally qualified actuaries, using the projected unit credit method. The Company makes regular contributions to these Defined Benefit Plans. Additional contributions are made to these plans as and when required based on actuarial valuation. Some Group companies also participate in these Plans. These participating Group companies make contributions to the Plans for their respective employees on a uniform basis and each entity ascertains their obligation through actuarial valuation. The net Defined benefit cost is recognised by these companies in their respective Financial Statements.

Risk Management

The Defined Benefit Plans expose the Company to risk of actuarial deficit arising out of investment risk, interest rate risk and salary cost inflation risk.

Investment Risk: This may arise from volatility in asset values due to market fluctuations and impairment of assets due to credit losses. These Plans primarily invest in debt instruments such as Government securities and highly rated corporate bonds – the valuation of which is inversely proportional to the interest rate movements.

Interest Rate Risk: The present value of Defined Benefit Plan liability is determined using the discount rate based on the market yields prevailing at the end of reporting period on Government securities. A decrease in yields will increase the fund liabilities and vice-versa.

Salary Cost Inflation Risk: The present value of the Defined Benefit Plan liability is calculated with reference to the future salaries of participants under the Plan. Increase in salary might lead to higher liabilities.

These Plans have a relatively balanced mix of investments in order to manage the above risks. The investment strategy is designed based on the interest rate scenario, liquidity needs of the Plans and pattern of investment as prescribed under various statutes.

The Trustees regularly monitor the funding and investments of these Plans. Risk mitigation systems are in place to ensure that the health of the portfolio is regularly reviewed and investments do not pose any significant risk of impairment. Periodic audits are conducted to ensure adequacy of internal controls. Pension obligation of the employees is secured by purchasing annuities thereby de-risking the Plans from future payment obligation.

XI	Sensitivity Analysis
	The Sensitivity Analysis below has been determined based on reasonably possible change of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant. These sensitivities show the hypothetical impact of a change in each of the listed assumptions in isolation. While each of these sensitivities holds all other assumptions constant, in practice such assumptions rarely change in isolation and the asset value changes may partially offset this impact. For presenting the sensitivities, the present value of the Defined Benefit Obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the Defined Benefit Obligation presented above. There was no change in the methods and assumptions used in the preparation of the Sensitivity Analysis from previous year.

(b) Amounts towards Defined Contribution Plans have been recognised under “Contribution to Provident and other funds” in Note 23: ₹ 101.41 Crores (2022 - ₹ 91.12 Crores).

(vii) Leases:

As a Lessee

The Company’s significant leasing arrangements are in respect of operating leases for land, buildings, (comprising licensed properties, residential premises, office premises, stores, warehouses etc.) and plant & equipment. These arrangements generally range between 2 years and 10 years, except for certain land and building leases where the lease term ranges up to 99 years. The lease arrangements have extension/termination options exercisable by either parties which may make the assessment of lease term uncertain. While determining the lease term, all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option are considered.

The amount of ROU Assets and Lease Liabilities recognised in the Balance Sheet are disclosed in Note 3G and Note 15 respectively. The total cash outflow for leases for the year is ₹ 412.57 Crores (2022 - ₹ 359.73 Crores) [including payments of ₹ 329.16 Crores (2022 - ₹ 275.66 Crores) in respect of short-term/low-value leases and variable lease payments of ₹ 5.90 Crores (2022 - ₹ 2.69 Crores)].

The sensitivity of variable lease payments and effect of extension/termination options not included in measurement of lease liabilities is not material.

The undiscounted maturities of lease liabilities over the remaining lease term is as follows:

(₹ in Crores)

Term	As at 31st March, 2023	As at 31st March, 2022
Not later than three years	172.10	166.77
Later than three years and not later than ten years	167.52	158.02
Later than ten years and not later than twenty-five years	216.82	212.58
Later than twenty-five years and not later than fifty years	205.12	210.91
Later than fifty years	192.86	198.24

As a Lessor

The Company has leased out its investment properties etc. under operating lease for periods ranging upto 30 years. Lease payments are structured with periodic escalations consistent with the prevailing market conditions. There are no variable lease payments. The details of income from such leases are disclosed under Note 3C and Note 22. The Company does not have any risk relating to recovery of residual value of investment property at the end of leases considering the business requirements and other alternatives.

The undiscounted minimum lease payments to be received over the remaining non-cancellable term on an annual basis are as follows:

(₹ in Crores)

Term	As at 31st March, 2023	As at 31st March, 2022
1st year	1.43	17.18
2nd year	0.89	1.10

(viii) Under the terms of the Joint Venture Agreement (JVA), Logix Developers Private Limited (LDPL) (CIN: U70101DL2010PTC207640) was to develop a luxury hotel-cum-service apartment complex. However, Logix Estates Private Limited, Noida, the JV partner communicated its intention to explore alternative development plans to which the Company reiterated that it was committed only to the project as envisaged in the JVA. The JV partner refused to progress the project and instead expressed its intent to exit the JV by selling its stake to the Company and subsequently proposed that both parties should find a third party to sell the entire shareholding in LDPL. The resultant deadlock has stalled the project. The Company’s petition that the affairs of the JV are being conducted in a manner that is prejudicial to the interest of the Company and the JV entity, as also a petition for winding up of LDPL filed by Logix Estates, are currently before the Hon’ble National Company Law Tribunal.

Notes to the Financial Statements

27. Additional Notes to the Financial Statements (Contd.)

New Okhla Industrial Development Authority (NOIDA), vide letter dated 6th July, 2022, cancelled the sub-lease for the land on which the project was to be constructed on account of non-payment of lease installments and non-fulfilment of the conditions of the sub-lease, including forfeiture of the amount deposited. Upon cancellation of the sub-lease, LDPL is evaluating all options to pursue its rights.

The financial statements of LDPL for the year ended 31st March, 2023 are yet to be approved by its Board of Directors.

- (ix) The Company on 27th October, 2022 acquired, in the third tranche, 1000 Compulsorily Convertible Preference Shares of ₹ 10/- each of Mother Sparsh Baby Care Private Limited (Mother Sparsh), consequent to which the Company's shareholding in Mother Sparsh aggregated 22.00% of its share capital on a fully diluted basis. Accordingly, Mother Sparsh became an associate of the Company with effect from the aforesaid date and the investment is being carried at cost.
- (x) The Company on 7th April, 2023 divested its entire shareholding, i.e., 26.00% of the paid-up share capital, held in Espirit Hotels Private Limited (Espirit), consequent to which Espirit ceased to be a joint venture of the Company with effect from the said date.
- (xi) The Ministry of Corporate Affairs (MCA) has issued the Companies (Indian Accounting Standards) (Amendment) Rules, 2023 on 31st March, 2023 amending:
- Ind AS 1, 'Presentation of Financial Statements' - This amendment requires companies to disclose their material accounting policies rather than their significant accounting policies.
 - Ind AS 8 'Accounting Policies, Changes in Accounting Estimates and Errors' - This amendment has introduced a definition of 'accounting estimates' and includes guidance to help distinguish changes in accounting policies from changes in accounting estimates.
 - Ind AS 12 'Income Taxes' - This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The amendments clarify how companies account for deferred tax on transactions such as leases.

The same are applicable for financial statements pertaining to annual periods beginning on or after 1st April, 2023. Based on a preliminary evaluation, the Company does not expect any material impact on the financial statements resulting from the implementation of these amendments.

Notes to the Financial Statements

27. Additional Notes to the Financial Statements (Contd.)

16.	Methodology for determination of expected volatility	:	The volatility used in the Black Scholes Option Pricing model is the annualised standard deviation of the continuously compounded rates of return on the stock over a period of time. The period considered for the working is commensurate with the expected life of the Options and is based on the daily volatility of the Company's stock price on NSE. The Company has incorporated the early exercise of Options by calculating expected life on past exercise behaviour. There are no market conditions attached to the grant and vest.

^A Includes transactions with entity in which relative of KMP is interested.

* Includes rent pertaining to leases classified as Right of Use Assets.

The amounts outstanding are unsecured and will be settled in cash.

1 Post employment benefits are actuarially determined on overall basis and hence not separately provided. Payments made on settlement of leave liability upon retirement - ₹ 2.69 Crores (2022 - ₹ Nil) has not been included in the above.

2 During the year, the Company granted Stock Options to eligible employees, including Executive Directors and KMPs, under its Employee Stock Option Schemes at 'market price' (within the meaning of the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021). The Company has also granted Employee Stock Appreciation Linked Reward Units (ESAR Units) to the aforesaid persons in the previous years under the 'ITC Employee Cash Settled Stock Appreciation Linked Reward Plan'. Since such Stock Options and ESAR Units are not tradeable, no perquisite or benefit is immediately conferred upon the employee by grant of such Stock Options/ESAR Units, and accordingly the said grants have not been considered as 'remuneration'. However, in accordance with Ind AS - 02, the Company has recorded employee benefits expense by way of share based payments to employees at ₹ 267.12 Crores for the year ended 31st March, 2023 (2022 - ₹ 61.20 Crores), of which ₹ 35.43 Crores (2022 - ₹ 23.14 Crores), is attributable to Executive Directors and KMPs.

3. Financial risk management objectives

The Company has a system-based approach to risk management, anchored to policies and procedures and internal financial controls aimed at ensuring early identification, evaluation and management of key financial risks (such as market risk, credit risk and liquidity risk) that may arise as a consequence of its business operations as well as its investing and financing activities. Accordingly, the Company's risk management framework has the objective of ensuring that such risks are managed within acceptable and approved risk parameters in a disciplined and consistent manner and in compliance with the applicable regulations. It also seeks to drive accountability in this regard.

Liquidity Risk

The Company's Current assets aggregate ₹ 35203.44 Crores (2022 - ₹ 30942.01 Crores) including Current Investments, Cash and cash equivalents and Other Bank Balances of ₹ 20188.33 Crores (2022 - ₹ 15502.89 Crores) against an aggregate Current liability of ₹ 12415.62 Crores (2022 - ₹ 11478.09 Crores). As part of its surplus liquidity management operations, the Company may sell instruments that are held at amortised cost. Such sales may be infrequent (even if significant in value) or insignificant in value both individually and in aggregate (even if frequent). During the year, the net loss arising on such sale amounted to ₹ 49.13 Crores (2022 - Nil) (Refer Note 22).

Other Non-current liabilities other than lease liabilities due between one year to three years amounted to ₹ 154.16 Crores (2022 - ₹ 94.99 Crores) and Other Non-current liabilities due after three years amounted to ₹ 1.61 Crores (2022 - ₹ 6.05 Crores) on the reporting date. The maturity analysis of undiscounted lease liabilities are disclosed under Note 27(vii).

Further, while the Company's total equity stands at ₹ 67593.80 Crores (2022 - ₹ 61399.57 Crores), it has non-current borrowings of ₹ 3.28 Crores (2022 - ₹ 4.54 Crores). In such circumstances, liquidity risk or the risk that the Company may not be able to settle or meet its obligations as they become due does not exist.

Market Risk

The Company is not an active investor in equity markets; it holds certain investments in equity for long term value accretion which are accordingly measured at fair value through Other Comprehensive Income. The value of investments in such equity instruments as at 31st March, 2023 is ₹ 1464.41 Crores (2022 - ₹ 1372.52 Crores). Accordingly, fair value fluctuations arising from market volatility is recognised in Other Comprehensive Income.

As the Company is virtually debt-free and its deferred payment liabilities do not carry interest, the exposure to interest rate risk from the perspective of financial liabilities is negligible. Further, treasury activities, focused on managing investments in debt instruments, are centralised and administered under a set of approved policies and procedures guided by the tenets of safety, liquidity and returns. This ensures that investments are made within acceptable risk parameters after due evaluation.

The Company's investments are predominantly held in bonds/debentures, fixed deposits, certificate of deposits and debt mutual funds. Mark to market movements in respect of the Company's investments in bonds/debentures that are held at amortised cost

Notes to the Financial Statements

30. Financial Instruments and Related Disclosures (Contd.)

are temporary and get recouped through coupon accruals. Other investments in bonds/debentures, certificate of deposits are fair valued through the Statement of Profit and Loss to recognise market volatility, which is not considered to be significant. Fixed deposits are held with highly rated banks and companies and have a short tenure and are not subject to interest rate volatility.

The Company also invests in mutual fund schemes of leading fund houses. Such investments are susceptible to market price risks that arise mainly from changes in interest rate which may impact the return and value of such investments. However, given the relatively short tenure of underlying portfolio of the mutual fund schemes in which the Company has invested, such price risk is not significant.

For select agricultural commodities primarily held for trading, futures contracts are used to hedge price risks till positions in the physical market are matched. Such activities are managed by the business team within an approved policy framework. The carrying value of inventories is adjusted to the extent of fair value movement of the risk being hedged. Such hedges are generally for short time horizons and recognised in profit or loss within the crop cycle. Accordingly, the Company's net exposure to commodity price risk is considered to be insignificant.

Foreign currency risk

The Company undertakes transactions denominated in foreign currency (mainly US Dollar, Pound Sterling, Euro and Japanese Yen) which are subject to the risk of exchange rate fluctuations. Financial assets and liabilities denominated in foreign currency, including the Company's net investments in foreign operations (with a functional currency other than Indian Rupee), are also subject to reinstatement risks.

The carrying amounts of foreign currency denominated financial assets and liabilities including derivative contracts, are as follows:

(₹ in Crores)

As at 31st March, 2023	USD	Euro	GBP	JPY	Others	Total
Financial Assets	694.77	87.30	18.42	0.27	14.88	815.64

Hedges of foreign currency risk and derivative financial instruments

The Company has established risk management policies to hedge the volatility in cashflows arising from exchange rate fluctuations in respect of firm commitments and highly probable forecast transactions, through foreign exchange forward, futures and options contracts. The proportion of forecast transactions that are to be hedged is decided based on the size of the forecast transaction and market conditions. As the counterparty for such transactions are highly rated banks or recognised exchange(s), the risk of their non-performance is considered to be insignificant.

The Company uses derivatives to hedge its exposure to foreign exchange rate fluctuations. Where such derivatives are not designated under hedge accounting, changes in the fair value of such hedges are recognised in the Statement of Profit and Loss. The Company may also designate certain hedges which are entered to manage the volatility in cashflows as a cash flow hedge under hedge accounting. The currency, amount and tenure of such hedges are generally matched to the underlying transaction(s). Changes in the fair value of the effective portion of cash flow hedges are recognised as cash flow hedging reserve in Other Comprehensive Income. While the probability of such hedges becoming ineffective is very low, the ineffective portion, if any, is immediately recognised in the Statement of Profit and Loss.

The movement in the cash flow hedging reserve in respect of designated cash flow hedges is summarised below:

(₹ in Crores)

Particulars	2023	2022
At the beginning of the year	14.33	4.93
Add: Changes in the fair value of effective portion of matured cash flow hedges during the year	(154.16)	16.71

Notes to the Financial Statements

30. Financial Instruments and Related Disclosures (Contd.)

Once the hedged transaction materialises, the amount accumulated in the cash flow hedging reserve will be included in the initial cost of the non-financial hedged item on its initial recognition or reclassified to profit or loss, as applicable, in the anticipated timeframes given below:

(₹ in Crores)

Between one and three years	0.01	3.53
Total	2.48	14.33

Foreign Currency Sensitivity

For every percentage point increase/decrease in the underlying exchange rate of the outstanding foreign currency denominated assets and liabilities, including derivative contracts, holding all other variables constant, the profit before tax for the year ended 31st March, 2023 would decrease/increase by ₹ 2.85 Crores (2022 - ₹ 2.22 Crores) and other equity as at 31st March, 2023 would decrease/increase by ₹ 2.68 Crores (2022 - ₹ 42.87 Crores) on a pre-tax basis.

Credit Risk

Company's deployment in debt instruments are primarily in Government securities, fixed deposits with highly rated banks and companies, bonds issued by government institutions, public sector undertakings, mutual fund schemes of leading fund houses and certificate of deposits issued by highly rated banks and financial institutions. Of this, investments that are held at amortised cost stood at ₹ 15420.01 Crores (2022 - ₹ 17732.33 Crores). With respect to the Company's investing activities, mutual fund schemes and counter parties are shortlisted and exposure limits determined on the basis of their credit rating (by independent agencies), financial statements and other relevant information. As these counter parties are Central/State Government, Government institutions/public sector undertakings with investment grade/sovereign credit ratings and taking into account the experience of the Company over time, the counter party risk attached to such assets is considered to be insignificant.

The Company's customer base is large and diverse limiting the risk arising out of credit concentration. Further, credit is extended in business interest in accordance with guidelines issued centrally and business-specific credit policies that are consistent with such guidelines. Exceptions are managed and approved by appropriate authorities, after due consideration of the counterparty's credentials and financial capacity, trade practices and prevailing business and economic conditions. The Company's exposure to trade receivables on the reporting date, net of expected loss provisions, stood at ₹ 2321.33 Crores (2022 - ₹ 1952.50 Crores).

The Company's historical experience of collecting receivables and the level of default indicate that credit risk is low and generally uniform across markets; consequently, trade receivables are considered to be a single class of financial assets. All overdue customer balances are evaluated taking into account the age of the dues, specific credit circumstances, the track record of the counterparty etc. Loss allowances and impairment is recognized, where considered appropriate by responsible management.

The movement of the expected loss provision (allowance for bad and doubtful loans, advances and receivables etc.) made by the Company are as under:

Fair value hierarchy

Fair value of the financial instruments is classified in various fair value hierarchies based on the following three levels:

Level 1: Quoted prices (unadjusted) in active market or Net Asset Value (NAV) for identical assets or liabilities.

Level 2: Inputs other than quoted price included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

The fair value of financial instruments that are not traded in an active market is determined using market approach and valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Derivatives are valued using valuation techniques with market observable inputs such as foreign exchange spot rates and forward rates at the end of the reporting period, yield curves, risk free rate of returns, volatility etc., as applicable. The fair value of investment in Bonds/Debentures, Certificate of Deposits, Venture Capital funds etc. and financial liabilities, where applicable, is determined using market observable inputs such as quotes from market participants, value published by the issuer etc.

Level 3: Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

If one or more of the significant inputs is not based on observable market data, the fair value is determined using generally accepted methodologies such as discounted cash flow analysis, with the most significant inputs being the discount rate that reflects the credit risk of counterparty.

The fair value of trade receivables, trade payables and other current financial assets and liabilities is considered to be equal to the carrying amounts of these items due to their short – term nature. Where such items are non-current in nature, the same has been classified as Level 3 and fair value determined using discounted cash flow basis. Similarly, unquoted equity instruments where most recent information to measure fair value is insufficient, or if there is a wide range of possible fair value measurements, cost has been considered as best estimate of fair value.

There has been no change in the valuation methodology for Level 3 inputs during the year. The Company has not classified any material financial instruments under Level 3 of the fair value hierarchy. The sensitivity of change in the unobservable inputs used in fair valuation of Level 3 financial assets and liabilities does not have a significant impact on their value. There were no transfers between Level 1, Level 2 and Level 3 during the year.

INDEPENDENT AUDITOR'S REPORT

To the Members of ITC Limited

Report on the Audit of the Standalone Ind AS Financial Statements

Opinion

We have audited the accompanying standalone Ind AS financial statements of ITC Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the standalone Ind AS financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the

Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the standalone Ind AS financial statements for the financial year ended March 31, 2023. These matters were addressed in the context of our audit of the standalone Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone Ind AS financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone Ind AS financial statements.

Considering the judgement required for estimating the cash flows and the assumptions used, this is considered as a key audit matter.</p> <p>Refer Note 1 – Significant Accounting Policies and Note 2 – Use of estimates and judgements to the Standalone Ind AS Financial Statements</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> ● Evaluated the key judgements/assumptions underlying management's assessment of potential indicators of impairment. ● Obtained and read the projections/estimated selling price/future cashflows along with sensitivity analysis thereof of the underlying PPE and inventory at WLPL. ● Discussed and obtained assessment of recoverable value of PPE and inventory from component auditor of WLPL. ● Evaluated management's methodology, assumptions and estimates used in these calculations. ● Involved valuation specialist to review the appropriateness of methodology and key assumptions considered by management to determine discounted future cash flows. ● Performed sensitivity analysis around impact on future cash flows due to changes in key assumptions considered by management. ● Verified the arithmetical accuracy of the future cash flow model including comparison with approved budgets. ● Assessed the recoverability of investment with regard to underlying value in use of PPE and net realisable value of inventory in WLPL.

Independent Auditor's Report

We have determined that there are no other key audit matters to communicate in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the standalone Ind AS financial statements and our auditor's report thereon.

Our opinion on the standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements for the financial year ended March 31, 2023 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Re: ITC Limited (the “Company”)

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.
(B) The Company has maintained proper records showing full particulars of intangibles assets.
- (b) The property, plant and equipment were physically verified during the year by the management in accordance with a regular programme of verification which, in our opinion, provides for physical verification of all the property, plant and equipment at reasonable intervals. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
- (c) According to the information and explanations given by the management, the title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) are held in the name of the Company.
- (d) The Company has not revalued its Property, Plant and Equipment (including Right of use assets) or intangible assets during the year ended March 31, 2023.
- (e) There are no proceedings initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- (ii) (a) The inventory has been physically verified by the management during the year. In our opinion, the frequency of verification by the management is reasonable and the coverage and procedure for such verification is appropriate. Inventories lying with third parties have substantially been confirmed by them as at year end. No discrepancies of 10% or more in aggregate for each class of inventory (including inventories lying with third parties) were noticed.
- (b) As disclosed in note 8 to the financial statements, the Company has been sanctioned working capital limits in excess of ₹ 5 crores in aggregate from banks during the year on the basis of security of inventories of the Company. Based on the records examined by us in the normal course of audit of the financial statements, the quarterly returns/statements filed by the Company with such banks are in agreement with the books of account of the Company.
- (iii) (a) During the year the Company has not provided loans, advances in the nature of loans, stood guarantee or provided security to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(a) of the Order is not applicable to the Company.
- (b) During the year the investments made by the Company is not prejudicial to the Company’s interest. The Company has not provided guarantees or security and has not granted loans and advances in the nature of loans to companies, firms, Limited Liability Partnerships or any other parties and hence not commented upon.
- (c) The Company has not granted loans and advances in the nature of loans to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(c) to 3(iii)(f) of the Order is not applicable to the Company and hence not commented upon.
- (iv) In our opinion and according to the information and explanations given to us, provisions of section 185 and 186 of the Companies Act, 2013 in respect of loans to directors including entities in which they are interested and in respect of loans and advances given, investments made and, guarantees, and securities given have been complied with by the Company.
- (v) According to the information and explanations given to us, the Company has not accepted any deposit from the public nor accepted any amounts which are deemed to be deposits during the year within the meaning of Sections 73 and 76 of the Companies Act, 2013. In respect of unclaimed deposits, the Company has complied with the provisions of Sections 74 and 75 or any other relevant provisions of the Companies Act, 2013. We are informed by the management that no order has been passed by the Company Law Board, National Company Law Tribunal or Reserve Bank of India or any Court or any other Tribunal.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Companies Act, 2013, related to the

manufacture of specified products of the Company and are of the opinion that prima facie, the specified accounts and records have been made and maintained. We have not, however, made a detailed examination of the same.

- (vii)(a) The Company is regular in depositing with appropriate authorities undisputed statutory dues including Goods and Services Tax, provident fund, employees' state insurance, income-tax, duty of custom, duty of excise, cess and other statutory dues applicable to it.
- (b) According to the information and explanations given to us, no undisputed amounts payable in respect of Goods and Services Tax, provident fund, employees' state insurance, income-tax, duty of custom, duty of excise, cess and other statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.
- (c) The dues of income-tax, sales-tax, service tax, duty of custom, duty of excise, value added tax, cess and other statutory dues have not been deposited on account of any dispute, are as follows:

Annexure 2 to the Independent Auditor’s Report of even date on the Standalone Financial Statements of ITC Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to standalone financial statements of ITC Limited (“the Company”) as of March 31, 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to these standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to these standalone financial statements.

Meaning of Internal Financial Controls With Reference to these Standalone Financial Statements

A company’s internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial controls with reference

to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Principles of Consolidation

The Group’s interests in its subsidiaries, associates and joint ventures are reflected in the Consolidated Financial Statements (CFS) in accordance with the relevant Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013.

Subsidiaries (Ind AS 110)

Line by line consolidation of the Statement of Profit and Loss and Balance Sheet is done by aggregating like items of assets, liabilities, income and expenses.

The excess/deficit of the cost to ITC Limited of its investments in its subsidiaries over its share of net worth (residual interest in the assets of the subsidiaries after deducting all its liabilities) of the subsidiaries at the date of investment in the subsidiaries are treated as goodwill/capital reserve in the CFS. The goodwill is disclosed as an asset and capital reserve as a reserve in the Consolidated Balance Sheet.

Profit or loss and each component of other comprehensive income are attributed to the Group as owners and to the non-controlling interest; likewise the non-controlling interests in the net assets of the consolidated subsidiaries is identified and presented separately within Equity in the Consolidated Balance Sheet.

Inter-Company transactions within the Group (both Balance Sheet and Profit or Loss items) are eliminated for arriving at the Group CFS.

CFS is prepared applying uniform accounting policies of ITC Limited to the Group companies.

Associates and Joint Ventures (Ind AS 28)

An investment in associate and joint venture is initially recognised at cost on the date of the investment, and is inclusive of any goodwill/capital reserve embedded in the cost.

Only share of net profits/losses of associates/joint ventures is considered in Consolidated Statement of Profit and Loss. The carrying amount of the investment in associates/joint ventures is adjusted by the share of net profits/losses in the Consolidated Balance Sheet.

Special Reserve under Section 45-IC of the RBI Act, 1934: This Reserve represents profits transferred before declaration of dividend by companies of the Group which are registered as NBFCs with the Reserve Bank of India (RBI).

Employees Housing Reserve under Nepal labour laws: This Reserve represents the amounts set aside for providing employees' housing as per the provisions of the Nepal Labour Act, 2048. The said Act has since been repealed with effect from 4th September, 2017, consequent to the introduction of the new Labour Act, 2074, which does not require creation of similar Reserve.

Subsidiary Reserve: This Reserve represents subsidies received from government authorities for capital investment and amounts taken over by the Group consequent to business combinations.

Share Options Outstanding Account: This Reserve relates to stock options granted by the Company to employees under ITC Employee Stock Option Schemes. This Reserve is transferred to Securities Premium or Retained Earnings on exercise or lapse of vested options.

Capital Redemption Reserve: This Reserve has been transferred to the Group in the course of business combinations and can be utilized in accordance with the provisions of the Companies Act, 2013.

Contingency Reserve: This Reserve has been created out of Retained Earnings, as a matter of prudence, to take care of any unforeseen adverse developments in pending legal disputes.

Notes to the Consolidated Financial Statements

1. Significant Accounting Policies

Statement of Compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013. The financial statements have also been prepared in accordance with the relevant presentation requirements of the Companies Act, 2013. The Group adopted Ind AS from 1st April, 2016.

Basis of Preparation

The financial statements are prepared in accordance with the historical cost convention, except for certain items that are measured at fair values, as explained in the accounting policies.

Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102 – Share-based Payment, leasing transactions that are within the scope of Ind AS 116 – Leases, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 – Inventories or value in use in Ind AS 36 – Impairment of Assets.

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of the accounting policies and the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period; they are recognised in the period of the revision and future periods if the revision affects both current and future periods.

Basis of Consolidation

The Consolidated Financial Statements (CFS) include the financial statements of the Company and its subsidiaries

together with the share of the total comprehensive income of joint ventures and associates.

Subsidiaries are entities controlled by the Group. Associates are entities over which the Group exercise significant influence but does not control. An entity/arrangement in which the Group has the ability to exercise control jointly with one or more uncontrolled entities may be a joint venture (“JV”) or a joint operation (“JO”). Unlike in a JV where parties have proportionate interests in the assets and liabilities of the JV entity, parties have rights to and obligations towards specified assets and liabilities in a JO.

Control, significant influence and joint control is assessed annually with reference to the voting power (usually arising from equity shareholdings and potential voting rights) and other rights (usually contractual) enjoyed by the Group in its capacity as an investor that provides it the power and consequential ability to direct the investee’s activities and significantly affect the Group’s returns from its investment. Such assessment requires the exercise of judgement and is disclosed by way of a note to the Financial Statements. The Group is considered not to be in control of entities where it is unclear as to whether it enjoys such power over the investee.

The assets, liabilities, income and expenses of subsidiaries are aggregated and consolidated, line by line, from the date control is acquired by any Group entity to the date it ceases. Profit or loss and each component of other comprehensive income are attributed to the Group as owners and to the non-controlling interests. The Group presents the non-controlling interests in the Balance Sheet within equity, separately from the equity of the Group as owners. The excess of the Group’s investment in a subsidiary over its share in the net worth of such subsidiary on the date control is acquired is treated as goodwill while a deficit is considered as a capital reserve in the CFS. In case of JO, Group’s share of assets, liabilities, income and expenses are consolidated. On disposal of the subsidiary, attributable amount on goodwill is included in the determination of the profit or loss and recognised in the Statement of Profit and Loss. Impairment loss, if any, to the extent the carrying amount exceeds the recoverable amount is charged off to the Statement of Profit and Loss as it arises and is not reversed. For impairment testing, goodwill is allocated to Cash Generating Unit (CGU) or a group of CGUs to which it relates, which is not larger than an operating segment, and is monitored for internal management purposes.

An investment in an associate or a JV is initially recognised at cost on the date of the investment, and inclusive of any goodwill/capital reserve embedded in the cost, in the

Notes to the Consolidated Financial Statements

1. Significant Accounting Policies (Contd.)

Balance Sheet. The proportionate share of the Group in the net profits/losses as also in the other comprehensive income is recognised in the Statement of Profit and Loss and the carrying value of the investment is adjusted by a like amount (referred as 'equity method').

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Operating Cycle

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1 – Presentation of Financial Statements based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

Property, Plant and Equipment – Tangible Assets

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation and impairment, if any. For this purpose, cost includes deemed cost which represents the carrying value of property, plant and equipment recognised as at 1st April, 2015 measured as per the previous Generally Accepted Accounting Principles (GAAP).

Cost is inclusive of inward freight, duties and taxes and incidental expenses related to acquisition. In respect of major projects involving construction, related pre-operational expenses form part of the value of assets capitalised. Expenses capitalised also include applicable borrowing costs for qualifying assets, if any. All upgradation/enhancements are charged off as revenue expenditure unless they bring similar significant additional benefits.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss.

Depreciation of these assets commences when the assets are ready for their intended use which is generally on commissioning. Items of property, plant and equipment are depreciated in a manner that amortizes the cost (or other amount substituted for cost) of the assets after commissioning, less its residual value, over their useful lives as specified in Schedule II of the Companies Act, 2013 on a straight line basis. Land is not depreciated.

The estimated useful lives of property, plant and equipment of the Group are as follows:

Buildings	30-60 Years
Leasehold Improvement	Shorter of lease period or estimated useful lives
Plant and Equipment	3-25 Years
Furniture and Fixtures	8-10 Years
Vehicles	8-10 Years
Office Equipment	5 Years

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant lease.

Property, plant and equipment's residual values and useful lives are reviewed at each Balance Sheet date and changes, if any, are treated as changes in accounting estimate.

Goodwill on Consolidation

Goodwill arising on consolidation is stated at cost less impairment losses, where applicable. On disposal of a subsidiary, attributable amount of goodwill is included in the determination of the profit or loss recognised in the Statement of Profit and Loss. On acquisition of an associate or joint venture, the goodwill/capital reserve arising from such acquisition is included in the carrying amount of the investment and also disclosed separately.

Impairment loss, if any, to the extent the carrying amount exceed the recoverable amount is charged off to the Statement of Profit and Loss as it arises and is not reversed. For impairment testing, goodwill is allocated to Cash Generating Unit (CGU) or group of CGUs to which it relates, which is not larger than an operating segment, and is monitored for internal management purposes.

Intangible Assets

Intangible Assets that the Group controls and from which it expects future economic benefits, are capitalised upon acquisition and measured initially:

- for assets acquired in a business combination, at fair value on the date of acquisition;
- for separately acquired assets, at cost comprising the purchase price (including import duties and non-refundable taxes) and directly attributable costs to prepare the asset for its intended use.

Internally generated assets for which the cost is clearly identifiable are capitalised at cost. Research expenditure is recognised as an expense when it is incurred. Development costs are capitalised only after the technical and commercial

Notes to the Consolidated Financial Statements

1. Significant Accounting Policies (Contd.)

feasibility of the asset for sale or use has been established. Thereafter, all directly attributable expenditure incurred to prepare the asset for its intended use are recognised as the cost of such assets. Internally generated brands, websites and customer lists are not recognised as intangible assets.

The carrying value of intangible assets includes deemed cost which represents the carrying value of intangible assets recognised as at 1st April, 2015 measured as per the previous GAAP.

The useful life of an intangible asset is considered finite where the rights to such assets are limited to a specified period of time by contract or law (e.g. patents, licences, trademarks, franchise and servicing rights) or the likelihood of technical, technological obsolescence (e.g. computer software, design, prototypes) or commercial obsolescence (e.g. lesser known brands are those to which adequate marketing support may not be provided). If, there are no such limitations, the useful life is taken to be indefinite.

Intangible assets that have finite lives are amortized over their estimated useful lives by the straight line method unless it is practical to reliably determine the pattern of benefits arising from the asset. An intangible asset with an indefinite useful life is not amortized.

All intangible assets are tested for impairment. Amortization expenses and impairment losses and reversal of impairment losses are taken to the Statement of Profit and Loss. Thus, after initial recognition, an intangible asset is carried at its cost less accumulated amortization and/or impairment losses.

The useful lives of intangible assets are reviewed annually to determine if a reset of such useful life is required for assets with finite lives and to confirm that business circumstances continue to support an indefinite useful life assessment for assets so classified. Based on such review, the useful life may change or the useful life assessment may change from indefinite to finite. The impact of such changes is accounted for as a change in accounting estimate.

Impairment of Assets

Impairment loss, if any, is provided to the extent, the carrying amount of assets or cash generating units exceed their recoverable amount.

Recoverable amount is higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset or cash generating unit and from its disposal at the end of its useful life.

Impairment losses recognised in prior years are reversed when there is an indication that the impairment losses

recognised no longer exist or have decreased. Such reversals are recognised as an increase in carrying amounts of assets to the extent that it does not exceed the carrying amounts that would have been determined (net of amortization or depreciation) had no impairment loss been recognised in previous years.

Investment Property

Properties that are held for long-term rental yields and/or for capital appreciation are classified as investment properties. Investment properties are stated at cost of acquisition or construction less accumulated depreciation and impairment, if any. Depreciation is recognised using the straight line method so as to amortize the cost of investment properties over their useful lives as specified in Schedule II of the Companies Act, 2013. Freehold land and properties under construction are not depreciated.

Transfers to, or from, investment properties are made at the carrying amount when and only when there is a change in use.

An item of investment property is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of asset. Any gain or loss arising on the disposal or retirement of an item of investment property is determined as the difference between the sales proceeds and the carrying amount of the property and is recognised in the Statement of Profit and Loss.

Income received from investment property is recognised in the Statement of Profit and Loss on a straight line basis over the term of the lease.

Inventories

Inventories are stated at lower of cost and net realisable value. The cost is calculated on weighted average method. Cost comprises expenditure incurred in the normal course of business in bringing such inventories to their present location and condition and includes, where applicable, appropriate overheads based on normal level of activity. Net realisable value is the estimated selling price less estimated costs for completion and sale.

Obsolete, slow moving and defective inventories are identified from time to time and, where necessary, a provision is made for such inventories.

Foreign Currency Transactions

The presentation currency of the Group is Indian Rupee. Transactions in foreign currency are accounted for at the exchange rate prevailing on the transaction date. Gains/losses arising on settlement as also on translation of monetary items are recognised in the Statement of Profit and Loss.

Notes to the Consolidated Financial Statements

1. Significant Accounting Policies (Contd.)

Exchange differences arising on monetary items that, in substance, form part of the Group's net investment in a foreign operation (having a functional currency other than Indian Rupee) are accumulated in foreign currency translation reserve.

For the preparation of the consolidated financial statements:

- (a) assets and liabilities of foreign operations, together with goodwill and fair value adjustments assumed on acquisition thereof, are translated to Indian Rupees at exchange rates prevailing at the reporting period end;
- (b) income and expense items are translated at the average exchange rates prevailing during the period; when exchange rates fluctuate significantly the rates prevailing on the transaction date are used instead.

Differences arising on such translation are accumulated in foreign currency translation reserve and attributed to non-controlling interests proportionately.

On the disposal of a foreign operation, all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Group is reclassified to the Statement of Profit and Loss. In relation to a partial disposal, that does not result in losing control over the subsidiary, the proportionate exchange differences accumulated in equity is reclassified to the Statement of Profit and Loss.

Derivatives and Hedge Accounting

Derivatives are initially recognised at fair value and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gains/losses are recognised in the Statement of Profit and Loss immediately unless the derivative is designated and effective as a hedging instrument, in which case the resulting gain/loss is recognised as per the hedge accounting principles stated below.

The Group complies with the principles of hedge accounting where derivative contracts and/or non-derivative financial assets/liabilities that are permitted under applicable accounting standards are designated as hedging instruments. At the inception of the hedge relationship, the Group documents the relationship between the hedging instrument and the hedged item, along with the risk management objectives and its strategy for undertaking hedge transaction, which can be a fair value hedge or a cash flow hedge.

(i) Fair value hedges

Changes in fair value of the designated portion of hedging instruments that qualify as fair value hedges are recognised in profit or loss immediately, together with any changes in the fair value of the hedged asset

or liability that are attributable to the hedged risk. The change in the fair value of the designated portion of hedging instrument and the change in fair value of the hedged item attributable to the hedged risk are recognised in the Statement of Profit and Loss in the line item relating to the hedged item.

Hedge accounting is discontinued when the hedging instrument is derecognised, expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. The fair value adjustment to the carrying amount of the hedged item arising from the hedged risk is amortised to profit or loss from that date.

(ii) Cash flow hedges

The effective portion of changes in the fair value of hedging instrument that are designated and qualify as cash flow hedges is recognised in the other comprehensive income and accumulated as 'Cash Flow Hedge Reserve'. The gains/losses relating to the ineffective portion are recognised immediately in the Statement of Profit and Loss.

Amounts previously recognised and accumulated in other comprehensive income are reclassified to profit or loss when the hedged item affects the Statement of Profit and Loss. However, when the hedged item results in the recognition of a non-financial asset, such gains/losses are transferred from equity (but not as reclassification adjustment) and included in the initial measurement cost of the non-financial asset.

Hedge accounting is discontinued when the hedging instrument is derecognised, expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gains/losses recognised in other comprehensive income and accumulated in equity at that time remain in equity and is reclassified when the underlying transaction is ultimately recognised. When an underlying transaction is no longer expected to occur, the gains/losses accumulated in equity are recognised immediately in the Statement of Profit and Loss.

Investment in Associate and Joint Venture

Investment in associate and joint venture is accounted for using the 'equity method' less accumulated impairment, if any.

Financial Instrument, Financial Assets, Financial Liabilities and Equity Instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the relevant instrument and are initially

Notes to the Consolidated Financial Statements

1. Significant Accounting Policies (Contd.)

measured at fair value except for trade receivables that do not contain a significant financing component, which are measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities measured at fair value through profit or loss) are added to or deducted from the fair value on initial recognition of financial assets or financial liabilities. Purchase or sale of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date when the Group commits to purchase or sell the asset.

Financial Assets

Recognition: Financial assets include Investments, Trade receivables, Advances, Security deposits, Cash and cash equivalents. Such assets are initially recognised at fair value or transaction price, as applicable, when the Group becomes party to contractual obligations. The transaction price includes transaction costs unless the asset is being fair valued through the Statement of Profit and Loss.

Classification: Management determines the classification of an asset at initial recognition depending on the purpose for which the assets were acquired. The subsequent measurement of financial assets depends on such classification.

Financial assets are classified as those measured at:

- (a) amortised cost, where the financial assets are held solely for collection of cash flows arising from payments of principal and/or interest.
- (b) fair value through other comprehensive income (FVTOCI), where the financial assets are held not only for collection of cash flows arising from payments of principal and interest but also from the sale of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in other comprehensive income.
- (c) fair value through profit or loss (FVTPL), where the assets are managed in accordance with an approved investment strategy that triggers purchase and sale decisions based on the fair value of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in the Statement of Profit and Loss in the period in which they arise.

Trade receivables, Advances, Security deposits, Cash and cash equivalents etc. are classified for measurement

at amortised cost while investments may fall under any of the aforesaid classes. However, in respect of particular investments in equity instruments that would otherwise be measured at fair value through profit or loss, an irrevocable election at initial recognition may be made to present subsequent changes in fair value through other comprehensive income.

Impairment: The Group assesses at each reporting date whether a financial asset (or a group of financial assets) such as Investments, Trade receivables, Advances and Security deposits held at amortised cost and financial assets that are measured at fair value through other comprehensive income are tested for impairment based on evidence or information that is available without undue cost or effort. Expected credit losses are assessed and loss allowances recognised if the credit quality of the financial asset has deteriorated significantly since initial recognition.

Reclassification: When and only when the business model is changed, the Group shall reclassify all affected financial assets prospectively from the reclassification date as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss without restating the previously recognised gains, losses or interest and in terms of the reclassification principles laid down in the Ind AS relating to Financial Instruments.

Derecognition: Financial assets are derecognised when the right to receive cash flows from the assets has expired, or has been transferred, and the Group has transferred substantially all of the risks and rewards of ownership. Concomitantly, if the asset is one that is measured at:

- (a) amortised cost, the gain or loss is recognised in the Statement of Profit and Loss;
- (b) fair value through other comprehensive income, the cumulative fair value adjustments previously taken to reserves are reclassified to the Statement of Profit and Loss unless the asset represents an equity investment, in which case the cumulative fair value adjustments previously taken to reserves are reclassified within equity.

Income Recognition: Interest income is recognised in the Statement of Profit and Loss using the effective interest method. Dividend income is recognised in the Statement of Profit and Loss when the right to receive dividend is established.

Financial Liabilities

Borrowings, trade payables and other financial liabilities are initially recognised at fair value and are subsequently

Notes to the Consolidated Financial Statements

1. Significant Accounting Policies (Contd.)

measured at amortised cost. Any discount or premium on redemption/settlement is recognised in the Statement of Profit and Loss as finance cost over the life of the liability using the effective interest method and adjusted to the liability figure disclosed in the Balance Sheet.

Financial liabilities are derecognised when the liability is extinguished, that is, when the contractual obligation is discharged, cancelled or on expiry.

Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount is included in the Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

Equity Instruments

Equity instruments are recognised at the value of the proceeds, net of direct costs of the capital issue.

Revenue

Revenue is measured at the transaction price that the Company receives or expects to receive as consideration for goods supplied and services rendered, net of returns and estimates of variable consideration such as discounts to customers. Revenue from the sale of goods includes excise duties and National Calamity Contingent Duty which are payable on manufacture of goods but excludes taxes such as VAT and Goods and Services Tax which are payable in respect of sale of goods and services.

Revenue from the sale of goods and services is recognised when the Group performs its obligations to its customers and the amount of revenue can be measured reliably and recovery of the consideration is probable. The timing of such recognition in case of sale of goods is when the control over the same is transferred to the customer, which is mainly upon delivery and in case of services, in the period in which such services are rendered.

Government Grant

Group entities may receive government grants that require compliance with certain conditions related to the entity's operating activities or are provided to the entity by way of financial assistance on the basis of certain qualifying criteria.

Government grants are recognised when there is reasonable assurance that the grant will be received upon the Group entity complying with the conditions attached to the grant. Accordingly, government grants:

(a) related to or used for assets, are deducted from the carrying amount of the asset.

(b) related to incurring specific expenditures are taken to the Statement of Profit and Loss on the same basis and in the same periods as the expenditures incurred.

(c) by way of financial assistance on the basis of certain qualifying criteria are recognised as they become receivable.

In the unlikely event that a grant previously recognised is ultimately not received, it is treated as a change in estimate and the amount cumulatively recognised is expensed in the Statement of Profit and Loss.

Dividend Distribution

Dividends paid (including income tax thereon) are recognised in the period in which the interim dividends are approved by the Board of Directors, or in respect of the final dividend when approved by shareholders.

Employee Benefits

The Group makes contributions to both defined benefit and defined contribution schemes which are mainly administered through duly constituted and approved Trusts.

Provident Fund contributions are in the nature of defined contribution scheme. In respect of employees who are members of constituted and approved trusts, the Group recognises contribution payable to such trusts as an expense including any shortfall in interest between the amount of interest realised by the investment and the interest payable to members at the rate declared by the Government of India. In respect of other employees, provident funds are deposited with the Government and recognised as expense.

The Group makes contribution to defined contribution pension plan. The contribution payable is recognised as an expense, when an employee renders the related service.

The Group also makes contribution to defined benefit pension and gratuity plan. The cost of providing benefits under the defined benefit obligation is calculated by independent actuary using the projected unit credit method. Service costs and net interest expense or income is reflected in the Statement of Profit and Loss. Gain or Loss on account of remeasurements are recognised immediately through other comprehensive income in the period in which they occur.

The employees of the Group are entitled to compensated leave for which the Group records the liability based on actuarial valuation computed using projected unit credit method. These benefits are unfunded.

Actual disbursements made under the Workers' Voluntary Retirement Scheme are accounted as revenue expenses.

Employee Share Based Compensation

Stock Options

Stock Options are granted to eligible employees under the ITC Employee Stock Option Schemes ("ITC ESOS"), as may be decided by the Nomination & Compensation Committee/Board. Eligible employees for this purpose include employees of the Group entities, their Directors and those on deputation to joint ventures and associates.

Under Ind AS, the cost of ITC Stock Options (Stock Options) is recognised based on the fair value of Stock Options as on the grant date.

While the fair values of Stock Options granted is recognised in the Statement of Profit and Loss for employees of the Group (other than those out on deputation), the value of Stock Options, net of reimbursements, granted to employees on deputation is considered as capital contribution/investment.

The Group generally seeks reimbursement of the value of Stock Options from such companies, as applicable. It may, if so recommended by the Corporate Management Committee and approved by the Audit Committee, decide not to seek such reimbursements in respect of value of Stock Options from such companies, who need to conserve financial capacity to sustain their business and growth plans and where the quantum of reimbursement is not material - the materiality threshold being ₹ 5 Crores for each entity for a financial year.

Cash Settled Stock Appreciation Linked Reward (SAR) Plan

Cash Settled SAR units are granted to eligible employees under the ITC Employee Cash Settled Stock Appreciation Linked Reward Plan ("ITC ESARP"). The eligible employees for this purpose are such present and future permanent employees of the Company, including a Director of the Company, as may be decided by the CMC/Nomination & Compensation Committee/Board.

For cash settled SAR units granted to eligible employees, a liability is initially measured at fair value at the grant date and is subsequently remeasured at each reporting period, until settled. The fair value of ESAR units granted is recognised in the Statement of Profit and Loss for employees of the Group. In case of employees on deputation to group companies, the Company generally seeks reimbursements from the concerned group company. The value of such payments, net of reimbursements, is considered as capital contribution/investment.

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a Lessee

Right-of-Use (ROU) assets are recognised at inception of a contract or arrangement for significant lease components at cost less lease incentives, if any. ROU assets are subsequently measured at cost less accumulated depreciation and impairment losses, if any. The cost of ROU assets includes the amount of lease liabilities recognised, initial direct cost incurred and lease payments made at or before the lease commencement date. ROU assets are generally depreciated over the shorter of the lease term and estimated useful lives of the underlying assets on a straight line basis. Lease term is determined based on consideration of facts and circumstances that create an economic incentive to exercise an extension option, or not to exercise a termination option. Lease payments associated with short-term leases and low value leases are charged to the Statement of Profit and Loss on a straight line basis over the term of the relevant lease.

The Group recognises lease liabilities measured at the present value of lease payments to be made on the date of recognition of the lease. Such lease liabilities do not include variable lease payments (that do not depend on an index or a rate), which are recognised as expense in the periods in which they are incurred. Interest on lease liability is recognised using the effective interest method. Lease liabilities are subsequently increased to reflect the accretion of interest and reduced for the lease payments made. The carrying amount of lease liabilities is also remeasured upon modification of lease arrangement or upon change in the assessment of the lease term. The effect of such remeasurements is adjusted to the value of the ROU assets.

Group as a Lessor

Leases in which the Group does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Where the Group is a lessor under an operating lease, the asset is capitalised within property, plant and equipment or investment property and depreciated over its useful economic life. Payments received under operating leases are recognised in the Statement of Profit and Loss on a straight line basis over the term of the lease.

Notes to the Consolidated Financial Statements

1. Significant Accounting Policies (Contd.)

Taxes on Income

Taxes on income comprise current taxes and deferred taxes. Current tax in the Statement of Profit and Loss is provided as the amount of tax payable in respect of taxable income for the period using tax rates and tax laws enacted during the period, together with any adjustment to tax payable in respect of previous years.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities and the amounts used for taxation purposes (tax base), at the tax rates and tax laws enacted or substantively enacted by the end of the reporting period.

Deferred tax assets are recognised for the future tax consequences to the extent it is probable that future taxable profits will be available against which the deductible temporary differences can be utilised.

Income tax, insofar as it relates to items disclosed under other comprehensive income or equity, is disclosed separately under other comprehensive income or equity, as applicable.

Deferred tax assets and liabilities are offset when there is legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on net basis, or to realise the asset and settle the liability simultaneously.

Claims

Claims against the Group not acknowledged as debts are disclosed after a careful evaluation of the facts and legal aspects of the matter involved.

Provisions

Provisions are recognised when, as a result of a past event, the Group has a legal or constructive obligation; it is probable that an outflow of resources will be required

to settle the obligation; and the amount can be reliably estimated. The amount so recognised is a best estimate of the consideration required to settle the obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation.

In an event when the time value of money is material, the provision is carried at the present value of the cash flows estimated to settle the obligation.

Operating Segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker (CODM). The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Corporate Management Committee.

Segments are organised based on businesses which have similar economic characteristics as well as exhibit similarities in nature of products and services offered, the nature of production processes, the type and class of customer and distribution methods.

Segment revenue arising from third party customers is reported on the same basis as revenue in the financial statements. Inter-segment revenue is reported on the basis of transactions which are primarily market led. Segment results represent profits before finance charges, unallocated corporate expenses and taxes.

“Unallocated Corporate Expenses” include revenue and expenses that relate to initiatives/costs attributable to the enterprise as a whole.

Financial and Management Information Systems

The Group's Accounting System is designed to unify the Financial and Cost Records and also to comply with the relevant provisions of the Companies Act, 2013, to provide financial and cost information appropriate to the businesses and facilitate Internal Control.

Notes to the Consolidated Financial Statements

2. Use of estimates and judgements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

A. Judgements in applying accounting policies

The following are the judgements, apart from those involving estimations (see note B below), that the Group have made in the process of applying the accounting policies and that have a significant effect on the amounts recognised in the consolidated financial statements:

1. Control:

The Group assessed whether or not it has control on its investees based on whether, as an investor, it has the power/rights and consequently the practical ability to direct the relevant activities of its investees unilaterally. In making this judgement, the Group considered the absolute size of its holding, the relative size of and dispersion of other shareholders, and whether any contractual arrangements exist between the Company (and its subsidiaries) and other shareholders of the investees. Based on this, and in accordance with its Accounting Policy, the Group has determined that the entities listed in the notes to the financial statements are the only entities over which Group has control.

The Company is a settlor for certain trusts, i.e., ITC Sangeet Research Academy, ITC Education Trust and ITC Rural Development Trust. The Group while considering the nature and insignificant variability of its return has concluded that it does not 'control' these trusts.

2. Significant influence:

The Group assessed whether or not it has significant influence on its investees based on its practical ability to participate in the financial and operating policy decisions of the investee, though it is not in control or in joint control of these policies. Based on such assessment, the Group determined that the entities listed in the

notes to the financial statements are the only entities over which the Group has significant influence, and accordingly associates.

3. Joint Control:

- (i) The Group holds 50% of the equity share capital of Maharaja Heritage Resorts Limited, a company involved in operation of hotel properties. The Group do not consider that it is able to exercise control over the company as the decisions about relevant activities of the company are made jointly between the Group and the co-venturer (who holds 50% of the equity share capital) and both the parties have rights to the net assets of such arrangement.
- (ii) The Group holds 26% of the equity share capital of Espirit Hotels Private Limited, a company involved in development of a luxury hotel complex. The Group has considered that in view of the shareholder agreement, key decisions about relevant activities of such company are made jointly between the Group and the co-venturer (who holds 74% of the equity share capital) and both the parties have rights to the net assets of such arrangement.
- (iii) The Group holds 27.90% of the equity share capital of Logix Developers Private Limited, a company intended for the purpose of developing a luxury hotel-cum-service apartment complex. The Group has concluded that the key decisions about relevant activities of such company are made jointly between the Group and the co-venturer (who holds 72.10% of the equity share capital) and both the parties have rights to the net assets of such arrangement.
- (iv) The Group holds 50% of the equity share capital of ITC Essentra Limited, a company involved in manufacture and sale of filter rods. The Group has concluded that the key decisions about relevant activities of such company are made jointly between the Group and the co-venturer (who holds 50% of the equity share capital) and both the parties have rights to the net assets of such arrangement.

4. Useful life of Intangible Assets:

The Group is required to determine whether its intangible assets have indefinite or finite life which is a subject matter of judgement. Certain trademarks have been considered of having an indefinite useful life taking into account that there are no technical, technological or commercial risks of obsolescence or limitations under contract or law. Other trademarks have been amortized over their useful economic life. Refer notes to the financial statements.

Notes to the Consolidated Financial Statements

2. Use of estimates and judgements (Contd.)

B. Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

1. Useful lives of property, plant and equipment, investment property and intangible assets:

As described in the significant accounting policies, the Group reviews the estimated useful lives of property, plant and equipment, investment property and intangible assets at the end of each reporting period and the impact of changes in the estimated useful life is considered in the period in which the estimate is revised.

2. Fair value measurements and valuation processes:

Some of the Group's assets and liabilities are measured at fair value for financial reporting purposes. In estimating the fair value of an asset or a liability, the Group uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Group engages third party valuers, where required, to perform the valuation. Information about the valuation techniques and inputs used in determining the fair value of various assets, liabilities and share based payments are disclosed in the notes to the financial statements.

3. Actuarial Valuation:

The determination of Group's liability towards defined benefit obligation to employees is made through independent actuarial valuation including determination of amounts to be recognised in the Statement of Profit and Loss and in Other Comprehensive Income. Such valuation depends upon assumptions determined after taking into account inflation, seniority, promotion and other relevant factors such as supply and demand factors in the employment market. Information about such valuation is provided in notes to the financial statements.

4. Claims, Provisions and Contingent Liabilities:

The Group has ongoing litigations with various regulatory authorities and third parties. Where an outflow of funds is believed to be probable and a reliable estimate of the outcome of the dispute can be made based on management's assessment of specific circumstances of each dispute and relevant external advice, management provides for its best estimate of the liability. Such accruals are by nature complex and can take number of years to resolve and can involve estimation uncertainty. Information about such litigations is provided in notes to the financial statements.

Notes:

- Land includes certain lands at Munger with Gross Block - ₹ 1.16 Crores (2022 - ₹ 1.16 Crores) which stood vested with the State of Bihar under the Bihar Land Reforms Act, 1950 for which compensation has not yet been determined.
- Goodwill arising on Business Combination is carried at cost and periodically tested for impairment in line with applicable Accounting Standards. The Company has also considered certain acquired Trademarks aggregating ₹ 1899.78 Crores (2022 - ₹ 1899.78 Crores) as having indefinite useful lives. The indefinite useful life for such trademarks has been assessed considering no technical, technological or commercial risks of obsolescence or any limitations under contract or law. Such assets are also annually tested for impairment. These assets pertain to the 'FMCG - Others' Segment and are related to the Branded Packaged Foods and Personal Care Products businesses of the Company. Impairment testing for goodwill and intangible assets with indefinite useful lives has been carried out considering their recoverable amounts which, inter-alia, includes estimation of their value-in-use based on management projections. These projections have been made for a period of five years, or longer, as applicable and consider various factors, such as market scenario, growth trends, growth and margin projections, and terminal growth rates specific to the business. For such projections, discount rate of 10% (2022 - 10%) and long-term growth rates ranging between 5% to 6% (2022 - 5% to 6%) have been considered. Discount rate has been determined considering the Weighted Average Cost of Capital (WACC) of market benchmarks. Based on the above assessment, no impairment has been recognised during the year.
- Computer software and Customer Relationships are amortized over a period of 5 years and 8 years respectively. Other Intangibles with finite useful life are amortized over a period of 10 years unless shorter useful life is required based on contractual or legal terms.
- The amortization expense of intangible assets has been included under 'Depreciation and amortization expense' in the Statement of Profit and Loss.
- The amount of expenditure recognised in the carrying amount of property, plant and equipment in the course of construction is ₹ 90.68 Crores (2022 - ₹ 148.81 Crores).
- The fair value of the investment property is ₹ 903.04 Crores (2022 - ₹ 870.11 Crores). The fair value has been determined on the basis of valuation carried out at the reporting date by registered valuer as defined under rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017 and the same has been categorised as Level 2 based on the valuation techniques used and inputs applied. The main inputs considered by the valuer are government rates, property location, market research & trends, contracted rentals, terminal yields, discount rates and comparable values, as appropriate.

Amounts recognised in the Statement of Profit and Loss in respect of the investment property is as under:

* Investments in Fixed Maturity Plans (FMPs) that are intended to be held by the Company till maturity are classified as amortised cost. The underlying instruments in the portfolio of these FMPs have minimal churn and are held to receive contractual cashflows.

** Exchange Traded / Target Maturity Index Funds follow a passive buy and hold investment strategy to receive contractual cashflows except for meeting redemption and rebalancing requirements. Investment in such funds are classified as FVTOCI as cash flows from these investments are realised on maturity or upon sale.

Additional Tier 1 bonds, which are perpetual in nature, are issued by commercial banks under Reserve Bank of India guidelines. These have been classified as debt instruments by the Company based on the substantive characteristics of the contract.

Notes to the Consolidated Financial Statements

28. Additional Notes to the Consolidated Financial Statements (Contd.)

- In respect of Surya Nepal Private Limited (SNPL), Excise, Income Tax and VAT authorities issued Show Cause Notices (SCNs) and raised demands to recover taxes for different years on theoretical production of cigarettes. In all these proceedings, the authorities applied an input-output ratio allegedly submitted by SNPL in the year 1990-91 and arrived at a theoretical production and demanded tax/duty on the differential production/turnover. This, despite the fact that SNPL's cigarette factory was under 'physical control' of the Excise authorities and cigarettes produced were duly accounted for and certified as such by the Excise authorities.

The Revenue Authorities for the first time raised excise demands for the financial years 1993-94 and 1994-95, claiming that SNPL could have produced more cigarettes according to the input-output ratio submitted in the year 1990-91. SNPL challenged these excise demands before the Hon'ble Supreme Court of Nepal through a writ petition. A division bench of the Hon'ble Supreme Court of Nepal decided the matter in favour of SNPL (the "Division Bench Judgement") and rejected the above basis of theoretical production. The Ministry of Finance of Nepal filed a review petition before the Full Bench of Hon'ble Supreme Court of Nepal seeking review of the judgement of Division Bench. The Full Bench after hearing both the sides at length upheld the judgement of Division Bench by its order dated October 29, 2009.

Similar demands had been raised for other financial years viz., Excise Demands for FY 1998-99 to FY 2002-03 and Income Tax demand for FY 2001-02, which were also challenged by SNPL before the Hon'ble Supreme Court of Nepal by way of writ petitions and the Court was pleased to allow all the writ petitions setting aside the demands.

Further, the Inland Revenue Department had decided administrative review petitions in favour of SNPL setting aside Value Added Tax demands for the financial years 2001-02 and 2007-08 and Income Tax demand for the FY 2005-06 following the aforesaid decisions of the Hon'ble Supreme Court of Nepal.

During the pendency of the aforementioned review petition before the Hon'ble Supreme Court of Nepal and thereafter, the Revenue Authorities raised demands and issued a SCN, in the same subject matter of theoretical production for different years (as listed below), which were also challenged by SNPL by way of writ petitions before Hon'ble Supreme Court of Nepal between the years 2007 to 2010:

1. Excise demand letters for ₹ 17.38 Crores [Nepalese Rupee (NRs.) 27.80 Crores] relating to the financial years 2003-04 to 2006-07.
2. Excise Show Cause Notice for ₹ 12.28 Crores (NRs. 19.65 Crores) relating to the financial year 2007-08.
3. Value Added Tax (VAT) demand letters for ₹ 10.93 Crores (NRs. 17.49 Crores) relating to financial years 2002-03 to 2006-07.
4. Income Tax demand letters for ₹ 13.45 Crores (NRs. 21.52 Crores) relating to financial years 2002-03 and 2003-04.

SNPL's writ petitions with regard to various tax demands and a SCN mentioned hereinabove were disposed of by the Hon'ble Supreme Court of Nepal on 15th April, 2021 holding that SNPL should avail the alternate remedy by way of appeal to the Inland Revenue Department (IRD). SNPL is currently pursuing legal remedy in line with the observations/directions provided in the judgement of the Hon'ble Supreme Court of Nepal.

The Management considers that all the demands listed above have no legal or factual basis; accordingly, the Management is of the view that there is no liability that is likely to arise, particularly in light of the fact that the issue underlying these demands has already been settled by the Hon'ble Supreme Court of Nepal in favour of SNPL.

No legal recourse is required to be pursued in respect of a Show Cause Notice relating to the financial year 2007-08, since no demand has been issued.

It is not practicable for the Group to estimate the closure of these issues and the consequential timings of cash flows, if any, in respect of the above.

Notes to the Consolidated Financial Statements

28. Additional Notes to the Consolidated Financial Statements (Contd.)

- (b) Uncalled liability on investments is ₹ 35.56 Crores (2022 - ₹ 29.74 Crores).
- (c) Commitments: Estimated amount of contracts remaining to be executed on capital accounts and not provided for are ₹ 2113.07 Crores (2022 - ₹ 2228.44 Crores) for the Group, which includes share of joint ventures ₹ 8.52 Crores (2022 - ₹ 13.38 Crores).
- (v) Research and Development expenses for the year amount to ₹ 161.36 Crores (2022 - ₹ 143.65 Crores).
- (vi) The Group has adopted Indian Accounting Standard-19 (Ind AS 19) on 'Employee Benefits'. These Consolidated Financial Statements include the obligations as per requirement of this standard except for those subsidiaries which are incorporated outside India who have determined the valuation/provision for employee benefits as per requirements of their respective countries. In the opinion of the management, the impact of this deviation is not considered material.

Description of Plans

The Group makes contributions to both Defined Benefit and Defined Contribution Plans for qualifying employees. These Plans are administered through approved Trusts, which operate in accordance with the Trust Deeds, Rules and applicable Statutes. The concerned Trusts are managed by Trustees who provide strategic guidance with regard to the management of their investments and liabilities and also periodically review their performance.

Provident Fund and Pension Benefits are funded, Gratuity Benefits are both funded as well unfunded; and Leave Encashment Benefits are unfunded in nature. The Defined Benefit Pension Plans are based on employees' pensionable remuneration and length of service. Under the Provident Fund, Gratuity and Leave Encashment Schemes, employees are entitled to receive lump sum benefits.

(a) Defined Benefit Plans:

As per Actuarial Valuations as on 31st March, 2023 and recognised in the financial statements in respect of Employee Benefit Schemes:

The liabilities arising in the Defined Benefit Schemes are determined in accordance with the advice of independent, professionally qualified actuaries, using the projected unit credit method as at year end. The Group makes regular contributions to these Defined Benefit Plans. Additional contributions are made to these plans as and when required based on actuarial valuation.

Risk Management

The Defined Benefit Plans expose the Group to risk of actuarial deficit arising out of investment risk, interest rate risk and salary cost inflation risk.

Investment Risk: This may arise from volatility in asset values due to market fluctuations and impairment of assets due to credit losses. These Plans primarily invest in debt instruments such as Government securities and highly rated corporate bonds – the valuation of which is inversely proportional to the interest rate movements.

Interest Rate Risk: The present value of Defined Benefit Plans liability is determined using the discount rate based on the market yields prevailing at the end of reporting period on Government securities. A decrease in yields will increase the fund liabilities and vice-versa.

Salary Cost Inflation Risk: The present value of the Defined Benefit Plan liability is calculated with reference to the future salaries of participants under the Plan. Increase in salary might lead to higher liabilities.

These Plans have a relatively balanced mix of investments in order to manage the above risks. The investment strategy is designed based on the interest rate scenario, liquidity needs of the Plans and pattern of investment as prescribed under various statutes.

The Trustees regularly monitor the funding and investments of these Plans. Risk mitigation systems are in place to ensure that the health of the portfolio is regularly reviewed and investments do not pose any significant risk of impairment. Periodic audits are conducted to ensure adequacy of internal controls. Pension obligation of the employees is secured by purchasing annuities thereby de-risking the Plans from future payment obligation.

XI. Sensitivity Analysis

The Sensitivity Analysis below has been determined based on reasonably possible change of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant. These sensitivities show the hypothetical impact of a change in each of the listed assumptions in isolation. While each of these sensitivities holds all other assumptions constant, in practice such assumptions rarely change in isolation and the asset value changes may offset the impact to some extent. For presenting the sensitivities, the present value of the Defined Benefit Obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the Defined Benefit Obligation presented above. There was no change in the methods and assumptions used in the preparation of the Sensitivity Analysis from previous year.

Notes to the Consolidated Financial Statements

28. Additional Notes to the Consolidated Financial Statements (Contd.)

(viii) The Company on 7th April, 2023 divested its entire shareholding, i.e., 26.00% of the paid-up share capital, held in Espirit Hotels Private Limited (Espirit), consequent to which Espirit ceased to be a joint venture of the Company with effect from the said date.

(ix) Under the terms of the Joint Venture Agreement (JVA), Logix Developers Private Limited (LDPL) (CIN: U70101DL2010PTC207640) was to develop a luxury hotel-cum-service apartment complex. However, Logix Estates Private Limited, Noida, the JV partner communicated its intention to explore alternative development plans to which the Company reiterated that it was committed only to the project as envisaged in the JVA. The JV partner refused to progress the project and instead expressed its intent to exit the JV by selling its stake to the Company and subsequently proposed that both parties should find a third party to sell the entire shareholding in LDPL. The resultant deadlock has stalled the project. The Company's petition that the affairs of the JV are being conducted in a manner that is prejudicial to the interest of the Company and the JV entity, as also a petition for winding up of LDPL filed by Logix Estates, are currently before the Hon'ble National Company Law Tribunal.

New Okhla Industrial Development Authority (NOIDA), vide letter dated 6th July, 2022, cancelled the sub-lease for the land on which the project was to be constructed on account of non-payment of lease instalments and non-fulfilment of the conditions of the sub-lease, including forfeiture of the amount deposited. Upon cancellation of the sub-lease, LDPL is evaluating all options to pursue its rights. Consequently, as a matter of prudence, LDPL had de-recognised the leasehold land/assets as well as adjusted/reversed the lease liabilities towards NOIDA in accordance with the terms of the sub-lease, as an adjusting event in terms of Ind AS 10 – "Events after the Reporting Period" while approving its financial statements for the year ended 31st March 2022, on 29th September, 2022.

As the accounting treatment pertaining to the aforesaid event was given effect to by LDPL in its financial statements for the year ended 31st March, 2022 subsequent to the approval of the consolidated financial statements of the Group for the year ended 31st March, 2022, the consequential impact has been considered in these consolidated financial statements.

The financial statements of LDPL for the year ended 31st March, 2023 are yet to be approved by its Board of Directors.

(x) The Company on 27th October, 2022 acquired, in the third tranche, 1000 Compulsorily Convertible Preference Shares of ₹ 10/- each of Mother Sparsh Baby Care Private Limited (Mother Sparsh), consequent to which the Company's shareholding in Mother Sparsh aggregated 22.00% of its share capital on a fully diluted basis. Accordingly, Mother Sparsh became an associate of the Company with effect from the aforesaid date and the investment is being carried at cost.

(xi) Leases:

As a Lessee

The Group's significant leasing arrangements are in respect of operating leases for land, buildings (comprising licensed properties, residential premises, office premises, stores, warehouses etc.) and plant & equipment. These arrangements generally range between 2 years and 10 years, except for certain land and building leases where the lease term ranges up to 99 years. The lease arrangements have extension/termination options exercisable by either parties which may make the assessment of lease term uncertain. While determining the lease term, all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option are considered.

Notes to the Consolidated Financial Statements

28. Additional Notes to the Consolidated Financial Statements (Contd.)

The amount of Right of Use Assets and Lease Liabilities recognised in the Balance Sheet are disclosed in Note 3G and Note 17A respectively. The total cash outflow for leases for the year is ₹ 441.30 Crores (2022 - ₹ 376.34 Crores) [including payments of ₹ 359.11 Crores (2022 - ₹ 295.32 Crores) in respect of short-term/low-value leases and variable lease payments of ₹ 2.73 Crores (2022 - ₹ 0.79 Crore)].

The sensitivity of variable lease payments and effect of extension/termination options not included in measurement of lease liabilities is not material.

The undiscounted maturities of lease liabilities over the remaining lease term is as follows:

(₹ in Crores)

Term	As at 31st March, 2023	As at 31st March, 2022
Not later than three years	169.25	154.66

Later than twenty-five years and not later than fifty years	92.64	98.43
Later than fifty years	26.39	27.27

As a Lessor

The Group has leased out its investment properties etc. under operating lease for periods ranging upto 5 years. Lease payments are structured with periodic escalations consistent with the prevailing market conditions. There are no variable lease payments. The details of income from such leases are disclosed under Note 3C and Note 23. The Group does not have any risk relating to recovery of residual value of investment properties etc. at the end of leases considering the business requirements and other alternatives.

The undiscounted minimum lease payments to be received over the remaining non-cancellable term on an annual basis are as follows:

Sl. No.		ITC Employee Stock Option Scheme - 2006	ITC Employee Stock Option Scheme - 2010
15.	A description of the method used during the year to estimate the fair values of Options, the weighted average exercise prices and weighted average fair values of Options granted	The fair value of each Option is estimated using the Black Scholes Option Pricing model. Weighted average exercise price per Option : ₹ 3460.70 Weighted average fair value per Option : ₹ 853.67	
	The significant assumptions used to ascertain the above	The fair value of each Option is estimated using the Black Scholes Option Pricing model after applying the following key assumptions on a weighted average basis: (i) Risk-free interest rate 7.31% (ii) Expected life 4.61 years (iii) Expected volatility 25.08% (iv) Expected dividends 3.32% (v) The price of the underlying shares in market at the time of Option grant ₹ 3460.70 (One Option = 10 Ordinary Shares)	
16.	Methodology for determination of expected volatility	The volatility used in the Black Scholes Option Pricing model is the annualised standard deviation of the continuously compounded rates of return on the stock over a period of time. The period considered for the working is commensurate with the expected life of the Options and is based on the daily volatility of the Company's stock price on NSE. The Company has incorporated the early exercise of Options by calculating expected life on past exercise behaviour. There are no market conditions attached to the grant and vest.	

(xii)(b) Information in respect of Stock Appreciation Linked Reward Plan:

Sl. No.	Particulars	Details
1	Nature and extent of Stock Appreciation Linked Reward Plan that existed during the year along with general terms and conditions	ITC Employee Cash Settled Stock Appreciation Linked Reward Plan (ITC ESAR Plan). Under the ITC ESAR Plan, the eligible employees receive cash on vesting of SAR units, equivalent to the difference between the grant price and the market price of the share on vesting of SAR units subject to the terms and conditions specified in the Plan.
2	Settlement Method	Cash – Settled
3	Vesting period and maximum term of SAR granted	Over a period of five years from the date of grant in accordance with the Plan.
4	Method used to estimate the fair value of SAR granted	Black Scholes Option Pricing model. The said model considers inputs such as Risk-free interest rate, Expected life, Expected volatility, Expected dividend, Market price etc. The number of SAR units outstanding as at 31st March, 2023 is 25,00,251 (2022 - 39,46,719) and the weighted average fair value at measurement date is ₹ 712.18 (2022 - ₹ 217.98) per SAR unit.
5	Total cost recognised in the profit or loss	The cost has been calculated using the fair value method of accounting for SAR units issued under the ITC ESAR Plan. The employee compensation cost/(reversal) as per fair value method for the financial year 2022-23 is ₹ 216.12 Crores (2022 - ₹ 30.01 Crores); out of which, ₹ 214.31 Crores (2022 - ₹ 29.46 Crores) relate to employee benefits expense (Refer Note 24), ₹ 0.04 Crore (2022 - ₹ 0.17 Crore) to property, plant and equipment and ₹ 1.77 Crores (2022 - ₹ 0.38 Crore) for group entities. The amount carried in the Balance Sheet as a non - current financial liability is ₹ 71.35 Crores (2022 - ₹ 48.99 Crores) and as a current financial liability is ₹ 122.30 Crores (2022 - ₹ 19.10 Crores) (Refer Note 17B).

(xiii) Amount required to be spent by the Group during the year as per Section 135 read with Section 198 of the Companies Act, 2013 - ₹ 377.32 Crores (2022 - ₹ 362.56 Crores) being 2% of the average Net Profit of the Company.

Expenditure incurred during the year is ₹ 377.93 Crores (2022 - ₹ 363.37 Crores) comprising employee benefits expense of ₹ 14.33 Crores (2022 - ₹ 15.92 Crores) and other expenses of ₹ 363.60 Crores (2022 - ₹ 347.45 Crores), of which ₹ 62.71 Crores (2022 - ₹ 26.01 Crores) is accrued for payment as on 31st March, 2023. The above includes an amount of ₹ 23.10 Crores (2022 - ₹ 3.90 Crores) with regard to ongoing project, which has been deposited in the Unspent CSR Account within 30 days from the end of the financial year. Amount available for set off in succeeding financial years is ₹ 1.35 Crores (2022 - ₹ 0.76 Crore).

Notes to the Consolidated Financial Statements

28. Additional Notes to the Consolidated Financial Statements (Contd.)

Such CSR expenditure of ₹ 377.93 Crores (2022 - ₹ 363.37 Crores) excludes ₹ 9.43 Crores (2022 - ₹ 5.85 Crores) being the excess of expenditure of salaries of CSR personnel and administrative expenses over the limit of 5% of total CSR expenditure laid down under Rule 7(1) of the Companies (Corporate Social Responsibility Policy) Rules, 2014 as applicable to individual entities.

CSR activities undertaken during the year pertain to: poverty alleviation; promoting education and skill development; promoting healthcare including preventive healthcare; providing sanitation and drinking water; ensuring environmental sustainability; enabling climate resilience; rural development projects; creating livelihoods for people (especially those from disadvantaged sections of society); protection of national heritage, art and culture; preserving and promoting music; and providing relief and assistance to victims of disasters and calamities.

(xvi) The Ministry of Corporate Affairs (MCA) has issued the Companies (Indian Accounting Standards) (Amendment) Rules, 2023 on 31st March, 2023 amending:

- Ind AS 1, 'Presentation of Financial Statements' - This amendment requires companies to disclose their material accounting policies rather than their significant accounting policies.
- Ind AS 8 'Accounting Policies, Changes in Accounting Estimates and Errors' - This amendment has introduced a definition of 'accounting estimates' and includes guidance to help distinguish changes in accounting policies from changes in accounting estimates.
- Ind AS 12 'Income Taxes' - This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The amendments clarify how companies account for deferred tax on transactions such as leases.

The same are applicable for financial statements pertaining to annual periods beginning on or after 1st April, 2023. Based on a preliminary evaluation, the Company does not expect any material impact on the financial statements resulting from the implementation of these amendments.

(xvii) Figures presented as "... " are below the rounding off norm adopted by the Group.

(xviii) Figures for the previous year have been re-arranged, wherever necessary, to conform to the figures of the current year.

(xix) The financial statements were approved for issue by the Board of Directors on 18th May, 2023.

^{*} Includes rent pertaining to leases classified as Right of Use Assets.

[#] The amounts outstanding are unsecured and will be settled in cash.

¹ Post employment benefits are actuarially determined on overall basis and hence not separately provided. Payments made on settlement of leave liability upon retirement - ₹ 2.69 Crores (2022 - ₹ Nil) has not been included in the above.

² During the year, the Company granted Stock Options to eligible employees, including Executive Directors and KMPs, under its Employee Stock Option Schemes at 'market price' [within the meaning of the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021]. The Company has also granted Employee Stock Appreciation Linked Reward Units (ESAR Units) to the aforesaid persons in the previous years under the 'ITC Employee Cash Settled Stock Appreciation Linked Reward Plan'. Since such Stock Options and ESAR Units are not tradeable, no perquisite or benefit is immediately conferred upon the employee by grant of such Stock Options/ESAR Units, and accordingly the said grants have not been considered as 'remuneration'. However, in accordance with Ind AS -102, the Company has recorded employee benefits expense by way of share based payments to employees at ₹ 274.72 Crores for the year ended 31st March, 2023 (2022 - ₹ 62.63 Crores), of which ₹ 35.43 Crores (2022 - ₹ 23.14 Crores) is attributable to Executive Directors and KMPs.

C. Financial risk management objectives

Entities comprising the Group have put in place risk management systems as applicable to the respective operations. The following explains the objectives and processes of the Company, being the largest component of the Group: The Company has a system-based approach to risk management, anchored to policies and procedures and internal financial controls aimed at ensuring early identification, evaluation and management of key financial risks (such as market risk, credit risk and liquidity risk) that may arise as a consequence of its business operations as well as its investing and financing activities. Accordingly, the Company's risk management framework has the objective of ensuring that such risks are managed within acceptable and approved risk parameters in a disciplined and consistent manner and in compliance with applicable regulation. It also seeks to drive accountability in this regard.

Liquidity Risk

The Group's Current assets aggregate ₹ 39670.89 Crores (2022 - ₹ 34232.45 Crores) including Current Investments, Cash and cash equivalents and Other Bank Balances of ₹ 22113.05 Crores (2022 - ₹ 16918.70 Crores) against an aggregate Current liabilities of ₹ 13739.41 Crores (2022 - ₹ 12163.71 Crores). As part of its surplus liquidity management operations, the Group may sell instruments that are held at amortised cost. Such sales may be infrequent (even if significant in value) or insignificant in value both individually and in aggregate (even if frequent). During the year, the net loss arising on such sale amounted to ₹ 49.13 Crores (2022 - Nil) (Refer Note 23).

Other Non-current liabilities other than lease liabilities due between one year to three years amounted to ₹ 304.94 Crores (2022 - ₹ 112.94 Crores) and Other Non-current liabilities due after three years amounted to ₹ 115.42 Crores (2022 - ₹ 36.41 Crores) on the reporting date. The maturity analysis of undiscounted lease liabilities are disclosed under Note 28 (xi).

Further, while the Group's total equity stands at ₹ 69538.79 Crores (2022 - ₹ 62821.87 Crores), it has non-current borrowings of ₹ 3.49 Crores (2022 - ₹ 4.85 Crores). In such circumstances, liquidity risk or the risk that the Group may not be able to settle or meet its obligations as they become due does not exist.

Market Risk

The Group is not an active investor in equity markets; it holds certain investments in equity for long term value accretion which are accordingly measured at fair value through Other Comprehensive Income. The value of investments in such equity instruments as at 31st March, 2023 is ₹ 1723.70 Crores (2022 - ₹ 1615.07 Crores). Accordingly, fair value fluctuations arising from market volatility is recognised in Other Comprehensive Income.

Notes to the Consolidated Financial Statements

31. Financial Instruments and Related Disclosures (Contd.)

As the Group is virtually debt-free and its deferred payment liabilities do not carry interest, the exposure to interest rate risk from the perspective of financial liabilities is negligible.

The Group's investments are predominantly held in bonds/debentures, fixed deposits, certificate of deposits and debt mutual funds. Mark to market movements in respect of the Group's investments in bonds/debentures that are held at amortised cost are temporary and get recouped through coupon accruals. Other investments in bonds/debentures, certificate of deposits are fair valued through the Statement of Profit and Loss to recognise market volatility, which is not considered to be significant. Fixed deposits are held with highly rated banks and companies and have a short tenure and are not subject to interest rate volatility.

The Group also invests in mutual fund schemes of leading fund houses. Such investments are susceptible to market price risk that arise mainly from changes in interest rate which may impact the return and value of such investments. However, given the relatively short tenure of underlying portfolio of the mutual fund schemes in which the Group has invested, such price risk is not significant.

For select agricultural commodities primarily held for trading, futures contracts are used to hedge price risks till positions in the physical market are matched. The carrying value of inventories is adjusted to the extent of fair value movement of the risk being hedged. Such hedges are generally for short time horizons and recognised in profit or loss within the crop cycle and are managed by the business within the approved policy framework. Accordingly, the Group's net exposure to commodity price risk is considered to be insignificant.

Foreign currency risk

The Group undertakes transactions denominated in foreign currency (mainly US Dollar, Pound Sterling, Euro and Japanese Yen) which are subject to the risk of exchange rate fluctuations. Financial assets and liabilities denominated in foreign currency, including the Group's net investments in foreign operations (with a functional currency other than Indian Rupee), are also subject to reinstatement risks.

The carrying amounts of foreign currency denominated financial assets and liabilities including derivative contracts (other than in functional currency), are as follows:

(₹ in Crores)						
As at 31st March, 2023	USD	Euro	GBP	JPY	Others	Total
Financial Assets	1010.94	312.50	66.24	0.27	87.88	1477.83

Hedges of foreign currency risk and derivative financial instruments

Each entity comprising the Group manages its own currency risk. Within the Group, derivative instruments are largely entered into by the Company and a subsidiary. The Company and the aforesaid subsidiary has established risk management policies to hedge the volatility in cashflows arising from exchange rate fluctuations in respect of firm commitments and highly probable forecast transactions, through foreign exchange forward, futures, options contracts and certain non-derivative financial liabilities. The proportion of forecast transactions that are to be hedged is decided based on the size of the forecast transaction and market conditions. As the counterparty for such transactions are primarily highly rated banks or recognised exchange(s), the risk of their non-performance is considered to be insignificant. Where derivatives are not designated under hedge accounting, changes in the fair value of such hedges are recognised in the Statement of Profit and Loss.

The Company and one of its subsidiary has designated certain hedges which are entered to manage the volatility in cashflows as a cash flow hedge under hedge accounting. The currency, amount and tenure of such hedges are generally matched to the underlying transaction(s). Changes in the fair value of the effective portion of cash flow hedges are recognised as cash flow hedging reserve in Other Comprehensive Income. While the probability of such hedges becoming ineffective is very low, the ineffective portion, if any, is immediately recognised in the Statement of Profit and Loss.

Notes to the Consolidated Financial Statements

31. Financial Instruments and Related Disclosures (Contd.)

The movement in the cash flow hedging reserve in respect of designated cash flow hedges is summarised below:

(₹ in Crores)		
Particulars	2023	2022
At the beginning of the year	14.33	4.93
Add: Changes in the fair value of effective portion of matured cash flow hedges during the year	(154.16)	16.71
Add: Changes in fair value of effective portion of outstanding cash flow hedges	12.15	19.27
Less: Amounts transferred to the Statement of Profit and Loss on occurrence of forecast hedge transactions during the year	(82.63)	30.07
Less: Amounts transferred to the Statement of Profit and Loss due to cash flows no longer expected to occur	(28.19)	3.03
Less: Amounts transferred to initial cost of non-financial assets	(10.40)	(9.68)
Less: Net gain/(loss) transferred to the Statement of Profit and Loss on ineffectiveness	—	—

Within one year	0.98	10.80
Between one and three years	(1.51)	3.53
Beyond three years	(0.70)	—
Total	(1.23)	14.33

Foreign Currency Sensitivity

For every percentage point increase/decrease in the underlying exchange rate of the outstanding foreign currency denominated assets and liabilities, including derivative contracts, holding all other variables constant, the profit before tax for the year ended 31st March, 2023 would decrease/increase by ₹ 2.72 Crores (2022 - ₹ (2.53) Crores) and other equity as at 31st March, 2023 would decrease/increase by ₹ 2.89 Crores (2022 - ₹ 38.12 Crores) on a pre-tax basis.

Credit Risk

Each entity comprising the Group manages its own credit risk. The following explains the processes followed by the Company, being the largest component of the Group, to manage its credit risk: Company's deployment in debt instruments are primarily in Government securities, fixed deposits with highly rated banks and companies; bonds issued by government institutions, public sector undertakings, mutual fund schemes of leading fund houses and certificate of deposits issued by highly rated banks and financial institutions. As these counter parties are Central/State Government, Government institutions/public sector undertakings with investment grade/sovereign credit ratings and taking into account the experience of the Company over time, the counter party risk attached to such assets is considered to be insignificant.

The Group's investments that are held at amortised cost stood at ₹ 16422.36 Crores (2022 - ₹ 18598.99 Crores).

The Company's customer base is large and diverse limiting the risk arising out of credit concentration. Further, credit is extended in business interest in accordance with guidelines issued centrally and business-specific credit policies that are consistent with such guidelines. Exceptions are managed and approved by appropriate authorities, after due consideration of the counterparty's credentials and financial capacity, trade practices and prevailing business and economic conditions. The Company's historical experience of collecting receivables and the level of default indicate that credit risk is low and generally uniform across markets; consequently, trade receivables are considered to be a single class of financial assets. All overdue customer balances are evaluated taking into account the age of the dues, specific credit circumstances, the track record of the counterparty etc. Loss allowances and impairment is recognized, where considered appropriate by responsible management.

Notes to the Consolidated Financial Statements

31. Financial Instruments and Related Disclosures (Contd.)

The Group's exposure to trade receivables on the reporting date, net of expected loss provisions, stood at ₹ 2956.17 Crores (2022 - ₹ 2461.90 Crores).

Fair value hierarchy

Fair value of the financial instruments is classified in various fair value hierarchies based on the following three levels:

Level 1: Quoted prices (unadjusted) in active market or Net Asset Value (NAV) for identical assets or liabilities.

Level 2: Inputs other than quoted price included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

The fair value of financial instruments that are not traded in an active market is determined using market approach and valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Notes to the Consolidated Financial Statements

31. Financial Instruments and Related Disclosures (Contd.)

Derivatives are valued using valuation techniques with market observable inputs such as foreign exchange spot rates and forward rates at the end of the reporting period, yield curves, risk free rate of returns, volatility etc., as applicable. The fair value of investment in Bonds/Debentures, Certificate of Deposits, Venture Capital funds etc. and financial liabilities, where applicable, is determined using market observable inputs such as quotes from market participants, value published by the issuer etc.

Level 3: Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

If one or more of the significant inputs is not based on observable market data, the fair value is determined using generally accepted methodologies such as discounted cash flow analysis, with the most significant inputs being the discount rate that reflects the credit risk of counterparty.

The fair value of trade receivables, trade payables and other Current financial assets and liabilities is considered to be equal to the carrying amounts of these items due to their short-term nature. Where such items are Non-current in nature, the same has been classified as Level 3 and fair value determined using discounted cash flow basis. Similarly, unquoted equity instruments where most recent information to measure fair value is insufficient, or if there is a wide range of possible fair value measurements, cost has been considered as best estimate of fair value.

There has been no change in the valuation methodology for Level 3 inputs during the year. The Group has not classified any material financial instruments under Level 3 of the fair value hierarchy. The sensitivity of change in the unobservable inputs used in fair valuation of Level 3 financial assets and liabilities does not have a significant impact on their value. There were no transfers between Level 1, Level 2 and Level 3 during the year.

INDEPENDENT AUDITOR'S REPORT

To the Members of ITC Limited

Report on the Audit of the Consolidated Ind AS Financial Statements

Opinion

We have audited the accompanying consolidated Ind AS financial statements of ITC Limited (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") its associates and joint ventures comprising of the consolidated Balance Sheet as at March 31, 2023, the consolidated Statement of Profit and Loss, including other comprehensive income, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated Ind AS financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, associates and joint ventures, the aforesaid consolidated Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its associates and joint ventures as at March 31, 2023, their consolidated profit including other comprehensive income, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further

described in the 'Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements' section of our report. We are independent of the Group, associates, joint ventures in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated Ind AS financial statements for the financial year ended March 31, 2023. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of audit procedures performed by us and by other auditors of components not audited by us, as reported by them in their audit reports furnished to us by the management, including those procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated Ind AS financial statements.

Key audit matters	How our audit addressed the key audit matter
Revenue recognition	
Revenue from the sale of goods (hereinafter referred to as "Revenue") is recognised when the Group performs its obligation to its customers and the amount of revenue can be measured reliably and recovery of the consideration is probable. The timing of such revenue recognition in case of sale of goods is when the control over the same is transferred to the customer, which is mainly upon delivery.	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> Assessed the Group's revenue recognition accounting policies in line with Ind AS 115 ("Revenue from Contracts with Customers") and tested thereof. Evaluated the integrity of the general information and technology control environment and testing the operating effectiveness of key IT application controls over recognition of revenue.

Independent Auditor's Report

Key audit matters	How our audit addressed the key audit matter
<p>The timing of revenue recognition is relevant to the reported performance of the Group. The management considers revenue as a key measure for evaluation of performance. There is a risk of revenue being recorded before control is transferred.</p> <p>Refer Note 1 to the Consolidated Ind AS Financial Statements - Significant Accounting Policies and Note 22A/22B.</p>	<ul style="list-style-type: none"> ● Evaluated the design, implementation and operating effectiveness of Group's controls in respect of revenue recognition. ● Tested the effectiveness of such controls over revenue cut off at year-end. ● On a sample basis, tested supporting documentation for sales transactions recorded during the year which included sales invoices, customer contracts and shipping documents. ● Performed an increased level of substantive testing in respect of sales transactions recorded during the period closer to the year end and subsequent to the year end. ● Compared revenue with historical trends and where appropriate, conducted further enquiries and testing. ● Assessed disclosures in financial statements in respect of revenue, as specified in Ind AS 115.
<p><i>Impairment assessment of Capital Work in Progress (Hotel) and valuation of Inventories (Residential Apartments) of WelcomHotels Lanka (Private) Limited ('WLPL'), a wholly owned subsidiary</i></p>	
<p>WLPL is developing a mixed-use project in Colombo, Sri Lanka which includes a hotel and a residential apartment complex. At March 31, 2023, the carrying value of Capital Work in Progress ('CWIP') and inventories (excluding leasehold land value of ₹ 207.08 crores) is ₹ 1,018.03 crores and ₹ 693.63 crores respectively. In view of the deterioration in the macro - economic scenario in Sri Lanka, the management of WLPL has performed impairment assessment for its capital work in progress of the Hotel (PPE) and net realisable value assessment for the inventory of the residential apartments.</p> <p>The processes and methodologies for assessing and determining the recoverable value of the project are based on assumptions, that by their nature imply the use of the management's judgement, in particular with reference to forecast of future cash flows, selling price, balance cost to complete the project, selling costs, terminal value, long-term growth rates and discount rates applied to such forecasted cash flows. Considering the judgement required for estimating the cash flows and the assumptions used, this is considered as a key audit matter.</p> <p>Refer Note 1 - Significant Accounting Policies and Note 2 - Use of estimates and judgements to the Consolidated Ind AS Financial Statements.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> ● Obtained understanding of the Company's policy on assessment of impairment of PPE and determination of net realisable value for inventory and assumptions used by the management including design and implementation of controls. ● Obtained and read the projections/estimated selling price/future cashflows along with sensitivity analysis thereof. ● Discussed and obtained assessment of recoverable value of PPE and inventory from component auditor. ● Evaluated management's methodology, assumptions and estimates used in the calculations. ● Involved valuation specialist to review the appropriateness of methodology and key assumptions considered by management to determine discounted future cash flows. ● Performed sensitivity analysis around impact on future cash flows due to changes in key assumptions considered by management. ● Verified the arithmetical accuracy of the future cash flow model including comparison with approved budgets. ● Assessed the recoverability of PPE with regard to the value in use and net realisable value of inventory.

Information Other than the Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the consolidated Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated Ind AS financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group including its associates and joint ventures in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group and of its associates and joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and of its associates and joint ventures and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and

maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group and of its associates and joint ventures are responsible for assessing the ability of the Group and of its associates and joint ventures to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those respective Board of Directors of the companies included in the Group and of its associates and joint ventures are also responsible for overseeing the financial reporting process of the Group and of its associates and joint ventures.

Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit

Independent Auditor's Report

procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates and joint ventures to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates and joint ventures to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated Ind AS financial statements, including the disclosures, and whether the consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates and joint ventures of which we are the independent auditors and whose financial information we have audited, to

express an opinion on the consolidated Ind AS financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated Ind AS financial statements of which we are the independent auditors. For the other entities included in the consolidated Ind AS financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated Ind AS financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated Ind AS financial statements for the financial year ended March 31, 2023 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

- We did not audit the financial statements and other financial information, in respect of twenty-two subsidiaries, whose financial statements include total assets of ₹ 6,521.59 crores as at March 31, 2023, and total revenues of ₹ 3,274.91 crores and net cash inflows of ₹ 177.51 crores for the year ended

on that date. These financial statement and other financial information have been audited by other auditors, which financial statements, other financial information and auditor's reports have been furnished to us by the management. The consolidated Ind AS financial statements also include the Group's share of net profit of ₹ 49.04 crores for the year ended March 31, 2023, as considered in the consolidated financial statements, in respect of eight associates and four joint ventures, whose financial statements, other financial information have been audited by other auditors and whose reports have been furnished to us by the management. Our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, joint ventures and associates, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, joint ventures and associates, is based solely on the reports of such other auditors.

Certain of these subsidiaries are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Holding Company's management has converted the financial statements of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Holding Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiaries located outside India is based on the report of other auditors and the conversion adjustments prepared by the management of the Holding Company and audited by us.

Our opinion above on the consolidated Ind AS financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

Annexure 2 to the Independent Auditor’s Report of even date on the Consolidated Financial Statements of ITC Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of ITC Limited (hereinafter referred to as the “Holding Company”) as of and for the year ended March 31, 2023, we have audited the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiaries (the Holding Company and its subsidiaries together referred to as “the Group”), its associates and joint ventures, which are companies incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the companies included in the Group, its associates and joint ventures, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Holding Company’s internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, specified under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both, issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

Meaning of Internal Financial Controls With Reference to Consolidated Financial Statements

A company's internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Group, its associates and joint ventures, which are companies incorporated in India, have, maintained in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements of the Holding Company, in so far as it relates to these ten subsidiaries, seven associates and two joint ventures, which are companies incorporated in India, is based on the corresponding reports of the auditors of such subsidiaries, associates and joint ventures incorporated in India.

2. Does the Entity have Processes in place to avoid/ manage Conflict of Interests involving Members of the Board? (Yes/No) If Yes, provide details of the same.

Yes, the ITC Code of Conduct requires the Directors, senior management and employees to avoid situations in which their personal interests could conflict with the interests of the Company. The Code, inter alia, clarifies that conflict of interest may arise when (a) an employee or a family member (family member includes spouse, children, siblings and parents) has a material interest in an entity that has a business relationship with the Company or is being evaluated for a commercial

transaction, or (b) an employee is in a position to benefit someone with whom he/she has a close relationship, in relation to the Company’s business. However, this is an area in which it is impossible to provide comprehensive guidance but the guiding principle is that conflict, if any, or any potential conflict must be disclosed to higher management for guidance and action as appropriate.

Further, the Directors of the Company are required to disclose to the Board, on an annual basis, whether they, directly or indirectly or on behalf of third parties, have material interest in any transaction or matter directly affecting the Company.

Principle 2

Businesses should provide Goods and Services in a manner that is Sustainable and Safe.

Essential Indicators

The Company’s state-of-the-art ITC Life Sciences and Technology Centre (LSTC) in Bengaluru is at the core of driving science-led product innovation to support and build ITC’s portfolio of world-class brands.

ITC LSTC’s research and development initiatives are equipped with world-class scientific platforms and centres of excellence that deliver improvements in environmental and social impacts, some of which are summarised below -

Agroforestry and Crop Sciences: Agroforestry, one of LSTC’s key expertise, involves working on tree improvement by using contemporary research tools for Eucalyptus, Casuarina, Corymbia, and Subabul species. LSTC has released several new clones for all the four species, aimed at improving productivity and catering to the sourcing needs of ITC’s paper business. Last year, 6 million new clones with improved productivity were distributed to farmers.

Sustainable Packaging & Material Sciences: This vertical works on reducing the impact of single-use plastics and plastic packaging by focussing on suitable alternatives, improving recyclability of multi-layered plastic packaging, and increasing the use of recycled content, thereby reducing the carbon footprint of packaging.

Health, Wellness and Nutrition: Health and Wellness platform focuses on multiple aspects of human health stratified across age, gender, specific health concerns as well as uniqueness of the Indian consumer. LSTC, over the last decade, has been instrumental in creating scientifically validated solutions catering to areas such as diabetes, cardiovascular health, weight management, gut health, immunity, brain health, women’s health, kids’ health, targeted nutrition as well as various concerns associated with ageing. Solutions range from delivering benefits in various product formats including nutraceuticals. Scientific due diligence as well as clinical efficacy has helped in generating health claims and in providing nutrition, nourishment, health and wellness to the Indian consumer.

2. a. Does the Entity have Procedures in place for Sustainable Sourcing?

Yes, there are procedures in place for sustainable sourcing. ITC has a Board approved Policy on ‘Sustainable Supply Chain and Responsible Sourcing’ and a ‘Code of Conduct for Suppliers and Service Providers’. The Code reflects ITC’s commitment to environmental conservation, business integrity and human rights across the supply chain. It upholds the spirit outlined in the International Labour Organisation Guidelines and United Nations Guiding Principles on Business and Human Rights. All suppliers are encouraged to fully comply with the Code.

Additionally, ITC businesses, including Agri, FMCG and Paper Businesses, depend on farm and forestry-based supply chains for key raw materials. Accordingly, focus of ITC’s interventions in agri value chains has been largely around improving farmer livelihoods, increasing

agricultural productivity, strengthening regional water security, and addressing the challenge of climate change and enhancing resilience. ITC’s key agri value chains are also certified as per global standards like Rainforest Alliance (RFA), Forest Stewardship Council®, Fairtrade, India Organic, USDA Organic, Bio-Suisse etc. These certifications specify environmental and social standards for agricultural practices, and help ensure sustainability, traceability and transparency across value chains.

Note: For more details on ITC’s sustainable sourcing practices pertaining to key agri value chains and key value chain partners like third-party manufacturers, refer to ‘Sustainable Agriculture’ and ‘Sustainable Supply Chain and Responsible Sourcing’ sections of ITC Sustainability & Integrated Report 2023.

b. If yes, what percentage of inputs were sourced sustainably?

ITC businesses, including Agri, FMCG and Paper Businesses, depend on farm and forestry-based supply chains for key raw materials. Accordingly, farmers constitute a vital part of ITC’s supply chain and the Company engages with farmers to ensure adoption of sustainable agriculture practices. ITC’s key agri value chains are also certified as per global standards like Rainforest Alliance (RFA), Forest Stewardship Council®, Fairtrade, India Organic, USDA Organic and Bio-Suisse.

Note: For more details on ITC’s sustainable sourcing practices pertaining to key agri value chains, refer to ‘Sustainable Agriculture’ section of ITC Sustainability & Integrated Report 2023.

3. Describe the Processes in place to Safely Reclaim your Products for Reusing, Recycling and Disposing at the end of Life, for (a) Plastics (including Packaging) (b) E-waste (c) Hazardous Waste and (d) Other Waste.

	Description of Processes
Plastics (including Packaging)	ITC achieved Plastic Neutrality in FY 2021-22 by implementing an integrated solid waste management programme that incorporates unique and multi-dimensional initiatives including the Company’s flagship waste management initiative ‘ITC WOW – Well Being Out of Waste’. In FY 2022-23, the Company collected and sustainably managed more than 60,000 tonnes of plastic waste across 36 States and Union Territories. The amount of plastic waste managed exceeded the amount of plastic packaging utilised by ITC during the year, enabling the Company to maintain the milestone of Plastic Neutrality. ITC has been recycling more than 99% of the solid waste generated through its operations including plastic waste for more than a decade.
E-waste	Not applicable
Hazardous Waste	Not applicable
Other Waste	All ITC Units have established systems and procedures to ensure that waste is disposed through authorised agencies in line with applicable regulations.

Note: For further details, refer to the ‘Towards Circularity’ section of ITC Sustainability & Integrated Report 2023.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes/No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

Yes, ITC is in compliance with the requirements of Extended Producer Responsibility (EPR) under the Plastic Waste Management Rules, 2016 (as amended).

Leadership Indicators

1. Has the entity conducted Life Cycle Perspective/ Assessments (LCA) for any of its Products (for Manufacturing Industry) or for its Services (for Service Industry)?

The Company initiated Life Cycle Assessments

(LCA) of its products and services in 2010 with an objective to evaluate the impacts and identify areas for improvement in the value chain. So far, LCAs have been carried out for key product categories from Paperboards & Specialty Papers Business, Personal Care Products Business, and Branded Packaged Foods Businesses.

In FY 2022-23, LCAs on Classmate Notebook, Savlon Powder Handwash, Savlon Liquid Handwash and Nimyle Floor Cleaner were initiated (details provided in the table below). Additionally, during the year, capacity building programmes were conducted for practitioners across ITC businesses in order to further strengthen the application of LCA tools and methodologies for sustainable product design.

NIC Code	Name of Product/ Service	% of total Turnover contributed	Boundary for which the Life Cycle Perspective/ Assessment was conducted	Whether conducted by Independent External Agency (Yes/No)	Results Communicated in Public Domain (Yes/No) If yes, Provide the web-link.

20237	Savlon Powder Handwash	-	Cradle-to-grave	Yes	No
20237	Savlon Liquid Handwash	-	Cradle-to-grave	Yes	No
20239/ 46491	Nimyle Floor Cleaner	-	Cradle-to-gate	Yes	No

2. If there are any significant Social or Environmental Concerns and/or risks arising from Production or Disposal of your Products/Services, as identified in the Life Cycle Perspective/Assessments (LCA) or through any other means, briefly describe the same along-with action taken to mitigate the same.

No significant social or environmental risks were identified from the LCA studies carried out.

3. Percentage of Recycled or Reused Input Material to Total Material (by Value) used in Production (for Manufacturing Industry) or providing Services (for Service Industry).

During FY 2022-23, the Kovai Unit of ITC's Paperboards & Specialty Papers Business sourced nearly 84,000 tonnes of waste paper from external sources, which constituted over 73% of Unit's total input materials. Additionally, some of ITC's Personal Care Products utilised recycled plastic in packaging during the year.

Indicate Input Material	Recycled or Re-used Input Material to Total Material	
	FY 2022-23	FY 2021-22
Waste Paper used in Kovai Mill	Recycled Paper used: ~ 84,000 tonnes	85,000 tonnes
Use of Recycled Plastic Content	Savlon Glycerine Soap Wrapper with 70% PCR (Post-consumer Recycled Plastic) in PET layer. Fiama Handwash Portfolio with 50% PCR PET Bottles.	-

4. Of the Products and Packaging Reclaimed at End of Life of Products, amount (in Metric Tonnes) Reused, Recycled, and Safely Disposed.

During FY 2022-23, the Company collected and sustainably managed more than 60,000 tonnes of plastic waste across 36 States and Union Territories. The amount of plastic waste managed exceeded the amount of plastic packaging utilised by ITC during the year, enabling the Company to sustain its plastic neutrality status for the second year in a row.

3. Accessibility of Workplaces

Are the premises/offices of the entity accessible to differently abled employees and workers, as per the requirements of the Rights of Persons with Disabilities Act, 2016? If not, whether any steps are being taken by the entity in this regard.

As part of its commitment to enhancing diversity, ITC places particular emphasis on representation and inclusion of differently abled persons. Some of our

premises have infrastructure that include the following features:

- Elevators enabled with Braille signages for persons with visual difficulty
- Ramps, tactile pavers and handrails to facilitate movement of persons with motor disability
- Accessible parking places
- Accessible washrooms

4. Does the Entity have an Equal Opportunity Policy as per the Rights of Persons with Disabilities Act, 2016? If so, provide a web-link to the policy.

Yes, the Company has a Policy on Diversity, Equity and Inclusion which clearly articulates its emphasis on Equal Opportunity.

The said Policy clearly states ITC's commitment towards providing equal opportunity. It also emphasises the Company's Zero Tolerance Policy on discrimination, inter alia, on the grounds of disability.

The aforesaid Policy can be accessed at <https://www.itcportal.com/about-itc/policies/sustainability-policy.aspx#EqualOpportunity>

6. Is there a Mechanism available to Receive and Redress Grievances for the following Categories of Employees and Worker? If yes, give details of the mechanism in brief.

	Yes/No (If Yes, then give details of the mechanism in brief)
Permanent Workers	<p>Yes, ITC's Grievance Redressal Procedure is available to employees and workers. The objective of the policy is to facilitate open and structured discussion on employees' work-related grievances with the intent of ensuring that the grievance is dealt with in a fair and just manner whilst being in compliance with the Company's policies. ITC's open-door practices encourage an amicable and fair resolution of grievances. Employees are encouraged to first discuss the grievance with their immediate reporting authority, and attempt to arrive at a resolution before invoking a formal grievance redressal mechanism.</p> <p>In Unionised Units, grievances of workmen are also taken up for discussion by Union Office Bearers and resolved through dialogue with human resources managers and other designated managers. Units also have Committees with joint representation of workers and managers, which address grievances raised by one or more workers. In addition, many Units have forums where workers interact with the unit leadership team in small groups and share any suggestions or grievances they may have, for resolution.</p> <p>The Company's Whistleblower Policy is also applicable to all permanent employees.</p>
Other than Permanent Workers	<p>The Company also has a Whistleblower Policy which encourages all employees to bring to the Company's attention, instances of illegal or unethical conduct, actual or suspected incidents of fraud, actions that affect the financial integrity of the Company, or actual or suspected instances of leak of unpublished price sensitive information that could adversely impact the Company's operations, business performance and/or reputation. In terms of the said Policy, the Company investigates such incidents, when reported, in an impartial manner and takes appropriate action to ensure that the requisite standards of professional and ethical conduct are always upheld. This Policy can be accessed on the Company's corporate website at https://www.itcportal.com/whistleblower-policy</p>
Permanent Employees	Same as stated for Permanent Workers.
Other than Permanent Employees	Same as stated for Other than Permanent Workers.

*A vast majority of the women workers are based in manufacturing Units which currently do not have union representation. These are Units that were commissioned in the recent past.

ITC believes that all employees are important stakeholders in the enterprise, and it is imperative to build a culture of mutual trust and respect, interdependence, and meaningful engagement. This approach helps in building, strengthening and sustaining harmonious employee relations across the organisation. It is ITC's policy:

- To respect the dignity of the individual and the freedom of employees to lawfully organise themselves into interest groups, independent of supervision by the management
- To ensure that employees are not discriminated against for exercising this freedom in a lawful manner and consistent with ITC's core values

10. Health and Safety Management System:

a. Whether an Occupational Health and Safety Management System has been implemented by the Entity? (Yes/No). If yes, the coverage of such system?

Yes, ITC has implemented an occupational health and safety management system in all its Factories, Hotels, Offices and Warehouses. ITC endeavours that Environment, Health & Safety (EHS) standards at all its Units are ahead of applicable legislation and regulations, Standards and Codes, and are benchmarked against international best practices across sectors in which it operates. ITC's approach to occupational health & safety standards is articulated in the Board approved Environment, Health and Safety Policy. It is based on an EHS management system that emphasises on enhancing EHS performance by setting objectives and targets and continually monitoring key performance indicators.

Further, it promotes a culture of safety through behaviour change programmes and by providing appropriate training to employees as well as service providers' employees, while continually investing in state-of-the-art technology and in developing human capital.

EHS requirements are integrated at the design stage for all new investments. Compliance with EHS standards during the construction phase is ensured by implementing project EHS management systems. In the operation phase of ITC Units, Hotels, Warehouses and Offices, it is ensured through established EHS management systems with designated roles and responsibilities for competent resources.

b. What are the Processes used to identify Work-Related Hazards and Assess Risks on a Routine and Non-routine basis by the Entity?

ITC has identified the EHS Risk Management framework as one of the integral steps towards building a robust safety management system in all its Factories, Hotels, Offices and Warehouses. This framework entails a set of processes for continual risk identification, assessment and mitigation, with active participation of the workforce in each of its facilities. Shop floor processes in this regard include hazard spotting tours, suggestion schemes, daily briefings and periodic EHS committee meetings in which employees participate. In addition, all ITC Units undergo periodic Environment, Health & Safety audits at the Business as well as Corporate level which endeavours to identify additional latent risks besides verifying compliance with standards. Several national awards and certifications acknowledge ITC's commitment and efforts towards providing a safe and healthy workplace to all.

c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks. (Y/N)

Yes. A system is in place across ITC Factories, Hotels and Offices for workers to spot and report work-related hazards, and offer suggestions for improvements.

Necessary training is given to all employees in recognising hazards and issues. Joint inspections by management representatives and employees on the shop floor are also carried out at regular intervals, and respective corrective and preventive measures are undertaken to mitigate the identified risks. In order to create an open and transparent safety culture across ITC Units, employees are encouraged to participate and discuss safety related issues in forums like periodic EHS Committee meetings and Departmental Open Forums.

d. Do the Employees/Worker of the Entity have access to Non-occupational Medical and Healthcare Services? (Yes/No)

Yes, permanent employees and their family members have access to the Company provided or Company supported medical benefits. Workers have access to medical benefits through Company provided group insurance policies, Company funded medical support and where applicable, statutory benefits under the Employees' State Insurance Act.

11. Details of Safety Related Incidents.

ITC reports its safety performance on two fronts – 'on-site' — referring to the place of work i.e. Factory, Hotel, Office, etc. which is under direct operational control of ITC and 'off-site' - defined as places other than on-site while on official duty, which includes to and fro commute between residence and place of work. In FY 2022-23, the total on-site Lost Time Accidents (LTAs) was 12 as compared to 11 in FY 2021-22. For details on 'off-site' LTAs, please refer to ITC Sustainability & Integrated Report 2023.

Detailed investigations are carried out for all accidents to identify the root causes and to understand the measures to prevent recurrence. The learnings from all accidents are disseminated across the organisation, and a formal compliance is also obtained.

Safety Incident/ Number	Category	FY	FY
		2022-23	2021-22

12. Describe the measures taken by the entity to ensure a safe and healthy work place.

In line with the Company’s Environment, Health and Safety Policy, safety as a value-led concept has been institutionalised by inculcating a sense of ownership at all levels and driving behavioural change, leading to the creation of a cohesive safety culture. ITC has put in place comprehensive health and safety protocols for the safety and well-being of its stakeholders. ITC endeavours that EHS standards at all its Units are ahead of applicable legislations, regulations, and Standards and Codes, and are benchmarked against international best practices across the diverse sectors in which it operates.

ITC continues to strengthen its safety processes, adopting globally recognised best practices, and ensuring that facilities are designed, constructed, operated and maintained in an inherently safe manner.

ITC continues to undertake efforts for creating a safe working environment and a strong safety culture by:

- Integrating safety at the design stage itself and ensuring it through design reviews, stage inspections and pre-commissioning audits, thereby strengthening the engineering control measures through ‘design for safety’ principles
- Conducting pre-commissioning and periodic operational audits during construction and operational stages respectively
- Implementing behaviour-based safety initiatives to facilitate engagement for collaborative work on improving safety performances
- Adoption of keystone behaviours by individual Units to demonstrate collective commitment and create a shared vision of safety and discipline
- Embracing and leveraging the digital landscape for safety management system

ITC continues to identify solutions for strengthening the safety culture aligned with the goal of ‘Zero Accidents’.

13. Number of Complaints on the following made by Employees and Workers.

Employees are encouraged to report work area related safety issues through various programmes like hazard identification processes, suggestion schemes and EHS Committees.

	FY 2022-23			FY 2021-22		
	Filed during the Year	Pending Resolution at the end of Year	Remarks	Filed during the Year	Pending Resolution at the end of Year	Remarks
Working Conditions	134	8		212	6 (resolved after 31st March 2022)	
Health & Safety	7	0		0	0	

14. Assessments for the Year:

Most of ITC’s manufacturing locations are covered under the OHSAS 18001/ISO 45001: Occupational Health and Safety Management Systems. Compliance to safe working conditions is an essential aspect of EHS management systems. In addition, all ITC Units undergo periodic Environment, Health & Safety audits at the Business/Division level as well as at Corporate level, to verify compliance with Standards and Corporate Guidelines.

	% of your Plants and Offices that were assessed (by Entity or Statutory Authorities or Third Parties)
Health and Safety Practices	100%
Working Conditions	100%

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks/concerns arising from assessments of health & safety practices and working conditions.

Internal audits of ITC Units at Divisional as well as Corporate level are being conducted on a periodic basis. Corrective and preventive measures are taken based on the findings. Detailed investigations are carried out for all accidents to identify the root causes and to understand the measures required to prevent recurrence. Accident investigation findings with corrective and preventive measures form part of the report presented to the Corporate Management Committee (monthly) and the Board (quarterly). The learnings from all accidents are disseminated across the organisation at periodic intervals and a formal compliance obtained.

Leadership Indicators

1. Does the Entity extend any Life Insurance or any Compensatory Package in the Event of Death of (A) Employees (Y/N) (B) Workers (Y/N).

Yes. In the unfortunate event of the death of an employee including workers, the Company extends financial support to family members of the employee.

2. Provide the Measures undertaken by the Entity to ensure that Statutory Dues have been Deducted and Deposited by the Value Chain Partners.

The Company ensures that statutory dues as payable by service providers for their employees are deposited on time and in full through periodic audits and controls.

3. Provide the number of employees/workers having suffered high consequence work-related injury/ill-health/fatalities (as reported in Q11 of Essential Indicators above), have been rehabilitated and placed in suitable employment or whose family members have been placed in suitable employment.

*Onsite Accidents

4. Does the Entity provide Transition Assistance Programmes to Facilitate Continued Employability and the Management of Career Endings Resulting from Retirement or Termination of Employment? (Yes/No)

ITC continually invests in human capital development which includes building skills and capabilities that are contemporary while providing employees with a diversity of experiences. These enhance the employability of the workforce and enable a smooth transition to alternate opportunities where sought. The Company has in place a programme called 'Making New Choices' for retiring staff. In addition, the Company provides pension benefits and post-retiral medical benefits for those members of staff who qualify. Workers are provided with pension benefits covered under the relevant statute.

5. Details on Assessment of Value Chain Partners on Health and Safety Practices and Working Conditions.

ITC reserves the right to verify compliance with the Code of Conduct for Suppliers and Service Providers at any time through appropriate audit and assessment mechanisms, including self-certification.

Health and safety audits conducted at ITC's own manufacturing sites cover all contract workers within ITC's operational premises.

Additionally, ITC has initiated a third-party desktop assessment of its Critical Tier 1* suppliers which includes key aspects on Occupational Health and Safety, amongst other assessment criteria.

*All ITC businesses have identified Critical Tier-1 suppliers based on buy value, ESG risk exposure, importance to business continuity, among others. ITC's Sustainable Supply Chain Programme is focussed on working closely with the set of identified critical suppliers.

6. Provide details of any Corrective Actions taken or underway to address Significant Risks/Concerns arising from Assessments of Health and Safety Practices and Working Conditions of Value Chain Partners.

ITC's Sectoral EHS Guidelines are shared by Businesses with their value chain partners, and periodic training is given to their concerned personnel.

Periodic audits by ITC are conducted for some of its key value chain partners against the sectoral EHS guidelines. Corrective and preventive measures are recommended based on the audit findings.

Principle 4

Businesses should respect the interests of and be responsive to all its stakeholders

Essential Indicators

1. Describe the Processes for Identifying Key Stakeholder Groups of the Entity.

In line with the Board approved Policy on Stakeholder Engagement, ITC has evolved a structured framework for engaging with its stakeholders and fostering enduring relationships with each one of them. ITC's engagement approach is anchored on the principles of materiality, completeness and responsiveness.

The engagement approach takes into cognisance the fact that each stakeholder group is unique and has a distinctive set of priorities. Insights gathered from stakeholder engagements, help validate the Company's performance and shape new perspectives.

For details on ITC's Process of Stakeholder Engagement, refer to 'Stakeholder Engagement' section of ITC Sustainability & Integrated Report 2023.

2. List Stakeholder Groups Identified as Key for your Entity and the Frequency of Engagement with each Stakeholder Group.

The Board approved Policy on Stakeholder Engagement provides the approach for identifying and engaging with stakeholders that include shareholders, consumers, farmers, employees, local communities, suppliers, Central and State Governments, regulatory bodies and the media.

Stakeholder Group	Whether identified as Vulnerable & Marginalized Group (Yes/No)	Channels of Communication (Email, SMS, Newspaper, Pamphlets, Advertisement, Community Meetings, Notice Board, Website), Other	Frequency of Engagement (Annually/Half-yearly/Quarterly/others – please specify)	Purpose and Scope of Engagement including Key Topics and Concerns raised during such Engagement

Leadership Indicators

1. Provide the Processes for Consultation between Stakeholders and the Board on Economic, Environmental, and Social Topics or if Consultation is delegated, how is feedback from such Consultations provided to the Board.

ITC believes that an effective stakeholder engagement process is necessary for achieving its sustainability goal of inclusive growth. In this context, the Company has

laid down a four layered mechanism to deal with the aspect of stakeholder engagement.

The Board, through the CSR and Sustainability Committee, inter alia, reviews, monitors and provides strategic direction to the Company's CSR and sustainability practices towards fulfilling its Triple Bottom Line objectives. Half-yearly reports on the progress made by the Company in this regard are placed by the CMC before the CSR and Sustainability Committee. The CMC in turn has constituted the Sustainability Compliance Review Committee,

comprising of senior members of management, which evaluates and monitors compliance with the Policies formulated in this connection. The SCRC places a quarterly report on the subject before the CMC.

2. Whether Stakeholder Consultation is used to Support the Identification and Management of Environmental, and Social Topics (Yes/No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Yes, the Company believes that an effective stakeholder engagement process is necessary for achieving its sustainability goal of inclusive growth. Accordingly, the Company anchors stakeholder engagement on the following principles:

- a) Materiality – Prioritised consideration of the economic, environmental and social impacts identified to be important to the stakeholders as well as the organisation.
- b) Completeness – Understanding key concerns of stakeholders and their expectations.
- c) Responsiveness – Responding coherently and transparently to such issues and concerns.

The Company has put in place systems and procedures to identify, prioritise and address the needs and concerns of its stakeholders across Businesses and Units in a continuous, consistent and systematic manner. It has implemented mechanisms to facilitate effective dialogues with all stakeholders across Businesses, identify material concerns and their resolution in an equitable and transparent manner. These measures have helped the Company develop strong relationships, which have stood the test of time. Select examples of how stakeholder inputs have been incorporated into ITC's policies and activities are presented below:

1. Investors: The Company engages extensively with the investor ecosystem i.e. analysts representing institutional equity investors, fund/portfolio managers in top FIIs, Domestic Mutual Funds, FPIs, Private Insurance Companies etc. During the year, more than 200 interactions including meetings, participation in physical and virtual conferences, calls, etc. were undertaken with the investor ecosystem. The Company continues to communicate quarterly performance takeaways through press releases, followed by presentations and post-result calls with analysts. Key highlights of the performance are also being shared with all shareholders by e-mail. The Investors section

of the Company's website is also being updated on an ongoing basis. The Company is well-recognised for its ESG credentials, and is acknowledged as one of the pioneers of adopting the Triple Bottom Line philosophy in India. Based on requests, the Company engaged on one-on-one basis with ESG specialists of fund houses/ brokerages covering, inter alia, progress towards achieving its ambitious Sustainability 2.0 goals by 2030. These initiatives have been much appreciated by the investor ecosystem.

2. Customers & Value Chain Partners: Customers, Consumers and Value Chain Partners are some of ITC's core stakeholders. Various tech-enabled avenues have been deployed to constantly receive feedback and ideas from these stakeholders.

A specialised team, 'Team Synthesis', has progressively evolved from being a 'Customer Interactions' team to a 'Customer Experience' team to 'Stakeholder Experience Team', and now into a 'Stakeholder Experience Management Team'. In its current avatar, in addition to keeping customer centricity as the base, SOPs and policies are designed and implemented in such a manner that the experience of all stakeholders is taken into equitable consideration. This has not just helped in achieving better experience for customers as well as the employees but has also made every stakeholder accountable for the team's and the organisation's growth. Rapidly evolving consumer needs are constantly being monitored through social listening, in-depth immersions and are being carefully synthesised to transform into relevant solutions. A few key initiatives that demonstrate the above are:

- The entire customer experience process has been incentivised for the associates, team leaders as well as for the Quality Analysts (QAs) in such a manner that each month they accumulate points for their monthly performance based on objective parameters like ideation (KAIZEN) and initiatives taken beyond the assigned tasks to improve the process continuously; this provides an enabling environment for them to perform better
- The scenarios related to matters like environment, product, packaging, ergonomics, and quality engineering, highlighted by customers are answered by respective brand teams, and any new or unique scenario highlighted is shared with the respective stakeholders as a VOC (Voice of Customer)

3. Community: Some of the examples where inputs received from stakeholders were incorporated into interventions are mentioned below.

Forming large-scale long-term partnerships with Government to amplify reach and scale is one of the core tenets of Social Investment Programme's implementation approach. In this case, stakeholder feedback received through consultations and interactions were appropriately incorporated during renewal/extension of the partnership. During the year, some Public-Private Partnerships (PPPs) with government ended and discussions were initiated on what changes and additions need to be considered in the next phase of partnership. Two such examples are shared below:

- After completion of first phase of partnership with NITI Aayog for Aspirational Districts Programme, there were detailed deliberations with NITI Aayog, District Administration and Krishi Vigyan Kendras, based on which scope for the second phase of partnership was finalised; it was decided that in this phase, the activities that were directly done by ITC in the first phase now need to be internalised by the Government and ITC should focus primarily on taking up pilots for new emerging areas that will set direction for replication of those models; subsequently, an agreement was done for the second phase partnership incorporating the same covering 27 Districts across 8 States
- In Assam, ITC was working in the area of Mother & Child Health and Nutrition in two districts – Kamrup and Darrang and had successfully demonstrated its approach; in consultation with Department of Women and Child Development, it was decided that there is a need to replicate the approach at a larger scale; accordingly, an MoU was signed with the Department during FY 2022-23 to cover 8 Districts of the State including 7 Aspirational Districts, wherein the Government will replicate the approach with ITC's knowledge support

3. Provide details of instances of Engagement with, and Actions taken to, address the Concerns of Vulnerable/Marginalized Stakeholder Groups.

ITC's SIP adopts a bottoms-up approach to identify and address the emerging needs of the community. Presented hereunder are few instances wherein changing community needs were addressed either through modifications in ongoing programme components or by introducing entirely new interventions.

- **Liquid Waste Management:** Requirement for liquid waste management emerged as one of the priority areas of community during the Core Area Perspective Plan (CAPP) 2.0 exercise; during the year, ITC had entered into a partnership with the Department of Drinking Water and Sanitation, Government of India, through India Sanitation Coalition (ISC), FICCI; under the partnership, ITC aims to create 36 Light House's Gram Panchayats in various States, under which liquid waste management is one of the major components; these Panchayats are now being assisted to plan solutions like soak pits, and stabilisation ponds, to address liquid waste problem in their areas
- **Mobile Medical Units (MMUs):** Healthcare emerged as another priority area for community during CAPP 2.0 exercise; in order to ensure access and availability of curative and preventive healthcare to rural communities, ITC Swaasth Kiran programme was initiated, wherein Mobile Medical Units were deployed in Saharanpur and Munger districts in collaboration with local Health Department; these MMUs visit the villages and provide doorstep consultation to the rural communities
- **Linkages of Farmers to Social Security Schemes:** Farmers being one of the most vulnerable population are prone to social and climatic shocks; hence, building resilience amongst the farmer community is of utmost importance, as it not only provides a cushion against such shocks, but also helps in improving risk taking appetite of farmers; with this view, farmer beneficiaries under the Climate Smart Agriculture programme were linked to six identified government schemes on the basis of needs – PM Kisan, Crop Insurance, Soil Health Card, Kisan Credit Card, Pension Scheme and institutional channels like e-NAM (National Agriculture Market) for selling of produce; over 9.5 lakh linkages with such schemes were enabled during the year benefitting over 3.8 lakh farmers
- **Credit Linkage to Agri-business Centers (ABC):** Access to institutional credit emerged as one of the key needs of farmers in Andhra Pradesh as they were otherwise struggling with high interest loans from informal sources; to address the specific need, banking institutions were mobilised and credit linkage of ABCs through banks was planned and executed helping them in availing low interest loans

Principle 5

Businesses should respect and promote human rights.

4. Do you have a Focal Point (Individual/Committee) Responsible for Addressing Human Rights Impacts or issues caused or contributed to by the Business? (Yes/No).

Yes. ITC has a long-standing commitment to human rights and it is reflected in its Code of Conduct. The Company has policies on human rights which are applicable to its employees, suppliers and service providers. The said Policies and their implementation are directed towards adherence to applicable laws and upholding the spirit of human rights, as enshrined in existing international standards such as the Universal Declaration and the Fundamental Human Rights Conventions of the International Labour Organisation (ILO). The Company continues to work towards strengthening and introducing systems to ensure sound implementation of ITC's policies on human rights and decent work place. All ITC contracts for the construction of hotels, factories and property upgrades incorporate the environment, health, safety and human rights clauses, including workplace environment and compliance of labour practices and are supervised by ITC managers for adherence.

Human Rights related policies of the Company are available on the ITC Portal. These include ITC Code of Conduct, Policy on Freedom of Association, Policy on Prohibition of Child Labour and Prevention of Forced Labour at the Workplace, and Policy on Diversity, Equity & Inclusion. The implementation of these Policies is ensured by Divisional/SBU Chief Executives, through members of the respective Management Committees of the respective Businesses.

5. Describe the Internal Mechanisms in place to Redress Grievances related to Human Rights Issues.

ITC's open door practices encourage amicable resolution of grievances. Employees are encouraged to first discuss the grievance with their immediate reporting authority and attempt to arrive at a resolution. If grievances persist, employee can fill up the Grievance Redressal Form and submit to the concerned HR Manager.

The process of registering a grievance is by filling up a grievance form and submitting it to the concerned HR Manager which is then evaluated and analysed and a resolution is arrived and communicated to the employee. The grievance redressal guidelines and necessary forms are available on the Company intranet where employees can access the same directly.

The ITC Whistleblower Policy (the Policy) encourages Directors and employees of the Company to promptly bring to the Company's attention, instances of illegal or unethical conduct, actual or suspected incidents of fraud, actions that affect the financial integrity of the Company, or actual or suspected instances of leak of unpublished price sensitive information, that could adversely impact the Company's operations, business performance and/or reputation. The Company investigates such reported incidents in an impartial manner and takes appropriate action to ensure that the requisite standards of professional and ethical conduct are always upheld.

The Policy is available at <https://www.itcportal.com/about-itc/values/index.aspx#sectionb5>

6. Number of Complaints on the following made by Employees and Workers:

	FY 2022-23			FY 2021-22		
	Filed during the Year	Pending Resolution at the end of Year	Remarks	Filed during the Year	Pending Resolution at the end of Year	Remarks
Sexual Harassment	1*	0		2	0	
Discrimination at workplace	0	0		0	0	
Child Labour	0	0		0	0	
Forced Labour/ Involuntary Labour	0	0		0	0	
Wages	2	0		0	0	
Other Human Rights Related Issues	0	0		0	0	

**ITC has a zero-tolerance approach to any behaviour that constitutes sexual harassment. There are Internal Complaints Committees to examine and investigate any complaints. In the past, where investigations have indicated any violations, appropriate disciplinary actions have been taken, reinforcing the Company's stated position and helping create an environment free of any harassment.*

7. Mechanisms to Prevent Adverse Consequences to the Complainant in Discrimination and Harassment Cases.

ITC is committed to a workplace free of harassment, including sexual harassment at the workplace, and has zero tolerance for such unacceptable conduct. ITC encourages reporting of any harassment concerns and is responsive to complaints about harassment or other unwelcome or offensive conduct. As part of the policy, the complainant will not suffer any harassment, retaliation or adverse employment condition upon this reporting. The policy is made aware to all employees through regular training and awareness on the subject and confidentiality clauses are clearly stated. Committees have been constituted across locations to enquire into complaints of sexual harassment and to recommend appropriate action, wherever required.

8. Do Human Rights Requirements form part of your Business Agreements and Contracts? (Yes/No)

Yes, contract manufacturing agreements provide for compliance with accepted standards on issues related to EHS, human rights and labour practices. Additionally, ITC has a 'Code of Conduct for Suppliers and Service Providers'. This requires suppliers to comply with applicable laws, labour standards, environmental regulations, and uphold human rights and principles of ethics and integrity in their operations. All Suppliers are expected to meet the requirements of this Code. ITC also expects its Suppliers to hold their business associates to the same standards as enshrined in this Code.

9. Assessments for the Year:

Others-please specify	

**The Company has Policies on Human Rights which are applicable to all its employees and value chain partners. The said Policies and their implementation are directed towards adherence to applicable laws and upholding the spirit of human rights, as enshrined in existing international standards such as the Universal Declaration and the Fundamental Human Rights Conventions of the International Labour Organisation (ILO).*

10. Provide details of any Corrective Actions taken or underway to Address Significant Risks/Concerns Arising from the Assessments at Question 9 above.

Please refer to response to Question 9 of Principle 5 under essential indicators.

Leadership Indicators

1. Details of a Business Process being Modified/ Introduced as a Result of Addressing Human Rights Grievances/Complaints.

The ITC Code of Conduct, as adopted by the Board, is applicable to Directors, senior management and employees of the Company. The Code covers ITC's

commitment to human rights aspects like self-respect and human dignity, child labour, gender friendly workplace, ethical dealings with suppliers and customers, health & safety, environment, transparency, anti-bribery and corruption, and exemplary personal conduct.

ITC constantly engages with the rightsholders and stakeholders across the supply chain for devising programmes that support Human Rights and Social Development in an integrated manner. An illustrative example for ITC's leaf tobacco value chain is presented below.

ITC coordinates Human Rights impact assessment with an independent party for its farm value chains. The Human Rights Due Diligence focusses on identifying human rights risks and impacts covering farmers, labourers and communities.

Some of the actions undertaken as an outcome of the assessment are:

Training and Awareness on Human Rights: 350 Village level training programmes were conducted covering subjects such as Farm Safety, Child Labour, Wages, Fair Treatment, Freedom of Association, Water, Sanitation and Hygiene (WASH), No Discrimination and other areas pertaining to Human Rights.

Human Rights Manual in Vernacular Language: Released the industry first Human Rights Do's and Don'ts in farm supply chain. The manual assists as a ready reckoner for ITC employees working in farm, the farmers with whom ITC partners and the labourers engaged by the farmers.

Farm Safety: Close to 1,000 farmers have been provided with Personal Protective Equipment (PPE) kits for safe spraying of chemicals and Secured Storage Box for safe storage of chemicals were provided to 2,000 farmers. Drone Technology was scaled up covering 5,535 acres minimising human interference while chemical spraying besides increasing the efficacy of operation and water saving.

For more information, refer to 'Sustainable Supply Chain and Responsible Sourcing' section of ITC Sustainability & Integrated Report 2023.

2. Details of the scope and coverage of any Human Rights Due Diligence conducted.

The scope and coverage of Human Rights Due Diligence extends to own operations including manufacturing locations, Hotels, offices and value chain partners.

3. Is the Premise/Office of the Entity accessible to Differently Abled visitors, as per the Requirements of the Rights of Persons with Disabilities Act, 2016?

Most of our establishments are accessible to the differently abled persons (including visitors), with facilities like Persons with Disabilities (PWD) friendly entrance, wheelchair, braille systems, and tactile pavers etc. Accessible washroom is available at the ground floor for the visitors.

4. Details on Assessment of Value Chain Partners for Human Rights.

Contracts with the service providers include clauses conforming to ITC's Human Rights Policies and EHS guidelines. ITC reserves the right to verify compliance with the Code of Conduct for Suppliers and Service Providers at any time through appropriate audit and assessment mechanisms, including self-certification.

ITC periodically coordinates third party Human Rights impact assessment for the entire tobacco farm supply chain. Additionally, ITC has initiated a third-party desktop assessment of its Critical Tier 1* suppliers which includes key aspects on Human Rights, including sexual harassment, discrimination at workplace, child labour, forced labour, wages, among others.

**All ITC businesses have identified Critical Tier-1 suppliers based on buy value, ESG risk exposure, importance to business continuity, among others. ITC's Sustainable Supply Chain Programme is focussed on working closely with the set of identified Critical Suppliers.*

For more details, refer to response to Question 1 (Principle 5) under leadership indicators.

5. Provide details of any Corrective Actions taken or underway to Address Significant Risks/Concerns arising from the assessments at Question 4 above.

Please refer to responses to Questions 1 and 4 of Principle 5 under Leadership Indicators.

Principle 6

Businesses should respect and make efforts to protect and restore the environment.

Essential Indicators

1. Details of Total Energy Consumption (in Joules or multiples) and Energy Intensity.

In FY 2022-23, ITC Units consumed 26,885 Terra Joules (TJ) of energy.

Parameter	FY 2022-23	FY 2021-22
Total Electricity Consumption (A)	2,061	1,808
Total Fuel Consumption (B)	24,635	22,407
Energy Consumption through other Sources (C)	189	179
Total Energy Consumption (A+B+C)	26,885	24,394
Energy Intensity Per Rupee of Turnover (Total energy consumption/turnover in rupees) (GJ/Crore INR)	387	413

ITC's energy consumption data has been assured at the 'Reasonable Level' by an independent third-party assurance provider. For more details, refer to 'Climate Change' section of ITC Sustainability & Integrated Report 2023.

2. Does the Entity have any Sites/Facilities identified as Designated Consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

Three Units of ITC's Paperboards and Speciality Papers Business and twelve Hotels of Hotels Business are covered under the PAT scheme. ITC has made significant investments in reducing energy consumption and, accordingly, the performance of the Company's Units covered far exceeds the energy efficiency targets

fixed under the PAT scheme. The Bhadrachalam Unit is the first pulp and paper mill and the second unit in the country overall, to be rated GreenCo Platinum+ by CII, as part of Green Company rating system. Additionally, Kovai Unit is also rated GreenCo Platinum+ by CII, as part of Green Company rating system.

Details of the energy efficiency initiatives measures implemented during the year are included in 'Disclosure on Conservation of Energy and Technology Absorption' section of the Report of the Board of Directors & Management Discuss and Analysis in ITC Report and Accounts 2023.

3. Provide Details of the following Disclosures related to Water.

In FY 2022-23, ITC's Total Water Intake was 34.5 million kilolitres (kl).

Parameter	FY 2022-23	FY 2021-22
Water Withdrawal by Source (in million kilolitres)		
(i) Surface Water	27.1	26.9
(ii) Groundwater	5.5	5.4
(iii) Third Party Water	1.9	1.4
(iv) Seawater/Desalinated Water	0	0
(v) Others	0.1	0.1
Total Volume of Water Withdrawal (in million kilolitres) (i + ii + iii + iv + v)	34.5	33.7
Total Volume of Water Consumption (in million kilolitres)	14.5	11.7
Water Intensity Per Rupee of Turnover (Water Withdrawal/Turnover) (kilolitre/Crore INR)	497	569

Over the years, ITC has created rainwater harvesting potential through extensive investments in its Integrated Watershed Development Projects. The programme promotes the development and management of local water resources in water-stressed areas by facilitating community participation in planning and implementing such measures, whilst building, reviving and maintaining water-harvesting structures. The coverage of this programme currently extends to 45 Districts of 16 States in India. During the year, ITC's watershed development projects covering over 1.47 million acres of land created a total rainwater harvesting potential (RWH) of nearly 50 million kl (cumulative), which is over three times the net water consumed by ITC's operations.

ITC's water withdrawal and consumption data has been assured at the 'Reasonable Level' by an independent third-party assurance provider. For more details, refer to 'Water Security' section of ITC Sustainability & Integrated Report 2023.

4. Has the Entity Implemented a Mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

ITC's approach to water stewardship focuses on reducing water intake by utilising treated wastewater within the process, thereby reducing demand for fresh water. ITC Units have put in place necessary systems to comply with the Consent To Operate (CTO) conditions including Zero Liquid Discharge, where applicable.

5. Please provide details of Air Emissions (other than GHG Emissions) by the Entity.

Parameter	Please Specify Unit	FY 2022-23	FY 2021-22
NO _x	Tonnes	2,382	1,799
SO _x	Tonnes	3,602	3,203
Particulate Matter (PM)	Tonnes	825	637

Volatile Organic Compounds (VOC)	NA	NA	NA
Hazardous Air Pollutants (HAP)*	Tonnes	8	7

**The data is for Paperboards & Specialty Papers Business's Bhadrachalam Unit's Hydrogen Sulphide emissions (H₂S) ITC's air emissions data has been assured at the 'Reasonable Level' by an independent third-party assurance provider. For more details, refer to 'Air Emissions Management' section of ITC Sustainability & Integrated Report 2023.*

6. Provide details of Greenhouse Gas Emissions (Scope 1 and Scope 2 Emissions) & its Intensity.

Parameter	Please Specify Unit	FY 2022-23	FY 2021-22
Total Scope 1 Emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Kilo tonnes of CO ₂ equivalent	1,355	1,258
Total Scope 2 Emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Kilo tonnes of CO ₂ equivalent	241	193
Total Scope 1 and Scope 2 Emissions Per Rupee of Turnover	Tonnes of CO ₂ /Lakh INR	23	25

ITC's Paperboards & Specialty Papers Business has large-scale farm forestry programmes promoting sustainable forest management with primary aim of securing pulpwood requirement for Business continuity. ITC also has a large-scale Social Forestry programme, which, in addition to sequestering carbon, also benefits the stakeholders by improving productivity of wasteland, and de-risking poor rural households by diversifying farm portfolios through promotion of tree-based farming. During FY 2022-23, the farm and social forestry programmes have together sequestered nearly six million tonnes of CO₂, which is more than two times the amount of CO₂ generated from ITC's operations.

ITC's GHG emissions (Scope 1 and Scope 2) data has been assured at the 'Reasonable Level' by an independent third-party assurance provider. For more details, refer to 'Climate Change' section of ITC Sustainability & Integrated Report 2023.

7. Does the Entity have any Project related to reducing Green House Gas Emission? If Yes, then provide details.

ITC has undertaken a target of 50% reduction in Specific GHG Emissions (% Reduction in Scope 1 & 2 emission per Unit of Production) by 2030 as part of its Sustainability 2.0 ambitions. Accordingly, actions are being undertaken to reduce greenhouse gas emissions by investing in energy efficiency and increasing share of renewable energy.

Energy Efficiency:

All ITC Units focus on energy efficiency through process improvements and investment in new technologies. Over the years, ITC has implemented measures like installation of Vapour Absorption Machines (VAM), Automation in tube cleaning system of Heating, Ventilation and Air Conditioning (HVAC), and installation of energy efficient equipment such as chillers, AHUs, motors, fans, pumps, and agitators. In FY 2022-23, the investments in energy conservation equipment have resulted in energy savings of more than 200 TJ, which is equivalent to over 24,000 tonnes of GHG emissions.

In line with ITC's focus on accelerating digitalisation across Businesses, ITC's Paperboards and Specialty Papers Business is implementing several transformative projects leveraging Industry 4.0 technologies across key business areas, to enhance productivity, reduce carbon footprint,

achieve strategic cost efficiencies and superior product performance.

Some of the major projects undertaken by ITC's Paperboards and Specialty Papers Business as part of its Digital Transformation Programme include process debottlenecking and throughput improvement for productivity and Overall Equipment Effectiveness (OEE), process capability improvement leading to reduction in defects and resource optimisation.

Renewable Energy:

ITC has invested in renewable energy projects, for both renewable electricity and renewable thermal requirements. ITC has commissioned five biomass boilers, primarily at Foods Business, in the current year thereby replacing existing fossil fuel fired boilers. This initiative has led to significant improvement in renewable thermal energy share of ITC's Foods Business (from 22% to 45%). In addition, ITC has also invested in several solar electricity projects. Among them was capacity augmentation of offsite solar power plant at Tamil Nadu from 14.9 MW to 17.9 MW. With investments over the years, ITC has increased its renewable energy capacity to 178 MW. Based on the investments in renewable electricity and renewable thermal projects, ITC has been able to its increase its renewable energy share to 43% despite significant expansion in scale.

8. Provide details Related to Waste Management by the Entity.

Total waste generated is mentioned in rows (A) to (H)

Parameter (in Kilo tonnes)	FY 2022-23	FY 2021-22
Plastic waste (A)*	-	-
E-waste (B)	0.110	0.071

(iii) Other disposal operations	0.1	0
Total	1.3	0.9

* Plastic waste is reported under Non-hazardous waste

** Waste re-used is reported under waste recycled

In FY 2022-23, the Company continued to recycle over 99% of solid waste from its operations. In addition to this, the Company's Paperboards & Specialty Papers Business recycled nearly 84,000 tonnes of externally sourced post-consumer waste paper, thereby creating a positive environmental footprint. The Company also collected and sustainably managed more than 100% of its post-consumer plastic packaging waste.

ITC's waste data has been assured at the 'Reasonable Level' by an independent third-party assurance provider. For more details, refer to 'Towards Circularity' section of ITC Sustainability & Integrated Report 2023

9. Briefly describe the Waste Management Practices Adopted in your Establishments. Describe the Strategy Adopted by your Company to Reduce Usage of Hazardous and Toxic Chemicals in your Products and Processes and the Practices Adopted to Manage such Waste

The Company has initiated measures across Units to ensure waste minimisation, segregation of waste at source and recycling. During the year, the recycling level reached 99.8%. In addition, nearly 84,000 tonnes of externally sourced post-consumer waste paper was used as raw material during the year.

ITC follows a proactive approach to manage hazardous chemicals by actively looking for alternatives, which not only helps keep its operations safe but also ensures safest products for customers. This approach is demonstrated in pioneering practices implemented by ITC like Elemental Chlorine Free (ECF) bleaching, and ozone bleaching technology in India in its Paper Business, and switching from solvent based inks to water-based ones in its Packaging and Printing Business.

For more details, refer to 'Chemical Safety Management' section of ITC Sustainability & Integrated Report 2023.

10. If the Entity has Operations/Offices In/Around Ecologically Sensitive Areas (such as National Parks, Wildlife Sanctuaries, Biosphere Reserves, Wetlands, Biodiversity Hotspots, Forests, Coastal Regulation Zones etc.) where Environmental Approvals/Clearances are Required.

ITC's existing operations/offices comply with applicable environmental regulations of the Country, and operate as per Consent to Operate (CTO) conditions from the Central and State Pollution Control Boards in line with guidelines issued by the Ministry of Environment, Forest and Climate Change, Government of India.

11. Details of Environmental Impact Assessments of Projects Undertaken by the Entity based on Applicable Laws, in the Current Financial Year.

Not applicable

12. Is the Entity Compliant with the Applicable Environmental Law/Regulations/Guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). If not, provide details of all such Non-compliances.

ITC's existing operations/offices comply with applicable environmental regulations of the Country, and operate as per CTO conditions from the Central and State Pollution Control Boards.

Leadership Indicators

1. Provide Break-up of the Total Energy Consumed (in Joules or Multiples) from Renewable and Non-renewable Sources

Parameter**	FY 2022-23	FY 2021-22
From Renewable Sources		
Total Electricity Consumption (A) [Ⓐ]	977	910

ITC's Energy performance has been assured at the 'Reasonable Level' by an independent third-party assurance provider. For more details, refer to 'Climate Change' section of ITC Sustainability & Integrated Report 2023.

ITC's overall consumption of renewable energy has increased by 13%, taking up the overall share of renewable energy to 43% as compared to 42% in previous year despite significant increase in production footprint.

2. Provide the Following Details Related to Water Discharged:

Parameter	FY 2022-23	FY 2021-22
Water Discharge by Destination and Level of Treatment (in million kilolitres)		
(i) To Surface Water	11.7	12.2

ITC's water discharge data has been assured at the 'Reasonable Level' by an independent third-party assurance provider. For more details, refer to 'Water Security' section of ITC Sustainability & Integrated Report 2023.

3. Water Withdrawal, Consumption and Discharge in Areas of Water Stress (in Kilolitres).

ITC has developed the water risk assessment methodology for identifying water stressed areas based on WRI Aqueduct's Baseline Water Stress and Central Ground Water Board's (India) groundwater block classification. Site level assessment for water stress sites is done periodically using the above assessment framework and sites for interventions are prioritised on the basis of stakeholder consultation and business needs. ITC's water stewardship goals are available in 'Sustainability 2.0 Ambitions' section of ITC Sustainability & Integrated Report 2023.

For each facility/plant located in areas of water stress, provide the following information:

- (i) Name of the Area: Kapurthala, Saharanpur, Ranjangaon, Kothagudem, Bengaluru and Kovai
- (ii) Nature of Operations: Manufacture of FMCG products and Paperboards & Specialty Papers
- (iii) Water withdrawal, consumption and discharge in the following format:

Parameter	FY 2022-23	FY 2021-22
Water Withdrawal by Source (in million kilolitres)		
(i) Surface Water	27.1	26.9
(ii) Groundwater	0.1	0.2

Total Water Discharged (in million kilolitres)	18.5	20.7

4. Please Provide Details of Total Scope 3 Emissions & its Intensity

Parameter	Unit	FY 2022-23	FY 2021-22
Total Scope 3 Emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Kilo tonnes of CO ₂ equivalent	295	318
Total Scope 3 Emissions Per Rupee of Turnover		-	-

The Company has been progressively increasing the coverage of its Scope 3 emissions by including more Supply Chain partners in its reporting boundary. The scope of coverage for Scope 3 emission is mentioned in 'Climate Change' section of ITC Sustainability & Integrated Report 2023.

ITC's Greenhouse Gas emissions (Scope 3) have been assured at the 'Reasonable Level' by an independent third-party assurance provider.

For more details, refer to 'Climate Change' section of ITC Sustainability & Integrated Report 2023.

5. With Respect to the Ecologically Sensitive Areas Reported at Question 10 of Essential Indicators above, Provide Details of Significant Direct & Indirect Impact of the Entity on Biodiversity in such areas along-with Prevention and Remediation activities. (Refer Response in above Essential Indicator 10)

Nil

6. If the Entity has Undertaken any Specific Initiatives or used Innovative Technology or Solutions to improve Resource Efficiency, or Reduce Impact due to Emissions/Effluent Discharge/Waste Generated, please Provide details of the same as well as outcome of such Initiatives.

The Company has undertaken a number of initiatives, and also deployed innovative technologies across its operations for improving resource efficiency and minimising environmental impact. For details, refer to 'Disclosure on Conservation of Energy and Technology Absorption' forming part of the Report of the Board of Directors & Management Discussion and Analysis in ITC Report and Accounts 2023, and 'Climate Change', 'Water Security', 'Towards Circularity', 'Chemical Safety Management', and 'Air Emissions Management' sections of ITC Sustainability & Integrated Report 2023.

7. Does the Entity have a Business Continuity and Disaster Management Plan?

Yes, Business Continuity Plans have been made comprehensive to include all facets of operations, and are being tested at pre-determined intervals. These Plans have been duly approved by the Management Committees of the respective Businesses.

Designed to address the threat of disruptions to business activities or processes, Business continuity and resilience planning validates the adequacy of the existing systems and processes to prevent and recover from potential threats.

It ensures continuity of delivery of products or services at pre-defined acceptable levels following a disruptive incident.

8. Disclose any Significant Adverse Impact to the Environment, Arising from the Value Chain of the Entity. What Mitigation or Adaptation Measures have been taken by the Entity in this Regard.

ITC has a Board approved Policy on 'Sustainable Supply Chain and Responsible Sourcing' and a 'Code of Conduct for Suppliers and Service Providers'. The Code is shared and accepted by all supply chain partners and service providers. ITC has a robust process of evaluating its Suppliers and Service Providers before engaging with them, proactively making them aware of its expectations/ requirements, and seeking commitment for compliance through contractual agreements.

Additionally, ITC facilitates its value chain partners in handling any adverse impacts.

For example, managing hazardous chemicals is not only important within ITC factories, but also in the supply chain. Within the supply chain, farmers working with hazardous pesticides is an area of special attention. ITC's approach is to eliminate or reduce the use of hazardous pesticides. Intensive training is conducted on Integrated Pest Management (IPM), which helps adopt a holistic approach in reducing pesticide usage as well as substituting such pesticides with nature-based solutions. The training programmes also cover the safe handling of pesticides used and the responsible management of waste generated.

9. Percentage of Value Chain Partners (by Value of Business done with Such Partners) that were assessed for Environmental Impacts.

Key value chain partners like third-party manufacturers are encouraged to adopt management

practices detailed under International Standards such as ISO 9001, ISO 14001, OHSAS 18001 and ITC's Environment, Health and Safety (EHS) Guidelines. Contract manufacturing agreements also include aspects of EHS. Systems are in place for monitoring and reporting on key Third-Party Manufacturers' (TPMs) environmental performance, including energy, water and waste management.

ITC's leading Agri value chains are assessed for certification standards such as, Forest Stewardship Council® (FSC)®, Rainforest Alliance, Sustainable

Tobacco Programme (STP 2.0), GAP, etc. These standards, among others, also include environmental criteria. Additionally, ITC has initiated a third-party desktop assessment of its Critical* Tier 1 suppliers which includes key aspects on Environmental compliance and management practices.

**All ITC businesses have identified Critical Tier-1 suppliers based on buy value, ESG risk exposure, importance to business continuity, among others. ITC's Sustainable Supply Chain Programme is focussed on working closely with the set of identified Critical suppliers.*

Principle 7

Businesses, when Engaging in Influencing Public and Regulatory Policy, should do so in a manner that is Responsible and Transparent.

Essential Indicators

1 a. Number of Affiliations with Trade and Industry Chambers/Associations.

ITC's Policy on Responsible Advocacy (<https://www.itcportal.com/about-itc/policies/sustainability-policy.aspx>) provides the framework for necessary interface with Government/Regulatory Authorities on matters concerning various sectors in which the Company operates. The Company's engagement with the relevant authorities is guided by the values of commitment, integrity, transparency and the need to balance the interests of diverse stakeholders. The Company works with apex industry institutions that are engaged in policy advocacy as well as various other forums. The Company had active affiliations with 89 such trade and industry chambers/associations.

b. List the Top 10 Trade and Industry Chambers/Associations (determined based on the total members of such body) the Entity is a Member of/Affiliated to.

S. No.	Name of the Trade and Industry Chambers/Associations	Reach of Trade and Industry Chambers/Associations (State/National)
1	ASSOCHAM	National
2	All India Management Association	National
3	Confederation of Indian Industry	National
4	Madras Management Association	State
5	Indian Merchants Chamber of Commerce	National
6	Mahratta Chamber of Commerce, Industries & Agriculture	State
7	PHD Chamber of Commerce & Industry	National
8	Bombay Management Association	State
9	Federation of Indian Chambers of Commerce & Industry	National
10	Retailers Association of India	National

2. Provide Details of Corrective Action Taken or Underway on Any Issues Related to Anti-competitive Conduct by the Entity, based on Adverse Orders from Regulatory Authorities.

The Company has not engaged in any anti-competitive conduct.

Leadership Indicators

1. Details of Public Policy Positions Advocated by the Entity.

S. No.	Public Policy Advocated	Method Resorted for such Advocacy	Whether Information Available in Public Domain? (Yes/No)	Frequency of Review by Board (Annually/Half-yearly/Quarterly/ Others – please specify)	Web Link, if available

Principle 8

Businesses Should Promote Inclusive Growth and Equitable Development.

Essential Indicators

1. Details of Social Impact Assessments (SIA) of Projects Undertaken by the Entity Based on Applicable Laws, in the Current Financial Year.

None of the projects undertaken by ITC in FY 2022-23 required Social Impact Assessments (SIA).

Name and brief details of project	SIA Notification No.	Date of Notification	Whether Conducted by Independent External Agency (Yes/No)	Results Communicated in Public Domain (Yes/No)	Relevant Web link
Not Applicable					

2. Provide Information on Project(s) for which Ongoing Rehabilitation and Resettlement (R&R) is being Undertaken by your Entity.

S. No.	Name of Project for which R&R is ongoing	State	District	No. of Project Affected Families (PAFs)	% of PAFs covered by R&R	Amounts paid to PAFs in the FY (In INR)
Not Applicable						

3. Describe the Mechanisms to Receive and Redress Grievances of the Community.

ITC's Social Investments Programme (SIP) adopts a bottom-up approach by keeping community needs and priorities at the center of all its interventions. Detailed and structured community engagements are planned every 4-5 years to revisit the changing needs of the community and the emerging priorities which feed into designing of new interventions and re-designing of ongoing and new programmes.

Further, regular community interactions are undertaken by the internal state level programme teams and the implementing partners to discuss, identify and address any issues, complaints and grievances of the community members pertaining to the interventions of Social Investments Programme.

SIP has also formalised and internalised the process of undertaking and recording such community interactions in-line with the new SEBI requirements on Business Responsibility and Sustainability Reporting.

Such discussions not only focus on complaints and grievances, but also on providing resolution in a time bound manner. During 2022-23, 66 such community engagements were held across all major states where SIP programmes are implemented. No grievances

pertaining to the commitments of programmes were recorded. Largely, requests and demands were raised during these meetings for further expansion of scope of existing programmes. The SIP state teams have taken cognisance of all the relevant concerns and applicable actions have been incorporated in plans for the upcoming year.

Details on mechanisms to receive and redress grievances of the community are also provided under Question 23 of Section A - Part VII of this Report.

4. Percentage of Input Material (inputs to Total Inputs by Value) Sourced from Suppliers.

	FY 2022-23	FY 2021-22
Directly Sourced from MSMEs/Small Producers	18.81%	15.76%
Sourced Directly from within the District and Neighbouring Districts	53.40%	45.73%

Leadership Indicators

1. Provide Details of Actions taken to Mitigate any Negative Social Impacts Identified in the Social Impact Assessments (Reference: Question 1 of Essential Indicators above):

Not applicable

2. Provide the following Information on CSR Projects Undertaken by your Entity in Designated Aspirational Districts as Identified by Government Bodies:

State	Aspirational District	Amount (Rs. In Lakhs)
Telangana	Bhadradri Kothagudem	1024.44
Uttarakhand	Haridwar	604.24
Assam	Darrang	292.11
Rajasthan	Baran	252.37

Odisha	Malkangiri	225.64
Madhya Pradesh	Damoh	156.05
Uttar Pradesh	Chandauli	115.95
Bihar	Begusarai	112.35
Chhattisgarh	Sukma	89.69
Uttar Pradesh	Bahraich	88.17
Multiple* (15 States)	Multiple*	1117.64

*Spends in balance 52 Aspirational Districts of the total 63 where ITC had CSR projects

3. a. Do you have a Preferential Procurement Policy where you give Preference to Purchase from Suppliers Comprising Marginalised/Vulnerable Groups? (Yes/No):

The Board approved Policy on Sustainable Supply Chain and Responsible Sourcing defines the supply chain partners which includes farmers. ITC is committed to collaborating with farmers to make them more sustainable and help build their adaptive capacity and resilience to emerging risks like climate change, water stress and other extreme weather events. ITC is also raising awareness and working with farmers on crop quality, safety, protection, integrity and traceability, as applicable.

b. From which Marginalised/Vulnerable Groups do you Procure?

Farmers including women farmers and small landholders have been identified as marginalised/vulnerable group.

c. What Percentage of Total Procurement (by value) does it Constitute?

During FY 2022-23, ITC consumed nearly 2,000 Kilo tonnes of agri raw materials, which is nearly 71% of overall raw materials' consumption.

4. Details of the Benefits Derived and Shared from the Intellectual Properties Owned or Acquired by your Entity (in the current Financial Year), based on Traditional Knowledge.

Not Applicable

5. Details of Corrective Actions Taken or Underway, based on any Adverse Order in Intellectual Property Related Disputes wherein usage of Traditional Knowledge is Involved.

Not Applicable

6. Details of Beneficiaries of CSR Projects:

In the social sector, the two most important stakeholders of ITC are:

- Rural communities with whom the Company's agri-businesses have forged long and enduring partnerships; and
- Communities residing in close proximity to our manufacturing Units, situated in urban and semi-rural locations

The beneficiaries of ITC's CSR programmes mostly belong to the under privileged sections of the society and small & marginal farmers who face the challenges of securing sustainable livelihoods. These challenges are addressed through the **Two Horizon approach of making today's dominant source(s) of livelihoods sustainable; and strengthening capabilities for tomorrow.**

The Two Horizon strategy ensures an integrated approach to development involving several interventions. Presented ahead are the total number of approximate beneficiaries for key interventions and estimated proportion of beneficiaries belonging to vulnerable and marginalised groups.

Principle 9

Businesses should engage with and provide value to their consumers in a responsible manner.

Essential Indicators

1. Describe the Mechanisms in place to Receive and Respond to Consumer Complaints and Feedback.

A well-established system is in place for dealing with consumer feedback. Consumers are provided multiple options to connect with the Company through email, telephone, website, social media, feedback forms, etc. In addition, the Company's Businesses have dedicated consumer response cells to respond to their queries and receive feedback on products to enable continuous improvement of its products and services.

2. Turnover of Products/Services as a Percentage of Turnover from all Products/Service that Carry Information about:

All products/services of the Company contain relevant information as required under applicable laws.

3. Number of Consumer Complaints in respect to the following:

	FY 2022-23 (Current Financial Year)		Remarks	FY 2021-22 (Previous Financial Year)		Remarks
	Received during the Year	Pending resolution at end of Year		Received during the Year	Pending resolution at end of Year	
Data Privacy	0	0	A Customer Relationship Management (CRM) platform has been implemented for capturing complaints, queries, feedback and suggestions received across channels. The CRM platform also provides consumer insights for bringing about process-related changes and system enhancements for improving the CSAT (Customer Satisfaction) scores.	During FY 2021-22, around 10,000 complaints were received across Businesses, and more than 97% of these were resolved as on 31st March, 2022.

	Number	Reasons for recall
Voluntary Recalls	Nil	Not Applicable
Forced Recalls	Nil	Not Applicable

5. Does the Entity have a Framework/Policy on Cyber Security and Risks related to Data Privacy? (Yes/No) If available, provide a web-link of the policy.

A Cyber Security Committee, chaired by the Chief Information Officer, is in place to provide specific focus on cyber security related risks, with the primary responsibility of tracking emerging practices and technologies and providing suitable recommendations for enhancing security of the IT systems and infrastructure. The Chief Information Officer is responsible for ensuring that the Cyber Security systems remain effective and contemporary. He also participates in the meetings of the Risk Management Committee of the Company, whenever matters related to Cyber Security are considered.

ITC's Information Management Policy defines the framework/policy on cyber security and risks related to data privacy. ITC's Privacy Policy is part of Information Management Policy and is published on ITC Portal (please refer to <https://www.itcportal.com/about-itc/policies/privacy-policy.aspx>).

6. Provide details of any Corrective Actions taken or underway on Issues relating to Advertising, and Delivery of Essential Services; Cyber Security and Data Privacy of Customers; Re-occurrence of Instances of Product Recalls; Penalty/Action taken by Regulatory Authorities on Safety of Products/Services.

Robust systems have been put in place to identify the issues faced by the consumers and ensure timely resolution of the same. Efforts are in place to continually strengthen the quality assurance system and to improve delivery timelines.

Leadership Indicators

Strengthening the Foundations towards the next Orbit of Growth and Differentiation

FY 2022-23 was the year in which ITC Infotech further strengthened its organisational foundations towards the next orbit of its growth and differentiation. Through industry-defining and capability-led strategic partnerships with its key clients, ITC Infotech expanded its global footprint, amplifying its vision of providing business-friendly solutions to its clients.

Capability-led Differentiation

ITC Infotech stayed relevant to the evolving business priorities of its clients, partnering with them in driving their growth and transformation agenda. The Company invested in strengthening its existing capabilities and identifying new opportunities for long-term growth and differentiation. The Company continued to make focused investments in amplifying its portfolio of client and industry-led capabilities which include PLM-led Digital Thread Solutions, Digital Manufacturing, Open Hospitality, Cloud, and Sustainability. The Company continued to strengthen existing relationships and forge new alliances with Independent Software Vendors (ISVs) to amplify its capabilities in focused areas such as Direct to Consumer (D2C), Digital Workplace Solutions, Digital Manufacturing, Enterprise Resource Planning (ERP) and Data & Analytics, and sharpen its focus on key customer relationships across all industry verticals. Further to a strategic partnership agreement with PTC Inc., (a global technology company headquartered in Boston, USA), the Company started a new Service Line, DxP Services, comprising a global ecosystem of PLM-led Digital Thread and SaaS experts.

Sustained Recognition from Analysts

ITC Infotech's business-friendly solutions and new-age capabilities continued to gain global recognition. In Avasant's RadarView™, the company was positioned as 'Innovator' in CPG Digital Services 2022-23; 'Disruptor' in Digital CX Services 2022-23, Digital Workplace Services 2022, Manufacturing Digital Services 2022-2023, and Intelligent Automation Services 2022-23; and featured as 'Challenger' in GCC Region Digital Services 2022-23. The Company's Automation capabilities were positioned in the 'Leadership Zone' in Zinnov Zones Hyperintelligent Automation Services H1 2023 for Intelligent Automation Services – Retail, CPG and mid-tier service providers and Robotic Process Automation Services (mid-tier service providers).

Expanding our Global Footprint

To support the growing business and client requirements, ITC Infotech expanded its global footprint by setting up new subsidiaries in Brazil, France, Germany, and Malaysia and branches in Abu Dhabi (UAE), Canada, Italy, Poland, Romania, and Switzerland. These global expansions further strengthened the company's diverse global fabric and its onshore and nearshore capabilities from the client, organisational and employee perspective.

40 Nationalities | Operations in 39 countries

Continued Investments in Talent-Development

To fulfil its demand for talent to support its growing business requirements, ITC Infotech continued to invest in hiring, training, and retaining high-quality talent. The Company continued to recruit in the 'Hire-from-Anywhere' model, to attract quality talent across Tier 1 and Tier 2 cities. The Company increased its campus hiring and continued to make focused investments in strengthening its Learning and Development capabilities. The Company's next-gen learning platform, 'Learning Hub', continued to gain traction with clients. 'Learning Hub' is an online and mobile-friendly learning platform that gives employees access to learning academies that are customised to client-specific business processes, technologies, skills, and ways of working.

Deepening our Investment in Sustainability & CSR

ITC Infotech continues to focus on its strategic pillars of Customer Centricity, Employee Centricity, and Operational Excellence, towards fulfilling its vision of providing business-friendly solutions to its clients. Further, during the year, the Company has strengthened its focus on Sustainability through a defined charter and also embarked on its Corporate Social Responsibility (CSR) journey through initiatives for promoting Science, Technology, Engineering, and Mathematics (STEM) education. As clients across industries and geographies are looking to drive cost efficiencies while sustaining growth momentum, the Company is focused on being their trusted partner in this journey. An endorsement of this strategy has been the signing of a multi-million, multi-year deal with an existing marquee client in March 2023, which will bolster mid-term revenue growth.

CII-ITC Centre of Excellence for Sustainable Development

The 'CII-ITC Centre of Excellence for Sustainable Development', established by ITC in 2006 in collaboration with the Confederation of Indian Industry (CII), continues to focus on promoting sustainable business practices amongst Indian enterprises. An Advisory Council, which includes members from the industry, civil society and institutions, provides strategic direction to the Centre.

The 17th Sustainability Summit, with the theme 'Building a Sustainable Tomorrow: Transforming Risks into Opportunities' was organised on 21st and 22nd September 2022, at the Le Meridien, New Delhi. The conference had approximately 350 participants and was organised with the support of 28 partner organisations. The congregation comprised 1 national and 1 international (recorded) Minister, along with 116 speakers from diverse sectors, out of which 28% were female speakers and 18% were global speakers.

The CII Climate Action Charter was launched on 21st September 2022, at the 17th Sustainability Summit. The Charter has more than 150 signatories across sectors, ranging from hard-to-abate sectors (cement, steel, and metals & mining), multi-sector diversified businesses, MSMEs (tanning, textiles and consultancies) and service sectors, (IT and ITeS). The state-level initiative was held in Tirupur, Coimbatore, Indore, and Jaipur on 20th and 21st December 2022, respectively, where more than 100 MSMEs stated their interest and committed to join the Climate Action Charter. Under India's G20 presidency, CII has been given the role of the B20 secretariat. The Centre is leading work on framing policy briefs under the Taskforce on Energy, Climate Change, and Resource Efficiency and Action Council on ESG in Business.

The first India Plastics Pact Annual Conference was held on 21st September 2022, to convene all signatories of the India Plastics Pact for the first time in a physical meeting. The conference also marked the completion of IPP's first year since launch. The Pact has set four major targets: Eliminate unnecessary or problematic plastic packaging and items; reuse or recycle 100% of plastic packaging,

recycle 50% of plastic packaging and ensure 25% average recycled content across all plastic packaging. There are four Collaborative Action Groups (CAG) which identified priority areas for action around these targets.

The Centre signed a Memorandum of Cooperation with MoEFCC to support the development of a multi-stakeholder partnership for Wetlands Conservation on 21st May 2022, followed by the launch of India Wetland Coalition (IWC). The India Business and Biodiversity Initiative (IBBI) submitted businesses' recommendations on Post 2020 Global Biodiversity Framework to MoEFCC which was used during the COP15 of UN CBD (Convention on Biodiversity).

200 countries, including the G20, committed for the new Global Biodiversity Framework, in which Target 15 is focused on business disclosures on nature-related impacts and dependencies. IBBI constituted a National Consultation Group on draft TNFD Framework, to be launched in 2023.

The endeavour to provide cleaner air and a better quality of life to every Indian citizen was given a thrust during the year. The aspirations to achieve tangible improvements in ambient air quality were further strengthened.

The 101 signatories to the 'India CEO Forum for Clean Air' committed to take action, on air pollution, provide leadership for clean air action and work collaboratively on air pollution mitigation. A 'Multi Agency Collaborative Project on Air Pollution' was initiated for the Indore Metropolitan Region (IMR) under 'Clean Air-Better Life' – CABL initiative.

A national-level dynamic library of solutions was designed and launched on 15th August 2022. The Centre also directed Crop Residue Management interventions covering 300 villages across 12 districts in Punjab and Haryana.

The preliminary results show burning was avoided on 85% of total intervened farmland (approximately 3 lakh acres) in the year 2022. A Report titled 'Impacts and Learnings from Field' on Crop Residue Management activity was released on International Day for Clean Air in September 2022.

ITC Sangeet Research Academy

ITC Sangeet Research Academy (ITC-SRA), created in 1977 as an independent Public Charitable Trust, is an embodiment of ITC's sustained commitment to a priceless national heritage. The Company's pledge towards ensuring enduring excellence in Classical Music education continues to drive ITC-SRA in furthering its objective of preserving and propagating Hindustani Classical Music through this modern Gurukul based on the traditional 'Guru-Shishya Parampara'. The Academy, through its eminent Gurus, imparts intensive training and quality education in Hindustani Classical Music to its scholars. The present Gurus of the Academy are Padma Bhushan Pandit

Ajoy Chakrabarty, Padma Shri Pandit Ulhas Kashalkar, Pandit Partha Chatterjee, Pandit Uday Bhawalkar, Vidushi Subhra Guha, Shri Omkar Dadarkar and Shri Brajeswar Mukherjee. The focus of the Academy remains the nurturing of exceptionally gifted students, carefully hand-picked from across India. ITC-SRA provides its scholars with a stipend, along with free tuition, boarding, and lodging within its campus and in other designated locations under the tutelage of the country's most distinguished musicians. The objective of ITC-SRA is to create the next generation of masters of Hindustani Classical Music for the continued propagation of a precious legacy.
